A Pleasant Outing.

Wednesday afternoon the delegates to the annual meeting of the Oddfel lows' relief association were tendered complimentary trip among the Thousand islands. At a quarter past four o'clock they embarked aboard the steamer America, being accompanied by many Kingston friends. When the steamer left the ferry wharf she had her complement of passengers board, but despite the crush, the trip proved a most enjoyable one. The steamer ran down as far as Gananoque, but did not make a stop. On the home voyage the visitors were en tertained at luncheon. They thorough ly enjoyed the outing and were loud in their praises of the fine time forded them. The weather was ideal and nothing occurred to mar the pleasure of the trip. Home was reached shortly after eight o'clock.

Willing To Abandon Ferry.

The Folgers are quite willing to allow their ferry lease with Wolfe Island to expire next summer, and let the island council make other arrangements. The latter had counted upon a new company building a steamer, but nothing has been done yet. A promin ent Wolfe Islander says that certain men have been simply fooling the township councillors, and that they have no intention of taking stock in but she will have three centre boards, the proposed steamer.

WHILE IN LONDON, SAYS MA-JOR PANET.

The Staff Officer of the Contingent Arrives in Kingston-Says the Men.

Major H. A. Panet, R.C.A., staff adjutant at the Royal military college, who served as staff officer with the Canadian coronation contingent, returned to the city yesterday afternoon from Montreal. When seen togay by a Whig reporter, he spoke in an appreciative manner of the treatment accorded the Canadians in Lon-

"When we arrived at Rimouski we received marked papers telling of the awful way in which the Canadians were treated. These reports astounded us, for we never dreamed that any complaint would be made. The British authorities were not responsible for the postponement of the coronation on account of his majesty's illness neither were they responsible for the disagreeable weather. It is true that the contingent's quarters at Alexandria palace were too far removed from the centre of London to make it agreeable to the men. It took over an hour for them to reach the centre of M.S.; Vet.-Capt. W. J. Neil, 45th regi-London. But in this matter their ment.

The authorities did everything in their power to make it comfortable for the Canadian soldiers. The camp quarters were exceptionally comfortable. Of course there was rain and rain makes mud in the British Isles the same as in other parts

"There was one respect, however, in which I think the members of the contingent had a cause for grievance. This was in the matter of pay, which the British government nothing whatever to do. The Canadian soldiers were paid by the home (dominion) government only fifty cents a day, while the other colonials received five shillings, or \$1.25, a day. The Canadian officers were also greatly underpaid when compared with that received by the other colonial of-

If the money in question seized it is the intention of the city to go ahead and make the needed repairs with the money deposited by the contractors as a guarantee. Six companies are interested in the drastic decision of the civic road committee. The new boat which is expected to be the Seawanhaka cup defender against the Bridgeport challenger will be launched at Lake St. Louis, to morrow. The boat will be a distinct departure from anything heretofore raced in the Seawanhaka contests. Her hull will be of the ordinary build one in the middle, in the usual place, and two projecting from each side to be used to prevent the boat from making leeway when on either tack. The stock market showed signs of wavering from the position of strength it has held for some days past and fractional declines were the order in some stocks while Nova Scotia steel slumped four points to 110. The upward movement in Dominion steel is suspected to be partly due to manipulation as the price was moved up over a point in Boston yesterday afternoon, while the local market was closed. GEN. SMITH RETIRED.

Supplements Reprimand With a Long Circular.

Washington, July 17.-Secretary Root brought from Oyster Bay case of Gen. Jacob H. Smith, tried by court martial at Manila, on account of orders issued to Gen. Waller. Gen. Smith was found guilty of the charge and sentenced to be admonished by the reviewing authority. The presi dent has admonished Gen. Smith and retired him under the law which provides that officers having reached the age of sixty-two years may be retired at will by the president.

Secretary Root supplements reprimand of president Roosevelt with long circular in which he explains the conditions which resulted in the court martial of Gen. Smith and shows that although Smith issued the "kill and burn" order, as a matter of fact very few persons were killed as a result of that order, the casualties being confined almost wholly to the eleven natives killed under Maj.
