LETTERS TO THE EDITOR

CRITICISM OF THE HIGH BUTCHERS' LICENSE.

The Council Create a Monopoly in Meat-Butchers Have Shut Up Because of the High Local Tax. The Council, May 12.—(To the Editor): I cannot understand the action of our city council in raising the price of meat by raising the license fee for butchers. My idea is that one of the functions of a city council is to make the city as cheap a place as possible to live in. Instead of doing this, by putting on this fee, they practically create a monopoly in meat by placing the sale of it in the hands of a few well-to-do butchers. It cannot be advanced that the five or six hundred dollars to be derived from this license is needed by the city for a greater sum than this is every year thrown away in useless celebrations. Not only that, but for this five or six hundred dollars taken from the butchers the citizens, poor and rich alike, will have to pay four or five times this sum. They may say what they like about beef being high. It may be it has advanced in price, but there are lots of the smaller butchers who can live if the old license is continued and sell their meat at reasonable prices 12 1/2c, being the maximum, whereas it will be fifteen and perhaps eighteen if this new law is carried into effect. Beef at five or six cents five weight, it seems to me affords the buyers a large margin at 12 1/2c a pound. It has been said that several butchers have closed their places of business because of insufficient profit at present prices. I understand this is not the case, that they closed rather than face the higher license and if it is inquired into it will be seen this is actually the case. Trusting that our city fathers may look into this before committing themselves to this new license and that old prices in beef will prevail.—CITIZEN.

Can Offer No Improvements.

No stronger tribute could be paid to our school system than the ability of its critics, mostly politicians, to find any substantial fault or to suggest any remedy of a supposed defect which is not already in force. Of course our school system is not perfect. Nothing devised by human agencies reaches a finality—improvement must and always will be made. The British constitution is not perfect, though it has been in course of growth for thousand years. It is still in the formative stage. So with a school system. Changing conditions and the lessons of experience point out weak spots and all that a government can do is to add strength where needed and remove defects which experience may have disclosed. But the liberal government has been anxious and energetic in effecting improvements when necessary and practicable. The improvements that have been made in the past fifteen years may be submitted as evidence of this desire on this endeavor.

Many of Our Boys and Girls Are Suffering This Month from the After-Effects of Winter Grippe.

Wise Parents Provide Paine's Celery Compound For Their Loved Ones.

The Wondrous Medicine Quickly Expels all Germ Poisons From the Blood and Fortifies the Weak And Bandown System.

A busy city physician, enjoying a large annual income, remarked the other day that a host of young people have winter grippe, and girls are suffering from it month from the after-effects of winter grippe.

Dear parents, have any of your children suffered from an attack of the cruel monster grippe, during the past winter months? Are your boys and girls irritable, feverish, pale or weak? Have they cold and clammy limbs? Is the blood watery, impure or sluggish? Is the appetite poor and digestion weak? Has the rosy tint of health faded from the cheeks? If any of these conditions are noted, be assured the seeds of deadly grippe are implanted in the system.

If your children are not listless, happy, boisterous and strong in May, their condition calls for prompt action on your part. Their future health and physical happiness or sufferings and early death—is in your hands dear parents, and you alone are responsible to heaven and the community of which you form a part.

When winter grippe has implanted seeds of virulent disease, the first and most important work is to expel from the blood every trace of poison. This is always successfully accomplished by the use of Paine's Celery Compound.

This marvelous medicine after purifying the foul and stagnant blood, acts as a nerve food. It builds up the nervous system and nourishes all the bodily tissues.

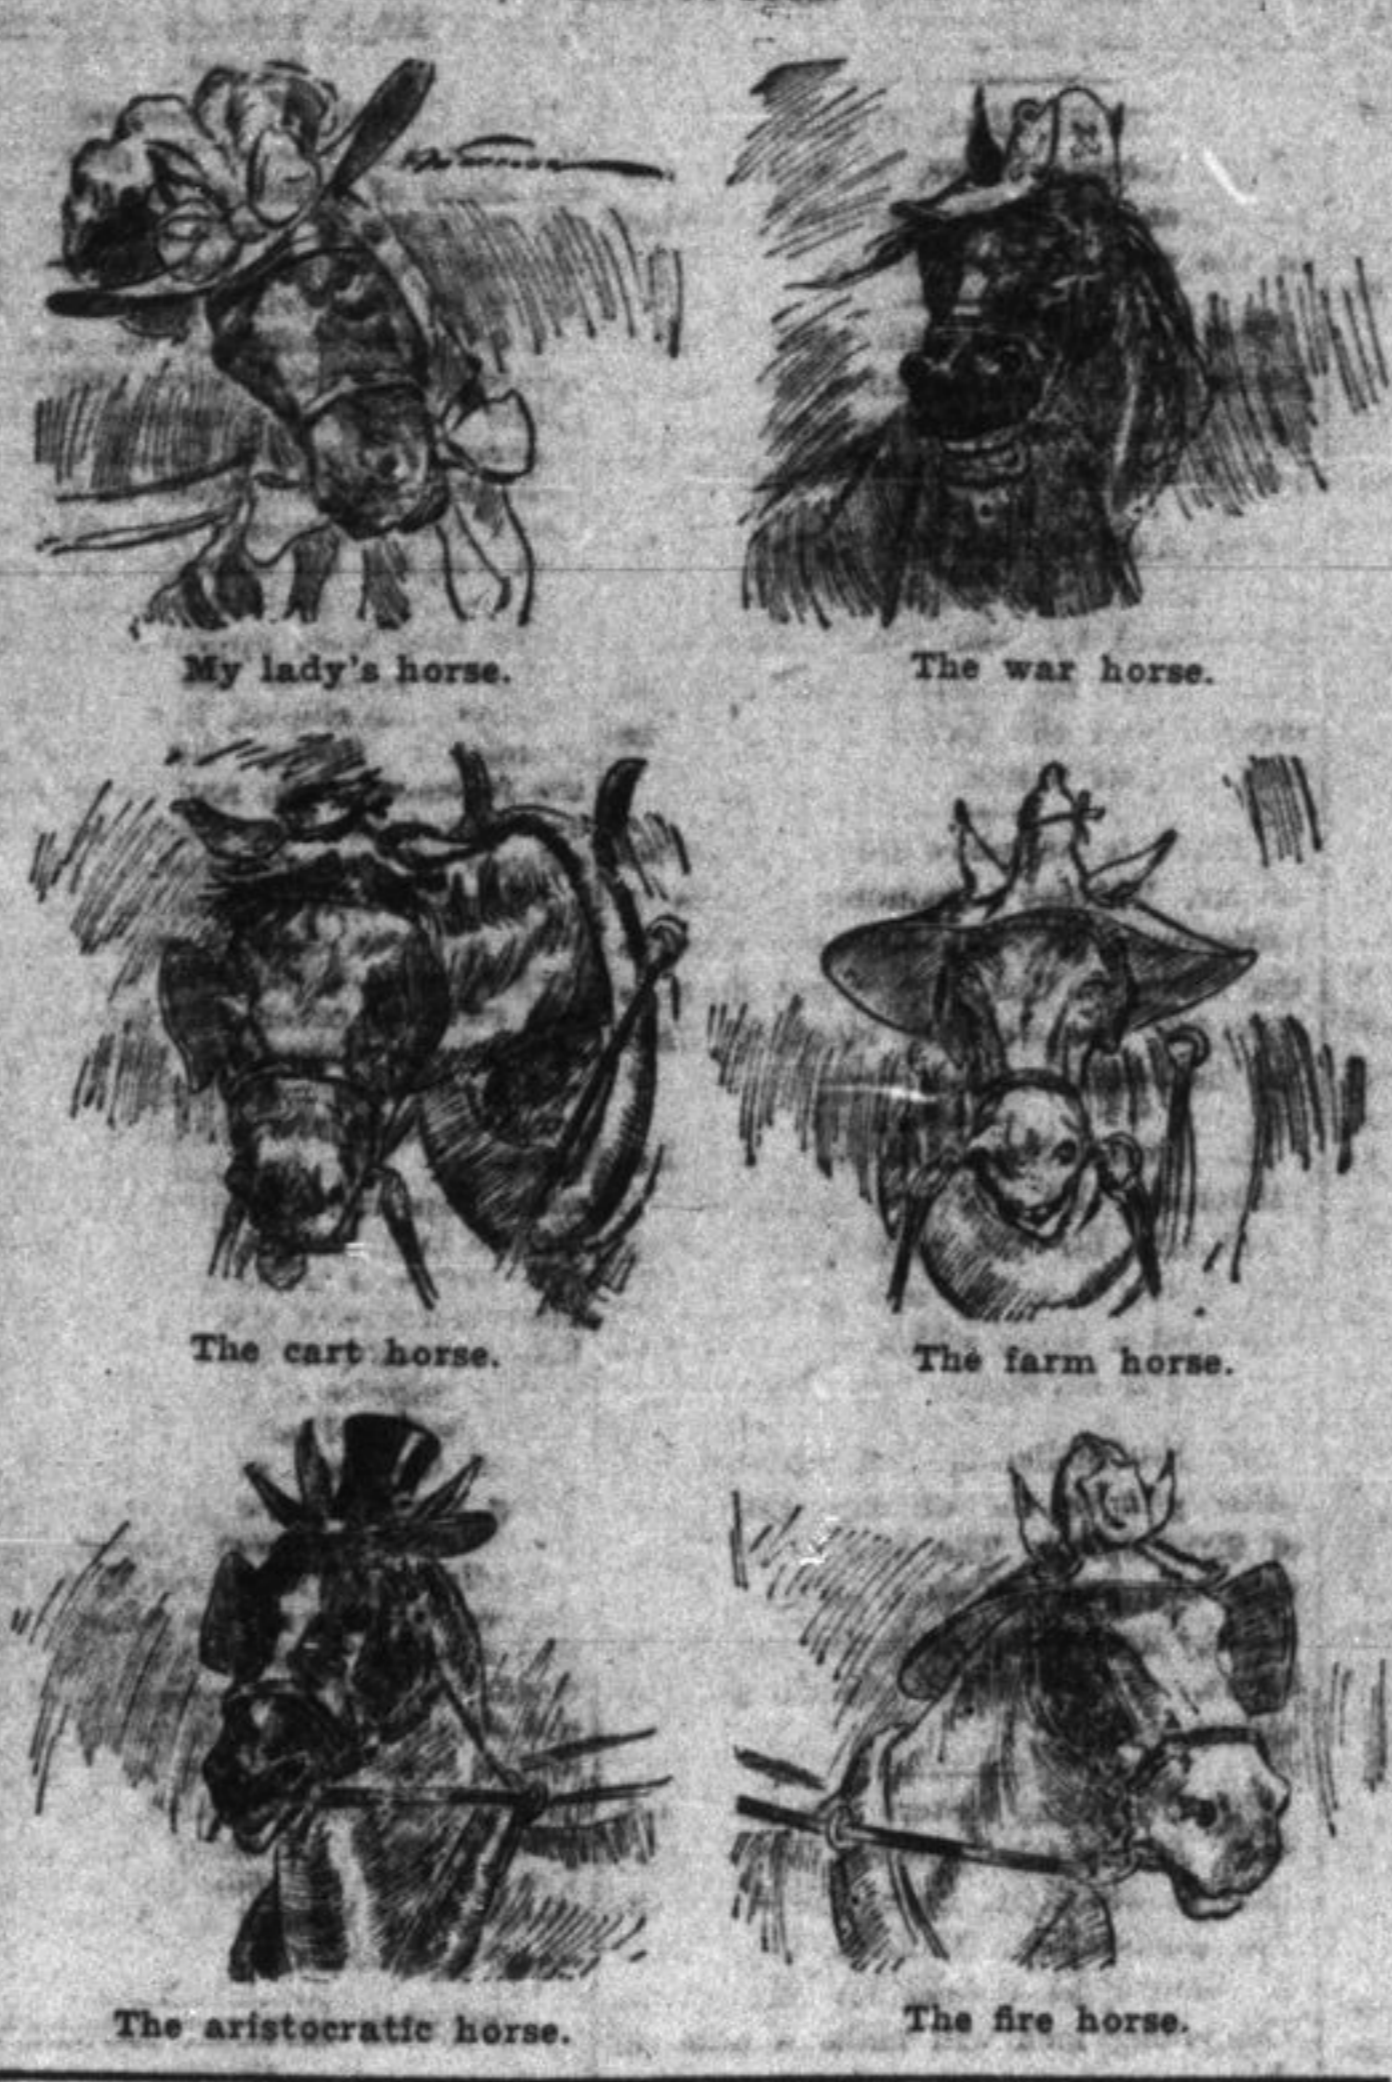

Boys and girls with such a start in life as they always receive from Paine's Celery Compound, grow up as sturdy and true life; they are fair to behold; they make the men and women most needed by our country.

READ THIS RECORD.

Of the Ontario Liberal Government in Thirty Years.

Crown Lands. It has collected a revenue of \$31,701,278 since 1872—an average of over a million a year.

It has granted, sold or leased 4,851,396 acres of agricultural and mining lands since 1872.

The population of New Ontario has increased by 1,209,819 since 1871.

It has surveyed 340 townships, of which 171 are free grants and 47 sale townships.

It has sold, since 1872, 5,152 1/2 square miles of timber lands for \$6,523,127, or an average bonus per square mile of \$1,268. Dues are \$1 and \$1.25 per M feet; ground rent \$3 per square mile.

It has created three parks—Niagara Falls, Algonquin and Roadway, and three Forest Reserves—Tennanami, the Eastern and Sibley.

It has built 5,292 miles and repaired 14,346 miles of colonization roads, and built twenty miles of bridges in New Ontario since 1872, at a cost of \$3,336,743.

It has established a bureau of mines placed an advanced mining law on statute books, purchased two diamond drills, created summer mining schools, assisted in developing the nickel, copper, corundum and other industries, and protected the prospectors and miner.

It has encouraged iron mining and steel reached a value of over two millions in 1901.

It has prohibited the export in a non-manufactured condition of pine saw logs, pulpwood and hemlock bark out on crown lands.

It has increased the dues on pulpwood from twenty to forty cents per cord.

It has perfected a fire ranging system that is admittedly the best known.

It has explored extensive agricultural and timber areas in northern Ontario.

It has assisted in the opening up of New Ontario by means of land grants and bonuses to colonization railways.

It has maintained a progressive policy in connection with the pulpwood industry.

The pulpwood agreements entered into call for the investment of a minimum sum over \$5,000,000, the employment of at least 2,449 men, and the erection of seven large pulp mills.

It has created a bureau of colonization, which is assisting in settling New Ontario.

It has protected the rights of the public in the valuable crown water powers.

A Popular Candidate. Harrington, May 13.—Rev. Mr. Spence, Bath, occupied the pulpit here Sunday afternoon. Many attended the reopening service at Harzowith yesterday. Freeman and Blackhurst are drilling a well for the Charleford mill company, Kingston. J. M. Robertson spent last week with friends about Sibleyham. Visitors: J. N. Balloch, Sharbot Lake, visiting at J. Taylor's; Mr. and Mrs. Huffman at J. Caracallin's; N. O'Brien, at J. Lake's; W. J. Shibley, liberal candidate, is very popular, which will be proven on election day.

A Little Guest Arrives. Glenora, May 12.—Late showers of rain have greatly improved the pastures and fall grain. Mrs. Gowdy filled the pulpit in the Friends' church recently. James Wilson had a leg on Saturday raising a tent to his barn, which was blown down by the wind. A little guest has arrived at the home of Manly Timmerman, Samuel Gowdy, Spewoc, is at Sandford Leman's.

Farks In Beautiful Condition—Some Arrivals.

Thousand Island Park, May 12.—These beautiful park weather still continues. On Friday night it was quite hard, destroying plants and shrubs that were well advanced considering the backward spring. There are few arrivals yet, the unusual cold weather being the cause. The new steamboat dock is about completed, and will give more accommodation to the steamers. The various boarding houses are open, but are doing no business.

The park looks splendid in its overall condition, intermingled with millions of flowers of variegated hues, and many of the trees are leaved out. Captain Ira Campbell, of this place, in charge of the steamer St. Lawrence last year, will command Holden's famous yacht "Lotus Sinker" this year. Captain E. G. Robbins has leased the Pullman House for a term of years, and is now fitting it up for business. W. P. Newton, postmaster of this place, has purchased the Fine View store from Horace V. Moore. Mr. Moore will continue to manage the store for some time.

The Fine View hotel is open and ready for business. Clarence Fox Lafargue will have charge of the boat livery. J. L. Butterworth, Syracuse, is fitting up his cottage on the Lodge. The schooner Cornelia brought a load of coal for the Columbian New arrivals: Mrs. H. Childs, Syracuse; Mrs. H. M. Lee, and Mrs. W. Graves, Syracuse; A. B. B. Waterbury, E. E. Otis, Syracuse; Elder Kinney and family, Florida; Elder Andrews, Syracuse; W. H. Scott and family, Canandaigua, N.Y., are occupying their cottage on the cliff, near the entrance to the Narrows.
