Garnish For Solid Meats of Poli-Toronto Globe.

Premier Ross is evidently in his hest form these days. No public man in the dominion knows better how to garnish the solid meats of politic with the watercress and peppermint fun. In the introductory passages of the Midland meeting he said : "You have sent Mr. Miscampbell to us a good many years. I do not know whether he did you much good or not. He didn't do us much good do us much harm. (Laughter.) perhaps you would not elect him and he has gone to fairer fields, and I go not think they are go ing to elect him there from what

Another muntily jocular series sentences were these; "Of course we have been in power for thirty years That is no fault of ours (laughter) you have kept us there, and we were willing to stay, and we are unwilling to go if the majority of the people wish us to remain. We are the me goeile government vou ever saw-(r newed laughter)-if you want us will serve you, if you don't want we don't want to serve." The eas humor of this must be appreciated by
