It is likely that the example of Lady Raglan will be followed several peeresses in aid of chari table undertakings.

Everybody's awful good to me "Tune's nothing extra . no sentiment : gothing particularly funny in it-yet every night the house goes wild Only one way I can explain it FORCE is a mighty good breakfast food; has a dainty. delicate flavor, is crisp and flaky-just the kind of a dish that a man's glad to see when he sits down to

breakfast from force of habit and not because he wants to eat. It leaves a mighty pleasant taste, and it's the memory of that pleasant taste that causes the audience to appreciate so thoroughly that little song." "FORCE" is a combination of the whole of the wheat and barley malt. Wheat contains all elements necessary for the sustenance and proper regulation of every organ of the body. It combines these elements in such proportions that no organ is overworked or under-exercised in the processes of idigestion and assimilation. Because malt is blended with the whole of the wheat, "FORCE" is a perfect food for the overworked or under-exercised stomach, as well as for the stomach in perfect health. Malt is the best natural tonic. In the manufacture of "FORCE" various chemical changes take place in both the wheat and malt which ordinarily are brought about in the first stages of normal and healthy digestion. This food, therefore, is quickly and easily assimilated, but still gives the various organs of the body sufficient exercise to keep them in perfect condition. "FORCE" requires no cooking, and is delicious cold or warm,
