

FREE TO MILLIONS.

A Valuable Little Book Sent Free for the Asking.

Medical books are not always interesting reading, especially to people enjoying good health, but a matter of fact scarcely one person in ten is perfectly healthy, and even with such, sooner or later sickness must come.

It is also a well established truth that nine-tenths of all disease originate with a breaking down of the digestion, a weak stomach weakens and impoverishes the system, making it easy for disease to gain a foothold.

Nobody need fear consumption, kidney disease, liver trouble or a weak heart and nervous system as long as the digestion is good and the stomach able to assimilate food of wholesome food.

Stomach weakness shows itself in a score of ways and this little book describes the symptoms and causes and points the way to a cure so simple that anyone can understand and apply.

Thousands have some form of stomach trouble and do not know it. They ascribe the headaches, the languor, nervousness, insomnia, palpitation, constipation and similar symptoms to some other cause than the true one. Get your digestion on the right track and the heart trouble, lung trouble, liver disease or nervous debility will rapidly disappear.

This little book treats entirely on the cause and removal of indigestion and its accompanying annoyances.

It describes the symptoms of acid dyspepsia, nervous dyspepsia, slow dyspepsia, amylose dyspepsia, catarrh of stomach and all affections of the digestive organs in plain language easily understood and the cause removed.

It gives valuable suggestions as to diet, and contains a table giving length of time required to digest various articles of food, something every person with weak digestion should know.

No price is asked, but simply send your name and address plainly written on postal card to the F. K. Stuart Co., Marshall, Mich., requesting a little book on stomach diseases and it will be sent promptly by return mail.

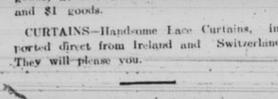

GARPETS!

Every purchaser of Carpets, whether for the smallest room or the largest hotel wants his mind satisfied on three points, namely, price—quality—style.

It is because we convince our customers as to every one of these requirements that we confidently expect your patronage.

R. McFaul

Kingston Carpet Warehouse.

Bedroom Suites—20 to offer at \$5.75, complete, with 13-d., Dresser and Stand, 14 by 24, Mifflin Dresser.

White Enamel Iron Bed, Dresser and Stand, 14 by 24 Mirror, \$10.75.

These we cleared from a factory that needed money. We buy cheap and give you the benefit of our efforts.

8 Hall Racks from same factory, worth \$6, for \$3.75.

LINOLEUMS—Immense stock, beautiful patterns selected by Mr. Taylor while in Scotland, just to hand. These are of unusual value, ranging from 45c. to \$1.25 square yard. These are the most durable known to the trade.

FLOOR OIL CLOTH—All sizes, 25c. up. Some pretty patterns.

CARPETS—Reussels, in Blue, Olive, Terra, Rose, Crimson shades. All the best goods.

TAPESTRIES—Some handsome Velvet patterns, woven expressly for us in these goods, at 50c. and 60c. They look like \$2.50 and \$1 goods.

CURTAINS—Handsome Lace Curtains, imported direct from Ireland and Switzerland. They will please you.

The International Reform Bureau Described—Local Evil Attacked—Stirring Address of the Bureau's Field Secretary.

Yesterday morning at the Sydenham Street Methodist and last evening at the Chalmers Presbyterian church, Rev. O. K. Miller, M.A., field secretary of the International Reform Bureau, gave an address that will be long remembered by the large audiences present.

Mr. Miller stated that the main object of his coming to Canada at this time was to arouse a greater interest in this international treaty for the suppression of the sale of liquor, opium and firearms among all the uncivilized races of the world.

He also stated that the main object of the good work done by the bureau in the United States and Canada, in the United States the bureau has secured the passage, by congress, of many very important and much needed laws.

The following general bills which have been passed by congress were drawn up by the bureau and introduced at its request:

1. The Gillett bill to prohibit the sale of liquor, opium and firearms by American traders in New Hebrides islands. This is the bill for which the famous missionary, John G. Patton, so long appealed to the United States. President Roosevelt presented the reform bureau with the pen with which he signed this bill, a recognition of the bureau's good work toward securing its passage.

2. The senate resolution, passed January 4th, 1901, calling upon all the civilized nations of the world to unite with the United States in an international treaty to suppress the sale of intoxicating liquors among all the uncivilized races of the world.

3. Teller amendment, to make it a condition precedent to the payment of the five millions appropriation to the St. Louis fair that the management shall "contract" to close the gates on the Sabbath day during the whole duration of the fair.

4. The Wellington amendment to the district of Columbia code, limiting divorcees to only one cause, that which Christ allows, as the only justifying cause for divorce, that is, adultery.

5. The Gillett bill, which broke up the divorce colonies in the territories, especially in Oklahoma.

6. Johnson anti-liquor amendment to remove from the American soldiers the temptation of strong drink.

7. The Froelicher bill, to increase the age for protection of girls to twenty-one in the district of Columbia.

The bureau has also helped to secure the passage of many reform bills drawn up by others.

Eight other measures drawn by the bureau have been favorably reported. Not one has been prepared has failed of such endorsement.

The bureau also secured the defeat of the Bartlett-Cameron race gambling bill, and two attempts to repeal the anti-divorce law of District of Columbia.

Whereas the representatives of the bureau go, they help to inaugurate needed local reforms such as a better Sabbath observance, driving idiosyncratic literature out of the news-stands, seizing gambling slot machines, and manacles, which are exhibiting obscene pictures, etc.

Twenty-one presidents of great railway systems have in writing stated that certain foul periodicals and novels have been ordered out of all trains and depot news-stands at the bureau's suggestion. The same have been removed from hundreds of news-rooms on the bureau's remonstrance.

Many foul pictures have been removed from billboards and windows. Several foul and brutal plays have been kept out of theatres. Curfew has been secured in many cities and towns. Sunday saloons have been closed up in several places, and crying of Sunday papers have been stopped in others.

Millions of petitions and practical reform documents have been sent to reform leaders and workers everywhere.

Is not a society that can report such large moral dividends worthy of generous support?

The work of the Reform Bureau in the United States having been so successful in many places in driving out great crying evils, such as obscene literature, mutoscopes, gambling slot machines, etc. and also in securing much needed reform legislation at the national capitol, there was a desire on the part of many friends of reform in Canada that the bureau might extend its work into this country.

Accordingly in the early spring of 1902, the superintendent of the Reform Bureau, Rev. Dr. W. E. Crafts, visited Canada, speaking in many of the largest cities, and local Reform Bureau committees of prominent pastors and laymen, were organized in Toronto, Hamilton, Kingston, Ottawa, and Montreal. The committees are to cooperate with the bureau, first, in securing a favorable response from the British government to the proposal made by Hon. John Hay, the secretary of state, in behalf of the president and senate, that the two great English-speaking nations should unite in submitting to other commercial powers a treaty that would suppress the sale of all intoxicants and opium among all the uncivilized races of the world.

Thousands of the bureau's "20th Century Quarterly" and documents have been sent to moral leaders and 1,000 documents, concerning the Hay international treaty, under state departments' franks, have been sent to all members of all Canadian governments and parliaments, an unprecedented and impressive propaganda, which was timely in that it came

WHEN THE BOER WAR HAD JUST CLOSED

and left the Imperial government anxious to make the acceptance of this great proposal the crowning act of the coronation season, as the bureau proposed also in a letter to Mr. Chamberlain, which has been courteously acknowledged. In all the cities visited in the spring tour memorials in behalf of the treaty were adopted, and this matter is again being urged in the September tour by the field secretary.

The local committees appointed in the various Canadian cities will also cooperate with the International Reform Bureau in driving out of Canada obscene literature and foul theatricals, mostly imported from the United States, whose good citizens are therefore bound to help Canada to protect herself against them. Gambling is also to be fought by these committees. The bureau has and will cooperate also in the great battles for temperance and the Sabbath, for which Canada has been more fully organized than for the crusades against impurity and gambling, where the bureau's aid is more needed.

A good beginning was made in the crusade against bad literature at Toronto, Ontario, where the bureau's superintendent brought to the attention of Staff Inspector Arnold, whose special province as a police officer is to enforce those laws usually left to the care of law and order leaguers, various bandit libraries and obscene periodicals, and seven of these were forthwith ordered out of the city. The law forbids both the exposing and the selling of literature, tending to corrupt public morals. It had never been interpreted as applying to the Jesse James stories that glorify crime. Appeals were made to Dominion authorities to exclude the same periodicals from all Canada by orders to the post office and customs officers. Fifty American periodicals had previously been excluded from Canadian mails, and the customs had adopted the same list.

The foul bill posters were dealt with in a similar manner, locally and nationally. As the tariff law forbids the importation of obscene matter, all that is necessary is that public sentiment should make itself felt upon all customs officers, from the highest to the lowest, that the enforcement of the law should be shamefully lax, may be made more strict by the assistance of parents and other child guardians. To this end every parent should have the judicial definitions of obscenity from British and American courts, which the bureau will send to all who apply with requests.

The bureau's superintendent also made a thorough study of Toronto theatres, finding them all, from the lowest to the one of best repute, so unwholesome in their influence that when the facts were presented in the Presbyterian and Methodist preachers' meetings, both spontaneously felt that the law should be more strictly enforced without any request from the speaker, independently appointed committees which should gather the laymen and preachers of the whole city, which was done in Old Knox church on March 7th, where a profound feeling against the theatre was no doubt hastened action of the city council authorizing the suspension of any foul play by a police officer and improved the enforcement of the laws on morality by the staff inspector, who had felt that public sentiment had not previously been sufficiently rallied to his support.

At Ottawa the bureau's superintendent cleaned out the news-rooms and the Dominion government was interviewed in behalf of the international treaty and the vice crusade. In all the cities also the government was asked to be more strict in enforcing foul bill posters and certain periodicals. The committees examined after each meeting.

The co-operation of Canada had by this time become so real and hearty that the "Reform Bureau" changed its name to "The International Reform Bureau" to correspond with that of other societies in which the two countries act together. Canada is invited to the advisory board by the following persons: Rev. Dr. John Potts, J. J. McLaren, K.C., Hon. John Charlton, Hon. George A. Macster, of Toronto; John Duggan, Esq., Seth Lee, K.C., and Rev. Dr. Gordon of Montreal. All Canadians in sympathy with these plans described are invited to join the bureau.

The address was listened to with the greatest interest from beginning to end. Mr. Miller will remain in town a day or two, and then goes to Toronto, where he is to speak in two of the largest churches next Sunday.

Church Paragraphs.

In St. James' church last evening Canon Macmorris delivered the concluding sermon of a series on the authorship of hymns. The sermons have been interesting and profitable.

Holy communion was celebrated in Chalmers church at yesterday morning's service. There was a large attendance of communicants. Miss Bajus sang a solo at evening service.

A month's mind requiem mass was celebrated at St. Mary's cathedral this morning for the repose of the soul of the late Miss Evelyn Gertrude Martin, daughter of Capt. Martin.

In Sydenham street Methodist church last evening, Mrs. C. D. Kerr sang "The Golden Pathway" in a charming manner. Mrs. Kerr possesses a magnificent soprano voice and in the way in which she sang her difficult number enraptured the large congregation. She is a decided acquisition to musical circles in the city.

Union Vs. Non-Union Goods.

"Unionism is a good feature if its principles are carried out," remarked a clothing merchant on Saturday night. "I have reason to know that the principles of unionism are not followed in Kingston," he continued. "For instance, I carry two lines of overalls, one union made, which sell at \$1.25, and one non-union made, which sell at \$1. Of course, when asked for a pair by a workman, I invariably show both lines, pointing out the union label on the one and remarking that although the cheaper pair are just as good as the dearer, they are made in sweat shops by scab labor. In nine cases out of ten, the cheaper garment is purchased, and by union men, who say that they see no reason why they should throw away twenty-five cents. My clerks will bear me out in my statements in this matter, because they have met with the same experience as I have."

WAS TOO BRIEF.

BASEBALL SCHEDULE WAS NOT LONG ENOUGH

Montreal Shamrocks Defeated the Ottawa Capitals—The O.R.F.U. Has Never Treated Kingston Teams Properly.

The Argonauts pugilists begin practice this week. The executive of the O.R.F.U. will meet on Saturday, September 20th, when the schedules will be arranged. This is the last week of the Eastern Baseball League. If Toronto wins four of its seven games it will win the pennant.

Owen Sound lacrosse club cleared \$500 on the season. There is keen rivalry among those northern towns in all lines of sport. Pitcher Altrock, of last year's Toronto team, has been signed by the Boston American league team for a term of two years at \$3,000 a year.

The outlook for the international night race this month, between the Shamrocks, Clorita, of Toronto, and the Helen, of Rochester, is not very bright. The Dunlop trophy race at Toronto, on Saturday, was won by the Royal Canadians, its four men being the first to finish. The Queen City Bicycle Club was second.

Sullivan will have one more chance against Toronto this season. Providence plays the closing three matches of the Eastern in Hogtown, beginning next Thursday. Drohan, O'Hara and "Knotty" Lee have returned to Gananogue to go into winter quarters. Their names have not been written upon the Gananogue book of banishment.

The Limestones held their first practice in the cricket field Saturday afternoon, with a creditable turnout of members. To-night regular practice will be begun in the Kingston skating rink.

Ontario is threatened with a football epidemic this fall. The removal of the age limit in the junior series has made it possible for the smaller towns to get in the game and they are jumping at the opportunity. The St. Lawrence International Baseball League schedule was of too short duration. It should have run on till Sept. 15th at least. Next year, a better arrangement should be made all round. Ponies were loth to break up so early.

It is now stipulated in the rules of the O.R.F.U. that the wings of the side in possession of the ball must not use their hands or arms, but can block with their bodies only. This will give the referees and umpires a fair chance to see who the offenders are.

In the Ponies of this season, Kingston has had the best baseball team that ever represented the city. Some people talk of the great teams in the seventies and the eighties, but the fact remains that far better ball is now being played, and certainly by stronger teams.

King Clancy, of Ottawa, is to become the paid coach of McGill rugby team for a few weeks. That will surely make him a professional, according to the amateur rule. What will the Quebec rugby union executive do? Allow him to play with Ottawa College which he returns to.

Harvest here this season will be centered in the Intercollegiate Race Union. Queen's should have a strong team, much superior to that of a year ago. She will have a tough rival in McGill, which is receiving several of last year's Ottawa College players.

Montreal Shamrocks defeated the Capitals in Ottawa on Saturday afternoon by 4 goals to 2, and again won the championship of the National Amateur Lacrosse union. Not in many years was there such interest displayed in a lacrosse match, as the contest decided a close race for the championship.

Ponies and Gananogue will meet at Lake Ontario Park, to-morrow afternoon for a parting game. Gananogue will have a strong line up, consisting of O'Hara and Drohan, late of Syracuse Stars; "Knotty" Lee, late of Concord; Ross, Randolph, Cota, Corrigan, Brennan, Boucher, and Willis. Ponies will have their old-time team again in the field and a real hot match may be expected.

If Kingston does not enter a senior team, the O.R.F.U. series will be somewhat "short-handed." The rugby executive is very anxious that the Limestone City should be represented, but has that body ever done anything that would commend itself to the sporting fraternity of Kingston? Not in the history of the O.R.F.U. Nothing but the shabbiest treatment.

A DOCTOR'S EXPERIENCE.

Medicine Not Needed In This Case.

It is hard to convince some people that coffee does them an injury! They lay their bad feelings to almost every cause but the true and unsuspected one. But the doctor knows; his wide experience has shown him that to some systems coffee is an insidious poison that undermines the health.

Ask the doctor if coffee is the cause of constipation, stomach and nervous troubles. "I have been a coffee drinker all my life. I am now forty-two years old and when taken sick two years ago with nervous prostration, my doctor said that my nervous system was broken down and that I would have to give up coffee. I got so weak and shaky I could not work, and reading your advertisement of Postum Food Coffee, I asked my grocer if he had any of it. He said, 'Yes,' and that he used it in his family and it was all it claimed to be.

So I quit coffee and commenced to use Postum steadily and found in about two weeks' time, I could sleep soundly at night and get up in the morning feeling fresh and well. In about two months, I began to gain flesh. I only weighed 146 pounds when I commenced on Postum and now weigh 167 and feel better than I did at 20 years of age.

I am working every day and sleep well at night. My two children were great coffee drinkers, but they have not drunk any since Postum came into the house and are far more healthy than they were before." Stewart M. Hall, Fairfield, W. Va.

has been accorded teams in this city, and it is no wonder that when a crisis comes there is no one eager to revive the team which succeeded Queen's. Kingston has done much for rugby in Ontario, but all the return it gets is unfair treatment and expulsion of some of its players for alleged violation of amateur rules. And when the names of the star-chamber accusers are demanded, there is no answer. The likelihood is that Kingston will not enter a senior team this year in the O.R.F.U., and that with Ottawa Rough Riders it will seek admission a year hence to the Quebec Rugby Union.

Baseball On Saturday. Eastern League—At Toronto, 6-5; Newark, 3-2. At Buffalo, 10-9; Worcester, 3-2. At Rochester, 4-8; Providence, 7-1.

National League—At Pittsburgh, 4 Cincinnati, 6. At Chicago, 12; St. Louis, 0. American League—Cleveland, 4-2; St. Louis, 1-1.

PERSONAL MENTION.

Movements Of The People—What They Are Saying And Doing. Miss Flora Ellis, Quebec, is the guest of Mrs. Munro, Wellington street.

Mrs. (Rev.) A. Laird is home after spending the summer with her parents in Halifax. Letter carrier Niell, of the post office staff, has resumed work after three weeks' holidays.

William Angrove, Toledo, Ohio, is the guest of his father, Henry Angrove, Queen street. Dr. Ryan and J. J. Behan addressed C.M.B.A. gatherings at Douglas and Renfrew on Sunday.

Peter W. Donoghue, of the Club hotel, after a ten days' outing in the west, has returned home. Dr. Thomas Mooney, Rochester, N. Y., spent yesterday in the city with his parents, Stuart street. Charles Anglin, Barrie street, and William Campbell, Alfred street, returned on Saturday from a trip to Toronto.

Mrs. R. J. Elliott, Clergy street, returned Saturday from Toronto and Ingersoll, where she spent three months with relatives. Mr. and Mrs. G. W. Winkelman, Rochester, N.Y., spending some days here with friends, returned home yesterday by steamer Kingston.

James Halliday, of the firm of Breck & Halliday, went down to Gananogue to-day to close a contract for wiring a residence there. Dr. and Mrs. Hedley Graham, Rochester, N.Y., the guests of relatives for a week or so, returned home yesterday on the steamer Kingston.

Miss Tandy has resumed her duties as organist of St. James' church, after three months' absence, and the congregation is glad to have her back again. A. W. R. Markley, Calgary, N.W.T. superintendent of the Confederation Life Insurance company, was the guest of W. Carroll, Alfred street, on Saturday.

Stanley C. Biggs, R.M.C., has sailed from New York to take up his work as an officer in the Indian staff corps. He is a son of Hon. S. C. Biggs, Toronto. W. H. Mealey, Mr. and Mrs. J. B. Astor, Queen street, and Mrs. King, Bedford street, are members of a pleasant party which returned on Saturday from a trip to Quebec.

Capt. Eaton, "A" field battery, who went to South Africa with the 3rd C.M.R., is now in England, where he will remain for a short visit. Miss Francis Anglin, this city, to-day began her duties as kindergarten principal of the Pictou public school. She had two weeks' holidays while school supplies were being purchased.

Caution!

This is not a gentle word—but when you think how liable you are not to purchase for 75c. the only remedy universally known and a remedy that has had the largest sale of any medicine in the world since 1858 for the cure and treatment of consumption and throat and lung troubles without losing its great popularity all these years, you will be thankful we called your attention to Boschee's German Syrup. There are so many ordinary cough remedies made by druggists and others that are cheap and good for light colds perhaps, but for severe coughs, bronchitis, croup—and especially for consumption, where there is a difficult expectoration and coughing during the nights and mornings, there is nothing like German Syrup. Sold by all druggists in the civilized world. G. G. Green, Woodbury, N.J.

Got A Bad Fall. A man knoweth not what an hour may bring forth. To quote one instance, John S. Ports, a genial Toronto traveller, arrived in the city on Saturday and established himself at the Hotel Randolph. After tea he repaired to the correspondence room to indite an epistle to loved ones at home. When he had finished he leaned back in the comfortable oak chair, looked upon his work and thought it very good. But he leaned back a little too far, and the balance he lost he soon found on the floor. But before Mr. Ports reached the floor he had an altercation with a heavily framed G. T. R. time table that hung on the wall behind him. In falling, his head struck the glass covering of the timetable, smashing it, and almost smashing the cranium that struck it. Mr. Ports received scalp wounds—allevy over his head, and it required the services of a physician to dress his many but not serious injuries.

Complaints are made that the electric bell at the Collins Bay crossing is out of repair and rings continually, causing vexatious delays on the part of persons desiring to cross the track. The first of Principal Ellis' course of lectures on the art of teaching, will be delivered in St. James' school house on Thursday evening.

James M. Barrie's new serial "The Little White Bird," now running in Scribner's, has been praised in all quarters as one of the most charming fancies of that writer. It is reproduced in their original colors. The Portsmouth philosopher says there is plenty of material in his hand to form a Liar's Club and the Gab Association.
