

WHAT YOU DO, DO IT WELL

This Is Important for Health-Building in May

Thousands of Cures Made by Paine's Celery Compound Should Convince You of Its Value.

"What you do, do it well," is the golden rule of business life. This rule and far-reaching command can be profitably observed in many other conditions of life. In sickness and suffering it is all-important that "what you do" to banish disease and restore lost health, should be well chosen. While prudence and common sense will, in nearly every instance, get you right, the experience of our friends and neighbors and the thousands rescued from sickness and suffering, will point directly to Paine's Celery Compound as the infallible health-giver.

SHOE BUTTON FROM A LUNG

BY A REMARKABLE SURGICAL OPERATION.

First of the Kind Recorded—Excision From the Exterior—The Patient, a Child, Will Recover.

Chicago, May 9.—Through a surgical operation believed to be the first of its kind, Little Louise Fisher, whose life was despaired of because she inhaled a shoe button, is a happy patient in the Hahnemann hospital. The button, which she had inhaled while playing with it over three years ago, was taken from her left lung after an X-ray examination. The operation, which is the first instance in which a foreign body imbedded in lung tissue has been removed by an excision from the exterior, was performed by Dr. Howard Chislett, of the surgical staff of the hospital. The little patient has survived the ensuing shock and is now considered out of danger.

Physicians had several times declared the removal of the button impracticable owing to the difficulty of determining its exact location. Ulceration in time closed the entire left lung and forced the button further down into the tender lung tissues.

A FURTHER HONOR.

Dr. Richter Appointed Fellow of R.A.S., London.

Few young men have attained the success and had the honors showered upon them that have fallen to the lot of Dr. S. A. Mitchell, son of John C. Mitchell, of this city. This young Kingstonian graduated from Queen's in 1894, and in 1895 obtained the degree of Ph.D. at the Johns Hopkins university. After a year spent at the Yerkes observatory of the university of Chicago, working with the most powerful telescope in the world, Dr. Mitchell was appointed to his present position at Columbia university in the city of New York. Since then he has twice been invited by the United States government to take part in the observations on eclipses of the sun, in 1900 in Georgia, and last year in the island of Sumatra in the East Indies. The weather at this latest total eclipse was very disheartening to an astronomer, clouds covering the sun throughout the whole of totality, but in spite of these unfavorable conditions, the photographs taken by Dr. Mitchell were very excellent, and the results of his eclipse investigations have been published in the most highly respected journal of the world.

Debate McIntyre Regretted Action of Educational Association.

At the meeting of the board of education last night John McIntyre, the board's delegate to the annual convention of the Ontario educational association at Toronto, on April 1st, 2nd and 3rd, gave a brief but interesting verbal report of the proceedings. He stated that Prof. Dyke, Mr. Ellis, J. G. Elliott, and Miss Jones, Kingston, were also present, the latter contributing a paper. Mr. Elliott had had the honor of being appointed vice-president of the trustees department. The minister of education delivered a succinct and highly interesting address. Mr. McIntyre was surprised at the way the association treated the proposal to introduce the bible into the schools. One department tabooed it altogether, and another department treated it in a cavalier manner. The bible, said Mr. McIntyre, should be used as a text book for its literary value if for nothing else, and he made a strong plea for the introduction of the study of holy writ in the schools.

Benefit Social.

A social and concert was held in the First Baptist Sunday school room last night in aid of the organ fund. The attendance was good and the collection liberal. Songs were given by W. Salabury, Clara Smith and Miss Winnie Phillips; recitation, Miss Gertrude Goss; drama, Misses Jessie Berry and Pearl Smith; dramatic selections, F. W. Coates. Rev. Mr. Laing was chairman.

To Celebrate The Anniversary.

At a regular meeting of the Royal Arch Chapter, No. 905, held last evening, three new members were initiated. The anniversary of the founding of the order will be celebrated in Gananoque on June 25th, and the local lodge decided to take part. On Thursday next ex-almeman William Dunlop will go to Hamilton to attend a meeting of the grand council.

Bible Society Meets.

The city bible society met in the Y. M. C. A. building yesterday afternoon. R. S. Doherty resigned his position as treasurer on account of ill-health, and Dr. Lake was appointed to succeed him. Arrangements were discussed for the taking up of the annual collection, but the matter was not completed.

Disturbing The Residents.

A row took place at the corner of York and Barrie streets about two o'clock this morning, when a number of midnight marauders made sleep impossible for the residents. The latter claim that disturbances occur there almost nightly, and they strongly object to it.

Purchased The Trophy.

The Limestone baseball league purchased a handsome silver cup yesterday as the trophy to be played for by the teams in the junior league. The cup is being suitably engraved.

Oh Listen To The Band.

Open air concert. The little German band, Saturday night, Carnovsky's concert, gives concert.

BUT HE WANTS THEIR VOTES.

Carscallen's Opinion of Presbyterians and Methodists.

Hamilton Times. It is said of Lord Glenelg, who was colonial secretary at the time of the Canadian rebellion, that he had a positive genius for doing the wrong thing. A similar remark might be made about that silver tongue which is the distinguishing feature of Henry Carscallen, the Tory candidate for East Hamilton. Several years ago, when Mr. Carscallen was a candidate for the mayoralty of Hamilton, that tongue broke loose on the steps of the city hall, at midnight, on the Sunday preceding the day of polling, and it performed so peculiarly that it drove hundreds of good voters over to Mr. Carscallen's opponent, and caused his defeat. The other day Mr. Carscallen spoke at Renfrew, on behalf of the Tory candidate. Perhaps he thought it was safe to let that tongue of his run loose at such a distance from home. He is thus reported by the Ottawa Citizen:

Mr. Carscallen scored principal Grant, of Queen's university, for his slavish support of the return government, past and present. He also scored the Presbyterian and Methodist, in East Hamilton, the very men who hold principal Grant and Rev. Dr. Potts in the highest respect, and who cannot be convinced that either of them ever sold his political support for financial favors from the Ross government. The public money expended in connection with the work of Queen's college, the Presbyterian institution at Kingston, was usefully expended. The mining school has more than paid for itself in results, and it is part of a plan for developing the resources of Ontario. To people of the eastern part of the province, Queen's college has been an educational centre for more than half a century, and nothing that Mr. Carscallen can say will cause the men of Eastern Ontario to look with disfavor upon schemes to extend the usefulness of the college to establish and maintain which their own money has been freely contributed, and in which many of them have received their own education. So with regard to the old Victoria College building at Cobourg, which Mr. Carscallen says was purchased by the government to get the political influence of Rev. Dr. Potts, the building was purchased because the government could make good use of it for asylum purposes, the other asylums in Ontario being overcrowded. It cost less than a new building with similar accommodations, and it is not to be sold. No doubt it is an accommodation to the Methodists to find a purchaser for a building no longer needed for college purposes, after the removal of Victoria to Toronto, but there was nothing wrong in the transaction, and Mr. Carscallen ought to have been the last man to make such a charge or insinuation. He ought to keep that tongue under control.

Sunnyside Sayings.

Sunnyside, May 9.—Judging from the machinery purchased by the farmers in this vicinity, farming is paying. The following are some of the new machines this year: Jonathan Knight, binder; Charles Trudell, roller and horse rake; Oliver Fairbanks, Jr., horse rake; Jacob Harpell, wheel cultivator; C. A. Adair, disc harrow; Archibald Knight, mowing machine; Milford Abrams has gone to South Africa with the fourth contingent. Albert Aylesworth has purchased half an acre of land opposite the toll-gate from John Harpell, of the city. George Harpell has again drawing the milk to Mr. Robinson's factory. Mrs. Sidney Gunning has been seriously ill with hemorrhage. Mr. Harry Rodway is staying at her old home, at James Powley's moving machine. Archibald Knight, the north-west, and Capt. Booth, papers and books; Dr. Walkem, books, periodicals; Misses Voight, oranges, sugar; Miss Chown, papers; Mrs. Robinson, toilet set; St. Paul's church, flowers; Chalmers, church, flowers; Rev. Mr. Crisp, magazines; J. H. Johns, two bags onions; Alexander circle, King's daughters, pillow slips and towels; Mrs. (Prof.) Marshall, chickens; Victoria circle, King's daughters, towels, sheets, twelve new dresses, twenty towels; W. G. Craig & Co., two boxes haddies; Mrs. H. Wade, magazines; Mrs. Dalton, illustrated papers; W. F. Nickle, bottles; Mr. Smeaton, bottles. The charity circle have completely renovated their room, making it one of the most attractive in the building.

Doing Big Business.

Brookville Times. There is a great increase in freight traffic on the Grand Trunk railway. Wednesday 551 loaded cars, representing 147,960 tons, passed east through Brookville yards, and 229 loaded and 215 empties west went. On eight local double compound haulers sixty-eight cars to Montreal, representing 2,300 tons. This is said to be the biggest train ever pulled over the fifth district.

A Lady Injured.

While Mrs. Reid, of Williamsville, was getting out of a car at the corner of Alfred and Princess streets, on Thursday afternoon, the car started, and she was thrown to the ground, striking her head. She was carried into Mrs. Adams' millinery store, and later taken home in a cab, and a doctor summoned. Mrs. Reid was severely shaken up, but happily escaped serious injury.

Be One Of The Lucky Ones.

Who will get one of our new styles in derby, at \$1, \$1.50, \$2. Campbell Bros., noted for low prices on men's fine hats.

You Save \$5.

Mrs. John McFarlane died in Drummond township in her eighty-first year. Her surviving children are John and Joseph, William, George, of Toronto, Mrs. J. W. Whyte, Yorkton, Assn., and Almon and James, on the homestead.

Hugh McCallie, father of Dr. A. A. and Messrs. James and Robert McCallie, Algonquin, died on Thursday after a somewhat lengthened illness, at the advanced age of eighty years.

Put away your furs yet? Tarine.

Moist bags are superior to everything and they will last for years. E. C. Mitchell.

Griffith's Menthol Liniment.

The ideal liniment for 50¢ per bottle. Large bottles 25c. and 75c.

THE TREATMENT OF CANCER

HAVE VIOLET COLORED RAYS A CURATIVE PROPERTY?

Important Extensive Experiments Being Conducted in the Flower Hospital, New York—Results Secured in Europe Are Encouraging.

New York, May 9.—At the Flower hospital a second experiment has been made with the actinometer, a new electrical apparatus, through which the actinic ray, or the violet colored light, which has been found to be germicidal, is thrown upon the diseased parts of the body.

The first patient was Frederick Montgomery Campbell, fourteen years old, the special protégé of Amos H. Flower, the president of the hospital, who for a year has defrayed the expenses of the boy's care in a private room. The boy's case is a desperate one. He has tuberculosis of the hip in a very advanced stage.

The entire upper part of the femur has been cut away. His only hope is in the actinic ray, and although that has been used on him, he has not been discharged from the hospital. The second operation lasted ten minutes, after which the boy was carried from the operating room, and a second patient, suffering with a secondary cancer of the neck, was brought in. The light used is of 3,000 candle power.

Similar cases will be alternately subjected to treatment from actinic and X-rays. Experiments also will be made in radium, an element which, under the action of radiation, emits rays similar to Becquerel rays found in pitchblende, and the rapidity of whose vibrations is between that of the actinic and the X-ray. In Vienna, Paris, Copenhagen and other cities of Europe, treatment by means of the actinic rays has been systematically carried on for some months with results which its advocates believe are highly encouraging.

Marine Intelligence.

Notes Regarding the Movements of Vessels.

The steamer Victoria, of Rockport, is now in Davis' dry dock for repairs. The schooner Emerald, from Charlottetown with coal, arrived at Garden Island.

The tug Col. By, after receiving repairs in Davis' dry dock, cleared up the Rideau canal.

Swift's wharf; Steamer Spartan from Hamilton; steamer Hibernia King from Ottawa and cleared again.

M. T. company elevator; SS. Rosebloom and consort cleared for Fort William; steamer Arabian cleared for Toronto; tug Bronson and Thomson arrived from Montreal with five light barges.

During the heavy gale on Wednesday, the schooner Ballou sprang a leak and had to be run on a bar in Brighton harbor, sinking in about eight feet of water. The vessel was laden with stone for Toronto. A party is at work raising the Ballou.

Donations To General Hospital.

Mrs. Hume, Seymour, \$5; R. J. Chown, books, etc.; Mr. Leonard, couch; Mrs. Porter's children, books; J. Y. Parkhill, surgery; J. Gilbert, groceries, soap, etc.; Capt. Booth, papers and books; Dr. Walkem, books, periodicals; Misses Voight, oranges, sugar; Miss Chown, papers; Mrs. Robinson, toilet set; St. Paul's church, flowers; Chalmers, church, flowers; Rev. Mr. Crisp, magazines; J. H. Johns, two bags onions; Alexander circle, King's daughters, pillow slips and towels; Mrs. (Prof.) Marshall, chickens; Victoria circle, King's daughters, towels, sheets, twelve new dresses, twenty towels; W. The charity circle have completely renovated their room, making it one of the most attractive in the building.

Another Rhodes Story.

The weekly paper asked Mr. Rhodes to stand godfather to his son, and he replied he would on one condition, which was that he might invest at once a hundred pounds in the boy's name, and give a hundred pounds on his succeeding birthday, provided that it should all go on at compound interest until the boy was old enough to begin to spend the interest; and that then he might yearly decide on what to spend it, so long as it was not on himself. "This," said Mr. Rhodes, "will do two things; first, it will teach your boy how to spend money; and secondly, it will make him unselfish and kind to those in need."

The funeral of the late admiral.

The funeral of the late admiral Sampson took place today, at Washington. Every department of the national government was represented. The military and naval features of the ceremony were brilliant and impressive.

General Teresian Simonson.

General Teresian Simonson, president of the Haytien republic, has resigned his office. The Haytien congress passed a reform that would come into effect later. He had always returned from the conventions inspired and helped by what he had there learned.

The Pittsburg Gazette this morning.

"The United States steel corporation will expend \$60,000,000 in improving their present holdings." A heavy snow storm is raging at Saranac Lake, N.Y., to-day, the temperature registering thirty degrees.

TO CONTRACTORS.

SEALED TENDERS ADDRESSED TO THE undersigned and endorsed "Tender for work" will be received at this department until noon of SATURDAY, MAY 17th, for the erection of the Chemistry, Mining and Geology Building on College Street in connection with the school of Practical Science, excepting Heating, Plumbing, Ventilation and Electric work.

Tenders may be sent in separately or in bulk.

Plans and specifications can be seen and forms of tender prepared at this department.

An accepted bank cheque, payable to the undersigned, for five per cent. on the amount of each tender for each of the above works will be required. The cheque of the successful parties tendering will be returned when the contracts have been entered into for the several works.

The bona fide character and business address of two parties as securities must accompany each tender.

The department will not be bound to accept the lowest or any tender.

T. R. LATCHFORD, Commissioner.

Department of Public Works, Ontario, May 8th, 1902.

Newspapers inserting (the above) this advertisement without authority from the department will not be paid for.

SEALED TENDERS ADDRESSED TO THE

undersigned and endorsed "Tender for Supplying Coal" will be received at this office until TUESDAY, 3rd June, 1902, for the supply of coal for the use of the buildings throughout the Dominion.

Combined specifications and forms of tenders can be obtained on application at this office.

Persons tendering are notified that tenders will not be considered unless made on the printed form supplied and stored with their original specifications.

Each tender must be accompanied by an accepted cheque on a chartered bank, made payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (10 per cent.) of the amount of the tender, which will be forfeited if the party declines to enter into a contract when called upon to do so, or if he fails to complete the work contracted for. If the tender is not accepted the cheque will be returned. The Department does not bind itself to accept the lowest or any tender.

By Order, FRED. GILMAN, Secretary.

Department of Public Works, Ottawa, 2nd May, 1902.

Newspapers inserting (the above) advertisement without authority from the Department will not be paid for.
