

MONEY GOES

A good way here—brings more returns, in quantity and quality, than the same sum would bring elsewhere. Money invested in our suits for men and boys—which, by the way we are offering at cut rates this month—is money well invested. Every suit is thoroughly made.

The unhappy victim of disease who has just dragged through the summer and who is now racked with suffering and almost a physical wreck, must make immediate choice of two paths. One leads to increased misery and certain death, the other to new life, health and happiness.

The use of Paine's Celery Compound is a necessity for all who seek the path of health and long years. Victims of rheumatism, neuralgia, kidney disease, liver trouble, dyspepsia, nervousness and blood diseases, quickly and surely find new life, vigor and strength in Dr. Phelps' medical prescription—Paine's Celery Compound. It builds up the system, purifies the blood, braces the nerves and regulates digestion as no other medicine can do.

"I can honestly say that I would not be living to-day if it had not been for your wonderful medicine. For a long time I suffered terribly from nervousness, sleeplessness, head and stomach troubles, and never received much benefit from ordinary medical treatment. I heard of your Paine's Celery Compound, and I have good reason to thank God that I used it. I can now eat well and sleep soundly, and my nervousness is a thing of the past. I now feel perfectly rested after a night's sleep, which was never the case before using the compound. My neighbors are surprised at the grand cure made by your medicine, and some are using it now. I thank you sincerely for the honest results given by Paine's Celery Compound."

THE GREAT WEST

AN ARTICLE WRITTEN IN ITS DEFENCE.

It is the Place for Young Men Who Have Any Push in Them—Good Wages—Crops Abundant.

Brandon, Aug. 24.—(To the Editor): I notice a letter in your paper headed "Keep Away From Manitoba," by a "Farmer's Son," at Catarqui, Ont. No doubt he is a farmer's son, but he must be a very young son to talk as he does.

He states a farmer might take him out from town 200 miles and then have his wages reduced. Let me ask you readers what corner of this province a man could be taken to that would be twenty-five miles from a town?

He states that emigration will lessen the demand, and let me say that we do not notice the emigration. Besides, if he is ambitious, he takes up land and soon wants help himself. To say he will not have much wheat to harvest anyway, makes me think he is not being reading even the papers, or he would have seen about our new railroad, the new elevators, the new cars and engines to haul this heavy crop to help feed the world.

I have seen young men come here, and because they could not find the comforts that their parents had after years of struggle get discouraged, and went back, but those men did not have the pluck the pioneers of Ontario had, who cleared the forest and sowed home-grown clothes. The pioneers of Ontario would think this country a paradise. As Sir John Macdonald once said: "You come in on the train in the morning and start ploughing in the afternoon."

On the coronation arch, London, Eng., this year these words could be seen: "Canada, the world's granary." What part of Canada do you look for? Guess you heard Manitoba. There will be many well-to-do farmers in the east, after seeing their crops are secure, come out here and make at least \$100. He will consider he has rather enjoyed it, besides, he will see old friends and do as all a good turn. I may say wages for farm help are \$30 per month; engineers \$60; brick layers \$6 per day; laborers \$2, etc. Servant girls get \$12 to \$20 per month. With Horace Greely let me say: "Go west, young man, go west, and grow up with the country."—B. TROTTER.

Desmond Doings. Desmond, Aug. 30.—Rev. Mr. Young, Tamworth, held service here on Sunday for Mr. Weatherill. A large number of the young people's annual picnic at Garrison's grounds, Varty Lake, on September 6th. Some thirty young people met at the home of S. Shane on Tuesday evening, where a most enjoyable time was spent. Much regret is felt for the prolonged illness of our teacher, Miss A. Bell, who has been unable to give up teaching for a while. No substitute has been secured as yet. A gay company of little folks were entertained at the home of J. N. Switzer on 23rd ult., it being a birthday party given by his little daughter, Miss Bessie Pearl. She received from her parents a hapsomeness. Master Aylsworth Bell, who was a successful candidate at the entrance examination, has started to Newburgh high school. A large number of duck-hunters are camping at Mud Lake, and from the successive shots which awake the neighborhood very early Monday morning, ducks must be plentiful. Mrs. Switzer, Holcayson, has returned home after spending a few weeks with her mother, Mrs. Embury. The beautiful memorial monument of the late J. W. Bell was erected at his grave last Friday. Visitors: Miss Annie Bell at J. Switzer's; Misses Maude Purcell and Emma Carscallan at A. P. Bell's; V. Davidson at J. Carscallan's; Charles Switzer at Mrs. J. Bell's; W. Cranston at A. P. Bell's. Our choir is flourishing under the able management of our organist, Miss Edith Bell.

Married At Canoto. Omphah, Sept. 1.—Farmers are about through with their harvest, and report a fair crop in this locality with few exceptions of potatoes and vines, which have been damaged with frost. A quiet wedding took place last week at the residence of Samuel Shanks, Canoto, when his youngest son was married to Miss Nancy Kelford, of the same place. Rev. Mr. Williams tied the knot. Mr. and Mrs. William Jorr spent Saturday and Sunday with friends at Plympton. Mrs. Crawford returned home on Friday after spending a few days among friends at Snow Road and vicinity. Joseph Morrow and children, Freddie and Clara, called on S. P. Jacob Sunday afternoon.

To Dissolve Committee. Sofia, Bulgaria, Sept. 2.—In consequence of revelations implicating the arch-episcopal committee and its new president, Gen. Zimcheff, in a recent attempt of a band of revolutionists to cross the Macedonian frontier, the authorities have searched the committee's headquarters. The government of Bulgaria is said to be determined to dissolve the committee.

FINE WATER SPORTS.

Held At Sharbot Lake on August 9th.

The picnic and water sports held in Messrs. Thomson & Avery's grove, under the auspices of St. Andrew's Anglican church, at Sharbot Lake, on Friday, August 29th, were a decided success. The day was all that could be desired; not a ripple appeared on the lake's surface, which shone like a mirror. There was a large turnout of people. The menu, both at dinner and tea was excellent and reflected the greatest credit on Mrs. Young, Mrs. Jerome Thompson, Mrs. James Lyle and the able band of ladies who so willingly assisted them.

The feature of the day was the programme of water sports as follows: 200 yds. race, one-half mile men's single boat race, one-quarter mile ladies' single boat race, 100 yds. tub race, one-half mile men's single canoe race, walking greasy pole, 200 yards' lumber men's log race, 100 yards' swimming race, etc. In these events the single boat race was a grand one and won by Harold Thompson, first; Louis Sharbot, second. Single canoe race was won by Louis Sharbot; first; Willis Roberts, second. The river canoe race was a magnificent exhibition of skill, and the Beaves brothers (Sharbot Lake) well deserved the victory they won. The one-quarter mile ladies' race was well contested and was won by Miss Allan, Sharbot Lake, Miss Kilburn, Sharbot Lake, being a good second. The unsuccessful efforts of the many competitors to walk the greasy pole were greeted with applause by the spectators. A large driving shed, owned by Thompson & Avery, was thrown open for dancing.

The greatest credit is due to J. C. Dixon, theological student in the parish, who organized the day's proceedings; also to Jerome Thompson, M. Avery, M.P., Dr. Hill, Maberly, and Mr. Bernam, for the able assistance at water sports, and Rev. C. J. Young, rector. Jerome Thompson and Mr. Milligan deserve credit for hard work in the booth and to Charles Morris as treasurer. The gross proceeds amounted to over \$100. We hope these water sports will become an annual event at Sharbot Lake.

Lively Along The River. Washburn, Sept. 1.—During the few bright days of last week, the men have made great progress with the harvest, filling every available space with the golden grain. A very pleasant time was spent at the residence of John Toland on Wednesday evening last, it being the occasion of a party given in honor of Miss Lillian, who is about to return to Sydenham High School. Among those present was W. E. Sproule, Joyceville. Miss Kate Martin is visiting her sister, Mrs. C. Keys. Several of our young people attended the social in Danes' Grove on Friday evening, and report a most enjoyable event. The evening was all that could be desired and the hospitality shown by the ladies and gentlemen in connection with the entertainment could not be excelled. Mrs. Malen and family, Buffalo, are the guests of Mr. and Mrs. Glenn. It is with regret we announce the departure of Miss Annie Redmond to her home in Dufferin, after a pleasant two weeks among us; she, while here, being the guest of Miss McGillivray. Robert Webb, Sealey's Bay, spent Sunday in our midst. Mrs. Toner and Mrs. Bennett are on the sick list. Miss Maggie Shortall is visiting in the city. Robert McBrown, Gananoque, spent Sunday with his parents. Navigation on the Rideau is rushing, there being fourteen lockages to-day. Among the number were two very fine yachts, the Nellie Lake and the Venice, each carrying a merry crowd of pleasure-seekers. A large party of about fifty United Statesers are expected on Tuesday, per steamer Rideau King.

Still Solid. Are the Ranks of the Striking Miners. Tamaqua, Pa., Sept. 2.—This morning Company "C" of the 12th Regiment, escorted the non-union men in the Panther Creek Valley to work without being interfered with. The company claims that 300 men also reported for duty, but the strike leaders say their ranks are as solid as on the first day of the strike. This morning the Lehigh Coal and Navigation shops which have been idle for six months, resumed work. Major Gerhard, in charge of the troops, said to-day that the situation was improved considerably.

Returned The Skiff. One day last week some unknown party broke into the boat-house of James Stratford, taxidermist, and stole his skiff. The owner did not lay a complaint, but waited for the conscience of the thief to so trouble him that he would return the stolen property. The man did so a few nights ago, he brought the skiff back. Not being able to force open the door of the boat-house, he smashed in the roof and through that opening let in the stolen property. It is but seldom that such an experience is recorded.

Many Back At Work. Florence, Italy, Sept. 2.—With the exception of the metal workers of the Pignone Iron works, where the strike originated, and the printers, almost all of the strikers resumed work this morning. The cabs and street cars are again running.

Will Not Be Re-called. Rome, Sept. 2.—It is announced, on the highest authority, to-day, that the religious orders in the Philippines have received definite assurances that the friars will not be recalled by the Vatican.

The lieutenant-governor-in-council has been pleased to appoint Wallace Bell, Merrickville, a notary public for Ontario. Canadian and California peers at Ferguson's, King street.

Of Benefit to Growing Girls. It Makes the Pale, Bloodless and Anaemic Strong, Healthy and Vigorous.

Dr. Chase's Nerve Food.

In the life of nearly every girl there comes a time when the system demands just such assistance as can best be supplied by Dr. Chase's Nerve Food. The physiological changes which take place put a strain on the system which is likely to leave pale, weakness and a run-down system. This great food cure restores health and color to the pale and anaemic, and frequently relieves of a burden of anxiety regarding their growing girls.

Mrs. Goodson, 104 Sebastopol street, Montreal, Que., states: "My daughter was very nervous, and seemed to have no strength. Her appetite was bad, and she looked pale and bloodless. Since she has been using Dr. Chase's Nerve Food there has been a marked change in her appearance. She now has a splendid appetite, and seems to be stronger and healthier in every way. I am well pleased with the results obtained from the use of this medicine, and think that it is a splendid treatment for growing girls."
