COMMERCIAL MATTERS.

What is Going On in the Business World—The Market News.

Experts estimate the damage done to the Kentish, Eng., hop growers on Thursday by the storm of rain and hail at fully \$500,000. In some lines of black satens an additional advance of 1d. has been established abroad, making a net advance of 1d. or 1d. per yard in about a month. The print-cloth market in New York continues very firm, with a fair demand. The feature of the market for domestic manufactures is the strength of the market for finished goods. There has been a big demand this week for Canadian woolen goods. The demand is still running to Venetians, homespun and friezes. Black is the most popular color.

An expenditure of some \$20,000 is now being made by the United States navy department in experiments to determine the value of petroleum for fuel on war ships. Old rats are being used extensively by a large western agricultural implement manufacturer for making steel bars and other shapes employed in making machinery. The salmunkers are also using many thousands of tons of the old rats. The harvesting of the Connecticut peach crop has reached its maximum activity, and the yield in this state will be worth approximately \$1,000,000. The crop has matured well and the quality is fairly good. An experimental cold-storage shipment to London will be made the coming week and the result of the test is awaited with interest by the growers.

Soon we may expect a tussle in the petroleum trade as keen as the present tobacco war. The Rockefeller and the Nobel and the Rothschilds are believed to be contemplating a combination with the object of driving out of the market the newly-formed competitors, consisting of a number of Russian and English firms who have formed the Canadian Petroleum Export company.

The July coal shipments of the Dominion Coal company amounted to 311,000 tons. The net earnings were \$180,000, which would indicate that the company is showing net profits of 60c. per ton. Upon a prospective 3,000,000-ton production, net profits of 60c. per ton would aggregate \$1,800,000. Dividends of about 10c. per ton upon the \$20,000,000 of Dominion Coal stock, guaranteed by the steel company, call for \$1,600,000 per annum.

President Hill's recent estimate that the gross earnings of the three Northern Securities systems this fiscal year will be \$150,000,000, was supplemented yesterday by figures by one of his officials, with Burlington earnings \$53,735,245 for the year just ended, Northern Pacific, \$42,305,911, and Grand Northern, \$35,263,243. For the coming year Mr. Hill's figures are reported to be \$150,000,000 gross, \$100,000,000 for operating expenses, and \$50,000,000 for fixed charges and dividends. After deducting all charges and paying four per cent. on Northern securities stock, it is figured that a surplus will be left of \$15,000,000.

Appointment To Be Made.

The management committee of the Board of Education met last evening, when there were present Chairman Kirkpatrick and Messrs. Kelly, Elliott, Lambert, Martin, McIntyre, Meek, Richardson, Wormworth, Inspector Kidd, Principal Ellis and Secretary Macdonald. The appointment of a new teacher to the Collegiate Institute staff was regarded as a necessity. It was thought that a man now residing in the city can be secured, and, if a special meeting of the board will be held on Monday night to make the appointment. A number of new desks are needed at the Collegiate, as well as several additional work benches in the manual training room. In the latter there are only eighteen benches, while the pupils this term number twenty-five. The committee will recommend the providing of these supplies. The committee also considered the re-opening of night classes during the winter. It is likely that these popular classes will commence about October 14th, to continue until the middle of March. Twenty lessons will be given in each subject. The classes in stenography have not yet been organized. There has been considerable enquiry about these classes, and the indications point to a large attendance.

Business College Notes.

James Devlin, a student, has been appointed express messenger on the C.P.R., with headquarters at Winnipeg. S. Knapp, a graduate, has secured a position as stenographer with George J. Foy, wholesale wine merchant, Toronto. Elton Van Buren, shorthand graduate, has accepted the principalship of the shorthand department of the Brockville Business college. Miss T. Thornton, a student, has been appointed to a position in the office of Thomas H. Johns, grocer, city. Admiral N. Sharp, a student, has secured a position in the C.P.R. company's office at Winnipeg. Frederick Walsh, commercial graduate, is entering the mercantile arena in Kingston. Fannie Moles, a shorthand graduate, has secured a position as stenographer in the head office of the Parker Dye works, Toronto. Miss M. R. McQuigg writes from Montreal that she has a good position as stenographer with Wine & Holland.

Death Of Andrew Young

Andrew Young, city agent of the Sheldon Forwarding company, Montreal, died on Friday. Deceased was well known in almost every part of Montreal, and had been for thirty-eight years with the company. About a week ago he was stricken by paralysis while in his office, and never rallied. Mr. Young was a member of Crescent street Presbyterian church. He was a brother of George Young, University agent, who left yesterday to attend the funeral.

The Retreat Ends.

The retreat of the Roman Catholic priests of the Kingston diocese, which began at the archbishop's palace on Monday morning, was closed this morning by Rev. Fr. Donerty, Quebec. The priests dispersed to their respective stations throughout the parish, after Archbishop Gauthier had celebrated mass.

QUITE A BLAZE

TWENTY-SEVEN HORSES WERE CREMATED;

Stables Were Destroyed in Montreal—Quite a Serious Loss—The Arrival of Vessels.

Montreal, Sept. 13.—The stables of the Montreal Light, Heat and Power Co., at Shannon and Ottawa streets, were destroyed by fire at an early hour, this morning. Twenty-seven horses were cremated and thirty-five repair wagons and sleighs burned. The Montreal Cash Bakery and two dwellings adjoining were damaged. The loss is estimated at \$15,000, mostly covered by insurance.

The Allan line steamer Numidian, from Liverpool, passed Cape Magdalen, inward, at 5 a.m., on Saturday.

The Allan line steamer Sicilian, from Montreal, arrived at Glasgow on Saturday morning. The statement published here to the effect that another step in the fusion of the Dominion Steel and Iron and Dominion Coal companies has been taken in the appointment of Cornudius Shields to the position of general manager of the steel company, in addition to his position of manager and vice-president of the local company, is denied by officials of the companies here. David Baker continues as manager of the steel company.

The civic finance committee has decided, by resolution, to give the Hechtelberg Bank one-fourth of the civic account, which has heretofore been held by the Bank of Montreal. The former is a French-Canadian institution and French aldermen moved in the matter, claiming that one of their institutions was entitled to a share, with the above result.

MARINE INTELLIGENCE.

Notes Regarding the Movements of Vessels.

Richardson's elevator: Steambarge John Milne from bay ports. M. T. company elevator: Tug Thomson cleared for Charlottetown. The schooner Kate cleared from Swift's wharf with coal for Round Island.

Swift's wharf: Steamers Toronto down and up; Rileau Queen from Ottawa; Hamilton for Montreal tonight.

Craig's wharf: Steamer Melbourne from Montreal. The steamer Kingston makes her last trip of the season to-day and to-morrow.

The steamer America will be laid up this evening. To-morrow the steamer St. Lawrence completes her season's trips among the Thousand Islands.

The steamer New Island Wanderer has been running under high pressure during the past two days. The spindle of her independent pump broke. Repairs will be made to-morrow.

Collided With The Tower. During the early hours of this morning excitement prevailed for a time in Kingston harbor. A stiff wind was blowing and a heavy sea was running. The tug Jessie Hall was coming into the harbor with a tow of barges. Suddenly one of them broke away, and before she could be secured was driven heavily against the old tower. The crash was distinctly heard for a considerable distance. The boat, however, survived the shock, and was soon secured. The steamer Toronto, just leaving port at the time, had some difficulty in avoiding a collision with the runaway barge. In her effort to save herself from harm, the Toronto came very near colliding with the tower.

The Finest Pleasure Cruise Of The Season.

The palace steamer Rideau Queen will sail at the latter end of September through the St. Lawrence and Ottawa rivers and Rideau lakes and river, running all the rapids and making one of the most delightful trips that can be had anywhere in the world. Limited to forty people, only \$25.00 for one week's enjoyment. This includes meals and berth. Applications to be received before the 16th inst. Apply to Jas. Swift & Co., or J. P. Hanley.

Standing Of Baseball Clubs.

Eastern League—Toronto, 650; Buffalo, 635; Worcester, 533; Jersey City, 528; Providence, 516; Rochester, 427; Montreal, 425; Newark, 392. FOR FIFTY-N YEARS.

Rev. M. Macgillivray Has Been Pastor.

REV. M. MACGILLIVRAY, M.A. To-day Rev. Malcolm Macgillivray, M.A., entered upon his sixteenth year as minister of Chalmers church. One of the leading professors of Queen's, Shields to the position of general manager of the steel company, in addition to his position of manager and vice-president of the local company, is denied by officials of the companies here. David Baker continues as manager of the steel company.

AT THE GRAND.

"Busy Izzy"—Monday Night. "Busy Izzy" is the title of the new musical conceit which E. D. Stair has arranged to present George Sidney in as his introductory to theatre goes in stellar role. Of course it is going to be farrell in its nature; it will be replete with specially features, music and pretty girls. That will be sumptuously staged and dressed roles without saying. This attractive novelty, will be seen at the Grand on Monday evening next.

"A Normandy Wedding."

"A Normandy Wedding," a new comic opera by J. Cheever Goodwin, author of "Wang," and other successful operas, and William Furst, the composer of "The Tale of Champagne" will be presented at the Grand on Thursday, Sept. 18th, by an attractive company.

International Reform Bureau.

The bureau presided over by Rev. Dr. Wilbur T. Crafts, of Washington, the acknowledged leader of moral reform, is accomplishing great and widespread work for good. The Reform bureau brings things to pass. Bills have been passed through its influence in congress against divorce, for the increased protection of young girls; for the abolishing of liquor selling in canteens; for forbidding the sale of intoxicating drinks and opium to aboriginal races; for the protection of the Sabbath as a day of rest; against game laws; Presidents of twenty-one railway systems have in writing stated that foul literature has been ordered out of all their trains by the bureau's influence. Rev. Dr. Miller, the new field secretary of the reform bureau, will visit Kingston and preach to-morrow in the morning at Sydenham street Methodist church and in the evening at Chalmers church. Friends of reform will heartily welcome him and extend material help.—COM.

Law Suit Is Threatened.

A few days ago a resident of Pine street called for tenders for the construction of a new dwelling. The lowest tender was received from a firm of contractors, who were awarded the contract. They asked for an additional \$85, which the citizen refused to give. Another contractor said that he would do the job for the amount of the lowest tender, and the work was turned over to him. It is now charged that the disappointed contractor has tried to injure the successful contractor by attempting to prevent him securing supplies, and a law suit is threatened.

Threatened With Dismissal.

A member of the police force is very much "on his nerves" because of a threat made by union men, that they would see to it that he would be dismissed from the force. The policeman had a mason employed about his house, doing a small job, and in his spare moments the policeman was doing the necessary laboring work. This did not meet with the approval of the unionists, who accused him of taking the bread and butter out of the laborer's mouth, hence the threat that unionists would have the policeman dismissed.

Police Court Tidings.

The "course of Canada" was again responsible for the appearance before the police magistrate of Angus McPhail, liberated from jail only a few days ago. McPhail, a finely educated man, once held a respected position in the city as an instructor of the court, but a thirst for strong drink led to his downfall. The magistrate allowed him to go, on his promising to leave the city. John Trencor's case was dismissed for non-appearance. The difficulty between he and his assailant was settled out of court.

The Team For Watertown.

At a meeting last evening of "Bobby's" the following members were chosen as the team to meet the stout men of Watertown, on the baseball diamond on Tuesday next: Al Herman Harkness, captain; B. Police Constable Arnie; Leonard Dick, p.; W. Varney, 2b.; W. H. Carson, ss.; C. McConville, 3b.; A. McKee, lf.; Alex. Tye, cf.; G. Jensen, lf.; G. Boutin, spare man; A. E. Elmer, manager. The team will leave here at five o'clock Tuesday morning and will return at noon Wednesday.

NEWS OF WORLD

TELEGRAMS FROM THE FOUR QUARTERS OF EARTH.

Matters That Interest Everybody—Notes From all Over—Little of Everything Easily Read and Remembered by the Dear Public.

Frost is destroying crops in the western states. The Mexican lap-dog is the smallest known variety of dog. The estimated output of gold in the Yukon this year will amount to \$12,000,000.

The grand jury is still hearing evidence regarding the St. Louis city lighting scandal. It is stated that the cost of the evacuation of Martinique will be 3,000,000 francs (\$600,000).

At Ichama, Ore., timber fires surround the town and are threatening settlers' houses and property. The German manoeuvres concluded on Friday with a repetition of Thursday's battle on a different field near Schwiebus.

The anniversary of the death of President McKinley will be appropriately observed in the United States to-morrow. Mrs. William M. Stewart, wife of the senior United States senator, from Nevada, was killed at Alameda, Cal., in an automobile collision.

The Venezuelan government has declared Gen. Matos, revolutionary leader, a traitor, and ordered him to be tried on the charge of piracy. Two bullocks got on the C. P. R. track at Montreal and a freight train backed into them. Two cars were smashed and the bullocks were cut to pieces.

Seven persons are reported dead in the Kiamitia, Indian Territory, from inhaling Parisian green which had been applied to worm infested cotton plants. Buckingham palace occupies the site of the mulberry garden laid out by James VII in his unsuccessful attempt to start a silk industry in London.

The New Orleans telephone linemen, who are on strike, will attempt to cause the strike to every city in the south, in which the Cumberbund Telephone and Telegraph company operates. It is stated that the department of justice has given orders for the liberation of Arthur Brunet, confined in the Montreal jail for several months past, having been convicted of frauds in connection with the Brunet-Bergeron federal election.

A Detroit dispatch says: A regiment of Canadian soldiers, the 21st Essex Fusiliers, has been invited by the local arrangement committee to march in the parade of Spanish war veterans here, September 22nd, which will be reviewed by President Roosevelt.

The pastoral address signed by all the bishops was read at the General Synod of the Church of England, in Montreal. It urges the church to more liberal giving and deals, with the sanctity of the Lord's day, religious instruction of children, bible study and other matters.

A despatch from Muskegon, Mich., says: Luther W. Shearer, the district agent of Northwestern Mutual Life Insurance company, a prominent churchman and society leader, in Detroit, who disappeared on June 11th, leaving behind him alleged forgeries, and debts to the extent of \$50,000, quietly walked into the presence of Sheriff Payne at the county jail and gave himself up.

At the Old Bailey, London, the jury found no evidence against Prince Francis Joseph Braganza (Lieutenant in the 7th Austrian Hussars, who was a member of the Austro-Hungarian mission to the coronation of King Edward), charged with "misconduct under the criminal amendment." The prince was discharged from custody, but his three companions were sentenced to terms ranging from nine to twenty-four months imprisonment for conspiracy.

A PERFECT SUCCESS. MULATTO TURNED WHITE.

French Submarine Boats Torpedoing Armoured Ship. All Done Within Seven Years—Remarkable Case.

Paris, Sept. 13.—Very interesting experiments with submarine boats took place on Friday at Cherbourg. After manoeuvring within a given radius battleships were ordered to steer whatever course they pleased, while the submarine boats were manoeuvred to torpedo them. The submarine boats were navigated twenty feet from the surface at which depth they were able to see what was going on with the aid of the periscopes. When about two miles from Cherbourg the submarine boat Francaise, was made aware of the presence of the battleships by the sound of the old arms' appeared on my face, neck, large vessel after which the Francaise came to the surface twenty yards away. Then as soon as her presence was certified she vanished again, passing beneath torpedoed her again. She then came to the surface. The manoeuvre occupied only a few minutes and was a perfect success.

It is just seven years since I noticed a small white spot on the top of my forehead, just at the roots of the hair. It gradually spread, and within a year had reached the size of half a dollar. In the meantime other white spots appeared on my face, neck, arms and body. Now, as you see, I am completely white, with the exception of these marks on my arms and body, and, strange to say, these marks are much darker than was my original color. I am and have been in perfect health.

Mrs. Noble is the wife of a Cuban. Her maternal grandmother was a German, while her paternal grandfather was a Castilian.

Pure spices at Mullen's.
