Matters That Interest Everybody—Notes From All Over—Little of Everything Easily Read and Remembered By The Dear Public.

Lord Rosebery is ill. Scotch miners have accepted a reduction in wages. Harry Richmond, Petroler, committed suicide by drowning. British shippers have notified their men of a reduction in wages. Gladman's saw mill, at Carling, was totally destroyed by fire; loss, about \$12,000.

Maggie York, of Dufferin Bridge, aged nineteen, committed suicide at Burd's Falls, by taking carbolic acid. A slight earthquake shock was felt in San Francisco at 3:51 o'clock on the morning of the 18th. No damage was done. The tobacco commission sat in Hamilton yesterday and examined a number of local dealers and will hold the next meeting in Toronto this afternoon.

Four officers belonging to the Danish training squadron were drowned in the harbor of Karis Krona, by the upsetting of a boat while returning to their ships from the shore. The Snow Drift company's factory at Brantford, and George Watt & Sons' grocery store, were burned last night; loss, about \$70,000. Three firemen were badly hurt by falling walls. Rev. Dr. Churn, of Broadway tabernacle, Toronto, announced to the Methodist general conference that he would accept the position of field secretary for temperance and moral reform.

IN consequence of a split in the Dominion Trades Congress at Berlin, the Knights of Labor and their sympathizers have formed a new organization to be known as the National Trades and Labor Council of Canada. A small gasoline tug, a number of gill nets, owned by some United States parties, together with a quantity of fish, were captured off Longue Pointe by the cruiser Petrel for fishing in Canadian waters. Mr. Enrique Peres, procurator of the Spanish Reclote fathers in Rome has presented a voluminous report to the Vatican, contending that his order in the Philippines is the victim of much injustice and libel and claiming its right to remain there and be protected by the government.

John Mattot, a United States government diver, had a dangerous but unique experience in Oswego harbor. While under water the head plate of his diving suit blew off, leaving Mattot without a supply of air and in danger of drowning. Unable to reach the life line, he signalled by means of the air tube and by a fortunate chance was hauled up, after being without air for over two minutes.

KRUGER WILL RETURN. If The British Government Will Allow Him. Amsterdam, Sept. 19.—There is a movement in the intimate circle of Mr. Kruger's friends to send him to South Africa. Mr. Kruger has given notice that he will vacate his residence in New York, but he had not determined whether he will accompany the Boer generals home, if he is allowed to go back. The generals will sound the British authorities on this point during their coming visit to England.

Dr. Leves denies that the Boer generals have abandoned their proposed tour of the United States. They will complete their agreement with himself and the Boer delegates in Europe, under whose auspices they will visit the leading cities of the continent, beginning with Rotterdam.

JAMESON RAID EXPLAINED. Why It Was Planned—Favors Canadian Fast Service.

New York, Sept. 19.—Tribune London cable says: "The conference of steamship managers in Mr. Morgan's pool is not exciting deep interest in commercial circles here. No definite arrangements have been made, nor are any official announcements likely until the Morgan combination has been formed and worked out in detail, but Liverpool is convinced that the Canadian line will receive a materially increased subsidy, and will be enabled to build a fast substitute for the Umbria, and compete in speed with the best German ships, and also that the Canadian government will persevere in Sir William Mulock's shipping policy and obtain suitable tenders for a fast service, on both the Atlantic and Pacific. These conclusions are confirmed by well informed Liverpool men and Austen Chamberlain's influence, as Postmaster-general, will be thrown heavily on the side of the colonies in all arrangements for mail subsidies.

Rumors that Mr. Kruger will produce in his memorials new evidence of a British conspiracy against the Dutch republics are not well-founded. He will re-open the argument and make use of several telegrams which Miss Flora Shaw, now Lady Lugard was called upon to explain before the parliamentary commission, but he is not likely to throw fresh light upon the secret history of the Jameson raid. His statement of the Boer case can hardly fail to be interesting, but something more than Mr. Rhodes' telegrams to Miss Shaw will be required before Mr. Chamberlain's reputation can be compromised. The real motive for the raid, as now explained by well-informed South Africans, was a determination on the part of Mr. Rhodes to create a political situation at Johannesburg, which would compel Mr. Chamberlain to intervene. Dr. Jameson was to enter the town and the population was expected to take up arms, and the high commissioner was then to call a parley and ask Mr. Kruger to make concessions to the Uitlanders and mining interests. When the crisis arose, the high commissioner acted more aggressively against the raiders than the conspirators had anticipated.

AN OLD MAN'S CRIME. Shot And Killed Girl And Then Suicided. Winnipeg, Man., Sept. 19.—Thomas Law, of Alexander & Law Bros., millers of Brandon, accompanied by Miss Ernie Therrien, left Brandon yesterday in a buggy for the Beresford district, for a day's chicken shooting. Having reached their destination, Law and Miss Therrien drove on the farm of Alonzo Rowe, and were about to commence shooting when Rowe, who is seventy years of age, appeared on the scene, armed with a gun, and fired at the couple. Several pellets of shot struck Law in the knee, but Miss Therrien received almost the entire charge in her hip and abdomen. Rowe, after the shooting, returned to his house, where he took poison, dying almost instantly. It is supposed that Rowe fired at the couple while angry at the couple, and that then realizing what he had done, he committed suicide.

Miss Therrien died in Brandon hospital this morning. FARMS FOR BOERS. Tells of Alleged Promise Made by President Roosevelt. Johannesburg, Sept. 18.—Mr. Dieprink, formerly a member of the raid, deported because he refused to take the oath of allegiance when Lord Roberts entered Johannesburg, has returned from the United States, where he declares he had an important interview with President Roosevelt.

Mr. Dieprink's object was to see if it was feasible for burghers to settle in America. He says, was throughout the interview President Roosevelt was entirely in sympathy with him and approved of his idea, and that he promised if Mr. Dieprink could get a sufficient number of burghers to grant them farms on the Indian reservations.

Mr. Dieprink is now acting on these assurances, but it is doubtful if he can get recruits to go to the United States, as the burghers are showing no great desire to emigrate.
