HERE'S A REMARKABLE CASE

TOLD BY ORLIN POST, OF GRUMIDGE, MANITOBA.

Suffered Greatly For Five Years From Rheumatism - Doctors and Many Medicines Failed to Help Him, But He Got the Right Medicine at Last.

From the Echo, Dominion City, Man. Recently while chatting with a reporter of the Echo, Orlin Post, a well-known farmer of Grumidge, Man., gave the following story of five years of great suffering from that most painful disease - rheumatism.

Mr. Post said: "There are few people, I can understand how much I suffered during those five years from the pains of rheumatism. There were times when I was wholly unable to do any work, and to nearly attempt to move my limbs caused the greatest agony."

Then I tried several advertised medicines, that were highly recommended to bring the longed for release from pain. As these medicines failed me one after the other, I began to look upon the trouble as incurable, and was almost in despair.

When such severe cases as this are entirely cured it is not surprising that Dr. Williams' Pink Pills have made such a great reputation throughout the world for the cure of other diseases due to poor or watery blood.

These pills are sold by all dealers in medicine, or will be sent post free at 50 cents a box, or six boxes for \$2.50 by addressing Dr. Williams' Medicine Co., Brockville, Ont.

Things Notable. Hot water drawn from an artesian well, is used to sprinkle the streets of Boise, Idaho.

The most expensive harbor in the world is Cherbourg, finished by Napoleon at a cost of \$15,000,000.

Denmark holds the record for consumption of spirits, one and a half gallons a year per head.

The emperor of China and the governor of India, taken together, govern more than half the population of the world.

Read in round figures, 300 through passenger trains, enter the six passenger stations of Chicago every day, carrying 40,000 strangers.

San Francisco's largest suburb, Oakland, obtains its electric force from a stream 150 miles away.

The first census of Russia took place in 1724, when the number of the inhabitants was set down at 14,000,000.

In the chief room of every Japanese house there is a slightly raised dais, which is arranged so that it can be shut off from the rest of the room.

THE CUNNING MOSQUITO.

It is Making Remarkable Progress in Its Education.

New Orleans Times-Democrat. "The man who knows that the mosquito cannot be educated up to the point where he is capable of doing some of the artifices of human kind is simply a fool," said a man who has been paying some attention to the habits of the insect.

New York, June 21.-The song of the summer girl is blithesome and free, for her heart is light with the gladness of new-found joys. Advance mid-summer fashions are upon us, only to add to the confusion of the woman who wants to be well-dressed, for though many are shown, few are chosen save by her whose purse strings are never-ending.

Next to the muffs and lawns for ordinary wear, are the limes, piques and ducks. A very smart jacket and skirt costume, pale blue, with a light trim, with a jacket of the same material, piped with butter color, forms a charming summer gown.

Whose Hand Was It? Ghostly Manifestations Coincident With a Tragedy.

Washington Journal. "It is sometimes possible," said a Washington gentleman who has given considerable attention to the investigation of spiritualism, "to receive natural causes the source of supposed supernatural sounds and manifestations."

The only daughter of an aunt of mine had been present at a musical dinner by the name of the "Maid of the Sea."

"One night after my aunt and niece had retired the former was awakened by what, as she positively declared, was the unmistakable impress of a human hand upon her forehead.

"The terrified girl was relating her experiences and sensations, the sound of music came from a closet in the far corner of the room, the door of which was open, and which she had just closed.

"The shrieks of terror brought the rest of the family, including myself, to their room. An investigation proved the strings around the mandolin case were tightly knotted and were intact. Upon opening the case, the mandolin and its strings were also found to be in perfect condition.

"On the following day it was learned that the professor had committed suicide in a fit of despondency, and at an hour which tallied with that when my aunt and niece had been so rudely awakened and the strings of the mandolin had been struck within its case.

"This instance I do not attempt to explain, further than to re-assert that the facts are as I have given them."

Pat's Prayer. Two Irishmen were over the ocean on a trip to Toronto, but while they were on the boat, Mike took sick and died.

When the sailors on board were going to lower him into the ocean they put some coal in a bag and Mike in with it to help it to sink.

Then they called Pat to offer up the prayer, and he said: "Lord, I thought Mike was a bad man, but I didn't think he had to take his bad down with him."

NEW YORK FASHION LETTER

DAINTY SUMMER CREATIONS FOR LOVELY WOMEN.

The Latest Modes for Summer Wear-Combinations That Are Pleasing to the Eye-How Some Chic Gowns Are Created.

New York, June 21.-The song of the summer girl is blithesome and free, for her heart is light with the gladness of new-found joys. Advance mid-summer fashions are upon us, only to add to the confusion of the woman who wants to be well-dressed, for though many are shown, few are chosen save by her whose purse strings are never-ending.

A little feature that is playing an important part in the accessories of fashion is the waistband, and one has to be very careful when glittering belts assail one on every side. Black and white, elastic bands decorated with cut steel paillettes are still being worn, but they are somewhat giving place to satin and lace bands, boned and fitted as carefully as a bodice.

Next to the muffs and lawns for ordinary wear, are the limes, piques and ducks. A very smart jacket and skirt costume, pale blue, with a light trim, with a jacket of the same material, piped with butter color, forms a charming summer gown.

Corticelli SPOOL SILK

FOR dressmaking and family sewing Corticelli Silk is the best silk made. For hand or machine use it has no equal.

Ask your dealer for "Corticelli" and politely but firmly refuse all substitutes which some clerk may say are "just as good."

If your dealer does not keep Corticelli Silk it is probably because he makes a little more money selling you some other brand.

As Corticelli costs YOU no more than poor silk, why don't you try it? Ask for "CORTICELLI" - the Dressmakers' Favorite Spool Silk.

CITY BUILT ON MUD.

Practically The Position of New Orleans. In the line of municipal progress New Orleans has had many of the problems to consider which are presented to any municipality, and she has had others peculiar to herself.

The situation of the city is itself peculiarly unfortunate, says a writer in Ainslee's Magazine. The other day I stood on a street in the heart of the city, the centre of the bustling American quarter, where the foundation for a new building was being put in.

I presume it was to be a building of considerable height, though there are few, very few, of the sky-scraping types in the city. As I stood there a pine trunk perhaps sixty feet in length was seized, rapidly swung upward and slipped into a tall framework standing high in air.

In an instant a steam hammer was pounding away upon it, and in two minutes and ten seconds from the first blow, as my watch recorded, the pile was driven down until its end was even with the surface of the street.

The pile was simply pushed down into the mud and clay as a child might force a lead pencil through a pan of dough. The foundations of the city must be laid in mud and clay.

In all the newer sections of the city rapidly developing into a beautiful residence portion, the land is mud and water until drainage sets in. So far as I have heard, there are not more than two cellars in the entire city. Practically all the bodies of the dead are buried above ground.

Collins Bay Breeces. Collins Bay, June 18.-Rev. Mr. Wellwood preached his farewell sermon on Sunday evening. A number from our village attended the service.

The Women Read Advertisements. In speaking of the relative importance of newspaper and other advertising the Indianapolis Sentinel notes that "the newspaper goes into the home where it is read by every member of the family, that the woman, especially, needs an invitation to scan the advertising columns, although they may pay no attention to posters or circulars."
