Merchants' Wisdom.

The Advertiser.

Never allow smaller competitors to outdo you either in quantity or quality of advertising. Prestige is manifested with quantity and sales made because of the quality of the advertising.

It should not be so much a matter as to advertising rate as the "pulling" qualities of the paper used.

There can be no advertising success without reputation and that rests on the backbone of honest dealing.

Has Approved Of Issue.

Ottawa, Aug. 21.—The report to the council in favor of the recommendation to the imperial authorities to grant the issue of the war medals to the 2nd, 4th, 5th and 6th C.M.R., who were late for the fighting, has been formally approved by Lord Dundaonald.

RELIGIOUS CRITICISM.

Appealing To Him as a Christian Man.

TO SETTLE MINERS' STRIKE

PRESIDENT BAEER'S REPLY TO THE REQUEST.

How a Writer Thought the Railway Company Would Have the Blessing of God and the Respect of the Nation.

Wilkesbarre, Pa., Aug. 21.—W. F. Clark, of this city, recently addressed a letter to President Baer, of the Philadelphia & Reading railroad company, appealing to him as a Christian man to settle the miners' strike. The writer said that if Christ was taken more into business affairs there would be less trouble in the world, and that if Mr. Baer granted the strikers a slight concession they would gladly return to work, and the president of the Philadelphia & Reading railroad company would have the blessing of God and the respect of the nation.

President Baer replied as follows: "I see you are evidently biased in your religious views in favor of the right of the workman to control a business in which he has no other interest than to secure fair wages for the work he does. I beg of you not to be discouraged. The rights and interests of the laboring man will be protected and cared for, not by the labor agitators, but by the Christian men to whom God in His infinite wisdom has given the control of the property interests of the country. Pray earnestly that the right may triumph, always remembering that the Lord God omnipotent still reigns, and that His reign is one of law and order, and not of violence and crime."

FEARING FROST.

But Temperature Did Not Go Below Forty.

Winnipeg, Aug. 21.—Robert Hunt, section man on the C.P.R., was on a hand car near Kalmar, west of Rat Portage, when a caboose and engine ran into it, killing Hunt instantly. He came from Liverpool.

The members of the Winnipeg grain exchange have decided to purchase a site for a new building.

Annie S. Swan, the noted English authoress, is a Winnipeg visitor. Her mission is to secure employment in the west for English women.

At the Andean Synod, yesterday, Dean Mathewson was elected prolocutor, Archdeacon Sargent, deputy prolocutor, Canons Combes and Spencer Page, secretaries and Thomas Gilroy, treasurer.

Leo & Perrin, the well-known English firms have decided to build a warehouse here. It is their intention to establish a number of branch warehouses in Winnipeg.

Theologian To Be Consul.

San Francisco, Cal., Aug. 21.—W. F. Doty, lately a theological student at Princeton, sailed to-day to assume the duties of his new position as United States consul in the Society Islands, a post to which he was appointed by President Roosevelt. Mr. Doty succeeds his brother, J. L. Doty, who has held the position for twelve years. He was formerly chief page of the United States senate. He was graduated from Princeton university with honors in 1896, and entered the theological seminary, but ill health forced his retirement, and he went as a mission-ary and United States national agent to Alaska. He is specializing in the study of comparative religion and intends to continue this study in Tahiti.

Will Cause Inspection To Cease.

Victoria, B.C., Aug. 21.—Dr. Montzambert, head of the quarantine service is here and states that the results of his observations are such that he will report to the minister at Ottawa that the inspection of passengers coming into British Columbia from the United States by train and steamer is no longer necessary and will recommend the withdrawal of the officers at the boundary and Kootenay, and the suspension of the inspection at coast cities. Dr. Montzambert thinks there is no longer any danger of small-pox being introduced from the ships.

Was A Private Meeting.

London, Aug. 21.—Despatches from Utrecht state that the interview between the Boer generals and Mr. Krull was quite private, and even Eloff, the ex-president's son-in-law, was not admitted. The statement, which is semi-officially circulated, is that the visit was chiefly social in character, unconnected with politics, and was concerned almost exclusively with the collection of funds for the widows and orphans.

Will View Manoeuvres.

Berlin, Aug. 21.—An official list which has just been published shows that important representatives of the nations and military manoeuvres as the guests of the emperor. The list contains the names of the Earl of Londsdale and Col. Waters from England; Col. J. B. Kerr, of the United States army and about fifty Russian officers, most of them belonging to the czar's bodyguard and Narva Dragoon.

Died From Injuries.

Detroit, Mich., Aug. 21.—A Terry, chief engineer of the Michigan Central railway, died last night at Harper hospital as the result of injuries received on Tuesday afternoon, near Albion on the main line of the road.

Mr. Terry, Bridge Superintendent Daley and another employee were on a tour of inspection on a small gasoline car when a rapidly running freight overtook them on a sharp curve. All three jumped. Mr. Terry landed on a pile of rails, alongside the track and received the injuries which caused his death. Mr. Terry was fifty years old and an expert in his line.

Edward Croker, nephew of "Boss" Croker, has been suspended from duty as chief of the New York fire department.

BRITISH FISCAL SYSTEM.

Will Not Upset Settled Treasury Policy.

New York, Aug. 21.—The Tribune's London cable says: "One of the most capable financiers of the United Kingdom remarked yesterday: 'There will be no immediate change in the British fiscal system. Our people will watch what goes on in the United States. Our own industrial trusts and combinations are working well.'"

Mr. Ritchie is not a financier who will likely upset the settled order of the treasury policy. He finds a high taxing rate and can easily lower it next year. That will be the main change in the budget next year. The registration duties on grain will probably be retained, since the imperial conference has sanctioned the academic principle that wherever practicable British goods should have a preference over British ports.

The government of which Mr. Chamberlain is the most prominent member is not likely to reduce the existing indirect taxation when the conference has affirmed that colonial goods should have a preference in British markets and British goods in colonial markets. The precise form of this declaration has not been disclosed, but officials present at the conference admit that the principle of preferential treatment within the empire has been favored, and that the future will disclose whether anything can be done with it.

There has been a marked reaction against the uneasiness and alarm caused by German and American competition. Sir Alfred Bateman's comprehensive report on British trade has been widely quoted and discussed, and has tended to dispel many illusions. Alarmists are now cautioned against drawing premature generalizations upon the effects of German energy and American resources and organization.

TO FORM A COLONY.

What We Hear By Way of Toledo.

Toledo, Ohio, Aug. 19.—George A. Whitney, of this city, home-staying agent for Canada, has been authorized by the Dominion government to proceed to the coal regions and offer inducements to 30,000 or more of the striking miners and their families to form a colony and to locate on free homesteads, which the government will provide for them, in the great wheat belt of the Northwest.

Whitney says that the men will be given work for six weeks at least, at the rate of \$20 to \$30 per month and board and after that work will be provided for them on government contracts until spring, when they can begin breaking up their homestead grants for next season's crop. It is also understood that the Canadian government will furnish bonafide settlers with means to purchase horses or oxen, farm implements and the erection of homes. Whitney says the Canadian government is anxious to secure colonists from the United States.

Found After 22 Years.

Winnipeg, Aug. 21.—Twenty-two years ago this summer Mrs. John P. Cook, of 373 North Main street, lost her wedding ring while at work in the garden in the rear of her home. At that time she had been married three years. Every summer since then she has searched the garden for the ring, but not until yesterday did she find it.

As she was walking toward her tomato patch a glistening object in the path caught her eye and it proved to be the long lost gold ring. Recent heavy rains are supposed to have unearthed the treasure. When Mr. Cook returned home he replaced the ring on the finger of his wife's hand.

KILLED BY LIGHTNING.

The Worst Storm Known For Years.

Bothwell, Ont., Aug. 21.—Bothwell and vicinity were visited yesterday by the worst electric and hail storm that was ever known here. The storm lasted about forty-five minutes, and cut everything in its course, the hail lying on the ground two to three inches in depth. Matthew Graham, who lives near Florence was killed by lightning and his barns burned and crops destroyed.

Visited By Many Sorrows.

On Wednesday morning the infant daughter of Henry Clayton, Montreal, died at the home of its grandfather, Martin Clayton, Bagot street, this city. Last December the young mother was laid to rest at Cataract cemetery, shortly after birth of the child. The Clayton family have undergone many sore trials during the past three years, and again death has entered the family circle. The sincerest sympathy is felt for those who again are called upon to mourn.

Another Large Attendance.

There was another overflowing house at Lake Ontario Park last evening, and the performance in the pavilion gave general satisfaction. The new stage of the cabinet, in which Onedia is placed, did hand and foot, is plying in the extreme. This scene must be witnessed to be appreciated; when all the material comes from is truly mystifying. The other acts are all of a high order and pleasing in the extreme.
