COMMERCIAL MATTERS.

What is going on in the Business World—The Market News.

Chicago cables—Waukegan Hill, 9 1/2; Tavel, 9 11/16; Winchester, 9 1/2; Barrie, 9 9/16; to 9 1/2. The gross earnings of Toronto railway for the month of August show an increase of \$116,833.95.

Beirholm estimates the world's crop of wheat in 1902 at 355,000,000 quarters of eight bushels, as against 350,000,000 in 1901. The Syracuse Stock and Grain company has been forced into the hands of a receiver. The liabilities of the company are said to be \$75,000.

The Montreal Cotton company has declared a quarterly dividend of 2 1/2 per cent. on the rate of nine per cent per annum on the paid-up capital stock. The Canadian Pacific Railway company's return of traffic earnings from August 21st to August 31st: 1902, \$1,113,000; 1901, \$999,000. Increase, \$114,000.

The new issue of stock of the Nova Scotia Steel and Coal company has all been taken by the shareholders, and more than the amount offered by the company has been applied for. A. J. Cummings & Co., one of the largest brokerage houses in Pittsburgh, with branch offices in eighteen or twenty towns throughout Pennsylvania, West Virginia, Ohio, and Maryland, has suspended.

The report in financial circles that the Detroit & Toledo Shore Line, one of the Electric Motor traction properties, had been sold to the Grand Trunk railroad, is confirmed. The Grand Trunk will assume all outstanding indebtedness of the Detroit & Toledo Shore Line, aggregating about \$1,500,000.

Directors of an international banking bank will form an international banking institution capitalized at \$10,000,000 and designed especially to operate in Latin-American countries. The scheme involves the consolidation of the Mexican Trust company bank and the Corporation Trust company.

A Family Re-union. For the first time in fourteen years, Patrick Flanagan, Upper Colborne street, has the pleasure of seeing the different members of his family together. Mr. Flanagan came to this country from county Sligo, Ireland, when but nineteen years of age, first locating in Montreal and afterwards in Kingston, where he has remained ever since. He has been a steamboat engineer on the great lakes for nearly fifty years. Mr. Flanagan and his wife are enjoying good health. The other members of the family are: Timothy J., the well-known barber of King street; John, plumber, of Niagara Falls, N.Y.; William, of Toronto, N.J.; Frank, of Valleyfield; Edward, Katie and Loretta, of Kingston.

Swaine Again On Bisleys Team. Sergt. W. Swaine, of the 14th P. W. O. Rifles, continues to be a coin-cident at the Dominion rifle association matches at Ottawa. On Friday his earnings amounted to \$24. He scored seventy-three in the Ross match, winning \$16, and 109 in the Tyros, receiving \$8. In the aggregate of seven matches he stands fourth, with 576, getting a bronze medal, and being one of next year's Bisleys team.

A Professor Appointed. The School of Mining governors met yesterday afternoon, and appointed Mr. Guillem, of British Columbia, a graduate of McGill university, as professor of mining, it having been decided to divide that department into two sections. Mr. Kirkpatrick will be professor of metallurgy. The surveying class will begin work on the 15th, and go under canvas for two weeks.

Do You Want Pears? We have one hundred bushels in our stores (not on the sidewalk) consisting of Bartlett's, Flemish Beauty, Tyson and Clapps Favorite varieties. Can give you ripe or green ones. Lowest prices at Carnovsky's.

At Mullins' this week—25 lbs. best granulated sugar, \$1; 1 lb. whole mixed pickling spice, 15c; bananas, 10c. per dozen; pure malt, cider, and white wine vinegar, at lowest prices, corner Johnston and Division streets.

W. Spencer Jones, Brookville's talented musical and concert director, was in the city yesterday. He has made arrangements for a number of high class concerts in Kingston this winter.

Dr. Sparks is expected to read a paper before the Canadian Dental Association meeting in Montreal, on September 16th, 17th and 18th. A golf tea will be given at the club house on to-morrow, (Saturday) afternoon.

Sale of Mrs. Laidlaw's household furniture. Read ad in to-morrow's paper.

CHURCH WORK

METHODIST GENERAL CONFERENCE IN WINNIPEG

Rev. Dr. Carman Read a Lengthy Address—The Statistics for Quadrennial Are Given.

Winnipeg, Sept. 5.—The Methodist general conference was taken up yesterday afternoon, with the general superintendent's address and the organization of the numerous committees. In his review of the work of the church, Rev. Dr. Carman made a very full and comprehensive statement of the reading of which occupied an hour and a half, though portions were abbreviated to a mere mention of subjects considered. He dwelt upon the personal and corporate responsibility of the delegates assembled and the necessity of concentration and obedience of the delegates to good unity of spirit and being filled with the Holy Ghost. Dr. Carman in his speech presented statistics of the conference made in the last four years. The membership was 11,358, the smallest increase since the union of 1853. The membership is 291,895 and the number of ministers is 1,792.

All the funds of the church present reports covering four years. In this period the Book and Publishing House had a net profit of \$84,891.02, a decrease in membership of \$5,351. The circulation of the Christian Guardian is 20,627, a decrease of 969 since 1898.

The receipts of the church and parsonage aid fund in four years reached \$25,118.95, and the expenditure, \$19,113.88. The income of the Educational Society in 1899 was \$23,183; now it is \$25,198.

Four years ago the total number of students entering the university of Toronto was 252, of whom fifty-four enrolled at Victoria, of twenty-one and one-half per cent., says Rev. Dr. Burwash's report of Victoria university. Last year the number was 255, of whom sixty-seven or twenty-six and one-half per cent., enrolled at Victoria university. In the four years 128 students of Victoria have taken the degree of B.A. in the university of Toronto, as against 106 in the four years preceding. In the same period 147 have completed one of the courses prescribed by the church in divinity, of whom seventy-one have likewise taken a full university course in arts and twenty-nine in the degree of B. D. At present 316 students are enrolled, sixty-three being women.

The indebtedness of the General Conference fund, which pays the expenses of the general conference and the salary of the general superintendent, is \$181,900. The expenses of the general conference in 1898 amounted to \$5,294.18, so that the total amount of debt at the beginning of the quadrennium was \$20,194.98. Now the indebtedness is \$114,900.

Rev. Dr. Sutherland in the course of his report of the General Board of Missions said: "The French work, like the Indian, should be under the direct control of the general board, and be forward movement and pushed with all possible vigor. In 1898 there were 3,357 Sabbath schools in the church; in 1902, 3,425. Number of teachers in 1898, 33,018; in 1902, 33,396. Numbers of scholars in 1898, 270,239; in 1902, 272,566. The Epworth League is reported to have 1825 organizations, with a membership of 70,988, a falling off of nearly 10,000 in four years."

AFTER THE MURDERER.

Running Down a Negro in the West. Niagara Falls, Ont., Sept. 5.—A negro, answering the description of "Popeye" Johnson, who shot and killed another negro, "Yellow" Johnson, at Kithwold race track, Buffalo, last night, was spotted in the G.T.R. freight yards here this morning, about nine o'clock. Chief Malm's, of Ontario police, and his men, started after him and his car, took to the back of the Wabash tracks towards Port Robinson, on the Welland canal. The police brought a trackmen's "jigger" into service. When Johnson saw that the police were closing down on him he took to the fields just west of Stamford switch. The police, after a long chase, abandoned the "jigger" and grinded with rifles in hot pursuit after the fugitive in Stamford township.

WILL BE BELOW IT.

The Actual Yield Will Be Above Estimate. Winnipeg, Sept. 5.—C. Castle, domain warehouse commissioner, who has been out in the country says he is convinced that the early estimate of grain which he thought at first was too optimistic, will be a good deal below the actual yield. The flax crop also will be heavy. New wheat has begun to arrive at Fort William the first cars were graded No. 1 hard. A heavy rain which became general last night, and the weather is still wet.

Was Put Off At Buffalo.

St. Catharines, Ont., Sept. 5.—A curious runaway happened here. W. Bowman was unloading a number of calves from a wagon near the G.T.R. station when his team ran away. While crossing the bridge over the railway, they collided with the side of the bridge. One of the calves that remained in the wagon was thrown over the side of the bridge, and fell into an empty coal car at a point that was passing at the time, and it was carried through to Buffalo.

Will Handle Much Grain.

Montreal, Sept. 5.—William Mackenzie, of the Canadian Northern R.R., in the city today spoke in enthusiastic terms of the prospects of the Canadian North-West, and of the new road they are building out there. He said there was more prosperity on the way than they could conveniently admit. He said the road has facilities for and will handle 75,000,000 bushels of grain crop of the North-West this fall.

At Columbus, Ohio, the champion trotter Cresswell, failed in an attempt to lower his record of 2:02 1/4 today, strutting the mile in 2:04 flat. The weather was chilly.

"SETTLED FOR EVER."

The Machinists' Strike—Board of Trade Interferes.

Capt. Gaskin, president of the board of trade, and a special committee of the board, are making an effort to effect a reconciliation between the management of the Canadian Locomotive works and the striking machinists, with a view to ending the strike that has dragged on in dogged persistence since April last. Having this purpose in sight a letter, bearing the signatures of Capt. Gaskin and Secretary King, was sent to the local machinists' union, apprising them of the board's desire, and asking them to co-operate by giving the best terms they could. The machinists will hold a meeting this evening, when the proposition will come up for discussion. Managing-director Bermingham when seen this morning, had very little to say concerning this new move on the part of the board of trade. "As far as we are concerned," he replied in decisive tones, "the strike is settled for good. I believe that members of the board of trade have approached the machinists."

Who's Move Was This?

Several weeks after the machinists at the Canadian Locomotive Works went out on strike, a number of them left the city to accept positions in the C.P.R. shops at various points, notably at Fort William and Montreal. It is now reported that these men recently received notices that their services were no longer required. A cause for their dismissal was not assigned. Is this another union move, on the other side of the question?

One of the striking machinists was asked this morning concerning the truth of the report. He replied that it was true that a number of the men had been discharged, but that some of them had found employment elsewhere. "It was through the influence of the Locomotive Works and of the National Metal Trades Association that these men lost their positions," the machinist replied. "Why, we have in our possession a letter in which it is distinctly stated that the association will give a bonus of \$5 a week for so many weeks to every non-union man who will take a union man's place. They are using strange methods to defeat us, but they haven't accomplished the feat yet."

But He Went To Work.

Yesterday a machinist from Dundas arrived in the city to go to work in the Canadian Locomotive Works. He was met by several of the strikers, who informed him of the existing condition of affairs at the works. He thereupon decided to return home, and he got up as for as doing this, the strike representatives of the company met him. He returned with them to the city, and went to work in the machine shop. Last evening one of the strikers was served with a summons, to appear in court to answer the charge of interfering with the company's employes. This morning the police constable, who served the summons, visited the union hall, and took back the sheet of paper, saying it was a mistake.

ONE STRIKE OVER.

It is Said Coal Miners Will Resume. Huntington, W. Va., Sept. 5.—It is now believed that the coal strike in West Virginia is practically at an end. At a mass meeting of the miners, from all the coal fields, along the Norfolk and Western railways, here yesterday, it was almost unanimously agreed to end the strike providing the operators will take back all the old miners and the latter have signified the intention of doing this. The miners have agreed to return to work next Monday morning. It is said that President John Mitchell, of the United Mine Workers, advised the strikers to return to work as he realized winter is near at hand and the miners in this field could not hold out much longer as almost everyone is dependent upon the union for food and clothes.

A Special Session.

New York, Sept. 5.—Senator Quay, Pennsylvania, and Senator Platt, New York, had a long conference in connection with the coal strike situation this morning. A special session of the Pennsylvania legislature is said to have been favored by both as the best method of securing a settlement.

At Osgoode Hall.

Donnelly vs. Donnelly.—C. W. Kerr for plaintiff, T. D. Delamere, K.C., for defendant. Motion to commit the defendant for non-compliance with the warrant of the master at Kingston, adjourned until September 12th inst., to be then heard in chambers.

The Match Protested.

Ponies have protested their match with Governor yesterday for reasons too numerous for recital. In the first place, a Governor preacher was the umpire, instead of a league official. Then it rained during the match, the teams having to quit three times, but the ministerial master of ceremonies would not call the contest off as he should have done. Then the match was played with old balls, which the Ponies had to supply. The Ponies were ahead 6 to 5 till the sixth inning, when a ball was knocked into a manure pile in left field. The umpire called it a foul, but when surrounded by the Governor's tongue-shooters, he witted, and said it was a fair ball. Four runs were scored while the dispute proceeded.

George Taylor, aged twenty-two years, of Pitcher, N.Y., while sitting in a hammock with Miss Alice Rotapugh, at her home near Cincinnati, N.Y., without warning drew a revolver and shot himself dead.

George Taylor, aged twenty-two years, of Pitcher, N.Y., while sitting in a hammock with Miss Alice Rotapugh, at her home near Cincinnati, N.Y., without warning drew a revolver and shot himself dead.

Osgoodeburg council is looking to Massena or Hanawa Falls as a source of cheap power for industrial concerns. One dollar per horse power per year is the anticipated cost.

The United States armored cruiser Brooklyn, ran over an uncharted obstruction. Six frames were bent inward and inner bottom plates bulged. The ship is leaking slightly.

Miss Jean Black and Mrs. Mabel Taylor, Hamilton teachers, have been granted leave of absence for seven months to enable them to take a course at Queen's university.

Since peace has been declared in South Africa, sixty Damarra natives, under a Kaffir chief, named Nokhorst, have been looting entire districts along the Orange river.

The difficulty between the public works department and the employes of the Yukon telegraph service has been amicably settled.

President Roosevelt and party go south to-night. They will visit many places and return to Washington on September 10th.

New crop, juicy fall, flavored grape fruit at Carnovsky's.

PLEASANT VISIT

AUSTRALIANS DELIGHTED WITH KINGSTON.

Driven Around by Mayor Shaw and Alderman Walkem—Their Impressions of 'What They Saw.'

The distinguished Australian visitors had a delightful drive about Kingston on Thursday afternoon. In one carriage were Sir Edmund Barton and Lady Barton, accompanied by Alderman J. B. Walkem; in the second Mayor Shaw was with Sir John Forrest and two of the ladies, while a third contained the remainder of the party. All were highly delighted with Kingston, declaring that it was one of the prettiest places they had ever visited.

The Australian premier was impressed at the absence of what he called "gridiron" streets—thoroughfares laid out in such monotonous regularity. He and his companions were greatly interested in the Royal Military College, as it is the intention of Australia to establish a similar institution. Major Panet kindly showed the visitors and their civic escort over the whole premises. Lady Forrest is somewhat of an artist, and made several sketches of points of interest. She desired a sketch of the military college gymnasium, and Alderman Walkem gallantly took her book and in a surprisingly short time outlined quite accurately the quaint little building. The city council wit was then requested to sign his name at the bottom of the page, which he did.

Returning over Cataragi bridge the party drove out King street, and stopped in front of Sir John Macdonald's monument in the city park. Sir Edmund described the statue as a neat piece of work, and a fine likeness. He thought it bore a resemblance to Sir Wilfrid Laurier. The parks impressed the visitors, who stated that they were remarkably pretty and most creditable to a place the size of Kingston.

The visitors were driven through Queen's university grounds, and were surprised at the extent of the work in progress there. The Australian premier thought the buildings a fitting monument to the late Principal Grant whom he had admired so much. A woman was taken out to Rockwood asylum grounds, the buildings there and the penitentiary being points of interest to the party. St. Mary's cathedral tower they admired greatly, and also St. George's cathedral, which they entered just before six o'clock as the organ was pealing forth. Then the party after a three hours' drive returned to their private car, where light refreshments were served to their civic escort.

Sir Edmund Barton said he was greatly struck with the intelligence of the Canadian people, who were far above the average. He declared that for general information Canadians were away ahead of the United States people whose ideas, historical and geographical, were confined to their own country. The premier was much taken with Alderman Walkem's knowledge of Australian politics.

Sir Edmund Barton reminds Canadians very much of the late Sir John Thompson.

This morning at six o'clock, the Australians left on the steamer Kingston on their trip down the St. Lawrence.

E. B. Eddy's Steel Wire Hooped PAIS and TUBS

Are made from the BEST SELECTED LUMBER with Galvanized Spring Steel Wire, electrically welded Hoops, which being corrugated allows for expansion or contraction, so no matter what the weather is they keep in PERFECT CONDITION.
