COMMERCIAL MATTERS.

What Is Going On In the Business World—The Market News.

Sugar trade reports indicate very healthy conditions. Wheat exports from the United States and Canada this week total 5,435,000 bushels, as against 3,841,000 in the corresponding week of last year.

Receipts of wheat at Liverpool the past three days were 375,000, including 343,000 cents American. Corn receipts 23,405 bushels. Indian wheat shipments last week 192,000 bushels, against 360,750 bushels the week before, and 528,000 bushels in the same week last year. No Australian wheat shipments.

Russian government reports winter wheat crop in Poland and North Caucasus good. Volga district unsatisfactory. Spring wheat generally above the average in the Middle Volga district, unsatisfactory beyond the Volga and in the southeast pool.

Cheese sales: Belleville, 10,516c. to 10c.; London, 10c. to 10c.; Watertown, N. Y., 10c. to 11c.; Cowansville, Que., 10c. to 10c.; Canton, N. Y., 11c.; Brockville, 10c.; Trossel, 10.510c.; Winchester, 10c.

A Montreal de-patch says: Money is now extremely tight and difficult to obtain even at the advanced rate, five and a half per cent, and the stringency seems to be more acute each day. One bank which lends a good deal of money in the street has put its rate up to six per cent. Most of the brokers are discouraging buying, and some are refusing buying orders although they except when they cannot very well help themselves. Yet, in spite of the situation, the market is strong.

During 1902 the gain in the cross traffic of the Canadian Pacific system was quite striking, the increase on the year 1902 being over twenty-one per cent, possibly a greater expansion of traffic than was shown by any other large railway on the continent. If the record so far during the present fiscal year is fair criterion, the despatch of the company's business during 1903 will be equally astonishing. For the first ten weeks ending September 17th, the gross traffic receipts were \$8,233,000, against \$7,342,000 for 1902, an increase of \$891,000, or more than twelve per cent. on last year's remarkable volume of traffic.

A former Kingston clergyman's friends are announcing his engagement to the youngest daughter of a well-known citizen who is prominent in church circles.

J. S. R. McCann has sold the brick dwelling at 26 Pine street, owned by John Grant, to W. H. Reynolds.

Mrs. P. A. Taylor, Toronto, is visiting friends on Arch street.

PIGOTT HIDES. LONDONERS FURIOUS AT IMPOSTER'S CLAIM.

Says He Is Christ—People Ready to Tear Him To Pieces—Curious Study of Sociology—Imposter Is In Hiding.

London, Sept. 21.—The public excitement in London over the fanatic Pigott, who styles himself the Messiah, furnishes a curious study in sociology. The mere mention of his name is sufficient for the assemblage of many thousands, all anxious to do bodily harm to the impostor.

It is a strange commentary on the supposed phlegmaticness of the metropolis that it is necessary to assemble several hundred policemen for his protection whenever it is known that this pastor of a small parish is going from his home to the church to conduct a service.

The offender has done nothing except to announce the other day to members of his little sect that he was the reincarnated Christ. He made no fuss about it. He did not manifest the least desire for temporal power or even recognition outside his own small circle of followers. But his declaration got into the papers, and forthwith the passion seized many thousands of Londoners to tear him to pieces.

The other night a coachman stopped in front of the North London station and remarked jokingly to a bystander that he was waiting for Pigott. The rumor spread like magic, and within a few minutes, the crowd grew to a mob of many thousands. The police reserves were called out, and it was two hours before they succeeded in controlling the mob. The cry was constantly raised "Here he comes," "Down with the impostor!" "Let's get at him."

Meanwhile the putative Messiah will remain in retirement for the present. He lives almost in luxury with his wife, who has considerable money. Their relations, it is explained, like those of all others of the sect, who do not believe in ordinary marriage, are purely platonic.

THOSE CORONATION MEDALS. First Canadian Contingent Will Receive Them.

Ottawa, Sept. 21.—Sir F. W. Borden, minister of militia, has been advised by Mr. Colmer, secretary of the high commissioner of Canada in London, that the coronation medal will be issued to the Canadians who went over with the coronation contingent. In connection with a statement published in the London Daily Express, purporting to come from a Col. Ferrers Townshend, who made a report to the war office that the forty along the Canadian front are absolutely inefficient, it is learned at the department here that Col. Townshend did not report to the Canadian government before making his tour of inspection. It is considered that if he had been an inspecting officer his first duty on arriving in the country would have been to report to the militia department, but as he did not do so, and has never been heard of at the department, his criticisms are not taken seriously.

Hon. Joseph Chamberlain has called the government that the 5th Battalion Royal Garrison Artillery, has left England for Halifax, and that on their arrival they will relieve the third special reserve battalion. The cable goes on to state that secretary of state for war desires to convey appreciation of the valuable assistance rendered by the Canadian government in maintaining the battalion at Halifax. He has much pleasure in testifying to the good behaviour of the battalion.

WILL NOT COMBINE. Afraid of Congress and Removal of Cattle Tariff.

Chicago, Sept. 21.—The combination of the great packing houses in the country has been abandoned, at least for the present. The decision not to complete the combination is due in a large degree to the attitude of the national administration towards trusts, as outlined by President Roosevelt in his recent speeches, and to the possibility that in the event of a consolidation, congress might remove the tariff on cattle.

Lost In Woods. Ogdensburg, N.Y., Sept. 21.—W. J. Powers, nineteen years old, started last Tuesday on a hunting trip near Cranberry Lake in the Adirondacks, with a party of his friends. Powers became separated from the party, and was unable to find his way from the woods. He shot a deer, but in his efforts to find his fellow hunters lost track of the animal. He was seen by a porcupine, and attempted to eat its meat, which he was unable to do. Saturday a party of hunters found Powers, after being without food for five days. He was in a terrible condition, being unable to speak or walk.

Plea For The Armenians. St. Louis, Mo., Sept. 21.—Archbishop H. Keenan, president of the Armenian National Union, composed of 20,000 Armenians in this country, has written a letter to the secretary of state, John Hay, requesting his intervention with the European powers in behalf of the Armenians in Turkey.

Have Submarine Telephone. Christiania, Sept. 21.—Fishery experts and electricians are interested in the invention by a Norwegian telegrapher of a submarine telephone which, when placed in the water off the sea outside of the fjords, is capable of announcing to persons on land the arrival of herring, hods.

Rev. Dr. Barclay, interviewed at Montreal, said his reasons for declining to accept the principalship of Quebec would be given out at Kingston in the course.

George A. Hutchison, representing the Smart Manufacturing Co. Brockville, was in Kingston, today on business.

W. Spencer Jones, musical director, Brockville, was in the city today, arranging for a concert here in the near future.

E. B. Gallagher, St. Catharines, is spending a few days in the city.

THE REFERENDUM FIGHT.

\$100 From Every Saloonkeeper—Exhibition at Cape Town.

Toronto, Sept. 21.—Judging from a circular issued by the Licensed Victuallers' association committee, the liquor interests purpose spending much money in the active campaign against the referendum. A special levy has been made on all saloonkeepers of the province, the amount of which may be judged from the fact that Toronto dealers are asked for \$100 each, or about \$18,000 altogether, from this city. Considerable murmuring is heard respecting what some call an unreasonably high assessment. Part of the circular reads as follows: "The convention of licensed holders held in June last to take charge of the campaign in Ontario have formulated such a plan and fixed what in their opinion was a fair assessment for each license holder in Ontario to pay. The cities were graded according to population, and the assessment made for Toronto was \$100 each. This assessment was unanimously adopted by the meeting referred to, and the resolution regarding such is as follows: That the secretary be instructed to advise each hotel keeper in Toronto of the assessment of \$100 each as their contribution towards the expenses of the referendum campaign in that city, and that the payment of such be requested on or before October 5th, and that all who have not paid by that date be advised by the secretary that a sight draft of \$50 of such assessment will be passed on October 5th, and a further draft for the balance, namely, \$50, on November 5th."

The Manufacturers' Association has advised that the South Africa and Colonial Industrial exhibition will be held at Cape Town, December, 1903, and January and February, 1904. The association is already making strong efforts to have a large Canadian building erected, in which every branch of Canadian industry would be well represented.

Alfred Inch, a barber, was found guilty at the general sessions this morning of being an accomplice in the theft of \$523 from John Brown, a Halton farmer, aged over eighty. Brown was in the barber shop, where Inch worked, getting his hair cut, when a young man, whose identity has not been discovered, but who was shown to be a confederate of Inch, seized his pocket book and bolted out of the shop with it. The part-inch played was to delay the old man in the chair until the thief got clear away.

WEALTH IN CORUNDUM. Extracting Aluminium From Ore Would Double Profits.

Ottawa, Sept. 21.—Archibald Blue, chief census commissioner, who, as an officer of the Ontario government, has a good deal to do with the policy adopted to encourage a development of the corundum deposits in this province, visited last week the region of Renfrew and Hastings counties, where this mineral is being worked. He found one deposit which at least, at the present price of the mineral ought to yield over twelve million dollars.

"What particularly struck me," remarked Mr. Blue, "was the even larger money that could be made out of these deposits if a process were discovered for extracting the aluminium that the formation contains. The corundum contains fifty-three per cent. aluminium, which would yield, if it could be separated, at least twice as much money as the corundum now brings for grinding purposes. In my judgment, the Ontario government would be justified in offering a considerable reward—even thirty, forty, or fifty thousand dollars—for the discovery of a process by which the aluminium could be economically separated. We could then be able in this province to control the corundum and aluminium markets of the world. The materials from which aluminium is now taken are not nearly so rich in the mineral as corundum. The Canadian Corundum company is endeavoring to ascertain a process by which this aluminium may be attained, but a government reward would stimulate experiment, while the province would itself reap therefrom a rich profit in the value, the extensive corundum deposits on crown lands would attain."

MAJOR POWELL DEAD. One of the Foremost Geologists of the World.

Haven, Maine, Sept. 21.—Major J. W. Powell, director of the Bureau of Ethnology of the Smithsonian Institution, at Washington, died at his summer home here. He had been critically ill for some days. Scientists placed Major Powell in the foremost rank of the geologists and anthropologists of the world. He had been identified with the scientific work of the government since the early sixties.

Joyceville Jottings. Joyceville, Sept. 23.—Farmers are busy threshing their grain, which is turning out well. The gang of men engaged in repairing the telegraph lines, having finished work here, have gone to Kingston Mills. Mrs. G. Thompson and child, Portsmouth, have returned after spending a few weeks with their friends. Lawrence Joyce and family, North Crosby, were here last week visiting friends. Visitors, Mr. and Mrs. McNulty, Kingston; at J. McCarty's; Mrs. Sidly, Watertown; at J. and B. Mullen's; B. Donaldson, intends returning to Trail, B.C., in a few days.

Married In The West. The Trail, B.C., News, of the 13th inst., announces the marriage at Rossland, of Archibald Donaldson, son of James Donaldson, of Joyceville, to Miss Ann Mackenzie Harkness. The bride was charmingly attired in a dress of white organdie, and carried a beautiful bouquet. She was assisted by Miss Janet as bridesmaid. Archie McGregor acted as groomsmen. The groom is night foreman at the smelter at Trail, and his friends in all Provinces extend their congratulations.

No Fun In The Job. Dr. S. H. McCann, manager of the Granite Football club last year, remarked today: "I had thought to try and manage a football team, without being charged in court for owing people for goods purchased by the team. I'm out of the managing business, I can assure you."

NEWS OF WORLD

TELEGRAMS FROM THE FOUR QUARTERS OF EARTH.

Matters That Interest Everybody.—Notes From all Over—Little of Everything Easily Read and Remembered by the Dear Public.

In the golf championships at Montreal, Taylor, Montreal, was defeated by Lyon, of Rosedale, Toronto. J. E. Muhfield, mechanical superintendent of the Intercolonial railway, has resigned to take up a position with Baltimore & Ohio.

A Dominion government store house on Mill street, Montreal, was destroyed by fire at noon; loss, \$20,000. The Canada horse-nail works were damaged.

John Beaton, an Ontario farm hand, employed in the Glenora district, was killed by falling from a load of wheat, the wheels of the wagon passing over his body.

A fourteen-year-old girl at work in a hosiery mill at Reading, Pa., had her long braid of hair caught in a knitting machine. Her entire scalp was torn off. She will die.

The scheme foredoomed in the speech of Mr. Tarte at Orillia which would give the Canadian Pacific railway company a new line tapping the great lakes, is attracting much attention in railway circles.

The governor-general left Ottawa today on a trip to the North-West. He was accompanied by Lady Minto, the Ladies' Elliot, Major Maude, Capt. Bell, Capt. Hughes, and Mr. Guise. Lord Minto expects to have some hunting while in the North-West.

The identification of four famous crooks, "Evansville Slim," "Bridgeport Billy," "Pawtucket Johnnie," and "Blackey," was established at Syracuse police headquarters. The arrest of these men will likely end bank and post office robberies in that vicinity.

The Watertown city council and the board of public charity held a joint meeting Tuesday night and a resolution was passed instructing Chief Baxter to station policemen at the barns of the Black River Traction company, and arrest all motorcar and conductors who attempt to leave the barns with cars that are not equipped with fenders. If this resolution is enforced, it means that there will be no street car service in Watertown.

FRUIT MARKS ACT. Manager of the Lakeport Preserving Company Fined.

Colborne, Sept. 21.—Before J. Brintnell, J.P., Alexander McNeill, acting chief of the fruit division, department of agriculture, Ottawa, charged the manager of the Lakeport Preserving company with three breaches of the Dominion fruit marks act. Two were in respect to twelve barrels of apples inspected at Montreal in transit to Liverpool, not properly marked with the name of the packer, and were also graded higher than the quality of the fruit warranted. The third was on complaint from Winnipeg that ten barrels of apples shipped to that city inferior to the faced surface. Convictions were made on all the charges and fines imposed amounting to \$11 and costs.

ANOTHER ERUPTION. Cable Repair Steamer Had To Hurry Away.

Castries, Santa Lucia, Sept. 21.—There was a severe eruption of La Soufriere, St. Vincent, Sunday. It came without warning. The cable repair steamer Newington, working five miles from shore, was forced to steam away at full speed. She was followed by a dense mass of dust, and had a narrow escape. The repairing operations on the cable have been suspended indefinitely. The broken cable, which was picked up, shows signs of submarine volcanic disturbance or severe injuries caused by the debris from the Wallibou river.

FULL CARGOES FOR AFRICA. New Venture Will Prove a Great Success.

Montreal, Sept. 21.—Shipping men are jubilant over prospects of South African trade. The Ontario, Allan line, which sails on the 18th, will leave with a full cargo for Cape Town, Port Elizabeth and Durban, and the Melville, Elder-Dempster line, which sails a month later, will also carry a full cargo.

David Campbell, general manager of the firm, stated that he was well satisfied with the outlook. Canadian shippers had already secured a market in South Africa, and the Ogilvie Milling company alone would ship upwards of 3,000 tons by the Ontario and Melville. The Lake of the Woods Milling company will also make a large shipment. Other lines which on the Melville, had booked space, were lumber, boots, leather, cheese, and various produce, and he expressed the vessel to fill up with a miscellaneous cargo of Canadian manufactured goods. They were also receiving a good many enquiries for passenger rates, especially from western commission men.

The foreign freight departments of both the Grand Trunk and the Canadian Pacific are drumming up western shippers for lumber and cheese, which are sure to find a ready market there. The cheese trade in the past has been in the hands to a great extent of Americans. The British middleman has also handled a considerable quantity of Canadian cheese for South Africa. Canadian hay is still in good demand here, and both the Ontario and Melville will carry three or four thousand bales each.

Robert Sills, of Taylor's drug store, leaves for Chicago tonight to visit William Robertson. Mrs. Sills will accompany her son.

The steamer Calvin arrived at Garden Island from upper lake ports with timber.

W. J. Simmons is in Montreal on a business trip.
