A SANDSTORM IN COLORADO.

Does Million Dollars Damage In Melon Patch. San Francisco, July 9.—A sandstorm has caused damage estimated at \$1,000,000 in the Inyo valley on the Southern Pacific railroad in the Colorado desert. An artificial canal of 900 acres had been made by digging artesian wells and planted in melons. Judging by last year, when only six ty acres were in cultivation, a profit of more than \$100,000 would have been made. Three hundred car loads of melons for which \$1,200 a car had been offered, were almost ready for shipment when the storm broke. For three days it raged, with the thermometer 126 degrees in the shade, and when it was over every bit of vegetation had been destroyed.

KING EDWARD'S PLANS

Court Will Remain Till After Coronation

HIS PERSONAL INSISTENCE

HE WANTED TO HAVE THE WORK OVER WITH.

After The Coronation He Will Take a Long Holiday—The Ceremony This Time Will Be Very Much Curtailed.

London, July 9.—The news that the coronation of King Edward was to be held before the middle of August was published in the United States and Canada before it was known here. But the London Times and other papers this morning confirm the announcement. The pressing forward of the coronation was due to the personal insistence of the king. His doctors were at first opposed to such an early date, but the king declined to agree to any other plan, and he is now, and the doctors, finally realizing that more danger was likely to arise in opposing his majesty on this point, agreed to it. They now see that the king was right and that it is far better for him to get through the turmoil of the coronation as soon as possible than to have it hanging over him for months.

King Edward has determined not to break up the court at Buckingham palace until after the coronation. He may go on board his yacht for a few days' cruise, but he is more likely to remain in London till the affair is over and then take a prolonged holiday. Truth says that when the coronation is held only the royal family, a few relatives from abroad and the permanent ambassadors in London, representing foreign countries, will be present. There will be a procession from Buckingham palace to Westminster abbey and back, and nothing else. The functions will be limited to the actual day of coronation. The suggested August date was proposed in August in the holiday month for London residents.

BURIED CHILD IN EARTH.

Strange Russian Remedy For Lightning Strokes.

Wilkesbarre, Pa., July 9.—A child struck by lightning, apparently dead and terribly burned, was placed in a grave last night by Russians at Glen Lyon and half an hour later was taken out conscious and with no other effects of the lightning except the burns. It is alive and doing well. The strange custom comes from Russia and so much faith had the parents of the child in it that they were with difficulty persuaded to have the little one sent to the hospital.

A severe storm raged over the town and the house of John Hudock was struck by lightning. The bolt passed down the chimney and struck the child in the cradle, ranning down its body from the right shoulder to the left hip and then down the leg and across the chest, inflicting fatal wounds. The child was stripped of all its clothing, was covered with blood, its face earth, its head left froe. The rain poured vigorously, but a crowd stood about the grave praying. Half an hour afterward Dr. E. M. Davis reached the scene and found the child was conscious and suffering but little. It was taken to the hospital in this city and is likely to recover. The theory of the Russians is that the earth absorbs the electricity from the body.

TO DEVELOP CANADIAN LANDS

Company Will Promote Emigration To Northwest.

Des Moines, Iowa, July 9.—The Syndicate land company, with a capital of \$1,000,000 has filed articles of incorporation. The company has purchased and has options on millions of acres of land in Manitoba and Assiniboia, and propose to colonize and develop these lands as rapidly as possible. The land will be sold to the colonists in such a way that they will be able to pay for their homes in money and labor. Agents will be maintained in Iowa, Dakota, Kansas, Nebraska, Minnesota, and the other western states for the purpose of securing emigrants.

Becomes Mayor By Force.

San Jose, Cal., July 9.—Mayor Martin, city clerk Cottle, and the old council served notices on mayor-elect Worswick, clerk-elect Belloni, and councilmen-elect Hubbard, Murray and Matthews that they intended to hold their places on the ground that the election of May 19th was illegal and void. Worswick announced that he was the legally elected mayor, and ordered policeman Haley to remove Martin and Cottle from the council-room. Haley proceeded to do this amidst the greatest confusion, the room being packed. Martin resisted and was choked and carried out bodily. Cottle also resisted, and was dragged out. The crowd cheered lustily.

Accidentally Shot.

Owen Sound, July 9.—Robert, the thirteen-year-old son of J. W. Watson, Balanawa, was accidentally shot by another boy, named Wright, and lies in the hospital here in a precarious condition. Wright, handling a rifle, was in the woods when he discharged the whole charge entering the left corner of Watson's mouth, coming out close to the jugular vein. Eight colonial teams have entered for the Kalaroo match against the mother country, the highest number on record.

FORCED OPEN HER MOUTH

And Poured Paris Green Down Her Throat.

Colborne, Ont., July 9.—Isaac Lambert is under arrest, charged with murdering his wife. Lambert lived with his wife and three children at Hilton in Northumberland county, about twelve miles from here. His wife died some time ago under circumstances that led the neighbors to believe that she had been foully dealt with. MYSTERIOUS DISAPPEARANCE

A Keene Young Lady's Unaccountable Absence.

The village of Keene is excited over the unaccountable disappearance of Miss English, missing since Saturday night. Miss English, a niece of Robert English, general merchant, aged about twenty-three or twenty-four years, assisted her uncle in his shop, and was thus engaged on Saturday night. About ten o'clock she left the shop, and called at a dress-maker's, and was seen home by a young man with whom she is said to have been keeping company, and he left her safely on the verandah of her uncle's residence at 10:30. This is the last that has been seen of the young lady up to Tuesday, though most diligent search and enquiry have been made.

So far nothing has come to public knowledge that would account for Miss English's strange disappearance.

TIME FOR JUDGMENT

And Must Begin With Those Who Lead

DOWIE THREATENS BOOTH

CALLS SALVATION ARMY OFFICERS OPPRESSORS.

He Says The Attacks On Zion Are False And Calls Government Of The Salvation Army Under Gen. Booth Ungodly.

Chicago, July 9.—John Alexander Dowie is out after Gen. William Booth of the Salvation Army. He says that the general and his officers have said too many harsh things about Zion and that now, after suffering in patience, the time has come to strike back.

Dowie says in his "Leaves of Healing," published yesterday: "We have been slow to speak and still slower to write concerning the shameful attacks made upon Zion by Bramwell Booth, the eldest son of Gen. William Booth and the chief of staff of the Salvation Army."

"We have been slow to mention the fact that in the most shameful manner we have also been attacked by commissioner Railton, in charge of the Salvation Army in France, and by many other men whose statements made have been utterly and shamefully false, and we now declare them to be so, and shall, at no distant date, give the proof of these allegations in a manner which cannot be disputed."

"And we hereby give plain and clear notice to Gen. Booth and all concerned that we are now going to answer the false attacks that for months have been raised upon our heads in Europe and in America by the officers and War Cry of the Salvation Army."

"We have felt for and sympathized deeply with the children of Gen. Booth, who have suffered much at the hands of a cruel and harsh, and, to our mind, ungodly government of an institution that has done much good in the past, but which has passed in to a system so heartless and oppressive that even those who have loved it most have been compelled to come out."

"Therefore, we again say: The time has come that judgment must begin at the house of God which has been made the headquarters of a band of cruel oppressors in the superior officers of the Salvation Army, but not only in Europe and America, but in all parts of the world."

HAVE A GOOD TIME.

Wicked Sparrows Feat On Canadian Arch.

London, July 9.—There is hardly a tragedy that has not its humorous side. No triumphal arch of them all attracted more attention from the public nor was beheld with greater pride by its builders than the Canadian arch, down by Westminster. It was decorated most artistically, almost entirely with Canadian grain. In the middle of the arch, just under its towering summit, was an orchestra loft for a band of Canadian musicians.

From the public, which was eager to pick immortals, the police successfully guarded the beautiful arch, but they couldn't protect it from its other enemies. Thousands of sparrows swooped down on it, gorged themselves with the good fat grain, and shamefully destroyed the decorations they could not devour. Then the more timid pigeons, which live in the walls of the war office, unable to continue their self-indulgent any longer, joined the sparrows in a glorious feast, one being caught in its fall, unable to fly from its overbearing meal.

The spectators laughed and chafed the police as they stood there under most entirely with Canadian grain. To prevent the work of destruction.

But, as one bluccoat said: "Birds will be birds. They don't have triumphal arches to devour every day."

MORGAN'S OFFER.

Willing To Place British Warships In New Combine.

London, July 9.—In the house of commons the parliamentary secretary to the admiralty, H. C. Arnold-Forster, replying to William Redmond, the Irish leader, confirmed the report that J. Pierpont Morgan had offered to place all the British ships in the new combine at the disposal of the admiralty for the next fifty years, on certain terms. Mr. Arnold-Forster added that the offer had not yet been accepted because it could only be dealt with in relation to British shipping generally and the Atlantic trade position, which was being very carefully considered by the government.

There was considerable speculation in the house of commons lobby last night, with regard to Mr. Morgan's offer to the British admiralty. It is clear from the admiralty secretary's report that the combine's proposal is now under consideration, and as it has not been promptly declined the shipping members of the commons are convinced that its terms must be of a tempting nature. At the same time they consider it beneath the dignity of the greatest sea power in the world to be dependent upon another nation for cruisers.

To Place Second Cable.

Berlin, July 9.—The German Atlantic cable company, Cologne, will issue four per cent debentures to the amount of 20,000,000 marks, (\$3,000,000) to defray the expense of laying a second cable from Germany to North America. The present cable is already inadequate for the increasing traffic.

ACCUSED OF A CRIME.

Shot a Man And Attacked a Policeman.

Montreal, July 9.—Frank Rawlinson was arrested this morning on a charge of attempting to murder Jacques Leblanc. When making the arrest, Corpl. Belanger had a desperate struggle with the prisoner, who attempted to use his revolver on the officer. Rawlinson made an unprovoked attack on Leblanc last night and ended it by discharging his revolver, the bullet entering Leblanc's wrist. Rawlinson, who is an ex-cab driver and well-known to the police has been drinking considerably.

Bodies of Man, Woman and Children Badly Mutilated.

Enid, Okla., July 9.—Near Prudence, thirty miles southwest of here, the bodies of a man, woman and two children, apparently members of the one family, mutilated into almost unrecognizable shapes, were found yesterday. The bodies had been stripped of all clothing, leaving no means of identification. It is supposed that the family were strangers travelling overland and that they were robbed and murdered by men who then made off with their team and belongings.

WENT UP IN FLAMES.

The Harbor Light Was Struck by Lightning.

Kincardine, Ont., July 9.—At three o'clock this morning the harbor light, situated on the end of the north pier, was struck by lightning and burned. Upwards of 100 gallons of coal oil was in the building and the efforts of the firemen were unavailing. The steamer Pittsburg was unable to enter the harbor during the progress of the fire and landed her passengers by means of the yawl boats.
