Knapp, Sears and city engineer Kirk patrick. A number of accounts were presented and ordered paid. One go count, that presented by George Alexander for work done in levelling dirt at the city nuisance ground, was held over for future consideration.

John Daly, market lessee, presented a communication dealing with the question of market tolls. The lessee complained that since the introduction of a stove in the island market, farmers flock in there in winter time, thus cutting off considerable of the lessoe's fees

The committee took the ground that the complaint came in too late for action, as the lessee's term engs August 4th. Next year, however, the market tolls' privileges are sold the committee may take action to rectify the condition of affairs com-

The city engineer reported that the metal roof of the Ontario street hall was leaking and was sadly need of repairs. Ald. Graham moved that the committee ask for tenders for the painting of the roof. Sears moved in amendment that the committee purchase paint and engage men to paint the roof. This was with drawn and Ald. Graham's motion

The committee next discussed the puestion of painting the roof and dome of the city buildings. In connection a letter was received from a Montreal firm offering to submit samples of aluminum and other pain suitable for such work. On motion of Ald. Sears, the chair man was instructed to enquire into the privileges enjoyed by Miss Shana han, under her lease, in the island market, and to report to the committee. The chairman said that several citizens had spoken to him about leasing stalls in the island market. It is likely that the committee will decide that the island market be reserv ed for the use of islanders only.

The application of E. P. Brannigan, for a stall in the island market, was the next item of business brought up for consideration. Upon the sugges tion of Ald, Sears, this was left over until such time as the chairman re ported upon Miss Shanahan's privi
