DECLARE IT A "FAKE"

Information Given Mayor Prior To Contest

IT PROVED TO BE TOO TRUE

STATEMENT MADE BY A SPORTING WRITER.

It Came to Him From the Jeffries Crowd—Those Concerned Declare that the Fight was Genuine.

San Francisco, July 28.—Now that the Jeffries-Fitzsimmons contest for the world's championship is over the cry of "fake" has been raised, but without justification in the opinion of referee Grane, George Siler and the great majority of other sporting men. A communication sent to Mayor Schmitz, before the fight, to be opened after it was ended, said that the writer had been assured that Jeffries and Fitz went to the eighth round, which he did. The mayor has announced that if the charge that the fight was a pre-arranged affair cannot be disproved, he will be compelled to prohibit such exhibitions hereafter.

The Examiner says W. W. Naughton, the sporting writer, said that the fight was programmed for Fitz to go out in the eighth round. The information came from the Jeffries people. Mr. Naughton wrote out the programme signed it, sealed it, and put it in the custody of Mayor Schmitz. The fight came off according to the programme. In the eighth round when there had been no severe fighting Fitz dropped his hands turned and spoke to Jeff. Jeff hit him and Fitz went to his hands and knees and stayed down until he was declared out. Then he got up and walked around the ring, his eye clear, his voice strong, not a bruise on him. Every one present asked, "What was Fitz talking about? Why did he quit fighting? After the fight Mayor Schmitz proceeded to open Naughton's statement.

There was every indication in the betting that a large coterie was informed of the arrangement, the letter written by Naughton is as follows: "July 24.—I received to-day an intimation that the fight between Jeffries and Fitzsimmons was to be thrown to Jeffies in the eighth round. One of the party who was with Jeff, written by Naughton, had told me in a confidential way that Jeff would earn the decision in the round named."

Fitzsimmons was, apparently, much distressed at the charge of fraud. He declared that he had fought his best, and could not stand Jeffries' blows. Jeffies also denies that the fight was fixed. He said that Fitzsimmons gave him the hardest fight he ever had.

The trainers on each side resent any charge of crookedness, and the fact remains that information was given Mr. Naughton of the fight that it would end in the eighth round.

INJUNCTION AGAINST TRUST.

Irish Leaders Take Steps Against Owners.

Dublin, July 28.—Another step in the Irish land war has been taken in the filing of an injunction suit brought by John Redmond, William O'Brien, John Dillon and Michael Davitt, representing the United Irish League, against the landlords constituting the new land trust, who are upholding the De Freyne estate tenant troubles; this suit alleges conspiracy on the part of the land trust to prevent the plaintiffs from accomplishing by lawful means the reforms of parliament respecting the Irish lands.

The issue of the writ has created a great sensation in Ireland, and is a reply to the landlords' action against the national organization, and the Freeman's Journal promises it will be the biggest constitutional trial in Ireland since the great Parnell trial of 1882. It also shows that the fight against the landlords is now being waged on a grand scale.

The British had eight men killed and four wounded.

To Give a Clear Title.

Halifax, July 28.—The property of the Halifax Gas Co. was sold by the sheriff, on Saturday, and was bid in by William Doull, Montreal, representing the bond holders. The bondholders had agreed to convey the property to the Halifax Electric Tram Co., and Saturday's sale was to enable them to give a clear title. The two properties will be amalgamated. There were claims of about \$776,000 against the gas company and the bond holders' bid was \$200,000.

THERE ARE MISGIVINGS

That King's Strength May Not Be Adequate

FOR CORONATION CEREMONY

PAPER SAYS HE IS STILL AN INVALID.

And he can only be expected to go through it except as such—Much now Depends on What the Doctors will Say.

London, July 28.—Misgivings are expressed in many quarters concerning the king's strength being adequate for even the curtailed coronation ceremony in Westminster Abbey on August 9th. The king has been for five weeks in a recumbent position, and the Standard is informed that he has not got on his feet yet, but is confined to a couch, though he is able to move himself upon it. His wound is not healed yet. In short, according to the paper, he is still an invalid, and though the prospects of his being able to safely go through the coronation on Saturday week are much more assured than they were he is only expected to do it as an invalid. It transpires that though the date of the coronation was set with the doctors' consent, they have not committed new schemes, down to an illustrated catalogue and price list, is ready. The Gazette says: "A perusal of an advance proof of the catalogue suggests the possibility that everyone will be enabled within six months to carry out the purchase money for a wireless telegraph and telephone apparatus for private installation and use. It will be the simplest matter to connect all the rooms in a house or to connect a house with the city. Payments have been taken out by the Armstrong-Orling people, whose system differs in many important respects from that of Marconi."

STEAMSHIP MATTERS.

Asking That Purchase Money be Laid Down.

London, July 28.—The Daily Express reiterates that the White Star line has definitely declined to be managed by the Morgan syndicate in any shape until the purchase money for the line is paid. The syndicate has declined to deposit the money until the English lines relinquish their individual management. The paper adds that the tremendous price demanded for the White Star line may have caused a halt.

The Daily Graphic, commenting upon the proposal to establish a fast line of steamers between England and Canada, says: "It would be distinctly advantageous to Canadian interests, but when it is proposed that Great Britain should give a heavy subsidy, it is well that we should pause to look at the question all around. If the advantages of a direct line Canadian service of fast steamers are as great as is alleged, it is surprising that private capitalists have not long ago put their money into such a service instead of competing for the New York traffic."

New York, July 28.—Representatives of the largest pickle and preserve companies in the country are gathering here in anticipation of tomorrow's conference at which the final details are to be completed for the giant merger, which is to be organized under the name of the Association of Manufacturers and Distributors of Food Products. It will embrace well-known firms of Boston, Philadelphia, Rochester, Camden, Allentown, City, Wheeling, New York, Cincinnati and Detroit.

Canadian Pacific's Good Year.

Ottawa, Ont., July 28.—Figures given out by the Canadian Pacific today show that the traffic of the road for the year ended June 30th was far in excess of any previous year.
