It will be remembered that Mr. Shibley went to Arizona about a month ago in the hope that the warmer clime would be the means of at least pro-

longing his life; but the hope and wish was not realized Mr. Shibley was one of the successful young Canadians who went to the United States to seek his fortune and, solely by his own energies and abilities, he so well succeeded that at the age of thirty-three he was a millionaire. Three years ago he purchased a summer residence in Napance and since that time he has spent much of his spare time amongst the people of his youth. He was born at Wilton, Addington county in 1866, a son of the late Jacob Shibley, and was educated at the Newburgh public and high schools. In the early nineties he went to the United States and soon succeeded in pushing his way to the front and at the time he was taken setting the pavilion in order after ill, a little over a year ago, he was rapid removal of the exhibits from

He was large handed with his nations to the poor of Napanee and surrounding country as will be remembered by his thoughtfulness last Christmas when he provided for some HOUSE 300 families and each summer, while he was in our midst, he provided royally, entertainments in the park for all the children of the town and surrounding country, and his death will be sincerely mourned by every one in Napance and surrounding country.

It is believed the man was murdered in the hope of plunder.

Scottish architects have designed the picturesque group of light, graceful buildings in the spacious grounds of West park. The machinery hall is a simple, but artistic structure with a bow string roof, treated with special reference to electric illumination. Paris, April 26.-To-morrow general elections will be held and the country will pass judgment on the Waldeck-Rousscau administration. The decision of the French electorate is, of Vote For Intercolonial Maincourse, problematical, but it may be safely said that the signs point to a brilliant victory for the Waldeck-Rousseau ministry. The average French voter is by no means so well informed as the average American or Englishman regarding issues of national politics. But with all his qualifications he has a keen scent for what promotes the glory and wealth of France, and the idea that there has been a safe, strong premier directing affairs for the past three years has lodged itself firmly in his mind. Since the time of Gen. Gambetta. France has had no statesman whose personality has so typified the republican idea as the present premier. His ministry has lasted the longest of any during the past thirty years. He gave up a most lucrative practice at the palace of justice when president
