Occasionally a girl marries her ideal, but he soon outgrows it.

An optimist is a man who is satisfied with what he doesn't get.

If you can't do a thing good naturally, don't do it at all.

Two years ago to-day Bishop Mills was elected coadjutor bishop of Ontario.

Some people think that their foreheads baffle more than most men's because they understand the game of chess.

This day in the world's history—British drive Boers, under Gen. Joubert, from Worcesterroom, 1900. Malta captured by British, 1800; first United States congress assembled, 1774; British capture Heliopolis, 1807; confederate army enters Maryland, 1862.

The insect sees the tiny mite And catches him as his prey right;

And when the insect fair And drives upon him then and there,

Man eats the chicken if he can;

And such is nature's wrongs when

That same insect—perchance just

Is swallowed up by some big trout.

WERE IN WAR

Britain Had In Field Some 430,000.

TOTAL LOSSES

WERE SOMETHING OVER 45,000 MEN.

They're Beggars Now—Swash-buckler Fenians Stranded in Africa—Making an Appeal for Aid to the United States.

London, Sept. 5.—An interesting

parliamentary paper giving a return of the military forces employed in South Africa from the beginning to the end of the late war is issued. The garrison, August 1st, 1899, consisted of 318 officers and 9,622 men. Reinforcements sent between then and the outbreak of hostilities, October 11th, 1899, totalled 12,546. Thereafter the troops sent up to May 31st, 1902, reached the great total of 386,081, less 52,114 men raised in South Africa. The final casualty figures are: Killed, 5,774; wounded, 23,029; died of wounds or disease, 16,168.

They Are Stranded.

New York, Sept. 5.—The Irish Brigade, which fought on the Boer side in the recent war in South Africa, is stranded in Johannesburg, and wants to get home. The Irish brigade was recruited in the United States, most of its members being residents of Chicago. The men sailed from New York at the beginning of the Boer war.

Col. J. Y. F. Blake, who commanded the regiment, is now at Johannesburg with all that is left of his command, and has made an appeal to friends in this country for funds to defray the expenses of the journey home. His men, he says, guarantee to pay back with interest whatever money is sent to them. He urges that the money be forwarded by cable in the care of the U.S. consul at Johannesburg.

Effects Of Martial Law.

Cape Town, Sept. 4.—The legislative council, to-day, discussed the operation of the martial law. The Dutch members condemned that law. Mr. Van Ryen alleged that there was a conspiracy between the Hottentots and some of the English against the Afrikaners. Mr. Pretorius stated that under martial law women were forced to walk six miles daily to the market square, to report themselves. He added that in one instance a farmer had been compelled to witness the execution of his own son.

ENTERED AN ACTION.

Manitoba Wants to Receive Money Due.

Winnipeg, Sept. 5.—The attorney-general of Manitoba, in behalf of the province, has entered an action for \$110,285 on capital account, and \$13,406, arrears of interest on school lands, due to the province from the Dominion government. It is claimed the subsidy money credited to Manitoba in 1884, and dropped from the account in 1885, should be restored.

TO END STRIKE.

Plans Will be Considered at Once.

New York, Sept. 5.—Definite plans for the settlement of the coal strike are to be laid before the operators at a conference held to-day in the offices of President Baer in the Jersey Central building.

Croker Will Never Return.

New York, Sept. 5.—Dr. W. T. Jenkins, the brother-in-law of Richard Croker, yesterday gave what he said was the real reason why Croker had chosen Wantage for his home and why he would never return to the United States again. "For twelve years," said he, "Mr. Croker suffered from insomnia and dyspepsia. He could find no place where he could sleep until he visited Wantage. Here he discovered some property in the atmosphere which gave him the relief he desired. It was for that reason that he went to Wantage instead of to the Croker estate in Ireland."

In regard to the statement made in Philadelphia that J. P. Morgan had asked President Mitchell of the mine workers to submit the terms of the smallest concession he would make to order the miners back to work, a member of Mr. Morgan's firm said that he did not credit the story, and did not think it likely that Mr. Morgan was asking for concessions.

Boom At Melrose.

Melrose, Ont., Sept. 5.—Things are booming here. The well has been cleaned out, and that drilling began again. Everybody is confident that oil will be struck before many more feet have been drilled. The excitement runs high. People who invested \$5 to \$10 in stock some time ago could now easily sell at an advance of 500 per cent, but refuse to do so. Any amount of money could now easily be obtained, if any more stock in the enterprise were wanted.

SHOOT DOWN A THOUSAND.

Result of Disturbances Due to Imposed Taxes.

Victoria, B.C., Sept. 5.—According to advices brought by the steamer Hioo Maru, the Japanese consul at Foo Chow, reported under date of July 30th, that the disturbance resulting from the imposition of increased taxes to meet the calls on account of the indemnity became so serious as to necessitate the employment of troops and in the end about a thousand persons were shot down.

The people then became submissive, but the taotai required them to pay a sum of 30,000 yen, namely, 10,000 by way of compensation for houses destroyed by the rebels and 20,000 to defray the expenses of the troops. The people plead inability to meet such a payment and the matter is not yet

solved.

TO INSPECT ARTILLERY DEFENSES.

Washington, Sept. 5.—Lieut. Gen. Miles intends to make an inspection of the artillery defenses along the Pacific coast before embarking for the Philippines. The date of the general's leaving Washington for the west is still undetermined, but it is now the impression that he will take his departure so as to sail on the transport Crook on the 20th.

DROWNED AFTER COLLISION.

Quebec, Sept. 5.—Last night the steamer Westphalia, with the schooner Marie Anne, near Quebec, The schooner was cut in two and her captain, A. Bowler, and Pilot Vandroux were drowned. A sailor named George Bain was saved by a boat from the steamer.
