

**DISEASE GERMS IN WALL COVERINGS**

In these days when small pox and other contagious diseases are so prevalent, the question of how to insure a healthy condition is one of great moment.

**PREVENTING ALL GERMS** that wall paper with its porous coloring matter and mouldy paste is necessary to the health of the family. This is evident not only from what they say, but from the fact that the walls of hospitals are never papered.

**ANOTHER POINT**, however, is that the walls of a room should be healthy must be healthy that wall paper and paint should wall paper.

**THE BIG POINT** is that Germs' Cold Water ALBASTINE has none of the disadvantages of other paper, paint or wallpaper, but all the advantages of a pure, porous, cement-like wall-covering that hardens with age, and can be removed or added to as necessary to renew.

With ALBASTINE the most beautiful effects can be produced; anyone can do plain tiling. Write for free book of instructions about how to decorate. Mention this paper.

ALBASTINE is for sale by Hardware and Paint Dealers everywhere. Never sold in bulk. Practical men, ask your dealer for free color "Two Good Things," or address

**The Problem**

JUST because you can get a second-hand wheel for ten dollars less than a new one—is that an excuse? A second-hand wheel is dear at any price. Now a good wheel

costs one third what it did three years ago, and it's three times better every way. Is it wise to buy an old wheel? That's the problem. You have the fact—

**"CLEVELAND"**

is one of the best wheels made, and it doesn't cost any more than a poor one.

**GOOD WORDS OF ROPE**

TO ALL WHO SUFFER FROM A RUN DOWN SYSTEM.

Mrs. Harriet A. Farr, Fenwick, Ont., Tells How She Obtained a Cure After Suffering for Two Years.

Thousands throughout this country suffer seasonally from general debility—the result of impoverished blood and shattered nerves. To all such the story of Mrs. Harriet Farr, widow of the late Rev. Richard Farr, Fenwick, Ont., a lady well known throughout the Niagara district, will point the means of renewed health. Mrs. Farr says: "For a couple of years prior to 1899, I was a great sufferer from a run-down system. My digestion was bad; I had little or no appetite; I was in a very poor state; I suffered from heart palpitation and a feeling of continual exhaustion. Doctors' treatment failed to benefit me and I gradually got worse until I was finally unable to do the least work. I then began using Dr. Williams' Pink Pills and from the very first I noted an improvement in my condition. The severity of my trouble gradually lessened and by the time I had taken eight boxes I was again enjoying the best of health despite my sixty years. I believe that Dr. Williams' Pink Pills saved my life and would strongly urge all sufferers to give them a trial, believing they will be of great benefit."

When your blood is poor and watery, when your nerves are unstrung, when you suffer from headaches and dizziness, when you are pale, languid and completely run down, Dr. Williams' Pink Pills will promptly restore your health by renewing and enriching the blood. They are a prompt and certain cure for all troubles having their origin in a poor or watery condition of the blood. But only the genuine cure and these bear the full name, "Dr. Williams' Pink Pills for Pale People." Sold by all dealers in medicine or sent post paid at 50 cents a box or six boxes for \$2.50, by addressing the Dr. Williams' Medicine Co., Brockville, Ont.

**FATHER FALLON'S ESTIMATE.**

Tribute He Pays To Late Principal Grant.

Ottawa Journal.

In response to the Journal's request, Rev. Dr. Fallon, O.M.I., head of Holy Angels college, Buffalo, sends the following appreciation of the life of the late principal Grant:

"It were ever true in the history of education that individual character, unending energy and the power of personality built up a great institution from humble beginnings, it is so in the case of the late principal Grant and the educational establishment with which his name for so many years has been and forever will be inseparably connected. Only those who know what Queen's was twenty years ago, and who fully understand what Queen's is to-day, can realize the stupendous results of one man's efforts. Poor in student body, poor in professors, poor in endowment, poor in buildings and equipment, poor in intellectual life and influence, was the Queen's university of which principal Grant was given charge. He has left it one of the greatest, richest and growing countries. He lifted it from a mere local, sectarian college into the honored position of a national university. His work increased its students five-fold; tripled its staff of professors in numbers, and inevitably enhanced their power as centres of intellectual influence; erected a collection of splendid buildings with appropriate equipment; and—greatest service of all to the national welfare of the province of Ontario—restored his university at a critical moment from being swallowed up in the disastrous project of centralizing all higher education in the state-controlled university of Toronto.

"It is no unfair reflection on the ability, the energy or the devotedness of the excellent body of men who preside over the different departments of Kingston's university to say that, for the country at large, the name of principal Grant was synonymous with that of Queen's. The principal was wedded to his work with his whole heart's strength and with all the powers of his mind; for Queen's he lived, and it is not too much to say that for Queen's he died. What Sir Daniel Wilson was to Toronto and Sir William Dawson to McGill, that in a more fundamental sense, principal Grant was to Queen's.

"There were many points in principal Grant's career from which even his warmest admirers might reasonably dissent; with respect to these we should not unreasonably refuse to be considered in accord. But as a successful educator and as a true Canadian we are not apt to soon look upon his like again. Queen's and Canada owe him a heavy debt of gratitude. For almost a quarter of a century he has been a powerful agent in arousing intellectual activity, in developing the best features of national character, and in promoting the higher forms of intelligent patriotism."

**IRON-OX TABLETS**

**A VERY SUDDEN DEATH**

At Napanee—A Wedding To Take Place Soon.

Napanee, May 17.—A very sudden death occurred in North Fredericksburgh on Thursday, May 15th, when Mrs. Mabel Arvilla Files, daughter of Levi Post, died at her father's residence, after but a few hours' illness. Mrs. Files came home from Brownville, N.Y., on Saturday to visit her parents. She was but twenty-two years of age.

John Platt, Brighton, has purchased the interest in the Paisley house from A. E. Douglas, which includes furniture, fixtures, etc. The new proprietor will take possession on the 22nd June. Mr. Platt is an experienced man, and will no doubt keep the reputation of the Paisley house where it has always been.

W. N. Gordiner left yesterday for Peterboro, where he has secured a position in the electrical department of the General Electric company. W. A. Daly moved this week to the newly-fitted house on John street, formerly owned by D. S. Warner. J. B. Dale is erecting a new verandah around the east side of his residence, Thomas street.

Mrs. J. Gibson will move shortly into her new house on Thomas street, near the Roman Catholic church. A generous friend presented her with the deed of this neat little house.

Invitations are out for the marriage of Miss Georgie J. Jamieson and Dr. Ralph Waldron Huffman on Wednesday, May 28th, at the residence of her uncle, Thomas Jamieson, John street. Thomas H. Whelan expects to leave in a day or two for Fernie, B. C., where he has a lucrative position with a mining firm. Messrs. George B. and James Thomson have purchased the paper mill at Thomastonville, near Camden East, and will fit it and run it as in the past. They are practical men, well known to the trade.

**THE MUD THAT CARSCALLEN THREW AT REIFREW**

Accusations That Have Been Quickly Disproved For Every Shade of Politics Have Borne Testimony to the Man's Worth.

Huron Times.

The Huron Journal, of May 5th, thus reports Mr. Carscallen's speech, at the nomination of the conservative candidate at Renfrew:

"Now the liberal party has been making promises. Mr. Ross made promises, but he has not found it convenient when the time came to fulfill these promises. This alone is sufficient reason to turn him out. In the matter of temperance and prohibition, Mr. Ross had one arm around the temperance men hugging them, while the other hand was in the pockets of the liquor men for funds to keep him in power. The speaker then took up principal Grant's advocacy of Mr. Ross, and anything he does. The principal is continually knocking at the door of parliament for grants to Queen's university, and in return he is supporting every bit government of Ontario. He supported Sir Oliver Mowat, the late Mr. Hardy, and now he is supporting Mr. Ross and the reformers. When Sir Wilfrid Laurier went to London in 1897, he had no title, but the queen insisted he should have a title, and so she chased him all round London till he was forced to accept the honor. Now which the duke of York came to Canada last fall he hunted up principal Grant, who was then in his bed ill and gave him a title. How did the duke find principal Grant? How did he hunt up the principal any more than any of the rest of us? Simply because the principal's friend, George W. Ross, whispered to the duke, saying that his friend, principal Grant, who was ill just then, was longing for a knighthood. And so the duke hunted up the principal. Now the principal is paying back Mr. Ross for all those favors. Dr. Potts, of Victoria university, is another dear friend of premier Ross, evidently for reasons similar to those which are actuating principal Grant."

Since that ungenerous speech was made by Mr. Carscallen, principal Grant has been borne to an honored grave. Canadians of all shades of politics, residents of every province in the dominion, have united to bear testimony to his worth. But the slander uttered by Henry Carscallen a few days ago stands in cold print. He alone among Canadians was mean enough to charge that Dr. Grant sold his vote and influence in Ontario politics to the liberal government for "grants to Queen's university," and for a title. He applied his slander to Rev. Dr. Potts, who is yet living, as well as to principal Grant, who is dead. Mr. Carscallen, however, will remember Mr. Carscallen's Renfrew speech when they go to the polls on May 29th.

**Dr. Pitcher PERMANENTLY CURES A C. P. R. BRAKESMAN.**

Two Years Ago Wm. Reynolds, Havelock, Ont., a Well-Known C.P.R. Brakesman, Suffered so From Lumbago That He Could Hardly Move.

Dr. Pitcher's Backache Kidney Tablets Made Such a Complete and Permanent Cure That He Hasn't Had a Twinge of Pain Since.

A. C. Denike, The Havelock Druggist, Vouches For The Accuracy of The Statements Made.

There are very few people in Havelock, Ont., or vicinity, who do not know William Reynolds, the popular C.P.R. brakeman, whose picture appears here.

"About two years ago he was laid up with a very severe attack of lumbago, which caused him excruciating pain, so that to stoop over or turn in bed was agony. There was a dull, nagging aching in the small of my back continually, and to stoop or to assume an upright position after sitting was extremely painful. This was not the only time that I suffered that way; my case was becoming chronic, and the remedies that formerly gave me relief did not help me now in the least. I found, though, that as soon as I started taking Dr. Pitcher's Backache Kidney Tablets they helped me at once. They removed the whole trouble. I have neither pain nor lameness now. I cannot say too much for them, and I heartily recommend them."

(Signed) WM. REYNOLDS.

**Mr. Reynolds' Statement, May 31st, 1900.**

This is what William Reynolds had to say about Dr. Pitcher's Backache Kidney Tablets, on May 31st, 1900, just after he was cured:

"I had lumbago so bad when I got Dr. Pitcher's Backache Kidney Tablets from A. C. Denike, the druggist, that I could hardly move. It was most painful to turn in bed. There was a dull, nagging aching in the small of my back continually, and to stoop or to assume an upright position after sitting was extremely painful. This was not the only time that I suffered that way; my case was becoming chronic, and the remedies that formerly gave me relief did not help me now in the least. I found, though, that as soon as I started taking Dr. Pitcher's Backache Kidney Tablets they helped me at once. They removed the whole trouble. I have neither pain nor lameness now. I cannot say too much for them, and I heartily recommend them."

(Signed) WM. REYNOLDS.

**Mr. Reynolds' Statement, March 29th, 1902.**

When our representative called on Mr. Reynolds recently he did not hesitate to speak in the highest terms of Dr. Pitcher's Backache Kidney Tablets, and the permanent cure they had made in his case. Said he: "I have never had any return of that lumbago and kidney trouble which attacked me so severely in the spring of 1900. Dr. Pitcher's Backache Kidney Tablets made a complete and thorough cure then, and I have never been bothered since."

**Endorsement Of A. C. Denike, Druggist.**

Although anyone who knows Mr. Reynolds would not doubt his statements for a moment, still, for the benefit of outsiders and strangers, we give the confirmatory statement of A. C. Denike, Pharm. B., the well-known druggist and optician of Havelock, who sold Mr. Reynolds the Tablets.

"I am acquainted with William Reynolds, brakeman on the C. P. R., and know that about two years ago he suffered greatly from lumbago and kidney trouble. He purchased Dr. Pitcher's Backache Kidney Tablets from me, and claims that they were the means of curing him, and I believe this to be the case. I understood from him that since Dr. Pitcher's Tablets cured him he has had no return of the trouble."

(Signed) A. C. DENIKE.

We would ask you to bear in mind that Dr. Pitcher's Backache Kidney Tablets are not a patent medicine or "quick" remedy, but the formula of the eminent kidney specialist, Dr. Zina Pitcher, who for years occupied the position of professor of Materia Medica and Genito Urinary Diseases in Michigan College of Medicine, Detroit, Mich.

They give prompt relief and permanently cure backache, lame or weak back, bloating, swelling of the feet and legs, Bright's disease and diabetes (except in the last stages), gravel, brick dust deposits in the urine, scaling or irritation, frequent calls during the day or night, catarrh of the bladder, high-colored and foul-smelling urine, dribbling, cloudy urine, rheumatism, heavy feeling or pain in the head, mist or specks before the eyes, unnatural drowsiness, sense of weight on the loins, in the region of the bladder, kidney weakness of old people and children, kidney troubles of women and all forms of kidney disease or derangement.

The Tablets are small, chocolate-coated and easy to take. One Tablet a dose. Fifty Tablets in a bottle. Price 50 cents, or three bottles for \$1.25, at all druggists, or sent by mail. The Dr. Zina Pitcher Co., Toronto, Ont.
