THE BOARD OF EDUCATION

INSURANCE RISKS DISCUSSED AT LENGTH.

A Number in Favor of Non-Tariff Companies Carrying the Risks—Communications Considered and Accounts Passed.

A special meeting of the board of education for general purposes, was held last evening. There was a quorum this time, those present being chairman Sears, J. G. Elliott, H. Richardson, Robert Meek, John McElvire, Thomas Lambert, William Kelly, W. H. Wormwith, J. S. R. McCann, W. H. Gowrie, E. J. McKelvey, D. A. Shaw, Edward Bennett, James Laturney, Iva Martin, Dr. Fee and Dr. Morrison.

Communications Considered

From Mrs. Joseph Wilson and others asking that the half time class at Catoraque school be continued—Referred to management committee.

From W. G. Hamilton, secretary of the Kingston building trades council, requesting the board to employ union labor on all work in connection with the school buildings.—Property committee.

From E. Deshayre, caretaker of Depot school, asking for an increase of salary.—Property committee.

From Fred A. Folger, stating that a new line fence would have to be built between the carworks property and the depot school.—Property committee.

From R. W. Doan, relating to an overcharge for the O. E. A. book of proceedings.—Library committee.

From Miss Myrtle Norris, applying for a position as teacher.—Management committee.

From James Cruse, asking for remuneration for extra work at the collegiate institute for forty-four nights during the past winter.—Management committee.

From L. R. Staples, asking for leave of absence on the 11th inst., as he is a member of the board of examiners for normal schools, at Toronto. He was willing to provide a substitute. Also for leave on June 25th to 27th, to act as examiner at Sydenham.

From C. A. Black, Cleveland, O., introducing a new ink powder.—Management committee.

From C. P. Fatter, representing the Equity fire insurance company, Toronto, asking for patronage.—Finance committee.

The Finance Report.

Mr. Lambert presented the report of the finance committee, recommending payment of the following accounts: Kingston light, heat and power company, \$20.65; Breck & Halliday, balance on contract, \$67.00; Remington typewriter company, repairs \$36.32; Selby & Co., kindergartens, goods \$1.80; Hamilton express company, \$11.00; Gram & Carter, printing, \$3; F. Tracey, iron roller, \$1.75; A. H. Miller, cabinet work, \$9; R. J. Reid, chairs, \$1.65; D. McKenzie, mould, \$12.75; Edw. J. R. Pense, printing, \$9; Kingston Coal Co., \$173.95; Macnee & Mims, \$34.56; map and school supply company, \$58.55; W. N. Lemmon, glazing, \$2.10.

The committee further recommended that the Victoria school building be insured for \$26,000 to \$22,000, and that a \$4,000 risk be placed in each of the following companies: Queen City, Quebec, North British and Mercantile. That Miss Bateman and Miss Gilbert receive \$2.25 each as extra remuneration for looking after the board's exhibit at last year's fair. That the committee be empowered to advertise for tenders for fuel for 1922-23.

The report was taken up clause by clause.

In reference to the insurance, Mr. Elliott moved, seconded by Mr. Meek, that the accounts for insurance be struck out, and that the finance committee be instructed to have the insurance effected in companies whose rates are not so high as those to which it has reported that premiums shall be paid.

In speaking to the motion, Mr. Elliott said he believed the board's insurance could be effected on the buildings much more cheaply and just as effectively. There are other companies that the tariff companies, which are just as good, and by insuring in these the board could save from ten to twenty-five per cent. Corporations thought the country were insuring in non-tariff companies, and it would be for the board to do so.

Mr. Lambert said the committee had gone thoroughly into the matter. It was a question whether the non-tariff companies were safe. Mr. Meek stated that an insurance company, started at the same time as the Equity, was being closed up, and it had as much business on its books as the Equity, the local agent of which had asked for a portion of the insurance.

Mr. Meek—Practically this is a renewal of the insurance placed three years ago under the most careful consideration.

Prof. Martin advocated the total risk being taken by the public. The dominion of Canada had not one of its buildings insured, neither had the Bell telephone company. The speaker advocated the carrying of the board's own risk.

Mr. McKelvey favored municipal insurance, but not at present. Meanwhile he would not insure for over fifty per cent. of the value of the buildings. He would like to see the collegiate institute's value cut in two; the board wanted to save money. Business men of the city are more and more insuring in the non-tariff companies. He would like to see the character of the men whose places they insure.

Mr. McCann's experience was that non-tariff companies would take any insurance they could get, and would cut rates to suit. While he would be in favor of patronizing some non-tariff companies, he would consider it unwise to place all the insurance in their hands.

Mr. Elliott said this was his first opportunity in years in discussing the matter, the result of his constant agitation. If a non-tariff company failed the government deposit would enable the reinsuring of risks in another company. The insurance company was established in 1836; surely a company that has existed so long is safe. There were others—the London, Perth, Ottawa, Hamilton, Fire, Exchange, the Waterloo, Queen City, Equity and Anglo-American, and others—doing a large business in the city, and they were safe enough for any corporation. To insure in these companies would save much money for other purposes.

Mr. Gowrie denied that the government re-insured when one concern failed in another company.

Mr. Elliott's amendment was lost.

Mr. McKelvey then moved that one-third of the insurance on Victoria school be placed with a non-tariff company, other than the one already carrying insurance for the board, and that the finance committee be given power to act.

This amendment was also lost.

Mr. Richardson moved, seconded by Mr. Elliott, that \$4,000 of the insurance on the collegiate institute be going to the Equity and \$2,000 to the Queen City companies.

Both amendments were lost, and the report was then adopted.

Property Report.

Mr. Gowrie presented the report of the property committee, recommending that the salaries of the following caretakers be increased: Joseph Gough, \$125 to \$135; S. Ludlow, \$235 to \$250; McKelvey & Birch, \$220 to \$240; Langdon, \$135 to \$150; Mrs. Trenbath, \$135 to \$150; F. Gates, \$80 to \$90. The committee also recommended that the caretakers of Central, Victoria, and Frontenac schools be available to the messengers during school hours, and that the by-law be amended accordingly; that the K. & P. railway company be requested to build a line fence between the Depot school and the car works; and that the committee be authorized to ask for tenders for authorized repairs.

Mr. Bennett wanted the board to build the fence at the depot school, instead of letting the company do it. He introduced a motion to this effect, but it could not find a seconder.

The report, as amended, was adopted.

Mr. Lambert moved, seconded by Mr. Elliott, that the management committee enquire into the present system of promotion of pupils, and report as to its success.—Carried.

Moved by Mr. Elliott, seconded by Mr. Lambert, that the finance committee ascertain the time spent by collegiate institute teachers in connection with the honor class, and the cost of conducting the same.—Carried.

Mr. Elliott asked if the board supplied all the articles the school children required except the text books. Some of the teachers, he said, were working on the feelings of the little ones, and suggesting the expenditure of five or ten cents for this thing and that.—He declared that the teachers should be prohibited from doing this, and the board agreed. Then, too, the monthly reports of pupils' work was not being properly issued. Months were occasionally omitted. The board looked upon this as a serious matter, and some enquiries will be made.

SPORT IN GENERAL.

Notes About the Various Sporting Fields.

Duval, the Ottawa hockey and lacrosse player, is moving to Montreal. Two hundred sports witnessed a prize-fight in a church in Kingston, N. J., recently. The fight was managed by a Newark saloon-keeper.

The Toronto lacrosse team share the net receipts of all the matches arranged in England and Ireland. So far the matches have drawn good crowds, and the attendance will be much greater later on, when the team visits the older lacrosse centres of the country.

The race proposed by Detroit yachtsmen would be fought by the four fastest boats of their size on fresh water. The Beaver beat every thing on the Canadian side in 1890, but lost to Genesee. The Invader beat the Beaver last year. The Genesee beat the Beaver and has never been defeated since the Invader of Canada. A billiard beat everything she ever went against except Invader, and her friends believe she could beat the best and shooey 1901 Canadian champion in another trial.

The Vital Difference

between Laxatives and Purgatives cannot be too clearly understood. The former are GENTLE, the latter VIOLENT. A LAXATIVE assists the organs; a PURGATIVE takes the work out of nature's hands.

And every time that nature fails to perform its proper function it is less disposed to perform them.

Purgatives, therefore, are at best a necessary evil, like an emetic to relieve the stomach of undigested food.

IRON-OX TABLETS

are an ideal Laxative, strengthening instead of debilitating.

A MILITARY TOURNAMENT.

IT WILL BE ONE OF THE UMPIQUE FEATURES

Of Victoria Day Demonstration—Canadian and United States Regiments to be Invited—Proposal to Unveil Kirkpatrick Memorial Fountain.

The programme for Victoria day is being gradually outlined, but nothing definite can be decided upon until the military part of the demonstration is settled. The question at issue is whether this will take place in the morning or early in the afternoon. When Col. Montanari and Drury decide that question then the rest of the day's events will easily be fixed.

The committee on the celebration committee met in the council chamber, A. Chadwick presiding. Capt. Laferty, Sergt. Maj. O'Hagan, Sergt. Instructor Gimblett and Sergt. Cunningham, of the batteries, were also present. Mr. Chadwick, Mr. O'Hagan and Mr. Gimblett were appointed to interview Col. Drury to-day, and have the military end of the demonstration definitely fixed.

The general outline of the sports was presented by Sergt. Maj. O'Hagan. It included a number of ordinary events, but the main items will be in the line of a military tournament, consisting of mounted, top-of-war mounted, bareback wrestling, Victoria cross race, Balaclava charge, musical ride and May-pole. These events will be unique and attractive, and should draw a great interest. It will be necessary to get Col. Drury's consent to their taking place, so that Sergt. Instructor Gimblett can prepare the horses and men for the musical ride. Horse races and bareback wrestling will also be included in the sports.

A communication was received from the trades and labor council, stating that the unions would not hold a parade, but would send a large crowd of people to make the demonstration a success. The secretary was instructed to thank the trades and labor council for the promised co-operation.

The question of inviting outside corps to take part in the military proceedings was fully discussed, and it was decided that the secretary should write the various regiments at Brockville, Picton, Belleville, Oshawa, Brantford, Watertown, and Rochester, to find out which of them could come. It is intended to have at least one Canadian and one United States regiment here. The latter would bring a large crowd of people from across the border.

As soon as a programme is outlined, posters must be got out and spread throughout the district. Messrs. Starr, O'Hagan, Gowrie and Bennett were appointed to take this in hand, and also to look after the printing generally. A committee consisting of the mayor and Messrs. Chadwick, Abernethy and Abbott was named to interview Mr. Pense regarding the proposition to have the Kirkpatrick memorial fountain unveiled on Victoria day.

Good Advice.

The most miserable beings in the world are those suffering from dyspepsia and liver complaint. More than seventy-five per cent. of the people in the United States are afflicted with these two diseases, and the effects, habitual costiveness, palpitation of the heart, heart-brach, water-brach, gnawing and burning pains at the pit of the stomach, yellow skin, counting tongue and disagreeable taste in the mouth, coming up of food after eating, low spirits, etc. Go to your druggist and get a bottle of August Flower for 75c. Two doses will relieve you of it. For sale at Wade's drug store.

A Farewell Party.

Mr. and Mrs. George Menary, gave a party last evening, at their home on Pine street, in honor of Miss Gertrude Denning, who is leaving for Burlington, Vermont. A very social evening was passed in games, music, etc. Refreshments were served at midnight. Her young friends wished Miss Denning a happy life in her new home.

"YOU MEAT EATERS."

The Baltimore Man Says Things. You meat eaters who are ailing in any sort of way might take a valuable hint from the following:

A gentleman in Baltimore writes: "For a long time I steadily ran down because of an intense pain in my side, and also in the pit of my stomach. I was miserable and everything I ate caused distress. I fell away from 185 pounds to 150. Lost my ambition for work, was drowsy all of the time, felt tired in the morning as I did upon going to bed at night."

"I was a steady meat eater three times a day for several years. Some of my diet and the Grape-Nuts Breakfast Food at two meals in the day I would improve. I made the experiment and in less than two weeks began to improve very rapidly. My appetite would return, and I slept better than I had for months."

"I used Grape-Nuts both at breakfast and lunch and at a little meal for dinner, but not much. I discovered that a few teaspoonfuls of Grape-Nuts would furnish more nourishment than quantities of meat."

"My improvement has continued until now I weigh 195 pounds which is a gain of about forty-five pounds in two months, and I feel in magnificent condition. Please do not publish my gladly tell any person of the benefits received if self-addressed, stamped envelopes in care of James Reid, 100 Front Street East, Toronto, Ont."
