THE DAILY WHIG.

A new sensation was sprung at the political meeting at which Mr. Rogers was nominated as the liberal candidate for North Toronto.

Mr. Jones had been in favour of having the contest between Dr. Beattie Nesbitt and Mr. Marter, the one a conservative and the other an independent.

"Mr. Marter," said he "had been referred to as a traitor. (A voice - So, he is). And what about Dr. Beattie Nesbitt," said Mr. Jones?

Now there will be wise on the green. Dr. Nesbitt will be under the necessity of answering this allegation - that he offered to sell out the conservative party, or to transfer his support to the liberal party.

They NEED WATCHING. The Montreal Gazette is very innocent, indeed, if it believes that the conservative heeler of Ontario want any education, in any school or college of grafters, in the abuse of the ballot system.

Calvin and Marter. The Toronto Telegram lauds and magnifies the name of Mr. Calvin because he voted with the government on the budget division, and so displayed his genuine independence.

Politics in the Council. All the facts go to show that the conservatives in the city council, at the last meeting, played a disappointing and compromising part.

Mr. Shaw may like this daily diet of mush which some people are serving up, but it is doubtful to most people it would be nauseating.

What's been the matter in the Wesleyan College, Montreal? The principal, Dr. Maggs, and Prof. Harris resigned. The one has withdrawn his resignation, but the other has been accepted.

Oh! Mr. Foy is to be the chief watcher of the ballot boxes in the next election. He's to be the big policeman of the party, eh? The liberals will see that he does not go to sleep while on duty.

Legislation will be introduced in the commons, having for its object

retreat in a disorganized and demoralized condition. The committee will now act again - and do the clever thing of recommending that Ald. Craig's proposal be adopted.

The United States, when the Cuban war broke out, taxed a number of things for war purposes. This had nothing to do with protection, and it was not called protection.

The Whitney faction is curious to know whether any new tricks will be tried at the next election. They ought to know. They are the originators of all that is slick and curious in election expedients.

The Inspector of Immigration agencies in the United States reports that the exodus northward, of Americans in quest of desirable localities in Canada, is at the rate of three thousand a month!

A U. S. Senate Committee is enquiring into military practices on the Philippines, and more especially the "water cure." It was the common resort of men when they were extracting information from unwilling subjects.

The Inter-Ocean is deeply concerned about Canada's reorganization of the militia, under Lord Dundonald, a hero of South Africa.

His Majesty Minded The Cow. The king of Italy is one of the most unaffected of monarchs, and it is said that he always carries with him his simple and unassuming manners.

A short time ago he was enjoying a country walk near Buccarino, and, feeling very thirsty, he personally asked a peasant woman, who was milking a cow by her roadside cottage, for a glass of milk.

"I can't give you this," said the woman, not knowing who it was that addressed her. "But if you will mind the cow I will fetch you one from the house."

The king joyously agreed, and minded the cow until she came back with the promised milk.

Who, when returned he asked her why no farm hands were about.

"They've all gone to catch a glimpse of the king," she answered. "Well, little mother, you can see him now," replied the king, "and that, too, without leaving your work."

At this she laughed, for this democratic, simple-minded stranger did but try to jest with her. The king laughed, too, as he saw how she deceived herself.

King Victor Emanuel III is making himself very popular by these little acts of kindness, which appeal greatly to popular feeling.

Baboo "Leave." On the occurrence of a plague scare in one of the afflicted cities of the Punjab the clerks of a public office took flight, leaving behind them the following application: "We poor, unfortunate Baboos, in solemn conclave assembled pray your honor to be pleased to permit us to leave this unwholesome spot; for, pray, what can Baboo give in exchange for his soul? In anticipation of sanction we leave to-night."

EDITORIAL NOTES. Opinions differ about the effect of the corn tax, but the general feeling is that Canada will not be affected by it.

Picking out the offices again. Mr. Foy has been slated for the office of attorney-general in Ontario. His friends are a trifle previous.

Mr. Shaw may like this daily diet of mush which some people are serving up, but it is doubtful to most people it would be nauseating.
