BIG SUCCESS.

LARGE CROWD AT HARROW · SMITH FAIR.

Fine Weather Favored the Event of the Chief Prize Winners .-More Accommodation Should be Provided.

Like real, old wine, the Harrowsmith annual fair improves with age. It keeps on getting better and improving year after year. The attraction is exactly what it is advertised -a genuine country fair, and farmers and others who attend it see as fine an exhibition of live stock as could be gathered together in any county in the dominion. The entry list was unusually heavy this year, every class filling up above the average. In fact; there was not sufficient space in the cattle sheds to accommodate all entries. The main building was also

overcrowded. This structure is inadequate for the needs of the exhibition and should be enlarged, or put to another purpose and a new and enlarged palace exhibit.

Excellent weather this year favored the fair, and as a result a record crowd was attracted. The grounds fairly swarmed with sight-seers Friday and satisfaction and contentment ould be read in everybody's counenance. A double row of rigs half a mile long could be seen along the roadside outside the grounds, while inside the fence every available inch of ground was, occupied by rigs. The large attendance, betokening , swooler lirectors glad, and caused their coun-

tenances to expand in pleasant smiles, The exhibit of fancy needlwork was New ideas in Parlor Pieces in rattan and large and the different specimens re flected great credit upon the ladies proved herself an adept, by winning A special line of linoleum, bought in Glast the special prize offered by Macnee &

They Lose All Faith.

R. Mackie says it is terrible hear many prisoners talk about religion. Men who consider that they have been wronged by the state, and before whom are long and dreary years of imprisonment, lose all faith in God, and become infidels and blasphemers. This is especially the case with many who were not criminals, but who were sent to prison for some lesser offence. It is awful, he says, to listen to them as they lose all their religious beliefs, and regard the world as a place of chaos.

Brains Rule This World

Not muscle, but brains governing muscle.

The quality of brain can be changed by

certain selection of food. A food expert perfected a brain-building food by preparing certain elements in wheat and barley in a way that nature would make use of. That food is

GRAPE-NUTS.

In it the phosphate of potash, obtained from nature's grains (not from the drug shop), is retained in minute particles. This has an affinity. for albumen, and together they make the soft, gray matter in the brain and nerve centers.

A solid fact you can demonstrate by the use of Grape Nuts.

You can see the difference in yourself.

Try it.
