

Your Doctor Will Tell

THAT THE ACIDITY FOUND IN THE STOMACH IS DUE TO THE PRESENCE OF OXYGEN.

It gives so much pleasure to inform you that I have been successful in curing a very severe case of acidity from which I have suffered for over four years. I tried many remedies but none gave me any relief. I had used your preparation for pills, and I was cured after taking three bottles, and this was no mistake. I consulted with Dr. Fowley.

MRS. OCTAVE LARSON, MONTREAL. My husband's health was so poor that I had to take him to the hospital. I had been told that I was a "nerve case" and that I should be treated as such. I found that your medicine was the only thing that did me any good. I am now well and happy.

IF YOU HAVE \$3.50 And want to invest in a pair of SWELL OXFORDS we are the people you want to see. They don't make better ones than ours at \$3.50.

M'Dermott's SHOE STORE. Strawberries, Pineapples, Bananas.

A. J. REES, Princess Street. Phone 55.

PUL-MO WILL CURE difficulty of breathing, tightness of the chest, wasting away of flesh, throat troubles, consumption, coughs, catarrh, colds, pneumonia and pleurisy.

THE CITIES CELEBRATING

NEWS OF PEACE GIVES GREAT JOY.

Toronto and Brantford Are Making Merry—Bands and Processions on the Streets—The Schools Closed.

Toronto, June 2.—The city has a gala appearance to-day in celebration of the return of peace. Flags and bunting are seen everywhere and at noon a royal salute was fired at the armories by the field battery. Unofficial salutes in the form of giant firecrackers are being fired at every convenient street corner.

Brantford, June 2.—The news that the Boers had signed the peace documents has received here on Sunday afternoon. It was immediately communicated to mayor Wood and pastored in the different churches. The two evening papers issued special at six o'clock this morning, giving the particulars received up to 3 a.m. Soon flags were flying in all directions and whistles were blowing. Business is entirely suspended this morning, and large processions, headed by bands, are marching through the streets and the sound of the fog horn is heard in every direction.

A GOOD ADDRESS Delivered in Queen Street Church By Prof. Pike.

Prof. Pike, of Queen's, preached in Queen street Methodist church on Sunday morning and gave quite an original and stirring address on "The Good Shepherd." He was decidedly Methodist and orthodox in his treatment of his subject. He strove to magnify the love of God in Christ Jesus. His first expounding of the three parables in the tenth chapter of St. John's gospel, showing their intimate connection with what preceded and remarking upon the perfect relevancy and coherence of its contents in view of the purpose of the writer. The shepherd was Judaism—but there were other flocks—the porter was Christ the Light; those leaders who, deriving light and life from Him identify themselves with the sheep, remembering that they exist for the people and not the people for them, bring help and benefit to the race. In the allegory of Christ as the door the Pharisees, who had excommunicated the blind man for seeing more than they were permitted, were ingross and egotistic or from true christianity or "Judaism of the spirit" was by Jesus alone, and he whom Christ admitted no man could exclude. Then our Lord was considered as the Shepherd. Since creation man has fallen low to need a shepherd and to be likened to a lost sheep. God planned a different status for him and would have been his companion not his partner. The confessions and love of God are great in that, though disappointed, He forgave not man but stooped to shepherd him. The duty of the sheep is to obey; obedience lays at the foundation of true discipleship. The word shepherd is recognized in that He knows and is known by the sheep, with the deep knowledge that exists between the Father and the Son. He has the welfare of the sheep at heart, lays down His life for them and does all in obedience to a Father's will. As we are drawn to love the good Shepherd, we shall feed His sheep for every christian is called to be a shepherd and if all be ministered unto no one of the sheep will be missed.

Enterprise Notes. Enterprise, June 2.—Selwyn Vanest, Ernesville Station agent, visited here on Saturday. Peter Vandewater, Centreville, was here Saturday. The two Misses Bell, Desmond, visited town on Saturday. The Sons of Temperance picnic was well attended last Saturday. The ladies provided a good dinner. Alfonso Wagar returned home on Thursday. The streets were pretty well crowded last Saturday night with the farmers from the surrounding vicinity. A. G. Davey was to Napanee last Saturday. Sunday visitors: Mr. and Mrs. Henry Wagar, at Altona Walker's; J. Switzer's family, at J. Wagar's. A few of our sports took a trip up to the quarry camp Sunday afternoon. J. F. Lockhead, Kingston, is the guest of his mother-in-law, Mrs. M. P. Walker. Rev. Mr. Weatherill occupied the Methodist pulpit last Sunday morning, and Charles Lockwood, charge of the prayer meeting at night. Mrs. W. Johnson returned from Kingston hospital last Saturday. Miss May Weatherill is steadily gaining in health. Alfred Wagar was here on Sunday.

Sad and Sudden Death. On this (Monday) morning Mrs. Richard Draper, of Glenburnie, aged eighty-six years, rose in her accustomed good health and began to dress herself. While sitting on the edge of the bed she suddenly collapsed; death had come in deepest disguise. The shock to her family was very great, especially as one of the greatest of blessings, a good mother, had been taken away. The deceased, Miss Buckley, had been married in Glenburnie in 1822 to her lately deceased partner, and had been one of the social landmarks of the town. Two sons and two daughters have been born. Richard, John and Helen Draper, of Glenburnie, and Mrs. Shortall, of Pittsburgh. The funeral occurs on Wednesday morning.

Will Prosecute Them. Game inspector Brickwood announces that he will prosecute anyone who shoots or in any way destroys any of the pheasants in this district. George Nicol, Cataract, imported a number of these birds, and some one is evidently attempting to exterminate them. Severe punishment will follow their discovery.

The music in Queen street Methodist church yesterday was above the average. The anthem and duet in the morning were well rendered by Mr. Shea and Mrs. Fraser. In the evening Miss B. Tandy gave a pleasing solo.

STYLISH SPRING COSTUMES.

New Tablier Front—A Graceful Visiting Gown.

A particularly graceful visiting gown is of a soft shade of blue cloth. The yoke and the lower part of the sleeves are of buff embroidered chiffon, while the front of the skirt, the bodice, the bertha and the extensions from the yoke to the left are applied with graceful scrolls for which Corticelli silk is employed. The lower part of the skirt is ornamented with several

wide tucks. This model fully emphasizes the fact that the tablier front is to be well represented among the new gowns not alone those intended for afternoon, but for evening wear, as well. It will perhaps interest our readers to know of a recently imported skirt in which the tablier front was pre-eminent. It is cut in four divisions, each one bias and shaped to give the necessary flare. Each section is shirred to the other with tiny upstanding frills and the lower one spreads out in a very full flounce. The skirt joins the tablier at either side and the edges are finished with ruffles of narrow black velvet ribbon three or four strands carried from one to the other all the way down.

INCIDENTS OF THE DAY.

Newspaper Paragraphs Picked Up By Reporters On Their Rounds.

Waterproof caps, new yacht caps, 50c., at Bibby's Oak Hall. Ripe red strawberries, fresh every morning at W. J. Crothers'. The Royal military college examinations began to-day. Flags are flying all over the city to-day in honor of the peace proclamation.

Archibald Stewart, of the Club hotel, has returned after spending a few days in Parham. Because of illness Mrs. Evans has resigned as soprano soloist in Queen street Methodist church. Arthur Mayell, wife and son, of Toronto, are guests of Mr. and Mrs. E. P. Jenkins, University avenue.

The annual meeting of the Thousand Island steamboat company was held at Cape Vincent this afternoon. T. McNabb, Lethbridge, Alberta, an inspector of the mounted police, is spending a few days in the city. Canon Burke, of Belleville, spending a holiday in Kingston, preached at St. George's cathedral yesterday. To-morrow the steamer Rideau Queen takes a Watertown, N.Y., excursion party through the Rideau. The annual meeting of the Thousand Island steamboat company was held at Cape Vincent this afternoon.

Several of the street railway employees left this morning for Belleville to bring the street cars of that town to Kingston. John Richardson, liberal member for East York, visited Kingston on Saturday to see a brother, Rev. Mr. Richardson, who is ill. Miss Meggitt, who met such a tragic death at Brantford, was formerly milliner for the late firm of Richmond & Co. Free & Litton have taken the contract for the entire work in connection with the new Roman Catholic presbytery on Wolfe Island.

How is your opportunity to buy all drug sundries, rubber goods, pen-pencils, brushes, at half regular prices. Roche's old stand, E. C. Mitchell. The 47th band will parade about the city to-night, winding up at the market square, and will play selections in honor of the peace proclamation. The 4th Hussars, Kingston, may not go to Niagara, this year, on account of the cost of transporting them there, in which case they will drill in their own locality. Congratulations to the newly appointed in Montreal diocese: Archdeacon Evans to be dean, Rev. Dr. Norton to be archdeacon of Montreal, canon Ker to be archdeacon of St. Andrew's.

Alone. Corn A. Matson Dolson in The Era. She had not any word to say. There was no one who would help her. For one minute in life's young day. When five had seemed so good to her. She walked from the street door. And kept her eyes locked in her heart. A woman's deep, sacred memory. So all alone walked she.

DR. C. E. O'CONNOR. Late resident Surgeon, New York, Eye and Ear Infirmary. Specialist, Eye, Ear, Nose and Throat. Office, 279 King St.

Bishop Mills administered confirmation at Brockville on Sunday. On Tuesday he leaves for Belleville to attend the annual convention of the women's auxiliary. Coronation caps, 50c. Bibby's Oak Hall.

REV. MR. HICKS' HOROSCOPE

WEATHER PREDICTIONS FOR MONTH OF JUNE.

A Stormy Period Is On The Programme For The First Five Days—What Balance Of The Month Will Be Like.

Rev. Mr. Hicks' forecasts for June are as follows: The regular Vulcan storm period is central on the 1st, extending to the 5th. The presence of the Mercury disturbance will prolong the Vulcan period, causing cloudy, threatening and rainy weather, perhaps, into the reactionary storm, central on the 6th and 7th. The moon will be in perigee, or nearest earth, on the 5th, and at the north extreme and new moon on the 6th. These facts are sure to increase the tendency to high temperatures. Fluctuating barometric pressure, storms and very likely seismic unrest in many parts of the earth. Not only June, but the whole summer of 1902 will be characterized by alternations of great warmth and especially in the central and northern with many more electrical storms, and attended with more precipitation than last summer. The annual tendency to electric and seismic disturbances from about the 10th near the end of June will be increased, and the month by the causes enumerated above.

At the Vulcan storm period, central on the 13th, and covering the 9th to 16th, an excess of lightning with many thunder squalls, and similar places of increased activity, with localities, with scattering tornadoic storms and seismic disturbances, will be most natural. We caution our readers against taking refuge from thunderstorms under trees and similar places at this and all other periods, especially in June. Heavy hailstorms, and marked sudden changes to very cool, may be regarded as certainties in many sections especially in the central and northern northwestern parts of the country, from about the 11th to the 15th, centering on and next to the 13th, the date of the moon's passage over the central equator. A few days of increased rain in many localities will follow the storms of this central Vulcan period. During the 19th to 21st, inclusive, marked storm conditions will return. The temperature will rise to high readings, the barometer will fluctuate and fall, cloudiness and humidity will increase, and more storms or rain, thunder and wind will pass eastward over the continent.

All through this part of June there will be an abnormal tendency to constant and startling displays of lightning. As evenings come on great banks and cones of summer clouds, black, brassy, leaden and snowy, will hang all night, the horizon, each point of the compass being a regular magazine of nervous lightning, far in and through the nights. Let no one conclude that all this beautiful display portends danger and disaster. As the great solstice displays of electricity are harmless. Under the combined influences of the Venus equinox and the June solstice, thunderstorms and hailstorms will most probably be common several days in succession, so that the reactionary storms, beginning about the 19th, will most probably run into the regular Vulcan storm period, covering the 22nd to the 27th. This is the time when the central on the 24th, promises to be one of the most active, if not violent periods in the month. We name Monday, the 23rd, to Friday, the 27th, as a period of severe and prolonged perturbations, during which days the daily thunderstorms, beginning about the 20th, in most parts of the country, will reach their culminating stages in many storms of rain, hail, wind and thunder. Some of the greatest downpours of rain for the summer, amounting to cloudbursts in many quarters, may be reasonably looked for about this time. Continued showers, with local water-courses, probably here and there will entail great inconvenience and loss upon harvesters, while exposed structures and properties along narrow defiles and valleys are liable to severe loss and damage.

Moths. From this month on the cloth moth begins to appear, depositing its eggs in furs of all kinds, in woolen materials, and often in crevices in doors, closets and boxes. It always seeks quiet, dark places. Closets, drawers and boxes should be cleaned now. Take special pains to clean thoroughly each crack and groove. Buy at the druggist's a few ounces of the oil of cedar. With a small brush, such as artists use, apply the oil of cedar to all cracks and grooves in boxes and drawers and to the tops of doors and baseboards in closets, also around the crevices of the floors. Use very little of the oil. There must not be enough to soil anything that comes in contact with the treated surface. This treatment will make closets, boxes, etc., moth proof for some time, and if closed at once the contents will be perfectly safe through the summer and fall.

Australian Children's Council. Miss V. Goldstein of Australia, who has been commissioned by the government of Victoria to study American methods of dealing with dependent and delinquent children, says that in her opinion the best system yet devised for dealing with young culprits is the children's council of South Australia. The council consists of six men and six women. It has jurisdiction over all offenses of young people under eighteen, except murder or manslaughter. It meets, not in a court-room, but in its own office in a building devoted exclusively to children's affairs. The children are brought in one by one, and after the council has considered each case and decided what is best to be done about it, the judge makes the order in accordance with the council's advice.

Returned From California. Mr. and Mrs. J. S. H. McCann have returned from Los Angeles, California, and other points on the Pacific coast, where they enjoyed a six weeks' outing. Mr. McCann journeyed west to attend the supreme court meeting of the Independent Order of Foresters at Los Angeles. Afterwards Mr. and Mrs. McCann toured through California and British Columbia. They left Dr. and Mrs. Herald, of Kingston, at Vancouver, B.C., where they will remain for a short time. Mr. and Mrs. McCann came home over the C.P.R. stopping off for several days at Banff, B.C., where they visited the far-famed Canadian national park. They had a most enjoyable trip in the west.

A Royal Salute Fired. This morning Col. Montzambert, D. O.C., received a telegram from the militia department, ordering the flags to be raised to the masthead on all military buildings and on royal subjects to be fired, in honor of the peace proclamation. At noon, twenty-one guns from Fort Henry boomed forth.

Big Increase in Customs Duties. Customs duties at the port of Kingston for May, 1902, amounted to \$12,180.16, an increase of \$4,619.92 over the same month last year. The increase in April was \$2,151.68, and in March \$3,236.41, over the corresponding month of a year ago.

The steamer Pierpont is in Davis' dry-dock receiving repairs. The steamer America is on the island route for a couple of days.

STATS ASLEEP.

Wealthy Farmer Puzzles Physicians, Who Fear He Will Die. Windsor, June 2.—Physicians are much puzzled over the case of John Redmond, of Anderson, a wealthy farmer, fifty-four years old, who fell asleep nine days ago, and has not awoken since. All efforts to restore him to consciousness have been unavailing. Redmond walks in his sleep, drinks frequently, but eats little or no food, which causes the doctors to fear for his life.

Tuberculosis Discussed. New York, June 2.—The conference of the American congress of tuberculosis, which was postponed from last month, began its sessions to-day at the Hotel Majestic. There were present to take part in the discussions eminent physicians and surgeons, health authorities and other interested persons from nearly every part of the United States and Canada. The sessions are to continue three days, during which time the subject of the dread disease, its prevention and treatment, will be discussed from every point of view. Particular attention is to be paid to recent discoveries of so-called cures for the disease and also to the subject of government aid in the establishment and maintenance of institutions for scientific treatment.

Returned From California. Mr. and Mrs. J. S. H. McCann have returned from Los Angeles, California, and other points on the Pacific coast, where they enjoyed a six weeks' outing. Mr. McCann journeyed west to attend the supreme court meeting of the Independent Order of Foresters at Los Angeles. Afterwards Mr. and Mrs. McCann toured through California and British Columbia.
