Heavy news reports on June 21st: Crop news is generally favorable. Grain has fallen one large cent since the 19th, and the condition of corn is excellent; wheat is improving and cotton holds its own well.

The principal cloud in the business situation is the labor outlook. Costs of manufacturing have risen so high and selling is so often done at a high figure, threatening to lessen consumption, that intelligent business men are exercising caution in making contracts.

Death From Chickens.

That cats can spread both scarlet fever and diphtheria among humans has been a well-settled fact for some time, and now it is thought that chickens are often responsible for the presence of diphtheria. KINGSTON FIELD BATTERY

OFFERED TO AID IN PROTECTING TORONTO LINES.

The Arrival of the Forces From London and Niagara—Happily the Militia Will Not Be Required at All.

Toronto, June 23.—The company made no attempt to operate cars this morning, the civic authorities having notified the officials that no protection could be given until the cavalry arrived from Niagara.

The men of the city infantry regiments mustered at seven o'clock, some 670 strong. They were held in the armouries as a reserve force. The cavalry began to arrive at 5:20 o'clock the first train bearing the London Hussars, 166 strong. They were deployed at the cattle market and marched to the armouries. The second train, with the 2nd Dragoons, arrived at about nine o'clock, and took a considerable time to detain, the unloading facilities for the horses being poor. The third train, with the governor-general's body guard, and mounted rifles, on board, had not been reported in at 12:30. The intention was to move the cavalry at one o'clock to the Yorkville barracks and to guard the cars if no settlement had been made.

Col. Buchan announced that the Ottawa authorities had endorsed his arrangement, and had offered, if necessary, to send the Kingston field battery to the marshalling yard, however, would be a last resort.

AN IOWA TRAGEDY.

U.S. Marshal Shot While Making An Arrest. Jefferson, Iowa, June 23.—One of the worst shooting affairs ever witnessed in this part of Iowa, took place on Saturday, resulting from an attempt to arrest Horace Shipman on a peace warrant. For some time the peace last evening a warrant was sworn out for Shipman and placed in the hands of marshal John Swearingen for service. Dr. G. H. Grinnell, Shipman's family physician, went ahead of the marshal to attempt to have Shipman surrender peacefully. Shipman agreed to this, but when Swearingen and deputy sheriff Fred Kendall appeared at the door he warned them not to come in under penalty of death. Swearingen, who had started to pull his revolver for the purpose of entering and Shipman fired a load of shot striking the marshal in the lower part of the face and killing him instantly. Dr. Grinnell and the deputy both fled, leaving the body of the marshal upon the porch. Sheriff Anderson went to the scene of the shooting, deputizing a dozen citizens to assist him. Hundreds of people gathered near Shipman's home and for three hours watched the battle. Five hundred shots were poured into the large two-story house, Shipman replying from windows, cellarway and door. The fire company was called out and James May volunteered to get a hose in the cellar and drown Shipman. May accomplished his work, but Shipman fired upon him from the cellar, causing him to retreat.

About ten o'clock Shipman appeared at a window and fifty shots were fired at him. It then became quiet inside and Shipman's body was found on the floor, full of bullets.

Only a high wind from a direction that would have carried the flames down, prevented the building from being fired.

In Honor of Founding of St. Jean Baptiste Society. Quebec, Que., June 24.—The grand and most impressive French-Canadian national demonstration ever held on the American continent took place this morning here, in honor of the sixtieth anniversary of the founding of the local St. Jean Baptiste society. The most important French-Canadian associations of Montreal, Ottawa and other Canadian and New England points were present.

There were about seven thousand people in the ranks, and the parade lasted over an hour, to pass a given point. After the parade, mass was celebrated in the open air in the historical spot where the Champin monument is erected. The papal delegate, Mgr. Falconio, was present, with fifteen other prelates. Lieut. BABIES WITH WORMS.

A Grateful Mother Tells How Her Little Boy Was Cured.

Mrs. A. Saave, Rowanton, Que., is another happy mother who thanks Baby's Own Tablets for the health of her boy. The little fellow became the prey of worms—that is, of children's worms. His rosy cheeks lost their color; his little legs and arms became skinny; his eyes lost their sparkle and he became sickly and peevish. His sleep was restless and feverish, and his food seemed to do him no good. His anxious mother almost despaired of seeing him back again to good health. However, she heard of Baby's Own Tablets, and gave them to her child, and now she says: "The Tablets made a wonderful change in my little boy. All signs of worms have disappeared, and he is now in the best of health. I can honestly say that Baby's Own Tablets have no equal as a cure for worms."

Baby's Own Tablets are a certain cure for all the minor ailments of little ones, such as constipation, colic, sour stomach, indigestion, diarrhoea, simple fever and the irritation accompanying the cutting of teeth. Guaranteed to contain none of the poisonous opiates found in the so-called "soothing" medicines. They are for children of all ages, and dissolved in water can be given with absolute safety to a newborn babe. Sold by druggists at 25 cents a box, or sent postpaid on receipt of price, by addressing the Dr. Williams Medicine Co., Brockville, Ont.

OBJECT TO ACT AS POLICE.

Colonial Troops Want Place in Coronation Procession. London, June 23.—From colonial contingents, angry protests are being registered. It appears that the war office arranged that all troops specially sent to the coronation shall, with the exception of the cavalry, be utilized to line the route of the procession instead of actually participating in it. As the major portion of the visiting contingents consists of infantry there has been repeated disappointment.

The governor-general of Canada, Lord Strathcona, and Col. Pellatt, in command of the Canadians, are doing their utmost to induce the war office to allow the colonial troops to take part in the procession as units, regardless of the arm of the service to which they may belong.

Besides the complaints of the colonials, several of the leading dailies are vehemently protesting against the special war coronation contingent, hurriedly sent by Lord Kitchener from South Africa, at the government's request, being detailed to guard the route instead of marching through the streets.

With all these protests the war office may perhaps relent and allow the colonial and the war contingent to take part in the coronation procession.

GERMAN ACTION IN AFRICA.

Johannesburg, Transvaal, June 23.—Considerable significance is attached to the action of the German community here in electing a committee, composed of prominent Germans, to assist in preparation for the celebration of the coronation. WATER CURE FOR LABORERS.

Were Rounded Up And Dumped Into River. Studenville, O., June 23.—The citizens of Mingo Junction used the Hippippus water cure on Friday, to rid the town of about fifty Wabash railroad laborers, who came here on pay day and spent their money. Since then they have been terrorizing housewives and many citizens have been annoyed by them. Citizens rounded them up in squads and rushed them to the river. They pushed them in and held them under water until they promised to leave. Several, including one negro, nearly lost their lives in the "water cure."

Which Had Been Purchased For South Africa. Montreal, June 23.—Major Dent, the British army remount officer, who spent some time in this country visiting the South African war, is here on his return to England, the purchase of horses having been stopped by the war office and the remount staff recalled. In fact there are 1,662 horses which have been purchased and which will not be needed, and it is the intention to sell them at the most convenient places such as Toronto, Montreal and St. John, N.B.
