Henry Clews' Report.

New York, Aug. 30.—The immediate prospect is a good trading market. Transactions are steadily widening, especially in the lower priced issues, and the various classes seem bent on keeping their specialties before public attention. The best class of railroad stocks are too high and too closely held for ordinary speculative purposes. The industrial, are also comparatively neglected, and widely so, for an increasing number show diminished profits owing to the rise in wages and the cost of doing business. There is little chance of a successful boom in the industrial in spite of prosperity. Railroad rates are still making handsome returns, more due to increased rates than to an increase of tonnage, and increased cost of operating is likely to make an inroad upon earnings. The effect of the coal strike upon the railroads also deserves watching.

Toronto Veterans Interested.

This morning Sergt. William Baker, tobaccoist, received a letter from William Nunn, the well known veteran of Toronto, expressing the wish that the veterans of Kingston would see that the remains of their old fellow veteran, "Dido" were given a respectable burial. The letter stated that the veterans of the Queen City felt strongly over the way the college authorities here had acted; their course, was in the eyes of the writer, a disgrace to Canada. One who had fought so nobly for his country should be given a decent burial.

Mr. Nunn instanced a similar case which occurred in Toronto two years ago. At that time the attorney-general of the province promised to notify coroners that in future veterans must be given a respectable burial. Mr. Nunn advises the Kingston veterans to lay "Dido's" case before Hon. J. M. Gibson, attorney-general.

Returned The Purse.

On Saturday Mrs. C. A. Sullivan lost her purse containing \$12 and a watch. It was discovered a few hours later by Harry Watts, the little son of John Watts, Queen street, who saw another boy pick it up, and he informed the owner. The lad's honesty was duly appreciated.

SIR ROBERT BOND REACHES MONTREAL

Will Reopen Negotiations for Trade Arrangements Between Newfoundland and the United States.

Montreal, Sept. 2.—Premier Bond, of Newfoundland, arrived yesterday on the steamship Protector from England. "It is true," he stated, "that the imperial government has sanctioned the re-opening of negotiations for a trade arrangement between Newfoundland and the United States. I will leave for Washington immediately for this purpose. I am not in a position, however, to make any further statement with regard to the matter." Sir Robert has also a scheme for the establishment of a fast steamship service between Galway, Ireland, and St. John's, Nfld., utilizing the Reid route and steamship service between the latter port and Sydney, from which point communication can be had to all points. This route, Sir Robert contends, would be the shortest and quickest across the Atlantic.

Sir Robert Bond left for Washington this afternoon.

LIGHTNING LOVER.

Met, Wooded and Won in Half an Hour.

Memphis, Tenn., Sept. 2.—Half an hour after meeting for the first time, Henry Farnham, a local cotton speculator, and Miss Daisy Simons, of Foster Park, were married. Miss Simons is related to well-known families here. Farnham was attending a fair in the village, when he chanced to meet Miss Simons. It was a case of love at first sight, and through a business man who knew the girl he got an introduction. Twenty minutes from the time they first met he proposed marriage, but she declined. He had in his pocket a ring which was a family heirloom, and this he placed on her finger.

Once she removed it, saying she could not so soon wear it as an engagement ring, but after further persuasion she consented. Farnham urged that he had important business which demanded his immediate attention; that he could not wait till autumn, and that they might as well be married then and there.

To this also she at last consented, and they went to the parsonage of the First M. E. church, where they were married within half an hour of the time of their meeting.

CONFESSED TO MURDER.

Soldier Says He Killed a Man in America.

Colchester, Eng., Sept. 2.—At the police court Lance Corporal Lloyd, of the Bedfordshire Regiment, who had surrendered to the authorities, charging himself with the murder of an unknown man in Kansas City, Mo., in January last, was remanded for a formal evidence had been given. Lloyd, who claims to be an American citizen, in his confession to the police, said his real name was William G. B. C. Toll, of 212 East 17th, Kansas City, that he was married and that he had formerly served in the United States army from which he had deserted. The prisoner further asserted that he did not know the name of the man he had killed. His object was robbery, and he knocked the man on the head with a coupling pin.

SNAKE SLEPT BY HIS SIDE.

Strange Experience of a Doctor in Camp.

Bangor, Me., Sept. 2.—Dr. L. S. Chilcott, of Bangor, slept at his camp at Phillips lake last night, and when he awoke this morning he was startled to discover a black snake, nearly four feet long, had been his bed-fellow during the night. The doctor felt the snake against his leg early in the night, and touched it with his hand, but supposed it to be a piece of rope, and went to sleep again. Later he was partly awakened by the piece of supposed rope lying across his chest. He threw it aside, and went to sleep again. This morning he saw the snake coiled up at his feet. He jumped up quickly and killed the reptile with a club.

SOME FAST GOING.

G.T.R. Train Run 110 Miles in 118 Minutes.

Windsor, Sept. 2.—The Grand Trunk Over-scheduled under the name of the International Limited, has made a run between London and Windsor that gives her the Grand Trunk record. The train left London nineteen minutes behind time, and was only two minutes late when it reached Windsor. The distance of 110 miles was covered in 118 minutes. The time included two stops and two slow-downs. The average speed was only a slight fraction over a mile a minute. At the speed was much greater. Conductors Higgins and Engineer Rutherford were in charge.

There is more Calum in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For many years doctors pronounced it a local disease, and prescribed local remedies, and constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requiring constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from ten drops to a teaspoonful. It acts directly on the blood and mucous membranes of the system. They offer one hundred dollars for any case it fails to cure. Sent for circular and testimonials. Address, F. J. SCHOOLS RE-OPEN.

Many New Pupils Admitted—A Busy Scene.

The public and separate schools of the city re-opened to-day for the fall term. The holidays are over, and the children have flocked back to the city from town and country and summer resort and are once more subject to the restraint of the schoolmaster's stern discipline. Some few of them, perhaps, were glad to get back to their books, but the great majority, due to the childish instinct, started schoolward this morning on a snail-like pace.

The number of new pupils being admitted this term is exceptionally large. Yesterday and to-day Inspector Kidd admitted sixty-five new pupils, many of whom reside in the city. The remainder come from points all over Canada and the United States.

No classes were held to-day. The newly promoted pupils were placed, and arrangements made to begin the term's work. The customary half-holiday was generally observed. The board of education rooms presented a busy scene. The school supplies have been distributed there, and the secretary was busy distributing the books, etc. Regular class work will start to-morrow morning.

SEAMEN DESERT

FROM H.M.S. ARIADNE AT HALIFAX.

One Hundred Have Gone—Receive Assistance and Taken Across the Line Into the United States.

Quebec, Sept. 2.—It is learned that desertions by the wholesale have taken place from H. M. S. Ariadne since her arrival at Halifax and run from that port to Quebec. Nearly 100 seamen have deserted, and twenty of this number since the frigate's arrival in the harbor of Quebec. The Ariadne is only about three months in commission and the loss of her crew is alarming, while some sixty seamen for various causes were sent to prison at Halifax.

One of the ship's crew, who volunteered the information, said that on one occasion a whole boat's crew, including the coxswain, who rowed to shore on duty, deserted, leaving the boat tied up at the landing. He also said that there were men at Halifax always ready to aid seamen to desert, even going the length of furnishing them with money and seeing them safely across the line into United States territory, and he had been approached by civilians at Halifax, who tried to have him desert, with the offer of such assistance.

UNVEILED AT WATERTOWN.

Statue of Gov. R. P. Flower Presented to the City.

The excursion to Watertown on Saturday afternoon and Monday morning, on the occasion of the opening of the Watertown fair and the unveiling of the Flower memorial, was largely patronized by Kingstonsians, over 500 of whom took in the trip. This number included Henry Folger and the Hon. Senator Sullivan.

The primal attraction was, of course the unveiling of the fine bronze statue of former Governor Flower. Nearly 10,000 people sat or stood in the rain to witness the ceremonies. With their manuscripts wet with the falling rain, the speakers addressed the people from the shelter of umbrellas held over them by their companions. The act of unveiling was performed by Frederick H. Taylor, the youthful grandson of the man commemorated. The principal address was that of Senator John C. Spooner, Wisconsin, a personal friend of ex-Governor Flower. The other speakers were ex-Governor David B. Hill, ex-Lieutenant-Governor William F. Sheehan and State Senator Elon R. Brown. The exercises were begun by Rev. J. S. Reed, who delivered the invocation. Following came a few remarks by John C. Knowlton, president of the committee in charge of the erection of the statue.

The monument was erected in the centre of Washington street, facing the Square. With the base and pedestal it stands eighteen feet high. The die, on which the statue was placed, is a huge block of granite, weighing eight tons. In brass letters on the large slab in front of the pedestal is the inscription: "Erected in affectionate and grateful remembrance of his noble manhood, his distinguished public services and his loving kindness to all."

The bronze statue is the work of the sculptor St. Gaudens, and it weighs 4,000 lbs. The pedestal and die were provided by the late Mrs. Emma Kemp Schley. The total cost of the whole work is estimated at about \$50,000. The statue represents Gov. Flower in the act of delivering an address. He is standing by a table, over which a United States flag is thrown.

POLICE COURT TIDINGS.

Young Men Charged With Fighting—Boys in Trouble.

Intelligence was received last evening from Napanee that two young men had been arrested there upon the advice of Chief of Police Baillie, who had asked the Napanee police to keep a lookout for the sailing yacht Winona, owned by city treasurer Ireland. Police Constable Aiken went up to Napanee early in the evening and returned later with the two young men. The yacht was brought down this morning by a tug. At the police court the boys were arraigned but not asked to plead, their case being held over until Friday. Bail was fixed in two bonds of \$500.

A case that took up considerable time was a charge of fighting on the street on August 21th, preferred against Mrs. Charles Lewis and J. W. McGuire, two members of the R.C.F.A. and Malcolm McMillan. Strong evidence was given against the battery by Charles Sullivan and his wife. Sullivan testified that he saw Lewis knock down McMillan and McGuire kick him on the head; Lewis also made an attempt to kick McMillan, but did not do so.

Lewis and McGuire gave evidence in their own behalf, saying that they had been insulted by McMillan, who had called them "government louts," which insult they had resented. They denied that McMillan had been kicked when down.

Two companions of Lewis and McGuire gave evidence corroborative of that given by the two prisoners, after which the magistrate adjourned the case for decision. Lewis and McGuire were sent back to barracks under escort.

Potato Rot Is Prevalent.

Potato rot is affecting the tuber crop in this vicinity in earnest. A Glenburnie farmer stated to-day that out of several acres planted he would not harvest sufficient for his own family needs. The stalks turn black and die very quickly and the tubers are found to be diseased. The rot is general throughout the district.
