A despatch to the Daily Mail, from Kingston, Jamaica, states that, after no special ground for suspicion of a o'clock. disaster, mount Pelee, the volcano in Martinique, suadenly belched forth burning lava and ashes, on the morning of the 8th. The steamer Rogam was the sole vessel in the harber of St. Pierre. She escaped by steaming out at full speed and running the gauntlet of a shower of lava, which killed seventeen of her crew. It is stated that St. Pierre is another Pompeii, being covered with ashes and

The colonial office here has received a despatch from Sir Robert Llewelyn, governor of the Windward islands dated Kingston, St. Vincent, yesterday. The governor says that the Soufriere volcano, in the north-western part of the island, of St. Vincent, British West Indies, continues in activity. Earthquake shocks had occurred for a week past, but not actually in Kingston.

On Wednesday a big cloud of steam hung over Soufriere, and the inhabitants, who were greatly alarmed, were flocking to Chateau Belair. There were already 300 refugees there, who were being fed by the authorities.

Cannot Reach It.
