

MILWAUKEE PEOPLE

Could Hardly Believe It. A Prominent Woman Saved From Death by Lydia E. Finkham's Vegetable Compound.

"DEAR MRS. FINKHAM—I suppose a large number of people who read of it, had I not experienced it myself, I know that I should not.

MRS. SADIE E. KOCH.

"I suffered for months with troubles which gradually broke down my health and my life. I was nearly insane with pain at times, and no human skill I consulted in Milwaukee could bring me relief.

CROWDER REPORTS.

Question of Violation of Neutrality Laws is at Stake.

Washington, April 23.—The report of Col. Crowder, who investigated the shipment of horses and mules to South Africa, from the port of Chamette, La., was laid before the cabinet, by the president. While the report is incomplete, it developed that the conclusion was reached by the president from what he had seen of that there is not sufficient violation of neutrality and consequently there is no warrant for intervention.

True Merit Appreciated.

Brown's Bronchial Troches are world-renowned as a simple yet effective remedy for Coughs and Throat troubles.

Carpet Cleaning

Should be done early before the rush. At Carnovsky factory, Ontario street, old, dusty carpets made to look almost new by a thorough process. Moderate prices. Carpets taken and relaid if desired, and never injured. Phone 74.

COMMERCIAL.

MONTREAL PRODUCE MARKETS. Montreal, April 23.—Flour receipts, 600 bbls. patent winter, \$3.10 to \$3.50; straight roller, \$3.40 to \$3.50; strong hard, \$3.50 to \$3.60; Ontario hard, \$3.50 to \$3.60; corn, 65c to 70c; wheat, 75c to 80c; oats, 45c to 48c; barley, 45c to 48c; rye, 45c to 48c; buckwheat, 65c to 67c; meal, \$2.10 to \$2.20; cornmeal, \$1.80 to \$1.90; peas, not in; beans, 15c to 16c; ham, 12c to 13c; bacon, 10c to 11c; tallow, 12c to 13c; lard, 11c to 12c.

MONTREAL STOCKS.

MARSHAL SU IS POWERLESS

REBELLION IN KWANG SI FAR BEYOND HIS CONTROL.

Has But Four Thousand Men—Strict Censorship Maintained at Canton and the Only News Received is Through Refugees.

A strict censorship is now being maintained in Canton and the tenor of the officials is to belittle the riser, the only news of which can be obtained from refugees. The government forces were divided, 1,000 men being sent under admiral Ching by the river route and 3,000 under marshal Su to the north.

Such unquestionable testimony supports the power of Lydia E. Finkham's Vegetable Compound over diseases of women.

WOMEN SHOULD REMEMBER THAT THEY ARE PRIVILEGED TO CONSULT MRS. FINKHAM, 25 LYNN, MASS., ABOUT THEIR ILLNESS, ENTIRELY FREE.

TRANS-CANADA RAILWAY.

Advantages To Be Derived From The Road.

In 1905, a charter was granted by the dominion parliament for the building of a railway from Quebec to Port Simpson, B.C. This act was amended in 1907 so as to provide for the commencement of the work by June 29th, 1901, the completion of the line by the end of the year 1911, and the construction of a branch line to Montreal.

The saving in distance is, however, not the only advantage possessed by the new route, for the line will be of gradients, it distances all competitors. The Kicking Horse Pass, crossed by the C.P.R. has an elevation of 5,400 feet above the sea level and one of the American Pacific roads has an elevation of 11,000 feet, whereas the summit of the trans-Canada line will be but 2,000 feet in the Peace River Pass.

It will be seen that the facilities possessed by this Company assure a point of cheapness in the production of paper never attained before, while the situation of the mills on the Atlantic seaboard makes it possible to ship to all foreign ports at the lowest possible cost.

WOOD SUPPLY.—No paper mill in Canada has greater advantages in point of situation. Many companies do not own their own limits, being entirely dependent on outside purchases, and subject to fluctuations of supply and price.

WATER POWER.—Mr. George F. Hardy of New York, the foremost American authority on this subject, has made a thorough examination of the water power that can be developed on the Little Cascapedia River at a point immediately adjoining the proposed mill site, and his report shows that sufficient power can be developed to run mills of even greater capacity.

WATER SUPPLY.—Pure and clean water is one of the most important factors in connection with pulp and paper-making. The bed of the Little Cascapedia River is rocky, and owing to its crystal-like clearness and purity the water in the river is suitable for making the finest grades of paper without the expense of filtering, which is almost invariably required at other mills.

COST OF LABOR.—The labor employed in the mills and woods cost less than probably any other American mill, as far as known, as competent men in this section of the country, on account of the cheapness of living, ask very low wages.

PROPERTIES

The properties and limits acquired by the Company contain about three hundred and two square miles, or one hundred and ninety-three thousand two hundred acres, more or less. The wood is principally spruce, and there is also a large quantity of cedar, pine, birch, balsam, balm of Gilead, and poplar.

Atlantic Pulp and Paper Company, Limited

HEAD OFFICE: TORONTO, CANADA

AUTHORIZED CAPITAL, \$3,000,000

In Shares of \$100 each, divided into 15,000 7 per cent. Cumulative Preference Shares, \$1,500,000; 15,000 Common Shares, \$1,500,000

\$850,000 of 7 per cent. Cumulative Preference Stock is now offered to the Public for Sale at par

PAYABLE: 10 per cent. on application, 20 per cent. on allotment, 20 per cent. two months after allotment, 25 per cent. four months after allotment, and 25 per cent. six months after allotment.

DIRECTORS: PRESIDENT—W. C. EDWARDS, M.P., of W. C. Edwards & Co., Limited, Lumber Manufacturers, Ottawa. VICE-PRESIDENT—R. Y. ELLIS, Vice-President of P. W. Ellis & Co., Limited, Manufacturing Jewelers, Toronto.

NATIONAL TRUST COMPANY, Limited, Toronto, Montreal, and Winnipeg.

PROSPECTUS

The following is an extract from one of the reports: "I have been working in lumber woods for twenty years or more, and have traveled and examined limits in the State of Maine, New Brunswick, and Quebec, and worked in Wisconsin and Minnesota, and I am sure this is the best paper limit I have ever seen or traveled over."

On the basis of any one of these reports a conservative estimate shows that there is sufficient pulpwood now on the limits to supply the proposed mills for more than 45 years. As spruce wood will replace itself in from twenty-four to thirty years, it will be seen that there is sufficient wood on the limits to afford a perpetual supply to a mill double the capacity of that now contemplated.

THE PULP AND PAPER MILLS. It is proposed to erect— A Paper Mill with a daily capacity of 54 tons. A Ground Wood Pulp Mill with a daily capacity of 50 tons, and a Sulphite Pulp Mill with a daily capacity of 40 tons.

MARKETS. The markets will be chiefly foreign, including the Eastern States and Great Britain. In view of the expected advances in the price of paper in the Eastern States it is probable that the greater part of the output will be marketed there.

ESTIMATE OF BUSINESS AND PROFITS. Estimating the cost of pulp wood at \$2.25 a cord, careful estimates made for the Company show that the ground wood pulp should not cost over \$5.50 a ton, and sulphite pulp not over \$16.00 a ton.

Table showing estimates for pulp and paper production. Columns include tons of pulp, cost of pulp, cost of paper, and total cost.

Showing a profit of \$455,177.13 7 per cent on \$1,500,000 Preference Stock ... 105,000.00 Available for Reserve Fund and further Dividends ... \$350,177.13

Available for Reserve Fund and the balance of sulphite pulp will be consumed in the paper mill of the Company.

THE ESTIMATED PROFITS from the operation of the saw mill are not included in these figures, but owing to the enormous quantities of cedar on the limits, substantial profits should be made from the manufacture of railway ties, shingles, etc.

ISSUE OF STOCK

For the acquiring of the said property, equipment of the pulp and paper mills, the development of the water power, building the railway siding to the mills, and the furnishing of sufficient working capital, the present issue of Preference Stock is made.

For every two shares of Seven per cent. Cumulative Preference Stock subscribed and paid for, there will be allotted by way of bonus one share of fully paid Common Stock.

The Seven Per Cent. Preferred Stock is Cumulative, carries yearly dividends, and has priority over the Common Stock as to both dividends and assets.

Applications for Preferred Shares should be forwarded to the NATIONAL TRUST COMPANY, Limited, Toronto, Montreal, or Winnipeg; or to SUTHERLAND & CAMERON, Brokers, Ottawa, Canada.

Checks, drafts, etc., are to be made payable to the NATIONAL TRUST COMPANY, Limited.

Further information and Forms of Application can be obtained at the offices of SUTHERLAND & CAMERON, 48 SPARKS STREET, OTTAWA, CANADA, or the NATIONAL TRUST COMPANY, LIMITED, TORONTO, MONTREAL, and WINNIPEG.

We offer the Preferred Stock for sale on the above terms.
