1 p.m.-An agreement between the strike committee and the directors of the street railway company has been reached, and only awaits the formal signing. The cars, it is announced will be running late this afternoon. 1:30 p.m .- The street car strike settled. At noon A. E. Ames and J. W. Flavelle, of the board of trade, an nounced that an agreement had been reached on all the main points in dispute and that the strike was prac tically settled. The agreement which conceded the eighteen cents asked for first year men and twenty cents for all men over one year's service, will be formerly signed this afternoon and cars will be run later in the afternoon. The claim of the men for a grievance committee will be partially recognized and a committee of employees will stand as an intermediary between employees who think themselves wrong fully dismissed and the company. The union will not be recognized in this matter. The company offered seventeen cents for first year men, nineteen for men up to five years' service, twenty from five to ten years and twentyone cents after ten years. Adverse To The Action. Ottawa, June 23,-The militia aun calling the Toronto soldiers Niagara to quell the street car riots. Aside from the question of the fitness of the men for the particular service required the authorities deem it in udicious to call on civilians to interfere in a matter of such exclusively local interest in which their fellow citizens are concerned. Col. Buchan acted properly in calling out the troops before notifying headquarters that being the order of procedure in an emergency, but had headquarters been consulted first it is probable that a battery would have been sent from Kingston. An order will likely be sent to Col. Buchan ordering use of gallery practice ammunition on ly as the regular ammunition is likely to cause too great havoe if used. In nocent people, blocks away might be killed and besides it would penetrate houses. Gallery practice ammunition could not penetrate boards, not carry any great distance.

Toronto Mob Stops Cars. Toronto, Ont., June 22,-The first attempt made to-day by the Torooto street railway to run their cars with men hired to take the places of the striking motormen and conductors

was met with violence. Only one effort was made to reoper traffic and the temper shown by the strikers' and their sympathizers convinced the officials that, it would be impossible to run cars without strong protection. It was therefore decided to appeal to the authorities for troops and suspend operations until their arrival to-morrow morning. tables were the weapons adopted by the strike sympathizers to prevent the

The crowd called upon the crew to desert the car. Their refusal to do was followed by a shower of stones and bricks. Every window in the car was smashed and the crew left their posts and ran into the barn.

Such a demonstration evidently had not been anticipated for there was no sign of adequate police protection, a solitary officer who appeared being unable to do anything with the mob. It is part ly a reply to the letters of the operators, declining to accede to the demands of the union, which were pub-

lished about ten days ago. Briefly summarized, the address strike; claims that the cost of living has increased to the point where the miner was compelled to ask for higher wages; denies the allegations of the operators that the productive capacity of the mine workers had fallen off, but, on the other hand, has increased, and says that in the event the union is crushed, which, it adds, is not likely, a new organization would rise from its ruins. It concludes with another appeal for arbitration of all questions in dispute.
