Merchants Did A Big Trade. The merchants all did a splendid business yesterday—the best in years. and it was with a cheerful countenance that to-day they paid their promised subscriptions to the Victoria day celebration committee. The stores, especially in the forenoon, were crowded. There were over 5,000 visitors in the city, and while some of them spent scarcely anything, the great majority blew themselves. The average expenditure would probably be 85 each. By this reckoning, \$25,-000 was expended in the city as a result of the celebration. It must be remembered that, in making this calculation, many of the visitors spent two or three days in the city.

The fiberal government of Ontario has been able, true, economical and wise during the past quarter of a century. It would be just as sensible for the Grand Trunk railway shareholders to dismiss Mr. Hays, who has made a paying concern of what was formerly a ghastly financial failure, and replace him with an untried man whose record as a railway manager was against him. Forty-four received the rite, twenty-one males and twenty-three females.
