An Hotel On Palatial Lines.

There seems to be no doubt that it is George C. Boldt's intention to make a magnificent hotel of his beautiful mansion on Heart Island near Alexandria Bay. The building is of solid iron and stone, absolutely fire proof, and contains twenty suites of single rooms. The facts recently brought to light that Mr. Boldt is buying fine yachts here on the river go to indicate that it is his intention to have a hotel on palatial lines and with every additional facility necessary for the complete enjoyment of his guests. It has just been learned that he has purchased the Now Then, the fastest steam yacht on the river owned by Commodore Louis Luchembach, of Brooklyn. It has also been ascertained on high authority that he has purchased the Venice, owned by Lyman G. Smith, of the Smith Premier Type-writer company. With his steam yacht Poise and these two just mentioned Mr. Boldt will have the finest yachts on the river at his disposal. It is also rumored that he has options on other fine yachts.

The Late Austin Clark.

An aged resident of the township of Richmond, died 29th July last, aged seventy-two years. Deceased was born in Camden, near Enterprise, but for years was a resident of Richmond. He married Miss Jane French, who with two children, survive him, Martin L. Clark and Mrs. E. U. Brown, Richmond. Deceased was a prominent member of the Methodist church and bore his last illness with Christian fortitude and patience. Last March he was afflicted with a stroke of paralysis, from which he never recovered. He was a liberal and a fatherly man. As a husband and father he was one of the most exacting could desire, and as a neighbor he was respected by all.

Speaking Out In Meeting.

In ordinary course the new governor general will be appointed on July 1st, and the public of Canada have eleven months before them in which to insist that the word is used advisedly—on the appointment of a first-class man to fill the position. The importance of the office, the size of the salary, and most of all, the importance of the country demand capable and trained men of affairs. There are lots of good men but members of the imperial government prefer to regard the governor generalship of Canada as a piece of personal patronage to be given to particular friends or connections.

A POPULAR PEEP SHOW.

Westminster Abbey Was Through-d All Friday.

THE WOMEN PREDOMINATED

A LINE SIX DEEP STRETCHED FOR MILES.

And Over Forty Thousand Were Disappointed When Night Came On—A Gift From The King—Trouble Over The Emperor's Interference.

London, Aug. 16.—Westminster Abbey is the most popular peep show in London to-day. On Wednesday and Thursday altogether nearly seven thousand persons, paid for admission, but yesterday was a six-penny day, and Londoners flocked in numbers to the greatest crowd, marshalled in orderly queues, that London has ever witnessed, stretched from the Abbey for a distance of nearly two miles to Vauxhall Bridge. The people stood six deep, and the extraordinary thing was that new comers did not appear in any way taken back by the prodigious length of the queue, but fell into their places at the end quite contentedly. The male members of this extraordinary multitude formed no more than a sprinkling, the vast majority were women, some dressed most fashionably, but the greater proportion representing the lower and middle classes, who had been denied the privilege of witnessing the historical pageant on the 9th. The formalities passed the people into the Abbey at the rate of three thousand an hour, and at close of day twenty thousand had paid sixpence but full 40,000 had to go home disappointed.

The king has presented to the Abbey a most beautiful gold ornament, composed of a crucifix, from the base of which issue two branches, one on each side supporting figures respectively of the Blessed Virgin and St. John. This magnificent ornament is understood to be the king's special coronation gift to the Abbey.

A HITCH OCCURRED

In Negotiations As To The Electrical Workers.
Hamilton, Ont., Aug. 16.—A hitch has occurred in the negotiations for arbitrating the dispute between the electrical workers and Hamilton Electric Light & Power Co., and which may become the cause of serious trouble. The men claim that Manager Hawkins, during the last trouble, agreed to recognize the union, and they say the company is bringing in an old agreement denying recognition of the union. The men are determined, that first of all, their union shall be recognized and declare that if this is not done the full force of the organized labor in the city will be brought to bear on the company.

CHINA GIVE WARNING.

Those Who Collect Must Not Play Tricks.

Washington, Aug. 16.—Minister Conger at Peking, has transmitted to the state department the imperial decree concerning the raising of funds in the several provinces for the payment of indemnity exacted by the powers as a result of the Boxer uprising.

The decree directs that there shall be no extortion and that the people must not be irritated. The viceroys are commanded to do away with what will cause friction and needless severity. The decree declares that if any are "found out in their old tricks" and "filling their own pockets," they will be severely dealt with.

OPERATORS TO YIELD.

Badly Pinched And May Grant Concessions.

Wilkesbarre, Aug. 16.—Report has it that many of the smaller anthracite operators are being pinched so badly by the continued strike that they are thinking of granting concessions and resuming work. It is pointed out that they are in no position financially, compared to the large companies to maintain the struggle, the conclusion of which seems as far off as ever. The loss entailed by the strike and the danger to their property together with the cost of protection is said to have drained their resources badly.

The Argument Sound.

At their meeting last night, the Kingston Husbands' Protective Association decided that the argument, that there are no women in heaven, is perfectly logical, from scripture. Of course that doesn't say there are no women in heaven, but simply that the bible is a basis. No doubt some of the members of the Husbands' Protective Association hope that there is more than mere logic in the assertion.

OBJECTION TO A CANADIAN

NEWFOUNDLAND EXERCISED OVER RAILWAY AFFAIR.

Fear Influences of C.P.R.—Sir Sandford Fleming, Rejected When Proposed as One of the Arbitrators.

St. John's, Nfld., Aug. 15.—The supreme court justice, Mr. Emerson, being moved to appoint a third arbitrator in the matter of the claim of the railroad contractor, Mr. Reid, against the colony for \$2,000,000, proposed to appoint Sir Sandford Fleming of Ottawa. The colonial government, however, protested against the appointment of Sir Sandford Fleming, owing to his reputed connection with the Canadian railroad interests. Sir Sandford, it is understood, is interested in the Canadian Pacific railway, the president of which, Sir Thomas Shaughnessy, is a director in Mr. Reid's company.

Public feeling is in favor of an Englishman, rather than a Canadian, as third arbitrator, fearing, it is supposed, the influence of the Canadian Pacific railway in the matter. Mr. Reid's arbitrator is a Canadian, Hon. Alfred Lyttelton, a member of the British parliament, is arbitrator on behalf of Newfoundland.

Third Arbitrator Appointed.

St. John's, Nfld., Aug. 16.—Justice Emmerson, of the supreme court, has named Peter Archibald to be third arbitrator in the adjustment of the Reid railway claims. Mr. Archibald was formerly chief engineer of the Intercolonial of Canada.
