### SIR CHARLES WARREN

#### Is Not Satisfied With Government's Action

#### ASKS FOR ALL DOCUMENTS

#### IN CONNECTION WITH THE SPION KOP DISASTER.

There Are More Despatches, He Says, Which Will Believe Him From the Reflections Now Cast Upon His And Others' Reputations.

London, April 21.—Gen. Sir Charles Warren has written to the newspapers stating that the Spion Kop despatches, published by the government last Wednesday, do not contain some of the most important documents bearing on the subject, give a totally incorrect view of the matter if considered by themselves and reflect injuriously upon the military reputation of the British army.

He trusts that the government will publish the complete documents. Meanwhile he says he will refrain from making any further statement.

#### Draw Your Conclusions.

London, April 21.—The Pretoria correspondent of the Daily Telegraph concludes a despatch to that paper, saying: "As most of the Boer delegates have ordered clothing and groceries here, for early delivery, you may draw your own conclusions."

A despatch to the Standard from Pretoria, dated Saturday, says there is considerable reason for believing that a tentative agreement regarding peace has been arrived at, which, unless something unforeseen happens to vitiate it, will prove mutually cordial. The correspondent adds that he understands that a basis of agreement was reached on the initiative of the Boers themselves as at length been reached.

The opinions of the continental press on the peace negotiations is less favorable than that forwarded by English journals. The Boer agents in Holland are asserting that the conference has been broken off and will not be resumed. Their pessimism may be a sign of irritation over the minor part which they are playing in bringing the war to a close, which they have been secretly consulted by the Boer leaders in the field, their work passes without observation.

Gen. Dewet has gone to Helicon, both to Vryheid, Delany and Steyn to Klerksburg and Myers and Reitz to Cape Colony.

The correspondent of the Daily Mail at Utrecht says it is recognized there that the Boer delegates at Pretoria have full power to negotiate without reference to the Boer leaders in Europe, who have no real influence on the peace negotiations.

It is believed that the Transvaal is in no way anxious for a winter campaign. The only difficulty likely to occur will, it is thought, be with the Orange Free States.

The meeting of the delegates will be no cessation of hostilities. The delegates are expected back in Pretoria in the middle of May.

#### CONSIDERING CONDITIONS.

A Meeting of a Secret Nature at Winnipeg.

Winnipeg, April 21.—A meeting of all the various railway roads was held here last night, which lasted till after midnight. What took place was not divulged, but it is stated, on high authority, that matters concerning the conditions of labor on the Canadian Northern railway and Canadian Pacific railway were discussed.

J. T. Wilson, president of the trackmen's union, is expected in town within a few days.

Diagnosticians have just visited the Medicine Hat district last week. Thousands of square miles were burned over. Fortunately the country is very sparsely settled, but the ranchers in the path of flames will lose heavily.

Rev. J. M. Florin, Minnesota, has been called to the First Scandinavian church.

It is said that the Robin government intends to make an attempt to conciliate the big minority, which voted for the liquor act, by introducing legislation restricting the liquor traffic in Manitoba.

Representatives of one of the biggest lined oil manufacturers in the states are in Winnipeg making arrangements with the local authorities for the establishment of a large lined oil well here.

#### FIRE IN BUFFALO.

Much Damage Done In A Long Freight Shed.

Buffalo, N.Y., April 21.—Inside of an hour, early this morning, fire destroyed property stored in the freight sheds of the American, United States and National express companies, on Green street, the value of which is estimated anywhere from \$200,000 to \$300,000.

The entire freight receipts from four o'clock on Saturday afternoon, together with the building, trucks and a dining car, two express and mail cars, a refrigerator car and two coal gondolas were destroyed altogether or in part.

The Telephone Co. on the Line.

Berlin, Ont., April 21.—The Galt, Preston & Hensler street railway company has decided to equip its line with a complete telephone system. Each car will contain a telephone and the arrangements will be that telephone communication can be had with the power house from any point on the line.

A Missouri boy was fatally shot by a playmate on Thursday last, while reproducing a Jesse James play.

### RIVER STEAMER BURNS.

City of Pittsburgh is Destroyed on the Ohio River.

Cairo, Ill., April 21.—The sidewheel steamer City of Pittsburgh, from Cincinnati to Memphis, burned to the water's edge early Tuesday morning at Ogden's Landing, near Olinstead, Ill., eleven miles from Mound City, Ill., and twenty-four miles from this city.

The early reports stated that sixty-five lives were lost, and that many were badly burned and otherwise injured, but the list of casualties is not yet definitely determined. Two boats and all available craft from this city went to the scene for relief.

The latest estimates are that 150 persons were aboard and that not more than half of them were saved; many of the later were burned or injured. As the register of the steamer was burned, no list can be given, either of the victims or survivors, and in the confusion it has been impossible to get complete lists. Captain Phillips admits that the death list may reach sixty.

Some of the passengers were still in bed when second clerk Oliver Phillips gave the alarm. The engineers at once started all the pumping engines while the crew brought all the hose in play. Amid a deluge of water on all sides, the flames from the lower deck and down clouds of smoke, the passengers rushed from their staterooms and a frightful panic ensued. Few could adjust life preservers or do anything for themselves.

The smoke was stifling. Great clouds floated through the blazing steamer, choking the passengers and adding to the terror. Children cried pitifully, begging that they be saved, and every effort was made to save the passengers. Boats were sent from shore to help in the work of rescue and passengers were landed at the river banks. As fast as the boats could be emptied they returned to the ill-fated steamer.

The burning steamer was quickly headed to the bank, but passengers were forced to jump from the stern, and trying to swim ashore through the deluge of water. Many were drowned. Many also perished in the flames.

Help, except from people living nearby, did not arrive until the afternoon, and passengers, with only night clothes and without food, suffered terribly.

Among the first bodies recovered were those of Capt. Wesley Doss, of Cincinnati, and Miss Marie Tassin, of Cincinnati, Ill. The captain and clerk claim in all eighty bodies have been accounted for, leaving sixty people lost or unaccounted for.

The Pittsburgh was built at Marietta, in 1899, and was valued at \$80,000. She was 300 feet long and eighty feet wide. She was owned by M. Phillips, and Abraham of Pittsburgh, and Danna Scott, of Zanesville. Mrs. Phillips, wife of the commander of the steamer, and her son remained here on the trip. She received a telegram from her husband, that he was not seriously hurt during the fire.

### MEETING OF IRISHMEN

#### Held in Ottawa On Sunday Afternoon

#### CONDEMN THE GOVERNMENT

#### FOR PUTTING THE CRIMES' ACT INTO FORCE.

Addresses By Leading Men At The Capital—A French-Canadian Organisation Will Promote the Interests of Its Countrymen.

Ottawa, April 21.—At a mass meeting of Irishmen, held in Ottawa, yesterday, a resolution was unanimously adopted condemning the British government for allowing the Crimes act to be put into force in Ireland. The resolution characterized the act as unparalleled folly and tyranny in preventing the Irish people from using legitimate means to secure the redress of their admitted grievances. The speakers were Hon. John Costigan, senators Sullivan and McHugh and Mr. Hughes, J.P.

A French Canadian organization, to promote the interests of the French-Canadians in society, politics, religion and education, was organized here, yesterday, with E. Tasse as chairman. Delegates were present from Nipissing, Elgin county and the Ottawa district. Other delegates will arrive to-day and then a statement will be issued giving the lines along which the society will work.

#### DAVIS MAY BE MISSING.

Despatch, Says State Electrician Has Disappeared.

Cornwall, N.Y., April 21.—State electrician E. F. Davis, Catoon, has been missing since a short time after the execution of Leon Czolgosz at Auburn prison, in October last, for the assassination of president William McKinley at Buffalo.

Davis' uncle, L. A. Davis, has become alarmed at the absence of his nephew on account of threatening letters received by the latter shortly before the execution of Czolgosz. At that time the state electrician received a dozen letters stating that he was a marked man and would be removed if he carried into execution the state's order by killing the assassin. To a few of his close friends, he declared that he would pay no attention to them, but would carry out the orders of the state. L. A. Davis states that his nephew was oftentimes away from home for weeks, but was always in the habit of writing to relatives here. Mr. Davis stated that no word had been received from him since shortly after he acted in his official capacity at the execution in Auburn prison.

#### SLUMBER ENDS IN DEATH.

Miss Ida Hennessey, of Oswego, Asleep 175 Hours.

Oswego, N.Y., April 21.—Miss Ida Hennessey, fifty-seven years old, who retired at ten o'clock on the night of the 12th inst., went to sleep and baffled the skill of physicians to awaken her, died a few minutes ago Saturday morning. For 175 hours she slept while cold baths and electrical appliances were used on her and medicines administered to awaken her without avail. Twice she opened her eyes, but only for an instant, and again lapsed into unconsciousness. She died not showing any signs of illness except a weak heart.

#### Escaped In Night Clothes.

Brookville, April 19.—At an early hour this morning the family of Mr. and Mrs. J. H. Newman, living on the outskirts of Brookville, were awakened by a crackling noise in the kitchen, which was found to be in flames. The family were aroused, but the flames spread so rapidly that the inmates barely escaped in their night clothes. There were no available means of fighting the fire, and the building, one of the oldest landmarks, was allowed to burn to the ground. A portion of the contents was saved. The fire started in an old fire-place which had been boarded up, sparks from the pipes dropping into the accumulation of soot which fell into it from the chimney.

#### Fruits Of The Traffic.

Combermere, Ont., April 21.—A sad event occurred here the other day. Two young men, J. Mahon and Robert Mahon, had been drinking all day and in the evening started to go home in a canoe, down the Mackinac river, and while playing or some other performance in the canoe it was upset. They were both drowned. The third party, Mr. Prodek, of Palmer's Rapids (who was sober), swam ashore. The bodies were found next morning.

#### \$10,000 For a New Carnation.

Chicago, April 21.—For the first time a high priced carnation may be seen in this city and at Joliet, where its home will hereafter be. The sum of \$10,000 was paid by the J. D. Thompson Co., of which John Lambert is president, to secure this new flower. It was purchased from Peter Fisher, the Ellis, Mass., florist, who sold a plant to Thomas Lawson, of Boston, for \$30,000 two years ago.

#### Miss Stone On Lecture Platform.

Boston, Mass., April 21.—Miss Ellen M. Stone, the missionary, who was kidnapped and held for ransom by brigands, makes her debut as a lecturer here tonight. Miss Stone has been engaged to deliver 100 lectures in the leading cities of the country. The entire proceeds from the lectures, it is said, will be devoted to returning her ransom money, \$50,000, and to her missionary work.

#### Death Of A Marine.

St. Catharines, Ont., April 21.—Capt. Reuben Wynne, formerly one of the best known marine men on the lake, is dead at his home here aged sixty-eight. He was a captain for six years. Capt. Wynne was on the tug Robb, employed as a gunboat on the Niagara river at the time of the Fenian raid and was the principal organizer of the Niagara district volunteer volunteer association. He leaves a daughter and one brother.

### A FRIGHTFUL DEATH.

#### Two Halifax Men Killed By An Electric Car.

Halifax, April 21.—A frightful electric car accident happened last evening at the corner of North and Windsor streets. Two men, Peter S. Gilroy, a well known athlete and baseball player, and John Shortall, and another named J. Scott, a blacksmith, had his arm cut off. The men had been out driving and were returning to the city when the accident happened. At the junction of the streets named, the horse shied at an electric car, and turning quickly overturned the wagon, and threw the occupants on the car track. Gilroy's head was crushed by a wheel, and Shortall's body was terribly lacerated. It was thirty minutes before the bodies were removed from underneath the car. About forty spectators then managed to overturn it. Scott's arm was practically torn from the socket. He was removed to the hospital.

#### THE LAST HONOR.

Remains of Spain's Former King to Be Laid in the Escorial.

New York, April 21.—The death of Don Francisco De Asis, former king of Spain, will not affect the accession festivities, says a Madrid despatch to the Herald. A council of ministers just held decided that the foreign prince shall arrive on May 14th, and that a grand reception shall be given instead of a ball. The former king's body will be brought to Spain and interred in the Escorial. It will be received at the frontier by the Duke De Sotomayor at Irace. Several foreign sovereigns have sent messages of condolence.

#### THE POPE'S CHOICE.

Designates Cardinal Sarto as His Successor.

Rome, April 21.—Considerable importance is attached to a recent remark of the pope, who, in conversation with Father Lorenzo Perosi, the Italian composer, asked him for news of his friend, cardinal Giuseppe Sarto, the patriarch of Venice. "Hold him very dear, Perosi," said his holiness, "as in the future he will be able to do much for you. We firmly believe he will be our successor."

Cardinal Sarto, an Italian. He was born in 1835, and was created a cardinal in 1893.

#### GREAT SECTION LAID WASTE.

Fire Visits South-western District of Kansas City.

Kansas City, Mo., April 21.—A destructive fire visited the south-western part of this city on Sunday, laying waste a section of dwelling houses almost a quarter of a mile long and a block wide, and doing damage to the amount of \$75,000. John Stinson, of Quincy, Ill., a spectator, was seriously injured by a falling piece of iron.

#### To Honor Lord Kelvin.

New York, April 21.—The American institute of electrical engineers and other scientific societies of New York will unite this evening in giving a reception in honor of Lord Kelvin, past president of the Royal society and one of the foremost of England's men of science, who came to this country to attend the installation of president Nicholas Murray Butler, of Columbia university.

The affair will be in the nature of a laudatory demonstration as it is hardly probable that Lord Kelvin will ever visit America again. He is now more than seventy years old and quite feeble. Lord Kelvin, when twenty-four, was elected professor of physics in the university of Glasgow, a chair which he occupies still. He was knighted in 1866, at the laying of the first cable, with which he was identified, and was created lord Kelvin in 1892. His chief inventions have been the mirror galvanometer, the siphon recorder, and the improved mariner's compass. He has elaborated the work of Joule, his life-long friend.

#### Canadian Casualties.

Ottawa, April 21.—Farrier William Hunter, of the 2nd battery, Canadian mounted rifles, is dangerously ill at Elandsfontein, of a gun shot wound, received in the engagement with the Boers at Kleinart's river on March 31st. Hunter enlisted at Winnipeg.

William Blanchard, of the same corps, is seriously ill at Elandsfontein, with enteric fever. He enlisted at Peterboro, Ont.

#### Result Of Arbitration.

That Postage, Ont., April 21.—This town will pay \$58,129 for the plant of the Citizens telephone and electric company as a result of a valuation by two experts, one representing the town and one the company. The town could have bought the plant for \$55,500 some weeks ago, but thought the amount too high.

#### Rioting by coolies took place on Jamaica island. Many were injured.

Chicago, April 21.—The first time a high priced carnation may be seen in this city and at Joliet, where its home will hereafter be. The sum of \$10,000 was paid by the J. D. Thompson Co., of which John Lambert is president, to secure this new flower. It was purchased from Peter Fisher, the Ellis, Mass., florist, who sold a plant to Thomas Lawson, of Boston, for \$30,000 two years ago.

#### The Newest Effects

### Candle Shades

Have Arrived.

Pink, Light Green, Red, etc., in artistic shapes. Also Colored Candles and Holders.
