refuse to be comforted because they Robets was recalled back to England his pace. What a joyful shout rang electricity; no mighty greyhound, through the united kingdom when lit composed of steel, plowed old ocean's tle Bobs," whose fame was without waves, laughing at calm to impede a stan, was followed by shouting his progress and defying the howlings thousands down to the Charing Cross of the storm. The expected miracle of station and sent off to his mission in the ages for which men have waited impatiently has come at last and a Britan's red flag seemed like a pro- mighty ship floats between earth and serve his country in that ungrateful mission till the glories of his former now relegated to a back seat among life were eclipsed almost to destruction. When he was recalled lord Kitchene, of Egyptian fame, command. It was he only a few years before who left twenty-five thousand of the frenzied Madhists dead upon the field. It was a dire holocaust, such as hour is the record of achievement; no Africa had not seen in countless generations. The power of the black prophet was broken and he has seen no victors for the Madhists' cause from that day to this. In leading the British hasts victory seems to have deserted his banner. A series of his blockhauses prevented the advance of the Bærs until maddened to desperation. The miracle of the Bærs until maddened to desperation. The miracle of the Bærs until maddened to desperation. A few brief years that might be a few brief years that mi tion Ibwet, the Boar leader, resolved A few brief years that might to break the cornon or die. He divided his army in two great advancing powers and dashed against the posts which British valor defended. The advance was covered by thousands of cattle and sheep, among which the wily Boers moved along as if they bore charmed lives. The fight for a short time was desperate but when the sut rose the next morning it found Gen. Dewet on the south side of the cordon with boundless plains out before him that gave pasture to left him ready to renew the fight be-

the tired British hosts to begin an Since then Great Britain has heard nothing but continued disaster and defeat and now a conference is being held, or at least it is so rumored, where propositions for peace and disarmament have been most determin-

edly rejected. Again the ery of suffering labor resounds from the equator to the poles, and while the world has been amused with promises of speace for which found no justification the war goes on and thousands of brave sol diers swell the fearful holocaust from the rising to the setting of the sun. As the spring advances labor trou-bles salute us from every portion of the globe Large numbers of women are engaged in this unfortunate disturbance in which they receive vigorous support and indorsement leaders who have conducted the strike among men, and in many cases men, have attacked their own sex with the savagery of a wild Indian, as if the association with their male friends had destroyed all that admirable in womanhood. It only a short time since when a woman during the strike in Cleveland was on her way to work. She was living about three miles from the fac-She was dragged from the car by some of her own sex. She broke away a lively run, sought shelter on the stoop of a house. At her cries furies beating the factory girl, and, instead of aiding her in that dread After heating her severely they left

wrath. All this in free United States and under the light of the morning siene a mechanic or a laborer and right to strike for higher was lit is his privilege under the law for a man, however humble his estate, to say how much he will receive for his labor or how man, tote a day's work, but there vilege ends. Who ever heard of

hould be forever assured to the cite public ever founded by the wisdom of man since God said, 'Let there be light." I often think what a scene must have unveiled itself to the eyes of the first man. No vexed questions of wealth and its division in the ranks of labor troubled him, for he was monarch of all he survey-His wants were few and the supply of everything he needed was abundant beyond the dream of avarice. Then we ask ourselves was his dwelling constructed in that wondrons beauty that sometimes comes to us in the visions of the night; but, notwithstanding its beauty and alandance, there was something lacking that would have to be created to make the first man contented with his lot, and that want the Almighty Nw York, May 9.—The opening of sprog is usually looked upon as he most joyful period of the year whe peasants in other lands came in His own image, a breathing accident of the lower lands are whe peasants in other lands came out to the Maypole dance and graciousgifts prepared the mind for peace and happiness, looking with God's projectione and blessing to an abundant antund plentiful harvest. But ining that we see. Who can dream of or antland plentiful harvest. But insteal of the glorious song which proclaims a jubilee the news from abroad
