Seats now on sale at HANLEY'S.  
Next attraction on September 4th, Jas. A. Hooper's pastoral comedy-drama "SHORE ACRES."

### For Working on the Canadian Sunday.

Hamilton, Ont., Aug. 27.—Henry Witte, Charles Hitzeroth and Joseph Forester, Jews, were each fined fifty cents in the police court, yesterday, for working on Sunday. They are tailors. They were under the impression that as Sunday was not their Sabbath, they could work.  
George A. Casselman, Lansing, Mich., was convicted here of forgery in passing checks on city merchants. Sentence reserved.  
The directors of the Hamilton and Fort William Navigation company have decided to order another boat in England. The boat will be full canal size, but the hold will contain a section of 100 feet, to be added after the vessel passes through the canals. This proposed boat is to trade in the upper lakes. The company already runs the Donnacona and Strathcona.

### Sent Up From Arnprior.

Arnprior, Ont., Aug. 27.—On Saturday Police Magistrate Tierney sentenced Thomas Rogers to two years in Kingston penitentiary for theft of a watch from a room-mate at the McPherson house. Rogers rose early on the morning of the 22nd, and, taking the watch, together with a chain and lock, headed for Galetta. Chief Mattson captured him there just as he was about to board a train for Ottawa.

### The Flower Statue.

Will be unveiled at Watertown next Monday, and the Jefferson county fair will be taking place same day. Excursion tickets good going Saturday, 2.30 p.m. or Monday, 5 a.m., returning Monday, 6.10 p.m. for only \$1.25.

### The Second Number.

The second number of the Sydenham Review, L. N. O'Brien's neat little sheet, has just been issued. It is as full of Sydenham news as an egg is of meat.

### "Bibby's." Oak Hall. "Bibby's."

New rain coats, new hats, new umbrellas and new gloves. The H. D. Bibby's Co.

### Boys' School Suits.

Norfolk's, Sacks, and Brownies, \$1.45 to \$4.50. Jenkins.

## ACCUSED OF PLOTTING.

### Many Italian's Have Been Arrested.

## TO DAMAGE ROYAL TRAIN ON WHICH KING TRAVELED TO BERLIN.

### A Valuable Painting Has Been Unearthed—Anxious for the Introduction of a New Loom—Would Not Supplicate Carnegie.

London, Aug. 27.—The Geneva correspondent of the Daily Chronicle, in a despatch describing the enthusiastic welcome extended to King Victor Emmanuel on his arrival at Goschenon, on his way to Berlin, reports that a plot was discovered by which the royal train was to be derailed. Many Italians have been arrested. A despatch from Milan to the Daily Telegraph says some years ago a picture was discovered in an old castle and deposited in the gallery of paintings at the palace. This picture has now been recognized as one of the finest of Botticelli's works. It is oval-shaped and it is painted on a wooden board. It represents the Madonna adoring on her knees the infant Jesus, lying on grass. The picture, the correspondent says, is absolutely a precious work, which heretofore has been referred to as having been lost.

English cotton manufacturers are eagerly anticipating the appearance of the Northrop loom in the Lancashire weaving sheds.  
The Dover corporation yesterday rejected a proposal that Mr. Carnegie should be asked for a donation towards building a public library. Several members indignantly protested against the idea of going cap in hand, to the United States millionaire.  
The announcement in United States dispatches that Henry White, first secretary of the United States embassy here, is going to Madrid, is clearly premature. Mr. White is starting for the United States to-day on the Kaiser Wilhelm with his son who is preparing to enter Harvard from Et-on. Mr. White's friends hoped that there would be a vacancy for him at Rome, where his knowledge of Italian and French would have proved an excellent equipment for diplomatic work. Mr. White also speaks German, but not Spanish.  
In a test made here A. Chase lowered the bicycle record for a mile to 1:20.45 minutes.  
Joseph Choate, the United States ambassador, has returned to London after a visit to North Berwick and has met the counsel engaged in presenting the United States' side in the first arbitration case before the tribunal at The Hague. This case relates to cases of various Roman Catholic bodies against the Mexican government for interest, due since a settlement arranged by a mixed commission at Washington twenty-five years ago. The opening session of the tribunal will be held on Tuesday at The Hague, but will be mainly devoted to formalities and points of etiquette.

### TO INTERVENE.

### One of Powers Should Control the Finances.

Cologne, Aug. 27.—The Cologne Gazette, discussing the situation in Venezuela, advocates the intervention of one or more of the three powers—Germany, France and the United States—who have sunk capital in the country, in order to prevent the professional revolutionists from doing further mischief.  
The Gazette recommends an idea which it says has already taken root in Venezuela, namely, the appointment of a finance committee, consisting of an equal representation of Venezuelans and representatives of the powers, to exercise control of the chief sources of revenue, to collect customs duties on imports, and generally to administer the finances without interfering with Venezuela's status as a separate entity. The Gazette believes that Gen. Matos would, in the event of the final triumph of the revolutionists, consent to such a scheme.

### MADE AMAZING TIME.

### A Motor Car Goes at Rate of 84 Miles an Hour.

Trouville, Aug. 27.—Amazing speeds were reached in the motor car races at Deauville, yesterday, in the presence of a great crowd of fashionable people. The chief event was the race for the kilometre (sixty-two hundredths of a mile) championship of the world, which was won by Gabriel on a Morse car. He made the distance in 26.25 seconds, which is at the rate of eighty-four miles an hour. W. K. Vanderbilt, Jr., made the distance in 29.25 seconds a short time ago, but his record was subsequently lowered by Jarrotte in 28.15 seconds. The course lay from the hotels and villas on one side to the sand dunes. It was 1900 metres (2,077 yards) long. The contestants were allowed 600 metres in which to get up speed before the kilometre test began, and 300 metres for slowing up after the finishing post and been passed.

### Shot In Heart; Recovers.

Paris, Aug. 27.—Dr. Peyrat has called to the notice of the Academy of Medicine a case in which a man hit in the heart by a revolver bullet had been completely cured. The wounded man was attended in one of the Paris hospitals, where Dr. Lanany successfully stitched the wound. Some time ago Dr. L. Dantou reported several cases of successful treatment of wounds in the heart produced by knives, etc., the proportion of cures being thirty to forty per cent, but this appears to be the first case of success in dealing with a man shot in the heart.

## NEW LINE ORGANIZED.

### Railway Backed by English Capital, Ready in 1903.

Ottawa, Aug. 27.—The Brockville and St. Lawrence railway company has been organized here with J. Carling Kelly as president. This company expects to connect Ottawa with the Grand Trunk at Brockville, by 1903 and to develop a large traffic there. The scheme is backed by English capital, and the necessary government deposit has already been made.

The total salmon pack on the Fraser river for the present season is 262,000 cases. This is the smallest since 1898. Last year the pack was 990,152 cases and the year previous 527,396. In 1898, the lowest year on record, the pack was 189,685. The Puget Sound pack is estimated at 325,500 cases, a little below the average.

Charles Drinkwater, secretary of the Canadian Pacific railway, says the company has had extraordinary efforts to secure rolling stock enough to handle the season's great harvest.  
"We have bought all we could, and kept our own shops busy turning out cars and engines, and think we are now ready for the 'crush,'" he said.  
"In a week more the first deliveries will be upon us, and from that on till winter our hands will certainly be full."

## HORSE SAVES A CHILD.

### Lifted by Clothing and Placed in Manger.

Toledo, Ohio, Aug. 27.—An exceptional instance of extraordinary development of instinct in horses came to light here yesterday afternoon, and the animal playing the leading part was Prince, a twenty-year-old family horse owned by W. McDonough, a grocer. The four-year-old daughter of McDonough wandered into the barn unobserved, in the afternoon and was soon at play on the floor of a big box stall, the freedom of which is allowed to Prince and another younger and very spirited animal.

During her play the child fell under the younger horse and might have been kicked to death had not old Prince come to the rescue. In the meantime a search for the child had been started. Mr. McDonough went to the barn, and just as he entered saw the old horse snuffing the ground about the child's clothing, and lifting her from danger, deposit her on the hay in the manger, where he carefully guarded her until Mr. McDonough took her away.

## PROPHET WITH CASH.

### Published Advertisement Regarding Future Happenings.

London, Aug. 27.—A man calling himself Staty, of London, has published an advertisement in two and a half columns long to be inserted in the most expensive columns of London's newspapers, the advertisement being a prophecy. From figures and signs in the books of Daniel and Revelation he finds that what was formerly between 1906 and 1917, into ten kingdoms, including France, extending to the Rhine, taking in Great Britain without Ireland, and India, Spain, Austria, Greece, Turkey, Syria, Egypt, and the Balkans. These ten kingdoms will form a Latin confederacy which will be league against Germany and Russia. The prophet says that a lot of terrible things will happen in the ensuing ten years.

## APPROVES NEW TARIFF.

### Commissioners to Sign Treaty This Week.

Shanghai, Aug. 27.—An imperial edict was issued last Wednesday sanctioning the new tariff rates. These rates will go into effect on the first day of the Chinese New Year, which will be about the beginning of February, 1903. The Chinese commissioner will probably sign this treaty with the powers on Thursday. It has already been signed by the American, British, German and Japanese representatives and by the commissioners of Austria, Belgium and Holland subject to the approval of their governments.

## RAILWAY CHANGES.

### The Road Divided Into Seven Divisions.

Winnipeg, Aug. 27.—The Canadian Pacific lines from Fort William to the mountains have been divided into seven divisions. Mr. Arundell is to be superintendent at Winnipeg. William Brown, trainmaster at St. Mary's Portage, takes the Broadview division. R. Peard, superintendent at Brandon, goes to Souris, but intends to leave the company's employ when his place will be taken by A. Allan, Calgary. J. G. Taylor, Montreal, will be acting superintendent at Brandon. The other three superintendents are, Messrs. Brady, Milestone and Niblock.

## Pearsall Gave Up \$600.

Buffalo, N.Y., Aug. 27.—Gordon Pearsall, a farmer living near St. Catharines, Ont., has purchased the mammoth Elliott square building for \$1,200, the late deal being put through by a confidence man who secured \$600 down, and then lit out while the unsuspecting farmer went home to get the balance of the money. Pearsall came to Buffalo, and wandered into the Elliott square, where he met the confidence man, who introduced himself as J. Milton McCormick, the repair manufacturer. He was shown all through the building by McCormick, who gave orders to the employees, and had the air of a man of wealth. Pearsall confided in him, and finally a bargain was struck.

Prescriptions carefully dispensed. H. B. Taylor, 124 Princess street.

## NEWS OF THE WORLD

### What Comes To Us From All Quarters.

## CONDENSED PARAGRAPHS.

## TELEGRAMS FROM THE FOUR QUARTERS OF THE EARTH.

## Matters That Interest Everybody

### Notes From All Over—Little of Everything Easily Read and Remembered By The Dear Public.

Russia's industries are in bad shape, and many failures are reported.  
Michael Boland died at Ottawa of injuries received on the railway.  
Princess Henry of Prussia is suffering from a mild attack of measles at Kiel.  
Frank Reaume, a Sandwich, O., farmer, harvested 2,400 bushels wheat from a seventy-acre field.  
United States census returns show that illiteracy in the large cities is less than half as prevalent as in the rest of that country.  
F. B. Hayes, secretary of the Toronto Carpet Manufacturing company, was fined \$50 yesterday for an infraction of the alien labor law.  
Harvesting is now in full swing in Manitoba and the warm weather is ripening the grain faster than it can cut. The demand for labor is still brisk.  
Anton Lunz, who acted the part of Christus in the last performance of the Oberamargu Passion Play, in 1900, was married on Tuesday, his bride being Matilda Rutz, the daughter of a blacksmith.  
The Duchess of Sutherland is writing a play for Miss Ethel Barrymore, which is to be produced in 1901. It will be a light comedy dealing with modern incidents. The duchess has already written two successful books.

## HAS VALUE TO NATIONS.

### Triple Alliance a Well Tried System.

Berlin, Aug. 27.—The Berlin Reichsanzeiger, the Imperial Gazette, publishes an official welcome to King Victor Emmanuel. The paper declares that friendship between the two dynasties has value for both the German and Italian nations as a pledge of stability in the political relations which knit the countries one to another and to Austria and Hungary; the triple alliance for the common good of maintaining the status quo in Central Europe. It does not lay any burden on the members which each individual state would not have taken up of its own initiative. It welcomes Signor Prinetti, the Italian minister of foreign affairs, as a statesman who helped to renew this well tried system of territorial guarantees. The North German Gazette also publishes an article welcoming the king of Italy.

## HAS RHEUMATISM.

### Rattlesnake Oil is Medicine Used to Effect Cure.

New York, Aug. 27.—"Old Smiles," the only African two-horn rhinoceros in captivity, is laid up with an attack of rheumatism in her stall in the Central park menagerie. She is being nursed with extraordinary solicitude, as she will might be, seeing that Director Smith has refused an offer of \$24,000 for her, and could probably get considerably more if he would sell. Keeper Snyder has just returned from his vacation. While in the Catskills an old hunter told him about a certain cure for rheumatism which hunters had used there with success. It is composed in part of rattlesnake oil. The keeper remembered this, when he saw "Old Smiles" plight to-day, and the remedy is being tried.

## SWALLOWED HER HAIR.

### Undergoes Operation Because it Failed to Digest.

Topeka, Kan., Aug. 27.—Etta Barnett, the twelve-year-old daughter of William Barrett, a farmer at Overbrook, acquired the habit of pulling hairs from her head and chewing and swallowing them. Her health began to fail. She was brought to a Topeka hospital, where an operation was performed to-day. It revealed the fact that the intestine was clogged with a bunch of hair an inch in diameter and five inches long. The girl is improving. It was the first operation of that character ever brought to the attention of Topeka surgeons.

## COTTON IN THE SOUDAN.

### As Good as That Grown Elsewhere.

London, Aug. 27.—Experiments show that cotton grown on the banks of the Nile is equal to any in the world, and fifteen million acres of irrigated land are available for its cultivation. Labor is scarce, but will probably improve with the completion of the Suakim-Berber railway.

## State Of The Crop.

Toronto, Ont., Aug. 27.—The apple crop of Prince Edward county is, says S. Lake, West Lake, "not equal to that of 1900. There are not so many apples, and the sample is not as good as two years ago. The fruit has fallen, a good deal of late, the dropping being caused, I think, by the cold, wet weather. Spotting is also quite extensive. There won't be more than one-third of the crop that will grade as No. 1. Some growers have had through, and have been offering \$1 for No. 1 and 2. In some cases, sales have been made by the orchard."

## Pope Will Get Rare Gem.

Rome, Aug. 27.—Pope Leo will soon be the possessor of the largest opal in the world—the celebrated eight-carat Brazilian gem which belonged to the Neapolitan Bourbons. The stone has been engraved with the image of the Saviour, and will be presented to the pope at the close of the present jubilee year, by Count Caserta, heir to the Bourbon kings, along with other rich Neapolitan Catholics.

## May Have Committed Suicide.

New York, Aug. 27.—William Sheehan, thirty-five years of age, of Ontario, Canada, was found dead in bed at the home of Charles Book, Brooklyn, from the effects of illuminating gas. There were two open gas jets in the room and the police believe he committed suicide.

### Boys' School Suits.

Norfolk's, Sacks, and Brownies, \$1.45 to \$4.50. Jenkins.

## PLAN STRIKE IN CHICAGO.

### Street Car Employees Reject Company's Offer.

Chicago, Aug. 27.—Grave possibilities of a strike that may tie up all the street railway lines of the west and north sides of this city confront the officials of the Union Traction company. By an overwhelming vote the local union of the Amalgamated Association of Street Car Employees refused to accept the proposition made by President Roach several days ago.

The overtures of the company, which included an increase of one cent an hour in wages, the dissolution of a rival employees' association and the employment of non-union men, was balloted on by nearly 3,000 men. The votes were counted and although no public statement was made of the vote it was estimated that the radical men carried the referendum against the company by nearly ten to one.

An agreement between the union and the railway company exists whereby disagreements shall be settled by arbitration.

William Mahon, international president of the street car men, tried to exert his influence to avert any strike action and to urge that the union live up to its laws.

A rupture, however, occurred between the local officials and President Mahon and he left their meeting with a statement that if the men struck without trying arbitration the general union would not support them in the issue.

## ENTERPRISING LIQUOR MAN.

### He Built a Town for a Saloon.

Partersburg, W. Va., Aug. 27.—C. D. Gillespie, of Hendrick, Tucker county, has applied for six years for a license to sell liquor, but was turned down every time. He bought several acres of land on the Cheat river opposite Hendrick, and built a number of tenement houses. When the population was sufficient he applied for corporate powers for his town, which he called Brooklyn Heights. As he had a petition from every citizen of the place he got a charter.

After incorporating Brooklyn Heights, Gillespie elected a mayor and city council, and with their backing again applied for a license. The county court gave him the necessary permission. Immediately upon getting the license, he gave a contract for a wire bridge, which begins in front of his saloon and ends in Hendrick. He built his saloon, a big frame building, in twenty-four hours, and is selling liquors to the people of the Heights and the town of Hendrick.

He has erected a city lock-up, and he runs the town, collects the fines and taxes.

## GETTING LOWER WAGES.

### Report of the Board of Trade Shows Decline.

London, Aug. 27.—The annual report of the labor department of the board of trade records a decline in the wages bill of the United Kingdom for the first time since 1885. The decrease was mostly in miners' wages, no less than 625,000 miners being affected during the first half of 1902. The report says it is satisfactory to note the increased tendency to settle changes of wages by conciliation or arbitration. Only two per cent of the workers whose wages were reduced in 1901 engaged in disputes on that account.

## STRANGE DISTURBANCES.

### Showers of Volcanic Dust Fall—Detonations Heard.

St. Thomas, Danish West Indies, Aug. 27.—Advices received from Dominica say that between ten in the morning and three in the afternoon of Monday clouds of dust were seen in the direction of Mont Pelee, Martinique, and that detonations at long intervals were heard all the morning. Light showers of volcanic dust fell on Dominica.

## DARLING KILLED.

### Was Cut by Knives in a Run-away.

Belleville, Ont., Aug. 26.—Robert Darling, a farmer of Ameliasburg, was driving a hinder, yesterday afternoon, when the horses became frightened and ran away. The unfortunate man was thrown on the knives and so badly cut that he died shortly after being rescued. Darling, aged thirty, leaves a childless widow.

## More Trouble Ahead.

Johannesburg, Aug. 27.—A strong force of British troops has been dispatched to the western border of the Transvaal ostensibly to relieve troops ordered to India, but it is currently reported that this step is taken owing to the disturbances among the natives. Rumors are also current of an intention to annex or establish a protectorate in Swaziland, where a strong force of constabulary is now posted.

## Pope Will Get Rare Gem.

Rome, Aug. 27.—Pope Leo will soon be the possessor of the largest opal in the world—the celebrated eight-carat Brazilian gem which belonged to the Neapolitan Bourbons. The stone has been engraved with the image of the Saviour, and will be presented to the pope at the close of the present jubilee year, by Count Caserta, heir to the Bourbon kings, along with other rich Neapolitan Catholics.

### Boys' School Suits.

Norfolk's, Sacks, and Brownies, \$1.45 to \$4.50. Jenkins.

## WEATHER PROBABILITIES.

Toronto, Aug. 27th. (10 a.m.)—Fine and warm to-day and on Thursday.
