BROUGHT TO WORK IN STEAMYACHT.

Matters Running Smoothly the Locomotive Works Strikers Leaving the City Interview With the New Arrivals.

The ham of machinery which notes active industry is to be heard at the locomotive works, and work is proceeding as though nothing unusual had happened. At seven o'clock this morning the thirty-three Scotch machinists who were recently import ed, started to work in the machine shop, which is now well manned. The strangers were brought across from Channel Grove in the steamyacht Aberdeen and landed at the locomotive works' wharf. A large crowd had collected on Ontario street, in pectation of witnessing trouble, but were well represented on the street, but were unable to come in contact

with the strangers.

The decensed was not ill any length of time and his death so soon came as a shock to his family and friends. The late Wil liam Hurst was a native of the county of Antrim, Ireland, coming to Canada when about fifteen years old. THE BISHOP'S SERMON. Preached Sunday Morning in St.

George's Cathedral. The bishop of Ontario's sermon on Sunday morning at St. George's cathedral was upon the text, Phil- iv, 19 : "But my God will supply all your needs according to His riches in glory by Jesus Christ." These words were spoken to God's people for all time, as the principle of His dealings with christians. The apostle spoke as one unable to requite but he pointed to One who can and will repay to the uttermost, for even a cup of cold water given in His name shall in no wise lose its reward. It was a common thought that means given in support of God's work, or for relief of His distressed children, was lost to sight remembrance, but in truth it would be returned as anught earthly could be.
