"I always buy from George Mills & Co."

This day in the world's history: Toronto celebrated a premature report of the death of Frederick Douglass, 1802; Charles II. died, 1685; Empress Josephine died, 1814; Simpson born, 1835; Earl of Halifax died, 1715.

The third and fourth chairs designed a much slighter distance. The latter stands hard by the coronation chair behind the altar screen of Westminster Abbey. In general appearance it is considerable similarity between the two of them; but the modern of the latter is lacking in the beautiful ornamentation of its parent, and, of course, it possesses no sacred significance of its own. It was constructed in 1814, by Martin (the sculptor), 3,461; Neill (conservative), 3,093; Tripp (socialist labor), 20.

West Toronto-Crawford (conservative), 4,309; Kelly (socialist), 279; Urquhart (liberal), 2,732; Kelwood (labor), 79.

South Wentworth-Dickenson (liberal), majority 308; Pettit (temperance candidate) got only 87 votes.

East Hamilton-Carscallen (conservative), 2,532; Gordon (socialist), 370; Griffin (liberal), 2,442.

West Hamilton-Hendrie (conservative), 2,427; Washington (liberal), 2,250; Roadhouse (socialist), 182; Colquhoun (independent conservative), 99.

### A Change Reported.

The World's summary is liberals, 52; conservatives, 45; not reported, 1. The constituency returns to be heard from in that Manitoulin Island communication with which is defective. The Globe credits Algoma to the conservatives, while the Mail and Empire has Huron in the conservative column. The latter returns from West Huron give the election in that constituency to Cameron, liberal, by sixty-one majority.

South Kentworth-Latchford (liberal), majority about 900, with three polls to hear from.

East Durham-Full returns give J. J. Preston (conservative) 995 majority.

Dufferin-Dr. Barr (conservative), 1,059 majority, with one poll to hear from, which will increase majority to over 1,200.

### Another Liberal Gain.

North Grey result in doubt. Both sides claim it. May, most likely to hear from in that majority.

South Perth-Stock, sixty-seven majority; still one poll to hear from.

Addington-Reid (conservative) 565 majority as far as heard from.

Centre Bruce-Albion in the hands of the conservative majority of seven.

Manitoulin-Latest returns show Gamey (conservative), elected by 100 majority.

Algoma-Smith (conservative) 300 majority, with three polls to hear from, which are expected to increase the majority.

South Lanark-Complete returns give Matheson (conservative) majority of 82.

North Ontario-W. S. Hoyle (conservative) elected by 156, two polls to hear from, which gave a reform majority of twenty-two last election.

Lennox-N. change in the figures, Madole (liberal) two majority.

South Huron-Eilber (conservative) elected by fifty-three majority.

North Bruce-Complete returns give Bowman (liberal) 280 majority.

### The Press Views.

The Globe, commenting on the results of yesterday's elections, says that the majority for the Ross government is smaller than is desirable, but the indications are that it will grow. It also says that the parties are so nearly equal in strength that, as after the elections of 1898, immense importance will be attached to the bye-elections.

The Mail and Empire says that, at present, the situation is similar to that revealed immediately after the last general election in that the government has a small majority, but the accounts may show it to be a vanishing majority.

### KEEP DIRT FROM OUR BUTTER

Van Horne Repudiates Any Morgan C.P.R. Connection.

Toronto, May 30.—"We are not going to have any of their dirt in our good butter" was the reply of Sir William C. Van Horne, when asked if the Morgan syndicate was endeavoring to control the C.P.R. He was not at all pleased over the unfounded rumors connecting the two concerns, and added: "The C.P.R. is a business of itself, not connected with any other, and not meddling with any other."

He was pleased to notice that the people of Canada were awakening to the fact that in the C.P.R. they have something of value, and of substantial worth to the country."

### SMALLEST TRAMP STEAMER.

Has Travelled Between P.E.I. and West Indies.

Charlottetown, P.E.I., May 30.—Chas. Elliott has the distinction of possessing the smallest tramp steamer in America, the Elliott. This little craft, built of wood, nine years ago, has travelled thousands of miles between Prince Edward Island and the West Indies, besides visiting American ports. She is only 227-ton register and is 147 feet 4 inches long, 25 feet broad, 12 feet deep, and draws 10 feet loaded. Her boiler was the result of disaster to another vessel. When the latter's career was ended the owner of the Elliott bought the machinery, and built a steamer to fit it. The Elliott reels off ten knots steadily, is economical of coal, and behaves well in a heavy sea.

## A THREE DAYS' LIMIT

Has Been Placed On This Boer Commandants To Decide

THE BRITISH CABINET CONFIRMS ITS TERMS.

Think Peace is Assured—May Make Concession as to the Bearing of Arms—Other Good Terms Likely to be Offered the Boers.

London, May 30.—Gen. Kitchener's censor allowed messages to leave Pretoria yesterday morning announcing that Steyn, Schalkberg, Delarey, Dewet and others from the Boer assembly, at Vereninging, left Pretoria yesterday to further confer with the burghers there. Their departure, a full day before the latest cabinet meeting was held, is regarded as showing that yesterday's meeting of the British ministry confirmed their previous statement of terms and that the Boers had received until Saturday to either accept or to reject them.

The news means that the question of peace or war is again transferred to the commandants, who alone will decide. A three days' limit has been placed on their councils.

The newspapers are unanimous in interpreting Mr. Balfour's statement to mean that peace is assured, and that the Boers will be allowed to vote for members of the legislative council has been decided, is not indicated. The fate of the other principal questions debated by the Vereninging conference is unknown, but the public is prepared to hear of an important British concession in the matter of the right to bear arms.

The Standard's parliamentary correspondent quotes an eminent Boer as saying that the government has abandoned the banishment proclamation issued in South Africa in the case of those Boers who are now prepared to take the oath of allegiance, and also that it will be found that the government is ready to place several influential Boers on the council which will advise governor Milner during the period before the introduction of representative government.

A despatch to the Times, from Pretoria, says that unless the Boers suddenly veer round and adopt an unreasonable attitude, there is good reason to hope that they will soon give notice of their acceptance of the British terms. The Times, editorially, explains that the foregoing applies to the Boer leaders, who are responsible, experienced men with something to lose, it expects that the commandants will be met among the command delegates, but says it is unlikely that they are in a majority. In any case they will not hereafter secure the active assistance of those desiring peace; at the worst, England may count upon an immense reduction in the forces of disorder while at the best she can hardly hope all at once to get rid of the lawless element.

It is understood that the government is in receipt of an official communication from South Africa, intimating that the Boer minority, from whose irreconcilable attitude so much was feared, in other words, will agree among other things to a general surrender, carrying with it the loss of independence. Certain minor details only, which should not effect them, in question, remain to be settled.

### Management Vindicated.

Cape Town, May 29.—The Cape Times prints an article with the United States consul vindicating the management of the concentration camps. The consul says: "I believe that if my countrymen should investigate the question they would not be led astray by designing men making false statements to get their sympathy and their money, which they are sending to me to buy comforts for the women and children in the concentration camps."

The consul states that the occupants of the camps have declared themselves, without exception, satisfied. They are well cared for, well clothed, and well fed. He favors saving the money sent for their relief in order to purchase cows for the Boers after the war.

### THROWN INTO BED OF FIRE.

Daring Robbers Brutally Torture Wealthy Farmer.

Ansonia, Conn., May 30.—In an attempt to force him to confess where he had secreted his money, robbers brutally tortured William Baldwin, a wealthy farmer of Orange, Baldwin reported to the police that the robbers beat him about the head, burned his feet with a torch, then threw him on a blazing bed while they escaped. He succeeded in extinguishing the flames and then fell unconscious, in which condition he was found by neighbors. The robbers secured \$15 which they found in the house.

### MAY COME TO BLOWS.

Rebellion in the South Interferes With Tonguin Trade.

Pekin, May 30.—The native newspapers published here assert that France has notified China that the intervention in Kwang Si province is interfering with her Tonguin trade, and that unless it is suppressed before July France will take steps to protect her interests.

### New Pearl Pedoras.

As usual we have the largest assortment, newest styles and best values in pearl and sate color pedoras, for summer wear. Campbell Bros.

## CONVICTS DIE OF POISON.

Seven Drink Wood Alcohol; Three Dead.

Rockland, Me., May 30.—Craved by thirst for liquor, seven convicts in state prison at Thomaston drank freely of a bottle containing wood alcohol, and as a result three are dead and four in a condition which is very critical. The dead are Thomas Corn, who was serving a two and a half year sentence for breaking, entering and larceny; W. E. Collin, who was serving ten years for compound larceny; and Hovey Wylley, serving two years for larceny.

The men found a pint bottle of spirits in the paint shop, where they were employed, on Wednesday afternoon, and although they had been warned of its deadly properties each took a drink. The spirits had been used in the paint shop for cleaning nickel.
