## THEY MADE FINE CAPTURE

GREEN GOODS GANG CAUGHT BY SLEUTHS.

Five Men And One Woman Are Arrested and the Alleged "Plant" is Captured.

New York, Aug. 22.—What is said to be the biggest round-up of green goods swindlers ever made by the federal authorities in this city is announced. Five men and a woman were taken into custody and an entire green goods plant was captured. Four of the prisoners, Joseph R. Baker, Elmer Brown, S. Gottlieb, and the latter wife, were arrested in Newark and George Brown and Thomas Henry were arrested in this city.

According to Postoffice Inspector Michael Boyle, he has secured as complainant against the prisoners Antonio Capers, a New Haven, Conn., butcher, who paid \$300 in cash and received green paper in return. Many complaints from green goods victims have reached the post-office recently and the alleged "plant" was located in Newark after much work. Inspectors Coffeyton and Durven of Philadelphia and Bulman and McMillan, of Boston came here and set to work under the direction of the local inspectors.

Yesterday the inspectors saw a man come to the house of Elmer Brown, the alleged "steerer," followed by Baker, the alleged "trailer." The pair entered the house and came out, the victim carrying a miniature trunk about ten-inches long and four wide. The "steerer" took him to an express office, where the trunk, which the victim thought contained \$5,000 in bills printed from stolen government plates, was shipped to New Haven. Then the inspectors placed Brown and Baker under arrest. The victim said he had paid \$300 for the supposed money and was thunderstruck when the inspectors showed him the truth contained only slips of green paper cut the size of bills.

Soon after Brown and Baker were arrested the "plant" was raided and the Gottliebs were arrested. In the house were found all manner of green goods paraphernalia, circular letters, a dozen or more of the little trunks and piles of green paper. Henry and Brown were arrested last night at a fire. All the prisoners were arraigned and held in \$2,500 bail each.

Murderer Hernia Hanged.

Hackensack, N.J., Aug. 22.—The execution of Peter Hernia, of Wellington, took place in the yard of the county jail to-day. Hernia, on March 5th, during the Passaic river flood, which submerged a large part of Wellington, shot and instantly killed Barney Kanter, a butcher, because the latter would not sell him dog meat. Kanter had no meat, having been cut off from all supply for several days by the flood. Hernia, after being refused, went home, got his revolver and returned and killed the butcher.

Roosevelt Off To New England.

Boston, Mass., Aug. 22.—President Roosevelt has begun his tour of New England and the trip promises to be a notable one in the history of this section. The hospitality of the city of Boston has been extended to Presidents Cleveland, Harrison, Hayes, Arthur, Grant and McKinley, while they were in office, but President Roosevelt is the first chief executive of the nation to undertake a tour of all the New England states. The president and party will arrive in Boston to-morrow afternoon.

Re-elected: Reduced Majority.

London, Aug. 22.—H. W. Foster (conservative), has been re-elected to the parliamentary vacancy in the Seven Oaks division of Kent, caused by his appointment to the lordship commissionership of the treasury. His majority was 89 votes over the liberal candidate, Beaumont Morice. The contest centred on the education bill. At the last election Mr. Foster defeated his liberal opponent by 1,812 votes.

Villain Remains.

Paris, Aug. 22.—The American harvest home excursion to Kingseat and the Thousand Islands is to take place Thursday, August 28th. Principal D. A. Nesbit, B.A., has returned from his vacation, which he spent at Kingseat and contiguous points of interest. He will preach for Rev. Mr. Weatherill, next Sunday, as he is quarantined, scarlet fever being in his family. Mrs. (Dr.) Aylesworth, St. Thomas, is visiting old friends in this village.

Too Weak to Work and Had Severe Headaches—Remarkable Influence of Dr. Chase's Nerve Food.

IN POOR HEALTH FOR 19 YEARS

For 19 Years

Dr. Chase's Nerve Food.

When a person gets weak and run down in health, the fault is usually with the blood supply—the blood is deficient in quantity or quality. Dr. Chase's Nerve Food is a wonderful system-builder, because it forms new blood and creates new nerve force.

Mrs. James Clancy, 714 Water street, Peterboro, Ont., states: "I have used four boxes of Dr. Chase's Nerve Food, and found them an excellent medicine. I was troubled more or less for nineteen years with severe headaches, which made me useless as far as accomplishing any work was concerned."

The Nerve Food seemed to build me generally, and so made a thorough cure of my old trouble. I would not think of being without Dr. Chase's Nerve Food in the house, and would strongly recommend anyone suffering as I did to give it a trial. It succeeded in my case after a great many remedies had failed."

The election trials will probably be heard before Judges MacLennan, Street, MacMahon, and Meredith, starting some time in October.

## A WOMAN MOONSHINER.

Too Fat to be Got Inside the Court Room.

Owensboro, Ky., Aug. 22.—Because a prisoner is too fat to get through the court room doors, United States Commissioner Dudley Lindsey has telegraphed to Washington for permission to hold court in the open air. The prisoner is Jane Woolsey, Litchfield, arrested for making moonshine whisky. She was hauled to this city in a wagon, but it was discovered she could not be taken up the narrow stairs leading to the court room. It is five feet five inches high, and weighs 139 pounds.

May Reduce Armaments.

Rome, Aug. 22.—Accordingly to persons well informed, considerable importance attaches to the visit of King Victor Emmanuel to Emperor William. The king, accompanied by the Italian minister of foreign affairs and a small suite, left for Berlin to-day. Despite the denials from certain quarters it is quite generally believed that the object of the visit is to propose a reduction in constitutional armaments. This is reported to have been the purpose of his recent visit to the czar, from whom he is said to have received every encouragement. The great Roman bankers believe something will come of the project. The young king has taken the step on his own initiative, though it is understood to have the full sanction of the Italian government. Much hope is expressed for the success of the design as a partial disarmament would lift a crushing burden from the shoulders of the Italian people.

Twine From Flax Straw.

Fargo, N.D., Aug. 22.—Recent experiments with flax fibre for binding twine have been so successful that indications are an industry will be developed in the Northwest which will save the farmers millions of dollars annually. Since the development of the flax fibre mills in this state progressive farmers concluded that the tow could be converted into a form of binding twine. Tests were quietly made until recent experiments show a grade of twine of lighter weight and far superior quality to the best qualities now on the market. North Dakota raises more flax than all other sections of the United States and the millions of tons of straw can be converted into tow here and shipped to the twine factories and converted into much desired product. It is believed that the new plan of manufacturing would be much cheaper, and that a supply adequate to the needs of all the northwestern states could be turned out.

INCIDENTS OF THE DAY.

Newsy Paragraphs Picked Up By Reporters On Their Rounds.

Centreville Tidings.

Centreville, Aug. 21.—By the last of the week harvesting will be nearly completed. Quite a number of farmers have already had some threshing done. School reopened on Monday with full attendance. A number in this vicinity will take in the harvest excursion to Manitoba and the North West on Wednesday. Misses Edna and Birdie Finch have returned after visiting friends in Toronto, Buffalo, Erie and other western points. Miss M. C. McFetridge returned on Monday from an extended visit with friends in Toronto and Winnipeg. Visitors: Mr. and Mrs. B. S. Kellar, Morven; Miss Aggie Matrone, Svensham; Miss Lena Brondum, Wallacetown; Miss M. Ingoldsby, and Master R. Currie, Kingston.

The Trappists.

Many letters come to the monastery announcing the death of relatives of the monks; these are seen by the abbot only, and at chapter he may simply announce: "The mother of one of our number is dead; let us pray for her soul."

Never to his dying day does the beloved Trappist learn that he was praying for his own mother.

A Canadian Killed.

Detroit, Aug. 22.—Charles Gilmore, a native of Hamilton, Ont., and for the past ten years an employee of the Michigan Telephone Co., was killed at Edmore, Mich., yesterday afternoon. While unloading poles from a moving car a pole crushing him badly and carrying him under the moving car. Gilmore has been married only six months. His home was in Detroit.

## CHURCHES MAY COMBINE

WILL START MOVEMENT TO RELIEVE STRAIN.

And Ask Others to Aid—Fewer Competing and Struggling Churches in Newly Settled Districts.

Christian Guardian, Toronto.

We opine that our own church at the forthcoming general conference will advance still further in the direction of economizing both means and energy. This will involve the closing of all churches that have been kept open since the union simply for sentimental reasons, or as conveniences for the favored few. It will issue in the combination of small, struggling churches in such a way that the work will be satisfactorily compassed by fewer ministers than are now upon the ground. This will not only relieve the financial strain where it is felt the most, but will also increase the stipends where they are at present so painfully small and inadequate, and so add to real ministerial effectiveness.

Here, however, the general conference will not stay. It will not only plan for this immediate action within its own jurisdiction, but it will, if we mistake not, seek to arrange, with the courts of certain other churches, for a more economical management of matters on those numerous domestic missions where all are represented.

In 1872, in consequence of the retirement of Messrs. Edward Blake and Alexander Mackenzie from the Ontario House, owing to the provisions of the dual representation act, he was called on by the Lieutenant-Governor to form an Administration, and resigned his Vice-Chancellorship to do so. He became member for North Oxford, being elected to that constituency by acclamation, and assumed the office of Attorney-General of the Province. Afterwards he was six times returned for the constituency, thrice by acclamation, and thrice after a battle at the polls. He was Premier for 24 years, the longest continuous term of office as Premier ever accorded to any man in Canada. He resigned in 1896 to join Sir Wilfrid Laurier's Cabinet, and left it later to become Lieutenant-Governor.

For two years Sir Oliver was a member of the Toronto City Council, where he rendered great service, representing St. Lawrence Ward in 1857 and St. James' Ward in 1858.

Sir Oliver is a member of the Presbyterian Church, and for many years was president of the Evangelical Alliance. He has always taken a deep interest in social and religious matters, and has contributed on several occasions to religious literature. In recognition of his public services Queen's University in 1892 conferred upon him the degree of LL.D., and Toronto University paid him the same honor in 1889.

Lots of Good Catchies.

A gentleman in Pittsburg wishes to inquire about the lakes, and asks what there is to be caught. The gentleman is requested to pack his grip and come right along, for there is more catching done here than ever dreamed of. Why in the canal alone, only a short stretch that runs in front of the office of this great journal, there is all the catching any man can wish for. To commence with, and it commences at 6:15 a.m., there are three boats to catch, and the efforts made by fully twenty per cent, of the catchers would make a horse laugh. A Washington lady the other day caught seven perch thirteen sunfish, and two mudpups, and little Tommy Schenck got into the river to his neck and caught the tarnation old larrooping of his life. He has been lying on his little tummey ever since, and it happened three days ago. A gentleman from Buffalo caught four fine bass in less than ten minutes on Monday last, and the lockmaster caught a cord and a half of fine driftwood. Last season a young lady, not too young either, caught a husband while sitting on the wharf waiting for the Saturday night boat. She would be glad to trade him off for a second hand carpet sweeper, or mostly any old thing now, but she caught him all the same, and you wouldn't have classed her as much of a catcher. Then a gentleman from Syracuse got into a boat the other morning on his first fishing expedition. He was real pretty to look at. Costume was the very thing, and brand new. He was a daisy, and said he didn't see any reason why he couldn't row. He caught a crab on the second stroke, and when he came up from under the boat he wanted to know if a water spout had struck them, or what it was anyhow. It is all right, dear boy, if catching is what you are after. Go to your nearest railway station and ask for a Kawartha Lake tourist ticket, to Bobcaygeon, and you can rely on a round of catching that will keep you wondering for a year or more. Bobcaygeon independent.
