THE BOARD OF TRADE MEN CONGRATULATED.

A Patriotic Address Cut Short by a Call To Order-The Subject Of Imperial Defence Wgrmly Debated.

Toronto, June 6 .- When the conference of boards of trade met this morning the members congratulated each other on the fact that the pavilion, in which last night's great banquet was held, had not taken fire while the banquet was in progress. If it had so rapid was the destruction of the building, which was entirely of wood and glass, that a panic could not have been avoided.

When business was begun chairman Ames called for W. F. Cockshutt. Mr. Perrault said that this was his

Mr. Pattullo, Woodstock, favored a general resolution favoring the mak- after which the Americans banqueted ing of a definite provision for the defence and protection of colonial trade at home and abroad and declaring that the government keep in ernments with that end in view, as which was packed with interested hearwell as to the end that the colonies lers should in time of common danger contribute to the strength and integ- ing, finished the discussion on rerity of the empire.

Capt. Coulson, St. Catharines, de clared that the military spirit was altogether too widespread. After further debate the Montreal motion that it was the duty of the dominion as an important division of the empire to participate in the cost of the general defence of the empire, and therefore, that an annual appropriation should be provided in the dominion budget for this purpose to be expended as the dominion government may direct, was adopted by forty totes to thirty-two.

An amendment, by Mr. Pattullo, along the lines of his speech was defeated by thirty-four to thirty-six, as was one by Mr. Kemp, expressing the opinion that the time had arrived when a plan of naval and military defence should be considered that our military and naval estab-lishments should be under the control and direction of the parliament of Canada, whether for service at
