

May Heaven Help Despondent and Hopeless Sufferers From Kidney Disease to Accept the New Life Offered by Paine's Celery Compound

The Great Medicine Cures Bright's Disease, Diabetes, Nephritis and Albuminuria.

Thousands of people suffer through a living death from some form of kidney disease. In the majority of cases, the poor sufferers have been informed by physicians that there is no hope.

If you are a victim of kidney disease, take courage. There is a mighty saving agent that you have not yet called to your aid and it is Paine's Celery Compound.

You may, perchance, ask, "What all this Paine's Celery Compound do for all these other diseases, have failed to accomplish?"

Paine's Celery Compound will accomplish vastly more for you in your distress than you can imagine. Its first great vitalizing effect is the purification of the blood from waste matter, the result of decomposition of the tissues.

In addition to all this Paine's Celery Compound will establish nerve force and new nerve fibres; it will restore the weakened system and restore the full vital functions of the kidneys.

"Market Opinions" of people long trained in financial matters, are of great value. They represent the consensus of values from expert and experienced financiers.

"Daily Market Letter" is compiled each afternoon by such experts, containing with accuracy and brevity the movements of the market.

ROCHAMBEAU'S MEMORY. Honored by the Unveiling of His Statue.

Washington, D.C., May 21.—Tribute was paid to-day to the memory of Jean Baptiste de Rochambeau, the second de Rochambeau, when the Hamar monument to the illustrious patriot and general was unveiled in the presence of the president, his cabinet, a distinguished delegation representing the French government, and many other prominent guests.

Both addresses were sincere eulogies on the character of the hero and the courageous qualities of the hero whose statue served to inspire the sentences.

The president and his cabinet, together with the French visitors, were escorted to Lafayette square by a considerable number of troops.

The countess Rochambeau had the honor of pulling the cords that loosed the drapery of French and American flags concealing the monument.

The statue unveiled to-day is a replica of the one by Ferdinand Hamar, which was unveiled at Hamar, France, two years ago.

AN INDEPENDENT ESTIMATE. How the Toronto Sun Regards Outlook.

The Weekly Sun has been referred to as Goldwin Smith's paper, because he writes for it. Well, the Sun, May 21st, has been sizing up the political situation, and with this result:

What Do You Think? Quebec has a debt of over \$22,000,000; Nova Scotia a debt of \$2,713,392; New Brunswick a debt of over \$2,751,086; and British Columbia, a debt of about \$8,000,000.

MUCH FOOD IN FRUIT SKINS. NUTRITIVE QUALITIES SAID TO BE BRAIN FOOD.

Besides Possessing Other Healthful Qualities—Why Various Vegetables Are so Wholesome.

There are more nutritive qualities hidden in the skins of fruits, cereals and vegetables than the average person is aware of. In fact, the great bulk of the brain building foods are in the skins of the fruits and vegetables we eat.

If, as Savarin says, "the destiny of nations depends on their food," then the destiny, whether a healthy long life or insanity or suicide of every unit of the United States depends on how he or she is fed.

If the bread so much depends upon food, why should not every person capable of normal thought seek to procure such food as best sustains his or her normality?

It has been proved by chemical analysis and demonstrated by microscopic experiments that the most valuable brain sustaining properties are resident in all skins of cereals, fruits and vegetables, and as an instance of the great difference to the health resultant from partaking or rejecting the skins here is an incident that occurred in India, as told by an Indian officer:

A regiment was stationed in a part of the country where grapes were the chief article of food. The officers, one after another, became so sick as to be invalided as unfit for service, but it was considered remarkable that the troops were all well a commission of inquiry was instituted when it was found that while every trooper in eating grapes swallowed the skins of the grapes, the officers should swallow the skins, which was done, with the result that they immediately recovered.

Real Estate Men are Gradually Getting Most of the Old Time Superstitions which used to cause us much trouble, said a dealer the other day. The number of houses which cannot be rented or sold on account of being haunted or because some terrible crime was committed on the premises is rapidly decreasing.

Old Delusions. It is inexplicable how the old delusion that a man cannot eat one meal a day for thirty days holds its own. Any man can eat one meal a day for thirty days. At Lawrence some years ago Will Upton ate two meals a day for more than thirty days.

The "Big Dipper." In astronomy the "Big Dipper" is called, in the constellation of Ursa Major, or the Great Bear. The stars forming the tail of the bear also form the handle of the dipper. The first star in the handle is Benetnasch, the second Mizar, the third Alkoth. The other four, which go to form the bowl of the dipper, are Megrez, Phad, Merak and Dubhe. The two last named are called "The Pointers," because they point or guide the eye to the pole star, which is distant 29 degrees. The top bowl stars are 10 degrees and the bottom ones 5 degrees apart.

A Red Lot. Nowitz—Yes, old Goodman's three boys are a bad lot. Two of them at least ought to be in jail for the robbery of the bank. The third one, Nowitz—Yes, he's already there.

Roasting Comfortably. "It wa'n't warm, but it was peacful," says the man who lived in the chicken coop because his wife's relatives lived in the house. Thus the satisfaction of the mind transcends in importance the mere comforts of the body.—New York World.

We Wasn't Disturbed. Canvasser—"Don't let me disturb you, sir." Busy Merchant—"I won't, William. Show the gentlemen out."—Chicago Tribune.

LIVING IN LONDON. It Is Not a Good Place For a Man of Small Income.

An American who in the classical language of his country is at present "boasted" in London wants to know whether any city in the world is quite so biggishly as our town. He has been going the round of the London restaurants and has encountered in the management of them a spirit which distresses him.

There are more nutritive qualities hidden in the skins of fruits, cereals and vegetables than the average person is aware of. In fact, the great bulk of the brain building foods are in the skins of the fruits and vegetables we eat.

It has been proved by chemical analysis and demonstrated by microscopic experiments that the most valuable brain sustaining properties are resident in all skins of cereals, fruits and vegetables, and as an instance of the great difference to the health resultant from partaking or rejecting the skins here is an incident that occurred in India, as told by an Indian officer:

A regiment was stationed in a part of the country where grapes were the chief article of food. The officers, one after another, became so sick as to be invalided as unfit for service, but it was considered remarkable that the troops were all well a commission of inquiry was instituted when it was found that while every trooper in eating grapes swallowed the skins of the grapes, the officers should swallow the skins, which was done, with the result that they immediately recovered.

PENILESS AND REJECTED. J. J. Kell, Who Answered Matrimonial Advertisement.

Oswego, N.Y., May 21.—Peniless and with his dream of love, happiness and a home shattered, J. J. Kell, of Richmond, Va., applied to charity clerk Kelly for work and funds to carry him back to the south. Kell answered a matrimonial advertisement and corresponded with a wealthy widow of this city. Every mail carried messages of affection to his sweetheart, and he received pledges of undying love in return.

His conclusion of the whole matter is that "London lives by imposing a fixed tariff on the accessories that in every other city I have ever been to are thrown in gratis." He thinks that a gentleman is one of the most expensive professions an Englishman can have. He declares it to be an utter delusion that London is a cheap place to live in. "For the poor man," he says, "the man whose income is less than \$200 a year, there is no city where less can be had in the way of comforts and even the necessities of life. In New York it is only the luxuries that cost.

Gen. Wheaton Disapproves of the Sentence. Manila, May 21.—A military court recently convicted Arthur Howard, alias Waller, of desertion and sentenced him to death. There were various stories about this man. It was said that he was an American soldier in a California volunteer regiment.

Howards said that he was born in England; that his father was an Englishman and his mother a Spaniard, and that he went from Hong Kong to Manila in 1898 and that Aginaldo made him his chief of artillery.

Gen. Watson has disapproved of the sentence on the ground that the identification was not complete and because of Howard's recent services to the American government in the field, when he acted as a scout under Gen. Bell in Batangas against the insurgents.

JOYVILLE JATTINGS. Joyville, May 23.—The dredge Ri-dean and the same jolly crew have again made their appearance at the same old spot. Bert Donaldson, absent for three years, is now home.

Vote for substance, not for shadow, for deeds not words, for work accomplished, not promises in other words, for Ross, not Whitney. Read the coronation article in today's issue.

PAIN IN YOUR BACK? A Trial Bottle of the World's Greatest Kidney Cure. Sent Absolutely Free to Every Reader of the Whig Who Suffers from Kidney, Liver, Bladder or Blood Disease, or What is Commonly Known Among Women as "Female Weakness."

IT IS YOUR KIDNEYS! Thousands of Men and Women Have Kidney Disease and Do Not Know It Until It is Too Late. THIS SIMPLE TEST WILL TELL!

Put some morning urine in a glass or bottle; let it stand for twenty-four hours. If then it is milky or cloudy or contains a reddish brick-dust sediment, or if particles of germ float about in it, your kidneys are diseased. This is the supreme moment when you should begin to take Warner's Safe Cure to arrest all these unnatural conditions, for they are the unmistakable symptoms of kidney disease. If, after you have made this test, you have any doubt in your mind as to the development of the disease in your system, send us a sample of your urine, and our doctors will analyze it and send you a report with advice for your relief.

WARNER'S SAFE CURE CURES KIDNEYS

Dr. Leo Vogel, 1123 Pratt Ave., Rogers Park, Ill., says: "I purchased WARNER'S SAFE CURE and find it cures all cases of kidney and bladder troubles and also female weakness; it induces sleep, and gently yet vigorously drives the disease out of the system, thus restoring health quickly and permanently."

Miss Mary Bonark, 38 Thomas Ave., Memphis, Tenn., Vice-President of the Women's League, writes: "WARNER'S SAFE CURE has cured me of rheumatism which I have had for several years. I have had no rheumatic pain since I took WARNER'S SAFE CURE."

George Deamus, 154 Fifth St., Cincinnati, Ohio, Major of the Christian Volunteers, says: "I had gravel and inflammation of the urinary tract, and after years of suffering and needless expense I took WARNER'S SAFE CURE and it cured me. I have had no return of the disease since I took WARNER'S SAFE CURE."

As you tired? Low spirited? Weak and flabby? Have you a constant dripping ache in the small of your back? Have you chills? Soreness and pain when you urinate? A frequent desire to urinate? Are you troubled with sleeplessness? Have you headache? Is your appetite bad? Do you find your food does not nourish your body and make your blood rich and red? Have you a bad taste in your mouth in the morning? If you have any of these symptoms your kidneys have been diseased for a long time, for kidney disease seldom puts out such symptoms until they have been working several months and the tissues have been eaten away with the disease. You have every reason to be alarmed, and you should take Warner's Safe Cure at once. You will find full directions with each bottle. Warner's Safe Cure is guaranteed to cure any form of kidney trouble, Bright's disease, diabetes, uric acid poison, inflammation of the bladder, rheumatic gout, liver complaint, female weakness and irregular periods (female weakness and irregular periods are caused by kidney disease neglected), too frequent desire to urinate, gravel, stones in the bladder, blood disease, indigestion and headaches. All these diseases originate in the kidneys. If the kidneys were healthy and strong, so that they could perform their work properly, there would be none of these complaints. WARNER'S SAFE CURE is purely vegetable and contains no narcotics or harmful drugs; it contains no arsenic and is pleasant to take; it does not constipate. Sold by all druggists, or direct, at \$1 a bottle.

WARNER'S SAFE PILLS move the bowels gently and aid a speedy cure. Before substituting. There is no "just as good as" Warner's. Insist on the genuine Warner's Safe Cure, which always cures. Substitutes contain harmful drugs which injure the system.

TRIAL BOTTLE FREE. The manufacturers so firmly believe that WARNER'S SAFE CURE will absolutely and permanently cure any diseased condition of the kidneys, liver, bladder or blood, they will send postpaid, without any cost to you, a large trial bottle, if you write Warner's Safe Cure Company, 44 Lombard St., Toronto, and mention having seen this liberal offer in the Kingston Whig. Write the medical department for advice, medical booklet, diagnosis and analysis, which will be sent you free of charge.

The town of Quezaltenango, Guatemala, having a population of 25,000, is said to have been totally destroyed by an earthquake of forty-five seconds duration. Pineapple marmalade at Redden's.

Nowitz—Yes, old Goodman's three boys are a bad lot. Two of them at least ought to be in jail for the robbery of the bank. The third one, Nowitz—Yes, he's already there.

Roasting Comfortably. "It wa'n't warm, but it was peacful," says the man who lived in the chicken coop because his wife's relatives lived in the house. Thus the satisfaction of the mind transcends in importance the mere comforts of the body.—New York World.
