THE WHIG - 68TH YEAR. DAILY WHIG, published every morning, at 20¢ per copy, at 25¢ per week, at \$2.00 per month, at \$5.00 per quarter, at \$15.00 per annum, in advance.

THE DAILY WHIG. A RAKING DOWN. A year ago the Tory had occasion to state some very plain things about its party. "The rank and file," it said, "have certain rights, and we desire to assert them right here. The rank and file, be it known, are the gallant boys and true who pull off their coats on election day and do the fighting for the party. Of course they do this purely for the love of the party, for they are a lovable lot of boys—the rank and file—but it is not every one they love. They don't love a party that betrays them. They don't love a leader that forgets them."

A WOMAN IN POLITICS. A woman, Mrs. Mary Derwin, sister of R. Glocking, the labour leader, has offered herself as a candidate for the local house in North Toronto. She is running as a socialist, and she is giving the people something to talk about. Women can vote in municipal elections, and they claim that they have done something towards good government within the sphere of their influence. They have been pining for the right to vote in political elections and have been refused it. Now the question is, Can one who is not eligible to act as a voter become a candidate and for the representation of a constituency in the assembly?

AGAINST THE HOUSES. The Hamilton people rebel against the idea of bonusing the Deeringes, who contemplate the erection in Canada of a branch of their great agricultural works. They send a lot of machinery into Canada, but they have to run up against a competition which would be less seriously felt if they had a Canadian factory. So they have looked over Canada, and have had agents in the east and west and centre—and have selected Hamilton for geographical and other reasons. They proposed that the city give them exemption in taxation; but some one suggested a bonus of \$50,000, and now the firm, wealthy though it is, seems to have its eye upon the money.

THE SPECTATOR REFLECTS public opinion when it says that the people are sick and tired of adding to the public debt, the interest in which consumers so much of the annual income that there is not enough to keep the streets in repair, and make the necessary improvements. They will not vote any more bonuses no matter what the result may be. Hamilton is not the only place that has suffered on account of the bonus fever. Kingston has loaded itself with a debt, on account of schemes which which are doing absolutely nothing for the public good.

A BID FOR BRIBES. Daylight at last falls upon Mr. Whitney's plan of campaign so far as the great corporations are concerned. He has announced that these—the life and fire insurance companies, the banking and financial institutions, the loan, telegraph, telephone, electric light, railway and steamship companies—advanced the money to the government with which they carried the bye-elections. The folks affected must have accepted the tax agreeably since they have not made any outcry against it, and the contingencies of several elections occurred after the act regarding this supplemental revenue had been put in force.

Mr. Whitney is evidently annoyed. He has failed in his calculations. He opposed the tax. Why? He wanted to stand in with the great corporations. So far he has failed to induce any one of them to take notice of him, to make a declaration in his favour. But he has not been at all discomfited. He keeps on talking, and the only promise he has made—and he made it at a moment of weakness—is that if elected to power he will wipe out this revenue law and do without the income for which it provides. That is a mighty bid, a last desperate appeal to the moneyed men to adopt him as their political orphan and give him a little spending money. Will they do it? Watch and see.

ONE MAN IN MANY. Mr. Lumsden, of Ottawa, and one of its representatives in the last legislature, was not in the house when the Temiskaming railway bill received its final reading. The fact was noticed, and the report sent out that Mr. Lumsden had broken with the government. Mr. Lumsden has taken his own time in which to deal with this statement, but he disposed of it succinctly at the public meeting which he and Mr. Ross addressed in Ottawa on Thursday evening. It was quite true, he said, that at one time he had urged the starting of the railway from Mattawa rather than from North Bay, but the surveys had satisfied him that the North Bay was the only possible route, that it would open up a splendid country on both sides of the line, and he gave it his support. He did this at a personal sacrifice. He had large interests in the Temiskaming district, and the railway would affect them very much. It would reduce their value from \$100,000 to \$10,000, but though he would be a sufferer the province as a whole would be a gainer and no one had heard him say that the railway should not be built. That is the sort of representative for a city to have. He is not a time or self-server, and some attention will be paid to his prophecy, that the Ross government will be sustained in the election by a large majority.

Commanders in China have been asked by their respective diplomatic representatives to state what military stipulations it would be desirable to make with China, when according to the latter's request for a dissolution of the provisional government at Tien Tsin.

EDITORIAL NOTES. Dinna ye hear the slogan? Aye, and we're ready. Every liberal is in line. The Tory says that Mr. Whitney is under the influence of the corporations. It looks very much that way. "Thirty-three years in the cold shades. Don't you think that's long enough?" The daily wail of Mr. Whitney. Mr. Carcassell, of Hamilton, advocates an export duty or embargo on refined nickel ore, and Mr. Whitney opposes such a duty. Who is leading the party and responsible for its platform? If the suggestion of their committee that vigilance committees be organized to watch the Tories, the Tories must start a boxing school. How are they going to develop pugilists without it? BABY CONSTIPATION. Can Be Cured Without Resorting To Harsh Purgatives. Constipation is a very common trouble among infants and small children, and is one of the most distressing. The cause is some derangement of the digestive organs, and if not promptly treated is liable to lead to serious results. The little victim suffers from headache, fever, pain in the stomach, and sometimes vomiting. While in this condition neither baby nor baby's mother can obtain restful sleep. If proper care is taken in feeding the child and Baby's Own Tablets are used, there will be no trouble found in curing and keeping the baby free from this disorder. Mrs. T. Guymer, London, Ont., says: "My baby was a great sufferer from constipation. She cried continually, and I was about worn out attending her. I tried several remedies, but none of them helped her till I procured some Baby's Own Tablets. These tablets worked wonders, and now she is in the best of health. I can now go about my work without being disturbed by baby's crying. I consider Baby's Own Tablets a great medicine, and would advise mothers to keep them in the house, as they will save baby from suffering by curing and preventing the minor ailments common to infants and small children." Baby's Own Tablets are sold under an absolute guarantee to contain no opiate or other harmful drug. They are easy to take, mild in action, produce healthful sleep and will be found a never-failing cure for constipation, baby indigestion, simple fever, diarrhoea, sour stomach, colic, etc. They relieve the irritability accompanying the cutting of teeth, break up colds and prevent croup. THE NEWS OF THE WORLD. Glad It's An Issue. The tax on corporations is popular; it is pronounced just and scientific by recognized authorities on taxation; it prevails in nearly every state of the Union; it has come to stay in this province, Mr. Whitney has made it an issue. The government cannot wish for nothing better.

THINK OVER THIS. And Let It Determine You To Support Pense. How much of the prosperity which has been enjoyed by the people of old Ontario during the past few years is directly attributable to the policy of the government? That is a question that all classes should endeavor to answer for themselves. It is estimated that nearly nine million dollars has been expended in northern Ontario during the year 1901. There is more to be expended in 1902. At the \$500 alone six thousand men are on the pay roll of various industries, and the vast sum of twenty million dollars has been invested at that point by the Clergue syndicate alone. Surely a policy which produces such results should command the support of the people of the province.

MIXING HISTORY. Another Case Of It Over the Timber Sales. The Kingston News in tones of sterner indignation, calls upon its readers to remember Ross, the man who gave away timber limits, the property of the people of Ontario. As a matter of fact, the present Ontario government, has been doing pretty well with the provincial timber limits. During the thirty years preceding 1871, limits amounting to 13,100 square miles were sold, realizing an average price of \$21 a mile. The Blake administration, in 1872 sold 5,031 square miles, and obtained an average price of \$17 a mile. Since 1872 only 5,124 square miles have been sold, realizing on an average no less than \$1,304 a mile. In the last four years there have been only two sales of timber limits, one in September of last year, when 394 square miles were sold, at an average price of \$1,835 per acre, and the other in December of 1899, when 360 square miles were sold, at an average price of \$3,010 a mile. These figures don't look as though anything was being given away.

THE NEWS is just a little mixed in its history. When it says that Mr. Ross is the man who gave away timber limits it is confusing him with gentlemen who were in office at Ottawa along about the years 1883 and 1884. At that time the provincial government of Sir Oliver Mowat was fighting the dominion for the possession of what is now New Ontario. So confident were the Ottawa ministers of their position that they passed over 100 orders-in-council, practically presenting sections of valuable timber limits in the district to their friends. Each block contained about 32,000 acres, for which a nominal sum of \$250 as an annual ground rent was to be paid. The statement made by our Kingston contemporary simply illustrates the character of the changes. It is not a question of making an effort to defeat a business-like administration.

MRS. HULDA JAKEMAN, Wife of the President of the Elders of the Mormon Church, Salt Lake City, Utah, Recommends Lydia E. Pinkham's Vegetable Compound for Woman's Periodic Pains. Surely the great volume of letters we are constantly publishing from women made strong and well by Lydia E. Pinkham's Vegetable Compound must convince all women of the value of this famous medicine. Does anyone suppose that the young wife of President Jakeman, whose portrait we are permitted to publish, would allow us this great privilege if she had not been so over-joyed at her own recovery that she now wants to be of service to her suffering sisters? No, indeed! No money can purchase such testimony, only a grateful heart full of a desire to help other sufferers could induce a young woman of such high social position to allow her name to be used in connection with any remedy.

How is it possible for us to make it plain that Lydia E. Pinkham's Vegetable Compound will positively help all sick women? All women are constituted alike, rich and poor, high and low,—all suffer from the same organic troubles. Surely, no one can wish to remain weak and sickly, discouraged with life and no hope for the future when proof is so unmistakable that Lydia E. Pinkham's Vegetable Compound will cure monthly suffering—all womb and ovarian troubles and all the ills peculiar to women. If there is anything in your case about which you would like special advice, write freely to Mrs. Pinkham. She can surely help you, for no person in America has such a wide experience in treating female ills as she has had. Address is Lynn, Mass.; her advice is free and always helpful.

MRS. HULDA JAKEMAN, of Salt Lake City. "DEAR MRS. PINKHAM:—Before I knew of Lydia E. Pinkham's Vegetable Compound I dreaded the approach of the time for my menstrual period, as it would mean a couple of days in bed with intense pain and suffering. I was under the physicians care for over a year without any relief, when my attention was called to Lydia E. Pinkham's Vegetable Compound by several of our Mormon women who had been cured through its use. I began its systematic use and improved gradually in health, and after the use of six bottles my health was completely restored, and for over two years I have had neither ache or pain. You have a truly wonderful remedy for women. Very sincerely yours, Mrs. HULDA JAKEMAN, Salt Lake City, Utah."

O, my sisters, I do pray you to profit by Mrs. Jakeman's experience; just as surely as she was cured of the troubles enumerated in her letter, just as surely will Lydia E. Pinkham's Vegetable Compound cure every woman in the land who suffers from womb troubles, inflammation of the ovaries, kidney troubles, nervous excitability, and nervous prostration; remember that it is Lydia E. Pinkham's Vegetable Compound that is curing women, and don't allow any druggist to sell you anything else in its place.

REWARD.—We have deposited with the National City Bank of Lynn, \$5000, which will be paid to any person who can find that the above testimonial letters are not genuine, or were published before obtaining the writer's special permission. Lydia E. Pinkham Medicine Co., Lynn, Mass.
