There may be some disorders of individual organs that are more painful and excite more sympathy from friends, but diseases of the nervous system affect the mind as well as the body and bring discouragement, despondency and gloom. They unfit men for business and women for the household cares devolving upon

Such afflictions as paralysis, locomotor ataxis, epilepsy and even insanity itself are the common results of nervous exhaustion.

Nervous headache, nervous dyspepia, eleeplessness, muscular weakness, dizziness and irregularity of the bodily functions are merely the warning symptoms which tell of the approach of these more serious disorders.

Time and time again Dr. Chase's Nerve Food has proven to be the most effective creator of nerve force that medical science affords. It is not claimed that one box will cure serious and chronic disease. This great food cure is not claimed to be a miracle worker nor a cure all, but when the system is run down and the nerves exhausted it is certain to produce beneficial results. It is bound to do so because it is composed of the most potent nerve restoratives that are to be found in all nature's realm.
