## TO WOULD OPPONENTS

Take A Portion Of The British Empire THIS WILL BE BRITISH AIM ASKED TO CONSIDER IMPERIAL FEDERATION.

Britain Cannot Interfere With The National Development of The Colonies—There Must Be Slow Progress and a Constant Conservation of Energy.

London, May 8.—In his address to the great demonstration of the Princess Louise at the Albert Hall yesterday, the marquis of Salisbury said that when the present conflict was over all that could be done would be to put into the hands of the colonies which had conferred so many blessings on the human race.

Lord Salisbury then touched on the question of imperial federation. He exhorted those who were anxious to secure that end carefully to consider the steps they were going to take and the results which they expected. They could not interfere with the national development of their colonies. He looked with approval on any attempt to anticipate events or foreclose the precious result which was in store for them. If they were patient and careful there was a tremendous destiny before them. If they were not careful there might be the reverse of such destiny, the breaking apart of those forces which were necessary to construct the majestic fabric of the future empire. They had to remember that the matter was changing, there were forces in the world much more powerful than used to work, and they must watch them with care in order to avoid that which they would have to do if they were not careful.

A despatch to the Central News, from Liverpool, says that the circular of the White Star line will not be in force for some days. The shareholders probably will not meet before the end of the month. The despatch adds that the Cunard line has decided to invite tenders for a service between the New York and Liverpool routes. This decision is taken to indicate that the company will not change hands, and that it will maintain its forward policy.

The Berlin correspondent of the Morning Post writes that the text of the Russian prohibitions issued to parley with mobs when the military is called out during disturbances, and saying that the Russian government is determined to be used conscientiously and zealously in accordance with orders. The orders were remarkable as confirming the Russian government's disinclination to act against the insurgents.

The weather in London is bitterly cold, and snow has fallen in various parts of England. There have been snow-storms in Cheshire and Lancashire, and in Dover and other parts of Kent and Leicestershire and Norfolk. Snow fell at Newmarket yesterday morning, accompanied by thunder.

The returns issued by the London board of trade show that during the month of April the imports decreased £65,689, while the exports increased £1,505,494. The increase in exports amounted to £287,542.

Referring to a question on the matter of the shipping combine in the house of commons, yesterday, Gerald Balfour, president of the Board of Trade, said he was aware that the French built vessels, but the effect of these on British trade was subject to investigation by the select committee on shipping subsidies, which he hoped would shortly be re-appointed. Mr. Balfour said he did not think he could add anything useful to what he had said in the debate the other day on the shipping combine.

At the annual meeting of the civil engineers' institute, yesterday, the council announced that in accordance with the Carnegie scholarship scheme, scholarships of the value of £100, £50 and £25 were awarded to Dr. J. A. Mathews, United States; A. Stansfield, Great Britain; and Herr Goldberg, Austria. Mr. Carnegie, it was stated, had expressed his approval of the awards, and was pleased to hear that the applications that he had doubted his original donation.

In the course of the debate in the house of commons, last evening, on John J. Mooney's vote of censure against the speaker for his ruling on the recent occasion of the suspension of John Dillon, speaker Gully explained that he thought Mr. Dillon had said: "They were traitors," referring to the soldiers as well as to Gen. Villomel, the Boer who was fighting for the British. Mr. Redmond, who was speaking at the time, said he received the statement with gratification, as it showed that the speaker had imperfectly heard Mr. Dillon. The clear meaning of Mr. Chamberlain's words, he added, was that Mr. Dillon was a traitor. It was parliamentary to do this in order to say that Mr. Chamberlain was a good judge of facts. Mr. Dillon, in an impassioned harangue endeavored to show that the colonial secretary had been most offensive to him. Mr. Chamberlain, but he refrained from intervening. Five radicals voted with the nationalists, but in spite of this aid the motion was defeated by 289 votes against sixty-three. The debate being continued with loud and prolonged cheers.

In the supplementary estimates for a vote of £3,000 for stable accommodation at Tete de Pont barracks.

## SECURED TWO BOYS.

Youthful Vandals at Work in Summer Homes.

Ogdensburg, N.Y., May 8.—Cottages all along the St. Lawrence river from Terrace park to the fishing grounds below this city, have been entered lately and articles stolen, broken and used. Monday night Fraser Melburn, who lives in the vicinity of Drilling in George Vanhook's cottage and proceeded to investigate. He found two boys in the place enjoying themselves in different ways. Melburn to his home where he kept them all arrested the boys and took them to his home where he kept them overnight. Yesterday he brought the youthful burglars to this city, where they were locked up.

They were arraigned and pleaded guilty of burglary and larceny. Their names as John Barber and William Wallace.

We Are Well Off.

The Montreal Star is no grit—not even the most biased and hide-bound Tory will dispute that—but it cannot shut its eyes to the fact that Ontario has been well governed. A short time ago it said when Tories here were denouncing the liberal party in this province:

"If the province of Quebec had as good a government as that of Ontario its people would be too happy to even dream of a change.

"The fact that they don't know when they are well off."

Wallace. The boys say they have been living along the river and seeking lodging in summer homes for the past month. Many boats and other articles have been stolen lately and it is believed these boys are guilty of the crime.

BRAIN WAS AFFECTED.

This Led to Mr. Sweetman Taking His Life.

Toronto, May 8.—No inquest was considered necessary on the body of Arthur Sweetman, who committed suicide by throwing himself in front of a train. The father of the deceased said he had been in bed for a long time and he believed that prolonged sickness had unhinged his mind. He went to Mexico four years ago to try life on a ranch and he took typhoid fever. Last winter he went to Toronto and only returned to Toronto last Friday.

German Relief.

Berlin, May 8.—Count Douglas, who is a friend of emperor William, has introduced a bill in the Prussian diet, preventing the sale of spirits containing less than seven o'clock in the morning in summer and eight o'clock in winter, to persons under sixteen years of age, or to habitual drunkards. Count Douglas expressed the conviction that the country where temperance is inculcated will ultimately secure the advantage in industrial rivalry, instancing the United States particularly.

Train Wrecked, Then Burned.

Des Moines, Iowa, May 8.—The breaking down of a tank car filled with oil caused a costly wreck on the Chicago & Western R.R., at Talmage, Iowa, last night. The tank car, which was carrying oil, was derailed from the bridge over the Grand river, dragging with it three cars, including the caboose. The oil was ignited, and the bridge, 130 feet long, and the cars were burned.

Convict Dies Leaving \$6,000.

Laporte, Ind., May 8.—George H. Steyer, a life convict, died in the Michigan city prison. He succeeded in accumulating \$6,000 in government bonds by working overtime, but no heirs have been found. It is said he has relatives living near Cincinnati. Steyer was sent up from Marion county in 1884. There is no such name in the city directory.

Bullet in His Brain.

Woodstock, Ont., May 8.—Thomas Wood, aged 55 years, shot himself through the head at his home, last night, and died instantly. Wood was a stoker in the Anderson works and had lately been mentally unbalanced. The result of an attack of fever. He leaves a widow and six children.

Two of the planning mill owners of Toronto, signed the carpenters' schedule on Wednesday, which is considered a great advance. They employ about thirty men. It is confidently expected that the other mills will be in line in a day or two. Only about 100 men are now out.

James McMoray, stationed at the Canadian Pacific railway depot, Windsor, Ont., has in his possession 175 pounds of brook trout, which he is said to have caught on one of the express trains. The fish were from Montreal, consigned to a man named Bern in Chicago.

The S.S. Tiger, from Rotterdam, arrived at Father Point, Inward, at 2:25 a.m. The S.S. British, Allan line, from Glasgow, arrived at 12:30 a.m.

## USE CANADIAN FLAX

For The Manufacturers of Binder Twine

A NEW PLANT TO BE PUT IN WILL BE INSTALLED AT THE PENITENTIARY.

A Provision Touching the Sale of Binder Twine Has Been Withdrawn—The Bissley Team is Now Complete.

Ottawa, May 8.—The agriculture committee recommended the installation of a plant in Kingston penitentiary to use the tow and fibre of Canadian flax.

A resolution passed last session by which the government was directed to sell on July 1st, by public tender, all of the binder twine output that had not by that date been sold direct to the farmers. That has now worked out well, and the provision will accordingly be withdrawn.

The Bissley team is now complete. Lieut. W. L. Ross, of the 13th regiment, Hamilton, Ont., has dropped out, and the last four places go to the following men: company sergeant-major M. McLaughlin, 5th R.C.A. Victoria; Capt. J. M. Jones, 82nd regiment P.E.I.; Sgt. J. J. Perry, 6th B.C.O.R.; Vancouver; Maj. R. J. Spearman, 53rd regiment, Sherbrooke; Waiting men, Capt. W. C. King, 46th regiment, Bowmanville.

The supplementary estimates for the year were presented to parliament yesterday. They total \$5,729,281, of which \$3,386,201 is chargeable to consolidated fund and \$2,343,080 to capital. This makes, with the main estimates, \$29,100,939, for the year beginning in July next.

There are \$10,000 for experimental farms; \$175,000 for St. Louis exhibition; \$20,000 for Cork and Wolverhampton exhibition; \$50,000 defence equipment; \$300,000 arms and ammunition; \$150,000 to purchase rifles; \$50,000 for the coronation military contingents; \$315,000 Halifax garrison; \$1,315,000 for Interoceanic and \$36,000 Yukon public buildings; Northwest government, \$107,000 and Yukon government, \$854,500.

Mr. Laish, of the First National bank of Canada, bill coming up before the senate banking and commerce committee, suggested that the bank be styled The Securities bank of Canada. Strong objections had previously been taken to the title First National bank. Mr. Laish's suggestion was adopted, and the bill was reported as amended.

It is probable that the militia department will assist in the big military celebration to be given in Montreal on coronation day. The minister of militia has set apart a sum to pay for the transportation of a limited number of troops from other points into Montreal. Some of the western Ontario regiments may take part in the celebration.

"PEACE PROBABLE."

The Message Gen. Meyer Cabled to His Wife.

London, May 8.—The wife of Gen. Lucas Meyer, the commander of the Orange Free State forces, who is in this country, has received a cable message from her husband saying that peace in South Africa was probable.

208 Boers Captured.

London, May 8.—Further advices received here from South Africa announce that 208 Boers had been captured, and that 400 burghers were held in the neighborhood of Lindley, Orange River Colony, yesterday.

Boer Operations in Cape Colony.

London, May 8.—A despatch to the Times, from Cape Town, says that normal operations in Cape Colony are less obstructed than other districts by the Boer meetings for peace. The enemy is not numerous, but the enormous area of the country renders the campaign difficult. The pick of the army are some Transvaalers who accompanied Gen. Smuts in his hurried tour of the midlands and then across the railway to the western district. One body comprising six companies has been intercepting traffic on the railway between Port Nolloth and O'Kiep; another has headquarters two hundred miles away in the great Fish river valley watching the block-house line. These companies have headed north a small party of Boers, who again wandering in the Camdeboo district, keeping close to the mountains. The chief need is a railway in the open country west and north of the main lines.

Escaping Prisoner Shot.

British Sentry on Tucker's Island Killed Fleeing Man.

Hamilton, Bermuda, May 8.—Frederick Bosch, a Boer prisoner of war in the prison camp on Tucker's island, nineteen years old, was detected by a sentry in the act of breaking through the wire entanglement on the night of April 25th. The soldier fired at the escaping prisoner, and the latter ran into the brushwood. A second shot, which passed through his body brought him down. The wounded Boer was at once taken to the hospital at Port's Island, where he received every care and attention. He was, however, proved fatal, and he died at midnight, on Sunday morning. Bosch had made three previous attempts to escape, but had been recaptured each time.

## PLEASURE PARTY DROWNED.

Seven Young People Lose Lives in River.

Toledo, Ohio, May 8.—Seven young people, members of a Sunday school class of the First Baptist church, were drowned in the Maumee river, just below the city last night. The nephew of the launch Frolic, on which they were taking a pleasure ride, was run down by the tug Arthur Woods, of the Great Lakes towing company a fleet.

The launch is owned by Joseph W. Hepburn, of this city, who invited ten young people to take an evening trip to Lake Erie early in the evening and were returning when the accident happened. Mr. Hepburn, Miss Clara Marks, Arthur Marks, and Miss Grace Lowe are the only survivors.

Mr. Hepburn says that he saw the lights of the approaching tug, and thinking it was bound straight down the river, took the launch to the east. When nearly abreast of the launch the tug suddenly turned to the east in order to make the dock at Ironville and before the launch could get out of the way it was struck by the tug, overturned and sank about 100 feet from the dock. Mr. Hepburn caught hold of the side of the tug and the Lowe girl grasped his leg and both were pulled on the tug.

The Marks girl was picked up from a cushion on which she floated. Arthur Marks also was fortunate enough to grab a piece of wreckage and was picked up by those on the tug.

The other seven members of the party were drowned and the river is now being dragged for their bodies.

Capt. A. Fitts, in charge of the tug, said the launch showed no lights and that he was not aware of its presence until the tug struck her.

TO AWAIT TRIAL.

James Stephenson Held on Burglary Charge.

Cornwall, Ont., May 8.—J. Stephenson, recently arrested near Waddington, N.Y., and taken to Cornwall by inspector John Murray, was brought before police magistrate Davis on a charge of burglary, committed at Morrisburg, on January 15th. After hearing some evidence the magistrate committed Stephenson for trial. Mrs. M. Markell, whose husband was recently sent to Kingston for four years for the same crime, testified that Stephenson brought the stolen goods to her house. Stephenson is said to have been connected with the Melhall gang.

FRENCH SHORE TROUBLE.

Newfoundlanders Complain of Depredations.

St. John's, Nfld., May 8.—The residents of St. George, on the French shore, complain bitterly of the depredations practiced by the French fishermen, who recently arrived there. No wrecks are yet on the coast and the lawlessness of the Frenchmen in unchallenged. Local fishermen are compelled to carry guns in their boats in order to protect their herring nets. An extra force of police has been ordered to the scene to prevent further trouble.

To Visit Kingston.

Watertown, N.Y., May 8.—It is probable that the 4th battalion of the National Guard will visit Kingston, Ont., May 20th, the date of the celebration of Victoria day. The battalion includes the two separate companies of Utica and one each in Airhawk, Malone, Ogdensburg and Watertown, and is commanded by Maj. James S. Boyer, of this city. The 29th separate company here has voted to go if the other companies of the battalion go, and all but those at Mohawk and Malone have signified their intention of going. If the trip is made the soldiers will meet here, May 25th, and will leave that afternoon for Kingston.

Died from Exhaustion.

Wawanesa, Minn., May 8.—John Leachman left home some time ago to go across the Souris river. His boat was discovered, a few days later, some distance down stream, and yesterday his body was found on the river bank. It would appear that the man was not drowned, but died of exhaustion and exposure. It is thought that the boat capsized and that after hanging on to it for a long time, Leachman managed to climb on the bank where he fell from exhaustion.

She Is Improving.

The Hague, May 8.—The bulletin on the condition of queen Wilhelmina, issued this morning, says: "There was no increase in the patient's temperature yesterday evening. Her majesty had a good night and her condition this morning gives cause for satisfaction."

For Army Medical Corps.

Ottawa, May 8.—On May 29th a six-days' course of instruction for members of the army medical corps will be commenced in Ottawa. Sergt. Maj. Gillies, Ottawa, will be in charge.
