Albany Team Awarded Pennant of New York State League—United States Rugby Gives No Chance For Individuality.

The most melancholy days are here. The griping hands inspire our fear. And order us the cards—(Baseball Players' Lament).

I tell you chums there is a place. Where both our lams can get with grace. Where Pony and Garrock will not quarrel. And that place is in the batting ball.

The O.R.F.U. executive meets on Friday to draw up the junior schedule. Ramblers, Limestones, and R.M.C. will be the Kingston junior team in the O.R.F.U.

This season the Quebec Rugby Union like the Intercollegiate, will have a board of referees. The game of cricket has seen one of its most prosperous years in Ontario. But there is room for improvement.

The Pittsburgh National League baseball team defeated Montreal on Saturday night in a game which was a pretty picture and a very exciting one.

The Montreal Herald desires to find out the strongest team that could be picked from the National Amateur League Union, and is offering prizes for the best guesses.

In commenting on George Sullivan's performance with Empire Cox at Toronto on Saturday, the Montreal Herald says: "Sullivan was probably right. Cox was Toronto's friend."

An old Yale full-back declares that football is becoming too intricate that the continual changing of the rules only detracts from the game. A premium is put on weight and stupidity, and the game has come to the stage where players are mere cogs in a piece of machinery with no chance to exercise any individuality.

The Pittsburgh National League baseball team will play with the Montreal Herald on Saturday night. The record is 102. Pittsburgh has won 100, and has five more to play. Afterwards, the champions will play six games with Lajoie's all-star aggregation, two in Pittsburgh, two in Chicago, and two in Cleveland.

When "Chassie" Elliott, "Joe" Daley, "Jack" Berry and "Jerry" Hunt, of the Ponies, and "Curly" Randolph of the Gamboques, marched into Prescott yesterday morning to play baseball with the Prescott Toronto team, the Prescott bunch raised a vigorous kick, and would not go on the field. So there was no game, and the Toronto Toronto aggregation claimed a victory.

If all races for a baseball pennant were contested, the one between the Albany and Binghamton teams for the championship of the New York State League this season was the closest. The Albany team was awarded the pennant by a margin of one per cent. by the directors of the league at a special meeting. The official standing of the two teams was: Albany, won 73, lost 12; Binghamton, won 71, lost 11.

The general opinion was that the Toronto baseball team was just as fast as the Pittsburgh National League in the field, but were not so handy with the bat. When the Pittsburgh team did land a long drive there was no stopping it until it hit the fence. The contest was played under National League rules, all fouls counting as strikes until two had been made, then a dozen could have been made without further damage to the batter's chances. The rule in some degree proved a handicap to the Toronto.

DIED IN THE WEST. Son of Mrs. Mary Donnelly, This City, Suddenly Expires.

Mrs. Mary Donnelly, who resides at No. 3 York street, on Wednesday received a telegram conveying the sad intelligence of the death of her second-eldest son, Charles G. Donnelly, in a hospital at Revelstoke, B.C. Death was due to typhoid fever. No other particulars were given, and the sudden news is rendered all the more painful by the fact that the family did not know of his illness. The deceased young man was thirty-nine years of age, had been in the west for some years. He was a son of the late James Donnelly, for many years G. T. R. section foreman at Malloytown. The father was killed by a train while working at the latter place. A few years later the family removed to Kingston, where they since resided. Much sympathy is expressed for the bereaved mother, sisters and brothers. He leaves, besides his mother, two brothers, George in Chicago, and James near Saulx Ste. Marie; and three sisters, Mrs. Ralph Trickey of Alexandria Bay, N.Y., and the Misses Jeanie and Mary Donnelly. This city. It is not yet known just what arrangements will be made for the funeral.

ANOTHER GOOD HOUSE.

Marks Bros. At The Victoria—Attractions At The Grand.

Last evening Marks Bros. company played to still another crowded house at Victoria theatre. The popularity of the Marks Bros. draws the crowd every time. The attraction last night was "The Deacon's Daughter," and the play was, as usual, cleverly presented. All members of the company carried out their respective parts so adroitly and skilfully that it would be almost unwise to discriminate. The three young ladies are very attractive, and have won the hearts of the theatre-goers. The specialties were new and entertaining—in fact, all of Marks Bros. specialties are above par. The illustrated songs of Kitty Marks are favorites, and the spectators only wish that there were more of them. To-night the play will be a new one and the specialties will be changed.

To-night's Performance. "Way Down East," William A. Brady's pastoral production, will be the attraction at the Grand Opera House to-night. Unlike most of the so-called rural plays, it has a well defined plot, which is unfolded in a straightforward, clean-cut way that never permits the interest to subside for a moment. It carries out the story with out unnecessary words, and there are no long drawn out speeches to tire, or retard the action of the play. The dialogue is incisive and to the point.

Guy Bros. Minstrels. Ottawa City. Guy Brothers' Minstrels opened a three-night stay in Ottawa last night, and that every one was pleased was shown by the liberal applause given each performer. The opening first part was a pretty picture and so different from the old circle. It was an English hunting scene, the hunters dressed in red hunting coats, top boots, caps, etc., and instead of sitting on chairs they all sat on stone walls. The solo singers were excellent. The second part consisted of some clever ring exercises, by the "cub" brothers, a very excellent tumbling act by the Panama trio. A big feature was the dissolving pictures and illustrated songs. Every one left the theatre exclaiming it was a first-class entertainment. One beauty of it was that there was nothing rough or noisy thing that would offend the most fastidious. Guy Bros. will play at Grand on Monday next, 29th inst.

Still Further Enlarged. The national cases against two liquor dealers were further enlarged for one week. THE CITY'S COAL

CORPORATION REQUIRES 140 TONS OF IT.

Will Advertise For Tenders At Once—Business Done At Yesterday's Meeting of the Civic Property Committee.

The property committee met yesterday afternoon in the city engineer's office. Here were present: Chairman White, C. J. Graham, George Sears, Joseph Tait and R. H. Abbott.

A number of accounts were considered and ordered to be paid. The total cost of painting the market shambles, the roofs of the city buildings and the fire stations was a little over \$130.

Samuel Conley, caretaker of the fair grounds, sent in a bill for \$21.25 for general work for cleaning up the grounds. Chairman White was not certain about this bill, the duties of the caretaker were not specifically defined, and it was hard to say just what could be expected of him.

Ald. Tait—I don't see what we appointed a caretaker for if it wasn't to take care of the grounds.

Ald. Abbott—There is something radically wrong somewhere.

Ald. Tait—It is getting to be a perfect nuisance.

Mr. Conley came into the office at this juncture and was asked to give his version of the story. He stated that he had used his own horse and harness, and had charged him \$12.50 a day. He was asked if it was necessary to have a horse to do, in reply to a question by Ald. Sears, Mr. Conley said he was paid \$25 a month as keeper for the horse and cow pounds, and that he received a five horse and water for looking after the fair grounds.

Ald. Sears thereupon moved that the bill be paid.

A communication from Mr. Joy was read, asking for free use of city hall for holding a children's special mission service. Granted on motion of Ald. Graham.

City Scavenger Attwood asked the committee to allow him to occupy the rooms beneath the city buildings, vacated by Andrew Lamborn, the former city messenger. Ald. Graham's motion that the privilege be granted was carried.

What are we going to do for coal? inquired the chairman. "Fifty-five tons of wood and 140 tons of coal are needed."

Ald. Sears did not think coal would be any cheaper. Ald. Tait just rose to \$9 a ton.

Ald. Graham and Ald. Tait declared that coal has been bought all along for \$7 a ton.

It was moved by Ald. Graham that the tenders be asked for by inserting advertisements in local papers, space not to exceed one and one-half inches.

The chairman wanted the tenders asked for by means of sending out cards to the dealers. Ald. Tait was of this opinion also.

Ald. Abbott was in favor of advertising in the press; the contract was too large to deal with it otherwise.

What was Ald. Graham's idea, embodied in his motion above?

Ald. Sears moved in amendment to the effect that the tenders be secured by sending out cards.

The amendment was lost, Ald. Graham, Ald. Abbott and the chairman voting against it. The motion then carried.

The committee arose and went out to examine the rear of the city buildings, the walls there required painting in order to save them. It will be recommended to council, that this work be done at once.

Canker. There is a mistaken idea as to the cause of cankers in the mouth and throat. Sufferers imagine that they arise from stomach troubles, but it is nothing more or less than the result of impure blood. Numerous so-called remedies have been floated on the market, but experience has proven that there is only one cure, "Iron Tonic Pills, 25c. a box, at Wade's drug store."

An Engine Rerailed. The K. & P. engine ran off the track yesterday near the Kuthum company's office. The accident was caused by spreading rails. Considerable difficulty was experienced in getting the locomotive again on the track. It required two engines—a Bay of Quinte and a K. & P. engine—to do the work.

Amoyned the Doctor. If you get right down to the bottom of your stomach trouble it is wrong food, and the way to correct it is not by drugs but by using "The Right Food."

A physician in Barron, Wis., writes an instructive letter on this point. He says: "I am a practicing physician, forty-five years old, and about six feet in height. When I began using Grape-Nuts last Spring I weighed 140 lbs., was thin and poor, had a coat of greasy skin, and frequently belched. I had a bad cold, and was very sore, in short I had had it all."

I consulted a brother physician who advised me to eat about four tea-spoonsful of Grape-Nuts at the commencement of each meal and drink Postum Cocoa. I had been in the habit of drinking coffee and sugar. I followed the advice of my brother physician as to diet and experienced relief at once.

Ever since that time I have eaten Grape-Nuts with sweet milk or cream each morning for breakfast and now I weigh 155 lbs., and am in the best of health with some of the best food of Postum Cereal Food Coffee and attribute my relief as much to that as I do to Grape-Nuts.

Often when I am called out on my rounds to see a patient and on my return home I feel tired and hungry. I eat the usual quantity of Grape-Nuts before going to bed, and then sleep peacefully all night. Name given by Postum Co., Battle Creek, Mich.

DARK AND CHILLY.

Buttermilk Club Had No Light Or Fire.

The Buttermilk Club members' meeting last night looked like a secret session. At any rate it was held in the dark, the president stating that there was no oil in the lamp. The coal question was the first topic of discussion and the president was congratulated for his thoroughness in storing his fuel when it was cheap.

"Yes," he said, as he munched a pear, "I feel elated to think that I paid only \$6.25 a ton, when the doctor and the captain are paying \$7 and perhaps \$8 for theirs. Why Mr. Tait—"

He is out to-night scolding the town for not getting a few tons of the precious stuff. And the speaker of the house roared forth in hilarious glee.

"Tell us where your basket of peaches went," chirped in the captain, and a storm of laughter resounded through the cold, dark vault.

"The doctor took them!" exclaimed the president bringing his hand down on a box, with a terrible bang. "He came in here when I was out, and carried my fruit away. And when I went to his house, to demand it back, he had the audacity to ask me why I dared walk up his front steps, and soil them."

"The doctor denied taking the peaches, and a pitched battle of tongues ensued between the accuser and the accused. The latter declared that the president must have had a plumber to galvanize his stomach in order to hold the amount of buttermilk of uncertain quality which he drank. It was some time before order was obtained, and the combatants were quieted. The row nearly started anew when the president sarcastically asked the doctor why he didn't get his boots polished and the latter retorted that the president's hadn't been cleaned since they were bought.

Several members felt their feet getting rather cold, and as the host did not offer to light a fire, they finally arose from their pews and made for home.

A PRETTY WEDDING.

Celebrated At Harrowsmith On Wednesday.

On Wednesday the residence of J. Shibley, Harrowsmith, was the scene of a very happy event—the marriage of his eldest daughter, Miss Jennie M. Shibley, B.A., to Rev. W. H. Cranran, B.A., B.D. The interesting ceremony was performed by Rev. Prof. Jordan, Queen's University, assisted by Rev. Samuel Shibley, Kingston. The bride was tastefully dressed in a traveling suit of blue-gray. The bridesmaid was her sister, Miss Lottie Shibley, William Moffatt, M.A., M.D., of Utica, N.Y., was groomsmen. The groom's gift to his charming young bride was a gold watch, and to the bridesmaid a gold ring set with pearls. The parish of the Harrowsmith school, in which the bride taught for several years, presented her with a handsome set of silver. Mr. and Mrs. Cranran left on the steamer Toronto that evening for Toronto, Niagara Falls and Chicago, where they will enjoy a three weeks' honeymoon. They will later take up residence at Coblen, Ont., where the groom is pastor of the Presbyterian church there. Both are popular young people, and are well known in this city. Both are graduates of Queen's University.

A DISTURBER OF PEACE.

Belleville Old Maid Annoys the Neighborhood.

The peace and serenity of Belleville is disturbed, and the inhabitants are wretched, because one of the numerous old maids of that place has taken a unique way of amusing herself. A short time ago Miss Tedman had some trouble with a neighbor residing next door. She decided on a unique plan to have revenge. She took a big dish pan for a drum and a potato masher for a drum stick. She began to hammer away about ten o'clock at night and keeps it up till midnight. Then for a rest she tries another disturber. She has a big wooden ball which she rolls down the stairs. It sounds like a rapid fire cannon. The neighbors sit up in bed and swear, and the old maid no doubt laughs to herself.

Died After Long Illness.

Death on Tuesday night removed Arthur O'Neill, Swedenham street, a well-known stone contractor of the city. He had been ill for several months. A widow and five children survive: Edward, Archibald and Joseph, and the Misses Maggie and Katie O'Neill. The deceased was a member of St. Mary's cathedral, in which a solemn requiem mass will be celebrated on Friday morning.

Meeting With Trouble.

Much sympathy is felt for Mr. and Mrs. John Kinch, Swedenham street. Last week one of their little boys was removed by death, and now their three remaining children are in the General Hospital suffering with typhoid fever. Mr. Kinch, who is a faithful employee of the Carrows-Wood Manufacturing company, has not, himself, enjoyed the best of health this summer.

New Floor In City Hall.

Now that the season for dances has commenced, the agitation for a new floor in the city hall has started again. The young people declare that the old soft wood floor is full of splinters and holes, and is not safe besides. It renders the building almost useless as a dancing hall. A new floor is certainly badly needed.

Our Coal is as Clean as Though It Were Washed and Brushed.

EACH LUMP STANDS BY ITSELF. GOOD coal—so much solid fire. After coal reaches the surface of the earth from the mines, impurities are picked out by hand. Further it is screened several times before it reaches you, and dirt, slate, etc., really have no chance, if the dealers are careful. We are very careful.
