LOCAL MEMORANDA.

The Daily Note Book For Whig Readers to Post Themselves By.
The mind remembers, not the blood. Good advertising is cumulative in results. In Scotland a butcher is called a fletcher. It is easy to throw a ball from a window.
The sun rises Friday at 4:34 a.m. and sets at 7:37 p.m.
Lake Ontario Park, matinee Friday afternoon 3:30 o'clock.
Baseball league game, Antwerp, vs. Ponies, Friday, 4 p.m. sharp.
Lake Ontario park, Roberts' Four entertainment company, 8 p.m.
July takes after its god-father, Julius Caesar, for the noble Roman was a scorer. A dead game sport who will not equal is translated now as meaning a dead sport. The spirit hath departed.
This day in the world's history—France-German war commenced, 1870; Charlotte Corday executed, 1793; Gen. Hawlock enters Caspers, 1857; music in Denver, 1873; 1887 fire in Quebec, sixty-six houses burned, 1892; McMahon surrendered to British, 1836.

CROWN DERBY DECORATION

NAPANEE NOTICES.
Overcome by Gas—Thirty Years in Business.
Napanee, July 17.—Word reached town last evening that Alpine Woods, Roblin, had met with a serious accident, by which he lost one of his hands. Mr. Vrooman was telegraphed for, and hurried to the scene of the accident.

Charles Bruton, while working about the oil tank at the station yesterday afternoon, took occasion to go inside and dip out a couple of gallons of coal oil, and while doing this was overcome with the gas and very nearly lost his life. It took a score or more of men to haul him out, and when he was deposited on terra firma he acted quite like a man under the influence of liquor, and could scarcely be persuaded to go home. Later in the evening he had almost recovered.

Miss Minnie Miller and brother, Charles W., New York, are home to spend holidays with their parents, Mr. and Mrs. S. R. Miller, W. H. Vandalstein left yesterday for Winnipeg, where he expects to remain. Miss Leah Sherwood, New York, is home to spend holidays under the parental roof.

Henry Douglas, in business for the past thirty years, is selling out and retiring from active work. His son, Dr. Harry Douglas, and son-in-law, A. H. Dewdney, are looking after the stock and winding up the business. Mrs. W. P. Reave and three children have to-morrow for their home near Morrisville, after spending a month with her parents, Mr. and Mrs. R. G. Wright, Dundas street.
Queen Wilhelmina is much better.

THE HOUSE CROWDED

To Hear Second Reading Of J. P. Morgan's Bill

TOUCHING ELECTRIC WAYS

JOHN BURNS MADE A CHARACTERISTIC SPEECH.

The Mission of American Capitalists Was to Exploit London—They Were Out to Pick the Richest Plums From the International Pudding.
London, July 17.—The house of commons was crowded last night, in anticipation of a keen debate on the second reading of J. P. Morgan's bill, seeking parliamentary powers to proceed with the London united electrical railway company. The strangers' gallery was full, its occupants including Mr. Morgan's English ally, Clifton Robinson, representing street tramways, and many well-known engineers. The discussion was generally favorable to the measure, with the exception of an outburst from John Burns, socialist, against American promotion of English enterprise.

F. O. Banbury moved the rejection of the bill, on the ground that it proposed a line twenty miles in length, running in competition with existing railways.
Messrs. J. G. Butcher and T. G. Ashton made speeches in favor of the measure, holding that Mr. Banbury's argument did not affect the scheme. Mr. Burns declared that at the end of a year or two Mr. Morgan would retire with a million and a half pounds in his pocket, gained at the expense of credulous British investors. The only object of the American capitalist was to exploit London. He had come to pick the richest plums from the international pudding.
Hon. W. P. Bell moved that the committee be instructed to take security from the undertakers for the completion of the whole scheme of railways, comprised in the measure. The bill was passed on its second reading by a vote of 250 to sixty-nine. It now goes into committee.

KING IS BENEFITING.

Change of Air and Scene is Helping Him.
London, July 17.—The king is benefiting from a change of air and scene. The royal yacht, it is understood, will remain off Cowes for about a fortnight, if the weather continues fine, and the king may then take the trip down the channel. The doctors are anxious that their patient shall not be occasioned the slightest discomfort or inconvenience and instructions have been issued to skipper and pilots navigating vessels through the Solent to steam slowly when passing the Victoria and Albert in order to prevent unnecessary oscillation.
The North German Lloyd, Koigner Wilhelm, crowded with emigrants, passed yesterday afternoon, and by that comment were evoked from onlookers on shore.

To Remain Till Coronation.

London, July 17.—The reports regarding the king's recovery continue to be most satisfactory. He will remain on the royal yacht off Cowes until August 8th, and will return to Roadstead after the coronation.
It has been definitely decided that the British fleet, as presently at Portsmouth, for the coronation review. The Japanese squadron has been instructed to return, and it is understood, that other foreign contingents will also be represented.

Could Not Take Drive.

London, July 17.—Lord Francis Knollys, the king's private secretary, in a letter to the mayor of Southampton, says the doctors are strongly of the opinion that the king should not, after so severe an illness, undertake the long drive through South London on the day after his coronation at Westminster abbey. He hopes that it will be possible for him to drive through the capital in the autumn.

HOW STATES GO.

The Way an Proposition is Considered.
Indianapolis, Ind., July 17.—The presidents of the following state organizations of the United mine workers of America, last night gave out the following opinions regarding the votes of the states they represent on the proposition to call a general strike: Iowa, will strike only as a last resort; Tennessee, strike only if it cannot be avoided; Kentucky, opposed to a strike; Ohio, some delegates instructed against a strike, others opposed; Maryland, strike only as a last resort; Colorado, strike only if it cannot be avoided; Indiana, opposed a strike; Illinois, some delegates instructed against a strike, others opposed; Michigan, opposed to a strike; Missouri, against a strike.

Killed By Savages.

Melbourne, July 17.—Recently the Dutch government transferred 200 prisoners, chiefly from Sumatra, to Merouke, the new pearl-fishing settlement in Dutch New Guinea. The prisoners' quarters were surrounded by a barbed wire fence six feet high, but by some means they managed to escape to the bush, and have not been traced by the search parties sent out after them. Now a report has reached the settlement that the whole band has fallen into the hands of the savage and treacherous natives, who include the notorious Tugart head hunters. Thirteen at least of the Dutchmen were decapitated, their heads being carried off as trophies.
Cholera is increasing in China and the Philippines.

FITE OF THE NEWS.

The Very Latest News Culled From All Over The World.

Sir Arthur Lawley has accepted the lieutenant governorship of the Transvaal colony.
Lord Dunsford is expected at Ottawa on the 26th. He will be given a salute of eleven guns.
Hon. Clifford Sifton has made up his mind to start for the Yukon towards the end of August.
Hon. Sydney Fisher and William Hutchison, ex-M.P., will probably leave for Japan in October.
Mr. Harry DeWitt has reached Dawson on his overland journey from Europe to the United States.
There is a movement on foot at Montreal to dine Sir Edmund Barton, premier of Australia, on his visit to Canada.
The cabinet held another meeting at Ottawa to consider Fred Rice's case, and finally decided not to interfere with the hanging.
Philip Holt, K.C., has been appointed deputy justice of the peace during the absence of Hick leave of justice Masson.
The king of the Belgians is said to have acquired a majority of the shares of the Canton-Hankow railway from the American syndicate.
J. W. Macnaughton, Peterboro, who had improved under christian science treatment, died in the buggy in which he was being taken home.
Dr. Haanel, director of mines, Ottawa, will leave for the Yukon some time next week in order to personally study mining conditions in the gold territory.
William Oly, a negro, who, on Wednesday night, attempted to assault Miss Virginia Tucker, of Clayton, Miss., was burned at the stake at midnight. The assault was most brutal.
The harvest season of 1901, the number of harvesters brought to Winnipeg from the east was 17,000, but it is expected that fully 20,000 will be required to assist with this year's crop.
The entry of Newfoundland into confederation was broached at the Canada club dinner in London, the premier of the colony stating that if advantageous terms were offered he would exert himself to bring it about.
It has been decided by the national rifle association to send a British team to Canada in August to compete with the dominion, the United States and other entrants in the international match for the Palma centennial trophy.
Queen Wilhelmina, of the Netherlands, will leave Schaumburg-Lippe for the castle at Loo, on Saturday.
The king of the Belgians is said to have no arrangements to make for welcoming her as she fears the fatigue of such a function. She will rest at Loo all summer.
Alfred T. Hopkins, aged fifty-seven, and employed as a carpenter helper at the cereal works, Peterboro, Ont., while assisting to move a large stick of timber, on Wednesday, was stricken with heart failure and expired within a few minutes. He was a widower and two sons and four daughters.
Lord Milner is contemplating resignation. The South African high commissioner is, like Dr. Jameson, an enthusiastic supporter of the movement to establish a Pacific railway connecting Cape Colony, and he is probably disappointed at Mr. Chamberlain's approval of premier Sprigg's anti-pensionist policy.

CHUM OF PICKPOCKETS

A Woman With a Fine Bank Account

IS INTERESTED IN RICE
LAURA JOHNSTON PUZZLES JAIL OFFICIALS.
She is Associated With Pickpockets—Was Anxious to Learn All the Details of the Condemned Man's Location and Condition.
Toronto, July 17.—Why Laura Johnston should be so interested in Fred Lee Rice, who is to be hanged to-morrow morning, is puzzling the jail and police officials. When Laura was arrested last week on a charge of vagrancy, she was accompanied by a well-dressed woman, who was ordered out of the court room. While the Rice trial was in progress, the Johnston woman, after being locked up, wanted the minutest details of the condemned man's exact location in the jail. She had a Molsons bank pass-book, showing a balance of \$1,390 and was very anxious that the matron who found it should not hand it over to the detectives.
In the police court yesterday officers swore that she associated with pickpockets, and had the reputation of being one. She was remanded till to-day, her bail being renewed.
The post-mortem examination, by Drs. Young and Wiley, on the body of William Christie, who died suddenly, on Tuesday night, at his home, revealed the fact that decreased had taken at least ten or twelve drams of carbolic acid instead of two, as was thought at first. Christie's friends say that he was not a dependent man and they can think of nothing that could have induced him to take the acid. Coroner McConnell has filed a warrant for an inquest this afternoon.

BASEBALL TRAGEDY.

Umpire Shot a Player During a Match.

Cannelton, Ind., July 16.—During a ball game here Arthur Derrett, umpire, shot and fatally wounded William Whalen, the pitcher.
The game was played between the Cannelton and Cannelton teams. In the last inning Whalen was at the bat and took exception to a ruling made by Derrett. After several words had passed the quarrel ceased. Whalen hit a ball and started to first base when it is alleged Derrett pulled his pistol and shot him twice in the back. The wounded man fell and the crowd gathered about Derrett, and there were cries of "lynch him."
Derrett was placed under arrest. He is about twenty-six years old. There is a strong feeling against Derrett, but the sheriff says he does not fear any mob violence.

WANTS MEN TO EAT.

Series of Tests of Food of Various Kinds.

Washington, July 17.—"Wanted—Men to eat food; liberal salary." Such an advertisement may be published in the newspapers in a few days by the department of agriculture. Under authority of congress, Dr. Wiley, chief chemist of the department, is soon to commence a series of experiments to ascertain the effect upon the human system of various food products supposed to contain injurious ingredients. He will employ healthy men, upon whose robust constitution will be tried adulterated compounds, as well as pure, wholesome food, and the result of various articles closely noted, the result to be reported to congress for its guidance in framing pure food legislation.

TO HAVE REGULAR SERVICE.

Marconi Hopes to Have It Going Soon.

London, July 17.—As soon as Mr. Marconi returns to this country, in three weeks, steps will be taken to establish a regular wireless telegraphic service between the American station at Cape Cod, and the Canadian station at Cape Breton. Mr. Marconi believes that if all goes well he will be in a position before Christmas to send ordinary messages to Cape Cod or Cape Breton at a distance and press messages at two pence, half penny a word. Connection with distant towns in Africa is also promised in the Marconi programme of the near future.

TO REOPEN THE CAMP

For Horses, Mules and Cattle to South Africa.

Chicago, July 17.—The British transport service, which for so many months conducted an active trade at Port Chalmers is to reopen its camp there for the shipment of horses, mules and cattle to South Africa, says the Chronicle's New Orleans correspondent. It is found that the American animals are the hardiest for the veldt work, and the British government will need a great number under its agreement for restocking the farms of the burghers who suffered in the recent war. The officers are now on the way, and the camp will be reopened immediately upon their arrival.

ONTARIO MASONS.

Annual Meeting of Grand Lodge Opens at Toronto.

Windsor, Ont., July 17.—The grand lodge of Ontario, A. F. and A. M., convened in the 21st regiment armory, yesterday. The grand master's address was read by acting grand master judge Harding, Lindsay, and proved to be the most satisfactory in recent years. Grand secretary Hugh Murray, Hamilton, read the reports of both secretary and treasurer, and these reports were also extremely gratifying to the assembled delegates. The report of the audit and finance committee was presented by George S. May, Ottawa, showing the receipts to amount to \$4,564.33 over and above the expenditure. This report was enthusiastically received, it being the best in the history of the lodge. The benevolence committee's report showed the grants made this year to be \$12,655.
An important report was that of the warrant committee ordering that warrants be issued to six new lodges, which have been under dispensation for a year, and that dispensation granted the lodges at Moncton and Little Current be continued for another year. The report further recommended that dispensation be issued for the formation of lodges at Merlin and Wales, Ont. Petitions for lodges from Markham and Chippewa were not entertained. The condition of masonry, as presented by Aubrey White, Toronto, showed that 363 of the 367 lodges had been officially visited during the year. General satisfaction exists throughout the jurisdiction. The duke of Connaught was made an honorary past grand master.

MEN ARE NEEDED

To Do The Harvesting In The Northwest.

Winnipeg, July 17.—The department of agriculture is sending out its annual request to crop correspondents to send information as to the number of harvest hands who will be required in their townships. From reports received from farmers, through government travelling agents, there will be a large number of men required this year, and the farmers are already making enquiries as to what preparations are being made. Arrangements for excursions have been just completed, and will be published in a few days. In the meantime the government has taken the usual steps to find out just about how many men will be required, so that they can arrange their advertising accordingly. It is probable that harvesting will commence early in August, as the present weather is just needed for the development of the crops.

HEROIC ACT IN STORM.

Man Paralyzed Saves Companion's Body From Flames.

Pewaukee, Wis., July 17.—One fatality, an act of heroism and considerable property damaged accompanied a severe wind and rain storm. George Vincent, a retired cweber, of Waukesha, and E. P. Reford, a farmer, took refuge in the latter's barn when the storm broke, and the building was struck by lightning. Vincent fell over dead and Reford was stunned and partly paralyzed by the shock, but he pluckily dragged the body of Vincent out of the burning building, and crawling on his hands and knees, went through the barn and liberated forty cattle just before the roof fell in.
About six years ago Mrs. Reford was struck and killed by lightning, and Reford escaped as narrowly as he did this time.

A DOCTOR'S DEATH.

Found Drowned in the Surf at Coney Island.

New York, July 17.—Dr. Edward L. Parker, a physician of Long Island state hospital, Brooklyn, was found drowned in the surf at Coney island yesterday. His body was fully clothed and there was nothing to indicate that he had been on a vacation leave for about ten days. When he left the hospital he had between \$500 and \$600, but when the body was found, there was but \$11 in the clothing. He was twenty-six years old and a graduate of Yale. His home was in Geneva, N.Y. A racing programme was found on his body with markings leading to show that he bet on three losing horses. From this the police presume that the money was lost, and not stolen.
