"Man to Man," at opera house to-night. To Say Whether Prospects Are Hopeful or Not

THAT DISAGREEMENT LIKELY TO HAVE OCCURRED.

Over the Question of Amnesty and Banishments — Moderate Men day at St. Michael's hospital, Toron to, while under the influence of chloro-Say Question Should Not form. Stand in Way of Peace.

Lendon, April 17.-Among the morning's crop of rumors and speculations regarding the peace negotiations there is nothing commending absolute credence. The Graphic, which rarely professes to have inside inforciently to enable any one to say whether it is hopeful or the reverse. It struck on the skull with some weaadds that it is altogether premature pon.

no peace negotiations. It seems impossible to doubt that a hitch has occurred in the peace negotiations. No official statement has been issued, but the impression in political circles is that if negotiations But we offer you a special prove abortive it will be owing to disagreement on the question of a general amnesty and the banishment proclamation. Lord Milner, it is beleved, has advised the cabinet that the loyalists of Cape Colony are vehemently opposed to the inclusion of rebels in any amnesty scheme. The opinion of moderate men is that the rebels ought to be published, but that the question ought not to be allowed to stand in the way of peace.

News of the highest importance is momentarily expected by the war of-

fice. The Boer delogates are proving very stubborn, but a good many peo-ple believe they will yield. Another ifficulty in the way of peace is said to be the question of the restoration of representative government.

"Sparring for time," best describes the present status of the negotiations peither side being willing to risk decision which would break off the present conference. An agreement may be reached at any moment, but this is more likely to be the result of semiindependent action by lord Milner and lord Kitchencer, at Pretoria, than the rather involved conditional decisions of the cabinet at London.

The broad lines of Great Britain's terms are now known to the government representatives at Pretoria. Upon these representations the cabinet is apparently shifting the responsibility of taking advantage of all opportuni e sacrificed. The government has ordered that

the cable and telegraph lines between London and Pretoria be kept clear to insure the most prompt transmission of lord Kitchener's messages. There is good reason to believe that the Boers are vigorously demanding a representative government, and that this demand is opposed with equal vigor by the British representatives.

It is understood that the Boers strongly object to the long delay proposed by Great Britain before a representative government be granted the former republics, and that they also insist that the number of Boer seats in the council be specified
