THE DAILY WHIG. Criticising the Party. The Ottawa Citizen is greatly exercised because the liberal papers do not denounce the rascality of the machine of Ontario.

At the last annual meeting of the association it was announced that specific items in tariff readjustment were no longer desired but a thorough revision, upon lines which would, in Mr. McNaught's language, "transfer to the workshops of the country the manufacture of much of the goods which are imported from foreign countries."

VETERANS' LAND GRANTS. There has been some wild talk in the conservative press about the crown lands which are to be divided among the veterans in this province.

MR TARTE AT GANANOQUE. At Gananoque on Wednesday Mr. Tarte quoted Mr. Fielding as saying that there was to be a revision of the tariff, "but that statement," said he, "had not meant that it was to be lowered."

EDITORIAL NOTES. The Insurance Press reports 20,000 accidents a day. Is it any wonder that the accident insurance is on the increase, and enjoying a tremendous boom?

More Rash Talk. They are now saying that the end of the coal strike is near. All that is certain about the matter is that the front end of it is about nineteen weeks away.

The Different Stages. If the coal strike keeps up a month longer there will be thousands of convictions to the principle of government ownership. If it keeps up till Christmas we will all be red-hot socialists.

Yes, Ask Your Mamma. A lot of Toronto kindergarten teachers have resigned to get married. Now, girls don't run off to a kindergarten training school. They are other courses of preparation open to you. Ask me about it.

A Hamilton Hot Head. Can the Rev. Dr. Barclay be blamed for declining the principalship of Queen's university? Remember, it would be necessary for him to live in Kingston.

Teutonic In Collision. Liverpool, Sept. 26.—The White Star line steamer Teutonic from New York, Sept. 17th, collided yesterday with the Dublin steamer Mayo in a fog in the River Mersey. The Mayo was considerably damaged, but the Teutonic was not injured.

Short And Sweet. Torrington, Conn., Sept. 26.—Twenty minutes' courtship was all that was necessary for Daniel Kelly and Sarah A. Peck, and they were married at once. Kelly's wife died a few weeks since leaving four little children.

Russia to-day officially handed over the Shan Hai Kwan New China railway to China.

TALK TO NO PURPOSE. The talk of tariff revision had its stimulation from the Canadian Manufacturers' Association, a committee of which, as a result of the annual meeting a year ago, made an appeal to the government for seven changes.

REAL ROMANCE. READS LIKE TALE FROM A STORY BOOK.

Young Girl Strangely Found After Thirteen Years—Birthplace Was Montreal—Mother Hid Her Proper Name From Her Child.

Boston, Sept. 26.—A special to the press from Burlington, Vt., says: "That blood is thicker than water has been demonstrated by a sad story in real life. William Denning, volunteer fireman, politician and messenger at the custom house in this city, who died suddenly on August 17th, 1901, was the father of a large family of children, none of whom ever blushed to bear his honored name, Robert, the youngest son, left home when quite young, and sought and found employment in Montreal. Here he met and fell in love with a young Canadian girl, and, although at first there was much opposition, they were married, and the girl-wife failed to find favor in the heart of the husband's family.

THAT EDUCATION BILL. Causing No End of a Rumpus — Systems Compared.

New York, Sept. 26.—Tribune London Cable: The dissolvent effects of the education bill upon liberal unionist organizations is apparent, even in Birmingham, where Mr. Chamberlain's followers are threatening to desert him unless he can secure a radical reconstruction of the measure.

At the last annual meeting of the association it was announced that specific items in tariff readjustment were no longer desired but a thorough revision, upon lines which would, in Mr. McNaught's language, "transfer to the workshops of the country the manufacture of much of the goods which are imported from foreign countries."
