PEACE PARTY

With Gen. Botha Likely as Leader

BRITISH VIEWS

FAITH IN REPRESENTATIVE INSTITUTIONS.

Chamberlain is Not Worrying About South Africa—Self-Government is Necessary and Cannot be Readily Abandoned.

New York, Aug. 28.—The Tribune's London cable says: There is no evidence at the colonial office, or elsewhere, that the ministry is deeply concerned over the results of the Boer conferences in Holland or Sir John Sprigg's exploits as a political trimmer at Cape Town. South Africa has been left to stew in its own juice, and Mr. Chamberlain does not meddle with the kettle even with a long spoon.

There is an optimistic feeling among officials here that Gen. Botha, after separating himself from the irreconcilable Boers, such as Mr. Kruger, Dr. Leyds, and Mr. Reitz, will return to South Africa with Messrs. Fischer, Wessels, Dewet, and Delarey, and become the leader of a rational peace party. Mr. Chamberlain's desertion of the loyalists of Cape Colony, and the moral support of Sir John Sprigg's alliance with the Bond are explained in the same quarter as the natural effect of his own faith in the efficacy of representative institutions and the characteristic British prejudice against suspending the constitution when it would be difficult to return to the principles of self-government after abandoning them.

Miss Wilson Still Missing.

Woodstock, Ont., Aug. 28.—Amy Wilson, the nineteen-year-old girl, who disappeared from Coptown a month ago, is still missing, and the authorities here believe she has gone to Michigan with a horse and buggy she hired from a Tilsonburg liverman named E. J. House, and suggested to return, unsuccessfully, to hire an outfit here. The girl was accompanied by a slight young man in Tilsonburg, and it is believed that the young man was Miss Wilson in disguise and the girl somebody she had picked up on the road.

Admiral His Fluck.

London, Aug. 28.—The English press continues to pay high tribute to President Roosevelt, for pluck and courage, in appealing from what is described here as a capitalistic caucus, to the electorate at large on the question of bringing combinations under national control.

The Daily Telegraph considers that President Roosevelt's action may prove, within the next few months, to have raised the most epoch-making issue in United States politics since Mr. Bryan's schism on silver.

Coin Under Horse's Hide.

New York, Aug. 28.—Frank I. Taylor, an ice-cream dealer, noticed something under his horse's skin three weeks ago and poulticed the shoulder. This did no good and it was finally concluded to open the swelling. Veterinary Surgeon James Corless extracted a silver quarter dated 1898. There is considerable speculation as to how the coin got under the skin. Dr. Corless used a magnifying glass and ascertained that there was no old scar anywhere near where the coin was found.

Law Hard On Romance.

Toronto, Aug. 28.—Justice is hard on romance. When the case of Leonard Bryan, the fifteen-year-old runaway, who came from Owen Sound to Toronto for love of Willie Bartlett, of Toronto Junction, came before magistrate Spencer, of Owen Sound, Bartlett finally pleaded guilty and was discharged on suspension of sentence, while pretty Bryan, charged with stealing her aunt's valise, was given a lecture and discharged from custody.

Will Have Arbitration.

Hamilton, Ont., Aug. 28.—Manager Hawkins has assured the electrical workers that the agreement of submission to arbitration will be signed by the president of the Cataract Power company. The arbitrators, William Bell and W. G. Reid, held two meetings yesterday appointing a third arbitrator, but could not agree on a man. The men will return to work when the third arbitrator is appointed.

Great Gas Strike.

Hepworth, Ont., Aug. 28.—A huge gas well was struck at Hepworth on Wednesday. While drilling was in progress, on the Drellie property, here, tools penetrated the Trenton sand and immediately the pressure was cleared. At present it is not possible to measure the output, but the strike is unquestionably the greatest of recent years in Ontario.

Woman's Wonderful Luck.

Woodstock, Aug. 28.—The young lady who lost her ring while out canoeing on the river a few weeks ago, found it last night. She had made daily trips in search of it since its loss, and, last night, found it hanging on a spear of grass, where the river was low.

MILITARY RIDE

Resulted in Victory For Frenchmen

CROWD ABOUT TO WITNESS THE EXCITING START.

The Ordeal Towards the Finish Was Very Severe—Horses Died on the Road—Distance Covered in Over Six Hours.

Brussels, August 15.—The international military ride from Brussels to Ostend, a distance of 112.5 miles, and 11.5 half miles, resulted in an easy victory for the Frenchmen. An enormous crowd witnessed the start, which was made in a violent hail storm. The horses were hoof deep in mud during the contest. There were only sixty-one competitors and they started at intervals of six seconds. Lieut. Madamet, Frenchman, won. After passing the sixty-two and one-half mile point the hardest of the ride began, and the affair developed into the severest kind of an ordeal; many horses fell exhausted. Three animals dropped dead before Ostend was reached. When near Ostend a Frenchman, Lieut. Banzil, noticed that his horse was dying, and drew his revolver and blew the animal's brains out.

The only English officer in the contest, Lieut. Gibbon, saw his mount was exhausted, and dismounted, while the animal panted its life away.

The scene at Ostend, when the Frenchman, Lieut. Madamet, riding a Hungarian thoroughbred, came in first was one of great enthusiasm. The horse died soon after the victory. The second, third and fourth at the finish were all Frenchmen, then came a Norwegian, a Dutchman and a Belgian. The time of the winner for the entire distance was six hours and twenty minutes.

ANTHRACITE HOARDED UP.

Companies Have Large Stocks of Domestic Article.

New York, Aug. 28.—An effort is being made to gather a committee of well-known men to mediate in the coal strike. Cardinal Gibbons, John Wammaker, and others have agreed to act.

One of the best-known retail coal dealers in New York made the statement yesterday afternoon that at the present time the coal carrying railroads have approximately 500,000 tons of anthracite coal stored in the mining regions.

"The coal the railroads have stored is of domestic sizes, the very sizes which cannot be bought except in small quantities," said the dealer. "I don't pretend to say that the amount stored is exactly 500,000 tons, but I am satisfied that it is as much as that, and would not be surprised if it were a great deal more."

Why they are holding it is more than I can say. Before the strike was declared they set this great supply of coal aside, thinking there might be a strike in the bituminous region, in which case they would have used for all the hard coal they could scrape together."

Teachers Boycotted.

Shenandoah, Pa., Aug. 28.—The school board of Mahanoy township yesterday removed six of the ablest teachers in the township. The reason given was that members of the families of these teachers were non-union mine workers. Among those affected is Miss Anna Beddall, sister of Joseph Beddall, who was killed during the riot of July 30th. The board unanimously decided that applicants in any way connected with non-union workmen should not receive appointments.

EVACUATION OF MANCHURIA.

By Russia—M. Pavloff Talks Of It.

Tokio, Aug. 11, via Victoria, B. C., Aug. 27.—M. Pavloff, Russian minister to Corea, who has been visiting Japan, has returned to Seoul. Regarding the question of the evacuation of Manchuria, official information has been received to the effect that preparations for evacuation have commenced in Kinchow, midway between Shang Hai and Kwan and New Changhai, in the course of six months after the signing of the Manchurian agreement (April 8th). The Russian troops from the south-western position of the province of Mukden, as far as the Las river, are to be withdrawn, and the railway is to be restored at the same time.

Buying Ontario Town.

W. E. Kerr, barrister, Cobourg, reports that that town is being gradually bought up by United Statesers, who flock there in the summer. This week wealthy men from across the border have purchased the old collegiate institute and the residence of the late Col. Darcy Boulton, in that town, and will reconstruct them into palatial summer homes. Fully a hundred United Statesers own property in Cobourg at present, and every year the number is increasing. Eleven thousand dollars was paid for the Boulton property.

The Pavilion Crowded.

The pavilion at Lake Ontario Park was crowded again last evening. The Bletsos children, in Scotch, Irish and English, were great favorites. Prior and Albright, the Irish comedians, are about as clever as they make them, and as mirth-producers are a great success. Sir Alcott made a good character impersonation. The company seems to be a very popular one.

SHOT BY A BOY.

And It Is Thought Act Was Accidental.

Ottawa, Aug. 28.—The wife of W. A. Allan, well known government contractor, of the firm of Allan and Fleming, died suddenly to-day.

James Emery, a farmer in Goulburn township, was shot in the breast by a boy who was fooling with a revolver, and he may die. The boy is an adopted waif, but it is believed that the affair was accidental. Crown Attorney Ritchie has sent County Chief Hamilton to take the man's ante-mortem statement. The boy has not been arrested.

Jeremiah Hurley, ex-M.P., whose duty it is to see that the fisheries regulations are observed throughout the eastern half of Ontario, is in Ottawa. He says that the fishing has been excellent all through his district this season. Excellent catches have been made all season along the St. Lawrence and lake ports, and in the Rideau and other lakes which attract sportsmen from all over the province, and in many cases from the United States.

Mr. Hurley attributes the good fishing to the regulations enforced these two seasons past against netting in July and August. He says the law of the Ontario Fisheries department limiting a day's catch of fish to twenty pounds, or ten fish per individual, has worked well, and put an end to the shipping across to New York State of large quantities of so-called sportsmen took in our waters.

Another cargo of hay and flour has been discharged in excellent condition at Lorenzo Marquet.

Hon. Sydney Fisher has decided to postpone his contemplated trip to Japan until next year.

Immigration Commissioner Pedley has investigated the report that a movement was on foot to settle 30,000 Pennsylvania miners in the Canadian west and finds the story to be a pure invention.

FIVE WERE DROWNED.

A Steamer Ran Down A Row Boat.

Battle Creek, Mich., Aug. 28.—The steamer Welcome, in Lake Gogaine, last night, ran down a row boat containing five women and a young man, and all but one of the party were drowned. The dead are: Fanny Wills, Toronto, Ont.; Ella Dorsey, Allegheny, Pa.; Fannie Brady, Battle Creek, Mich.; Mabel Richards, Traverse City, Mich.; Bennett, Dallas, Texas. The pleasure party had rowed into the lake and were returning to the shore when the accident occurred. The little craft was struck broadside by the steamer and its occupants were thrown into the water.

One of the Misses Brady and A. Richards were recovered, but the others are still in the lake.

Carrie Fyock, of Johnston, Pa., was rescued. The young women were all nurses at the sanitarium here.

APPEALS FOR TRADE.

Premier Invites Frenchmen to Settle in Canada.

Lille, France, Aug. 28.—Sir Wilfrid Laurier, prime minister of Canada, inspected the exposition yesterday. A banquet was given him, and in responding to a toast to his health, Sir Wilfrid referred to the sympathies existing between France and Canada, and expressed hope for freer commercial relations between the two countries and that France would become an open market for Canadian products, which the speaker expected could be supplied under exceptional conditions.

"In industry there is no sentiment other than that inspired by the best market," said the prime minister, and in conclusion he invited Frenchmen to settle in Canada, where, he said, they would be heartily welcomed.

VESEL SAILINGS.

Dates on Which Boats Leave for Africa.

Toronto, Aug. 28.—Following are the sailings of steamships in the new Canadian-South African line, as supplied to the Canadian Manufacturers' Association: Ontario leaves Montreal on or about October 15th, for Cape Town, Port Elizabeth and Durban; Port Elizabeth leaves Montreal on or about November 15th; Melville, Montreal, November 15th; Cape Town, East London and Durban; Onaria, St. John and Halifax, December 15th, for Cape Town, Port Elizabeth and Durban. All will proceed to Delagoa Bay, if sufficient freight offers. The vessels' capacity will be about 5,000 tons.

THEY MUST PAY \$1,000.

Editor and Proprietor of Manila Freedmen Fined.

Manila, Aug. 28.—Frederick Dorr, the proprietor, and Edward O'Brien, the editor of Freedmen, recently convicted of sedition, have been fined \$1,000 without imprisonment. A. R. Dorr, manager of the paper, was fined \$25.

Dorr and O'Brien were each sentenced August 25th, to six months in Bilibid prison and were fined \$1,000 for libelling Benito Legarda, a native member of the Philippine civil commission.

Are Back To Duty.

Brest, France, Aug. 28.—The sisters who were recently expelled from Landerneau (in Finisterre, twelve miles from Brest), discovered a decree dated 1828 which removes them from the scope of association's law and they have resumed possession of their school. A crowd of people attended them an ovation when they returned.

Death Of Major Howe.

Macleod, N.W.T., Aug. 28.—Major Joseph Howe, superintendent commanding the North-West Mounted Police, Macleod district, died very suddenly at his residence in the N. W. M. P. barracks, here, on Sunday evening, the 17th inst., of heart failure.
