BIG OIL GUSHER IN ALASKA. Spouted Nearly Two Hundred Feet When Tapped.

Tacoma, Wash., Sept. 22.—A special dispatch from Valdez announces that an immense oil gusher was struck at Cotella, on the Southern Alaska coast, at a depth of 200 feet.

The gusher took everything away with it, rising nearly 200 feet before it could be capped. The oil is of good quality, being valued at \$1 a barrel at the well. It is near to water transportation, and will cost \$3 a ton to reach the Pacific coast ports.

CAPT. SVERDRUP'S ACHIEVEMENT IN FAR NORTH.

English Iron For the United States—To Decline the Offer of Mr. Morgan—Refuse to Interfere With Rumanian Jews.

London, Sept. 22.—The Daily Mail announces that the government has decided that the Transvaal and the Orange River Colony shall pay £100,000,000 towards the cost of the South African war, and cost of administration. An account has been opened at the treasury, and the colonies have been debited to that amount. A loan will be raised probably in the sum of £50,000,000. Taxation of the mining industry concessions, for the sale of dynamite, etc., will contribute materially to the payment of the £100,000,000.

The Times published the personal narrative of Capt. Sverdrup, the Arctic explorer, describing his four years explorations on the steamer Fram. He details the course taken by the vessel from Cape Sabine and the experiences and achievements of the various sledge expeditions from the Fram.

The Times editorially holds that Sverdrup has rescued so much from unknown and made so many solid additions to science that his achievements on his last expedition, taken in conjunction with the all-important part he played in Nansen's venture, surely entitled him to the highest recognition the geographical world can bestow in dealing with his work in the region of the Ellesmerland, which is broken into a complexity of fjords, reaches, and mountainous elevations. A great island was discovered north of the Parry Island, extending to about eighty degrees north, but no other land was seen either to the north or the west of this, nothing but unbroken seas of ice. The writer holds that as Lieut. Peary did not meet with land in his attempt to reach the pole, it is probable that Capt. Sverdrup discovered the last outlying land between the American continent and the pole.

It is reported from Vienna that, according to present arrangements the Vienna and Berlin cabinets have decided to decline the United States proposition in regard to the Rumanian Jews. Although their answers are to be couched in very courteous terms, the United States will be given to understand that only the signatories to the treaty of Berlin have a right to give decisions or to take action on the question of the treatment of foreigners in Rumania.

America continues to buy English iron on a large scale. In addition to an order for 10,000 tons of east coast hematic pig iron, placed in Cleveland a few days ago, it is stated that 12,000 tons of ordinary Cleveland iron has been bought for early shipment to the United States.

Mr. Morgan's offer of \$25,000 for the Burns manuscripts in the Liverpool Athenaeum library is being keenly discussed. The committee of the library it is understood, will recommend that the offer be declined.

Hon. W. S. Fielding, Canadian minister of finance, said in an interview yesterday that Canada was not seeking to promote the shipping combine. Negotiations for the improvement between Canada and England, in which the imperial and Canadian governments are interested, "are not yet ended," said Mr. Fielding, "and no one knows what their outcome may be."

A NARROW ESCAPE. Accident to R. L. Borden and Party, Near Calgary.

Calgary, Sept. 22.—While R. L. Borden, the opposition leader, and his party were on the way back to Calgary from a visit to the Sarcee Indian reserve, twelve miles distant, on Saturday, the driver of the rig in which Mrs. Borden and others were seated, was jolted from his seat. The horses at once bolted and rushed into the carriage containing Mr. Borden and other ladies and gentlemen. Mr. Borden was hit by the pole of the resulting rig, and thrown in such a manner that his leg was caught between the wheel and the brake, and a furious horse was all but pinning him beneath its feet. Fortunately the rigs were stopped, but not before the horses had run over Mr. Shearer, who was severely bruised, but otherwise uninjured. Strange to say, though five persons were thrown out and one run over, no bones were broken and no serious injuries sustained.

Commissioner Ross Accepts. Victoria, B.C., Sept. 22.—Commissioner Ross, of the Yukon territory, at present in Victoria, has received a telegram from Dawson informing him of his unanimous nomination as candidate for accepting the nomination. The election will take place on December 2nd. Mr. Ross leaves in a few days for California for the benefit of his health.

The mystery of the murder of Mrs. Annie Pultzer, whose mangled body was found in the Morris canal near Jersey City has been cleared up by the discovery that the woman was killed in a flat at No. 103 West Fifty-Eighth street, where her clothing was found. The police are searching for a young man named Hooper, suspected of the deed.

BOTTLE AFLOAT 28 YEARS.

Thrown—Overboard In Indian Ocean—Ashore On Cape Cod.

Brookline, Mass., Sept. 22.—George T. Maddox was a member of the crew of the vessel Hattie Tapley twenty-eight years ago, and on April 13th, 1874, was one of the men who placed a note in a bottle bearing this inscription: "This bottle was thrown overboard from the ship Hattie Tapley, of Bangor, Capt. George Tapley, master, April 13th, 1874, in latitude 27 degrees, S., longitude 68 degrees, E."

This was in the Indian ocean. The bottle was picked up recently off Monomoy Point, Cape Cod. It was intact, and the message could be read easily. The bottle was found by a Harwich fisherman.

Mr. Maddox recalls the voyage on which he was when the bottle was thrown overboard. He thinks the wind helped the bottle around Cape

L. A. Dufresne, a former corporation counsel of Montreal, committed suicide at Longueuil. He had gone to Longueuil from Montreal, sat down on the shore near the wharf, and shot himself in the head with a thirty-two calibre revolver. He was seventy-six years old, and for forty-five years was employed in the Montreal city hall.

The date of the election trials in the constituencies of East Middlesex and South London were fixed at Osmonds Hall for October 15th, to be held respectively at London and Woodstock. There are in all forty-eight election petitions and seventeen cross appeals, as the results of the late provincial general elections. The judges will sit to fix further dates next Saturday.

Brooklyn, N.Y., schools are threatened with an educational recess. Only 1,000 tons of coal remain on hand for supplying 115 buildings. By the most rigid economy this amount can be made to last one week. The Board of Education of Yonkers has decided to import coal from Wales rather than close the schools. Bills were asked for two thousand tons of anthracite, the dealers being allowed all the latitude possible on the price. Not a bid was received.

She Suddenly Collapsed. Cornwall, Ont., Sept. 22.—Miss Lillian Stacey, whose scalp was torn off by the machinery of the card room of the Canadian Colored Cotton Mills about five weeks ago, died at the Cornwall General Hospital, Saturday, while under the influence of anaesthetics. WORLD NEWS

Strong Evidence of Toronto Dealers is Submitted.

Toronto, Sept. 22.—The royal commission, to investigate the alleged tobacco combine, this morning heard some interesting evidence from T. J. Howick, a jobber, who had tried to secure Empire and American tobaccos from a wholesale jobber in Toronto to handle in company with other goods not made by the trust companies. The dealer, Mr. Horrick said, had refused to supply him, saying that if he did so Major Orchard, the trusts' representative, would cut off the supply of American and Empire companies' tobacco, which comprised the greater part of his trade. F. W. Dimmock, agent of Houde's tobaccos, swore that he had great difficulty in getting his goods displayed in many stores and this, he believed, was because of the agreement forced upon retail dealers by the trust. A list of dealers in the chief centres of Ontario, who had signed the agreement to sell only trust goods, was submitted to the court before adjournment, despite the protest of the trusts' counsel, who said it had been obtained confidentially.

SPURNS HIS DAUGHTER. Belgian King Makes a Display at His Wife's Bier.

Brussels, Sept. 22.—A despatch to The Patriote from Spa says that when King Leopold arrived there he refused to speak to the Princess Stephanie, Countess of Louvain, and compelled her to leave the royal palace. The princess consequently left Spa suddenly. She rode to the station in a hired carriage, and amid demonstrations of sympathy from the people took a train for Brussels.

Princess Stephanie is the second daughter of the late Queen Marie Henriette and King Leopold. She married the only son of the Emperor of Austria in 1881 and was left a widow in 1889. She was married the second time in 1900 to Elemer, Count of Louvain. This marriage was against the wishes of King Leopold. He has been very bitter against his daughter, and courts friendly to that of Belgium have declined to receive the princess.

IN DANGER OF COLLAPSE. Picturesque Venetian Building In Dangerous Condition.

London, Sept. 22.—A Venice correspondent says as a result of the accurate examination of the chief Venetian monuments, it is possible to express well founded opinion as to their condition. Although no public building is in immediate danger of collapse, several edifices, including Doges Palace, Basilica of St. Mark, Zeca (formerly the mint), and the churches of Santa-Maria, Formosa, Frari, and Giovanni, of Paolo, urgently need thorough repairs if a disaster is to be avoided. The authorities are already moving in the right direction, except in the case of Zeca, where the civil engineering staff is surpassing itself in stupidity, attempting as engineers are doing, to patch up as new, premises for the St. Marks' library, an edifice which only partial demolition and reconstruction can save from collapse.

Struck by a Rock—Crowds Held Back With Bayonets.

Troy, Sept. 22.—Waterford was the scene of further outbreaks in the Hudson Valley strike situation Saturday. A fusillade of stones greeted a car which arrived from the north on which were Capt. Wallbridge, Lieut. Thomas and a detail of soldiers of Company "L," National Guard. Lieut. Thomas was struck on the forehead and knocked down. Capt. Wallbridge and his men thereupon forced the crowd back, bayonets and gun butts were used. Capt. Wallbridge struck John Coffey, of Waterford, on the head with his sword, cutting a gash eight inches long. Capt. Wallbridge issued a statement that unless further rioting ceased his men would use bullets instead of bayonets. The rioting here far in Waterford has been caused entirely by hoodlums.

FATHER OF 44 IS DEAD. Was 111 Years Old and Had Been Thrice Married.

Denton, Md., Sept. 22.—Capt. Joseph Griffith, the oldest citizen of Caroline county, died at his home here. His family claim that he was 111 years old, and that he was the father of forty-four children. He was married three times, and never had a spell of sickness in his life.

For the past three years he has been blind, but continued in good health until a few days ago, when he had a stroke of paralysis. Capt. Griffith followed the water for fifty-two years and had charge of one of the first steamboats that ever came up the Choptank river.

Oppose Tariff Increase. Berlin, Ont., Sept. 22.—Before adjourning the following resolution, offered by W. A. Douglas, was adopted by the Trades and Labor Congress: "That whereas the Manufacturers' Association has declared its intention to seek an increase in the tariff, and whereas the injury and oppression of industry comes not from various industries, offering to exchange riches for riches, but from the extensions to which labor is subjected by holders of land, forest, mines and other natural opportunities; therefore, this congress condemn any increase in the tariff and would urge that taxes be removed as soon as possible so those values which now enable non-production to impoverish industry."

Charence De Voe, a prominent contractor and builder of Schenectady, N.Y., went shooting with four companions. A gun in the hands of a member of the party suddenly went off and the charge blew the back part of De Voe's head off, scattering his brains upon the ground. Death was instantaneous.
