LESSONS OF THE FLOWERS. To-day the Oddfellows of the city brough a representative committee cleaning Lawns placed flowers on the graves of their dead in Cataraqui cemetery. They die this in obedience to the direction o the Order whose devotion to the caus any other weeds of they espouse is both ardent and real The Grand Army of the Republi which is another name for the veter struggle between the North and th on or two com lete- South, remember the dead, their hero reradicate them from ism, their sacrifices, by the annua he law. this no pilgrinage to the cemeteries, and the decoration of their mounds and monu ments, with flowers.

The Oddfellows have a similar mi They recall the virtues of those who have gone before, who in life did their part, and cheerfully, in practical bene-Price 75c each volence, and in death remind their feilows of the duties that devolve upon

The flowers which are strewn ove the graves, teach, in themselves, th nost sublime lessons.

Their beauty tells of what can done by cultivation. It typifies the haracter of man, which is subject t the influences that make for man graces, and especially the grace

Their fragrance tells of that quality which is prized so much, the quality of giving, of the best, and for th good of all. The sweetness of th flowers is shared by everyone wh onles in contact with them. It repres ents the unstinted goodness of God. Their bloom and fall and bloom again tell of immortality. They teach that life is everlasting, that if they fade and die they revive, under new conditions, and bud and bloom again. Man needs the lessons which this teaches, the lesson of faith, of trust of confidence, the lesson of a life be vond the grave.

The annual visits to the cemetery, with the memories they recall, are the president, governed by fitness and then among the incidents of the year that will not lose their interest and vancement otherwise imperils his poimpressions. They will be the more commended the better they are under stood and appreciated.

THE WANT OF THE DAY. Goldwin Smith, in the Weekly Sun senses some aspects of the teaching profession in his own clear and shatic way. Practically he holds schools responsible for the ethical teaching of the boys, or for the want of that ethical teaching. Hence the it. His example is inspiring. What demand for voluntary schools.

The chief virtue of the separate voluntary school is its devotion to re figion and deportment. The one cannot be taught successfully in a publi school to which go the children of new industries between the Canadian Jew and Gentile, believer, atheist and and American people. There is a reaheretic. The law authorizes the read M or BOWEL COMPLAINTS of any ing of scripture daily without note American capital, which cannot all be and comment. It so prevents any thing which can be called inductive teaching. But if religion, by specific instruction, be disallowed there is th life of the teacher, which is constantly before the school and which speaks louder than words. Every teacher who is a profound religionist is infla encing his pupils, and if they are impressed there is something seriously amiss with the teacher.

The prependerance of women over In New York city 60,000 boys and men among the public school teachers girls are registered in the vacation the boys, whom, beyond a certain accommodated in seven large schools, age, women cannot control." The or about 3,000. The idea that some home and the street life of the lad children are the better because they may bave something to do with his have two months of idleness and of women. Whatever the cause the fact away. emains that the boys in our schools are not getting the moulding in character which they would get from manly teachers. Women are as ripe as the men in scholarship, and as gifted in the imparting of their ideas. But they are wanting in discipline, and it is evidenced in that turbulence of spirit which is so hard to restrain and which grows upon the individual. lifficulty which is now experienced of getting good male teachers. The men are abandoning the profession, as Mr. Smith has pointed out, (1) because they cannot find distinction in it, and (2) because the salaries are too low to be largely attractive. The Arnolds are not all dead, however, and the remuneration of the teachers must be

SAYINGS AND COMMENTS. By Captain J. D. Chartrand,

Kingston.

Two eminent Englishmen, Chamberlain and Gen. Buller have been this week the victims of grave accidents. The former received a serious bodily wound, the latter a mortally moral of Everything Easily Read and blow, which kiels what military reputation he had left.

Chamberlain was stricken just when he was the most needed, and Buller spoke just when he should not have On the 26th of October last, I pub

ished in "La Patrie," in substance, what follows: "I am sorry to see I was right when told you lately that Gen. Buller was falling down to pieces. The Englishman can patiently stand many things, but when he learns that one of generals commanding in chief in the field, has given to one of his inferiors the order to surrender to the enemy a besieged place, with its 16,000 defenders, he makes a face. And thermore, when he hears this same general publicly boasting of having given such an order and proudly suming all responsibility for it, Englishman gets very angry. Gen. Buller has just been the victim of that anger and was simply deprived of the command of one of the newly-formed or s d'armee. Although excessively liberal and full of mansuetude, the British nation has at last thought it opportune to so put a check to the lancies of its brilliant society soldiers. Rich and high born, married to an intelligent woman, well in court, door factory, was burned on Friday Buller has filled a glorious career. Of

course, he possessed this courage, bravery and tenacity which are the appanage of British officers, as ficers of all armies, in general. For with officers, pride and vanity bring in these military virtues, if they are not there naturally. And besides, Bul. ler was greatly helped by society. which, in England more than in any other nation, is the all powerful leader of military life. Indulgent and unconsciously disdainful, like all English gentlemen, be treated his men with kindness, gave splendid entertainments to his officers and was surrounded by a real court, where his wife reigned with brilliancy, All this goes to the ground before a simple indiscretion. It was so easy for Bullet to keep silent and let the papers tall as they pleased. A general who gets into arguments with newspapers is a general beaten beforehand. The efficient arm of the soldier who commands-in-chief is silence. To act is his duty, disdaining all criticisms. As a rule, he does not know how to handle speech, and he bluntly gives way to his indignation. And we all know

norance. In fact an ignoramus would In spite of all that, up to to-day not make them. They are often the Gen. Buller had still some faithful result merely of the inability of the friends left, who believed in him, bu articulator to keep pace with the new, after his last most unhappy pub two men of similar name may be in and his glorious past is blotted out stanced senator John C. SALESWOMEN.

Employers Should be More Consid-Mrs. Pinkham Asks Tired Women to Write Her for Advice.

In the vast retail establishments of large cities, many women are

Men formerly held the positions that women now hold, and while women's organism is less strong than men's, they are expected to do the same work. Their duties compel them to be on their feet from morning to night, and many of them, in a short time, contract those distressing complaints called "female diseases."

Then occur irregularities, suppressed or painful menstruation, weakness, indigestion, leucorrhoea, general debility, and nervous pros-

tration. They are beset with such symptoms as dizziness, faintness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, "all-gone" and "want-to-be-left-alone" feelings, blues, and hopelessness,

In such cases there is one tried and true remedy. Lydia E. Pinkham's Vegetable Compound at once removes such troubles. The following letters prove this. They also prove the value of Mrs. Pink-Lam's advice.

"I Can Work Every Day in the Week Now."

"DEAR MRS. PINKHAM: - I write this letter for you to publish for the benefit of poor, suffering women. Lydia E. Pinkham's Vegetable Compound has done me a great deal of good. I have taken three bottles and feel like a new woman. When I began the use of your medicine I was hardly able to be up; could not do half a day's work. I ached from head to foot, was almost crazy, had those bearing-down pains, and stomach was out of order. Now all of these troubles have left me and I can work every day in the week and not feel tired."- MRS. JENNIE FREEMAN, 402 Pennsylvania Ave., Lima, Ohio. "Dear Mrs. Pinkham :- I have read with interest your advice to

others so much that I thought I would write to you for I have been suffering for a long time. This I did some time ago. "Now I can hardly find words to thank you for your wonderful Vege-

table Compound and advice. "I was in a terrible state, every part of my body ached, was very nervous, had hysterical spells. I think I would have become insane had it not been for Lydia E. Pinkham's Vegetable Compound. Your medicine has cured me and I cannot express my thanks." - Miss HATTIE DEGROAT, Succasuuna, N.J. (March 8, 1901.)

No other medicine in the world has received such widespread and unqualified endorsement.

No other person can give such helping advice to women who are sick as can Mrs. Pinkham, for none bave had such a great experience—her address is Lynn, Mass., and her advice free—if you are sick write her-you are foolish if you don't.

genoine, or were published before obtaining the writer's special permission. - Lydia E. Pinkham Medicine Company, Lynn, Mass.
