

THE STRENUOUS LIFE.

A Great Strain.

No one disputes the fact that we are living in a "rapid" age; it is rush, rush, rush from morning until night, and competition is so fierce that the struggle does not cease until the machine is worn out. Women, too, even when surrounded by every comfort, become infected by the common spirit, and what with their clubs and many social duties, have no time to give thought to their physical well-being, until they are suddenly brought to a sharp realization of the fact that nothing in their lives is so important as attention to correct, or rational living.

THAT BIND CANADA TO MOTHERLAND.

Halifax Chronicle Makes An Appeal For Independence—Canada Should Be Subject To Will of the King Only.

Halifax, N.S., Sept. 26.—Considerable sensation has been caused in political circles by the outspoken declaration of the liberal organ here, the Halifax Chronicle, in favor of the independence of Canada. It takes as its text the recent message sent to the Dominion government by Colonial Secretary Chamberlain in which he thanks Canada for the service of the special service battalion in this garrison. The Chronicle says: This message is, no doubt well, if patronizingly intended. But the Canadian people owe it to themselves to take steps as soon as possible to prevent their being the recipients of many more such messages. An official Englishman conveying to the Canadian government the said official Englishman's "appreciation" of the said "government" may be perfectly satisfactory from an Old Country standpoint. His doing so is scarcely elevating to Canadian dignity. The colonial status of Canada, which this message emphasizes is not, we hope, much longer to be tolerated. Canada is surely old enough and big enough and strong enough to assume a position of independent nationhood. Instead of having Old Country troops coming here to "defend Canada," fetching condescending thanks for what Canada has done, preceded by demands for contributions from us, to the government of the United Kingdom and taunts for our refusal to make such contributions we should take immediate and entire charge of our own defence, and the complete management of our own affairs, subject only to the king, and if necessary a genuine imperial council. We owe this to ourselves, and we owe it to the empire. We are now, however, we may try to blind ourselves to the fact, subjects of our fellow subjects in the Old Country. We occupy, therefore, a degraded and most degrading position. We must proceed to get out of it in some way at the earliest possible moment. Six millions of Canadians in contented dependency is a pitiful sight. The longer it continues the more pitiful will it become. If we cannot secure some free, dignified and certain position within the empire, in the name of British manhood, let us get out of it, and take our stand among the independent and self-respecting nations of the world.

RIOTOUS STUDENTS. One Locked Up And Others Are To Be Arrested. Berkeley, Cal., Sept. 26.—As a result of a riotous diversion by students of the University of California, one of their number, Winfield Reed, of Santa Barbara, Cal., is in jail on a charge of felony and others are likely to be incarcerated. During a fight, the football team of about 500 students took possession of a local train, put out the lights, turned on the hand brakes, and demolished the entire furnishings.

Fraud Agencies Raided. Police Look Upon the Institutions As Gambling Trusts. Chicago, Sept. 26.—Five matrimonial agencies and two "Turk" commissions offices have been visited by a detail of detectives. Both commission bureaus were looted of their contents, and three men were placed under arrest. Three other men, and one woman, for whom the police had warrants, stayed at the police station.

WRECKED BY WINDS. Disastrous Storm Rages in the West. Winnipeg, Man., Sept. 26.—High winds throughout the west have caused serious damage to a number of threshing outfits and farm buildings. At Poplar Point the barn and grain of Hugh Cunningham were burned; James T. Rayner's threshing outfit at Regina was destroyed; with about four thousand bushels of wheat; further west, the stables and seven horses north of Sinitolota were burned. R. M. Graham, Melita, and F. Oliver, Samsford, lost large quantities of wheat in stook; Robert McLean's separator was burned at Dauphin, together with a team of horses.

NOT ON PARTY LINES. New Brunswick Premier Will Go on the Coalition System. Montreal, Que., Sept. 26.—Premier Tupper, of New Brunswick, when seen at the Windsor hotel, could not say if one more session will be held before dissolution, constitutionally fixed for April next. Being asked if he would appeal to the people on the old lines rather than as a strictly liberal, he answered that he would, but said he would, of course, have a stronger support from the liberals than from the conservative element.

The other members of the board of works also resigned, but their resignations were not accepted. At the meeting of the council Monday, the board of works unanimously recommended the dismissal of City Engineer J. D. McNab. The council stood a tie on the acceptance of the report. The chairman of the board of works then sent in his resignation. Popular sympathy is with ex-Alderman McKeough. Vienna, Sept. 26.—The Neuse Wiener Tagblatt prints a despatch from Bucharest, saying that the Roumanian government has sent a telegram to local authorities to stop the issue of emigration passports to Jews. Those Jews who have already approached the frontier will be sent back, but nothing will be done to improve to the position of the Jews, only a fresh grievance will be added to the old wrongs.

A Thankful Soul. Chicago Record-Header. They raised his salary two years ago last May. The said increase amounting to thirty cents a day. Since then they've raised the price of carrots and of beets, of flour and of meats, of corn and coal and of fruits, of babies' little boots, of potatoes, milk and cheese, of the product and socks and coats, of all that sinks or floats, He's paying out the money that he saved before his raise. Operators Are Anarchists. Minneapolis, Minn., Sept. 26.—Speaking before the National convention of employers and employees, Prof. Zeulin, of Chicago, said: "The impudence of the blasphemous and inefficient representative of the anarchic trust who proclaims himself the chosen of God, would receive effective rebuke if it were not that the natural resources of America prevent a proper appreciation of the attitude of the anarchists who have been granted by society the privilege of owning the anthracite coal fields."

Land Grants To Veterans. Toronto, Sept. 26.—Hon. E. J. Davis, minister of crown lands, announced that certificates will be issued November 1st, to all volunteers entitled to land grants. TRAGIC DEATH

JUMPED FROM TRAIN WHEN TAKEN FROM LOVER

Alexandra Joseph, After Coming to America to Marry a Cedar Rapids Man, Refused Admittance by Immigration Authorities—Lover Fought to Save Her.

Detroit, Mich., Sept. 25.—Driver to desperation led the prospect of being forever separated from her lover, Joseph Abodeley, of Cedar Rapids, in the expectation of marrying whom she had nearly circled the globe, Alexandra Joseph, a young Syrian girl, threw herself from the window of a Michigan Central passenger train running fifty miles an hour this afternoon and was instantly killed. When Abodeley had saved enough money to pay the girl's passage to the United States and she had come as far as Montreal last May, the United States immigration bureau reached out to separate the lovers, and the plucky girl which the young man attempted against fate ended to-day in his sweetest's death.

The girl was refused admittance to the United States on the charge that she was afflicted with trachoma, but Abodeley has her eyes treated at Montreal hospital for three months. When his funds ran out he attempted to pass the inspectors at Detroit and was caught. Both the young foreigners were detained by the United States authorities at Detroit, and Abodeley narrowly escaped imprisonment for violating the immigration laws, but the sympathy of the officers being aroused, he was allowed to leave town.

From that time the girl's fate hung in the balance until to-day, when Immigration Agent Cameron Miller took her in custody for the trip to New York, with a warrant from the secretary of the treasury to have the girl deported to her home in Syria. The officer had allowed his charge to go to the toilet room and in a moment was horrified to see the door fly open, revealing an empty room and an open window. The train was run back and the young woman was found dead beside the track.

THOMAS TAPPING DEAD. An Old Barrie Pioneer Passes Away. On Thursday evening, Thomas Tapping, one of the oldest residents in Frontenac county, passed to rest. For the past month he was confined to the Hotel Dieu in a declining condition, the years of his life hanging heavily upon him.

A remarkable man was Mr. Tapping and he was a familiar and striking figure on Kingston streets, whenever he came to town from his home near Fermoy, in Barrie township. Standing fully six feet two inches in height, clean shaven, of wiry frame, and white hair, he commanded everybody's attention. Mr. Tapping was born in London, England, eighty-nine years ago, and in his younger days was a member of "old London's" police force. Coming to Canada over half a century ago, he settled in Barrie township, taking up farming. There he lived ever since.

He was a member of Frontenac county council for probably fifteen years, serving at different times from 1870 to 1897. Mr. Tapping was a very liberal man, well-informed and well-versed in the affairs of his constituents, and of the country at large. In religion, he was an Anglican and an Orangeman, and in politics a conservative. Surviving now several sons and daughters. One of the latter is a superior of a Roman Catholic convent in Detroit. The remains were taken to Barrie for interment.

Warden Spoor ordered the flag to be unfurled at half-mast over the Court House, out of respect to the deceased ex-county councillor.

Schools Have Their Coal. It may be of interest to the citizens to know that the Board of Education has secured its supply of coal already in the bins of the various schools. The coal was purchased from the Kingston Coal Co., which, it is alleged, offers the board an advance of 50c a ton now, or \$1 in January, above the price the board paid.

Joseph Edouard Caron, liberal, was to-day elected by acclamation to represent Tilsit county, in the provincial legislature, succeeding F. G. M. Dehen, deceased.

Two men tied and gagged Patrick McAnney on his farm, near Stratford, and took \$110 from him. His legs were tied and he was gagged with plough lines. William Treble, a commercial traveler, was held up by highwaymen near Waterville and robbed of a small sum of money.

CHICKENS AND EGGS. More Hints From Agricultural Department, Ottawa. Prof. J. W. Robertson, Dominion Commissioner of Agriculture and Dairying, has held a conference in Montreal with the poultry and eggs branch of the Produce Merchants' Association. The members represented that, owing to attention directed lately to the profits from the fattening of chickens, they feared that farmers were fattening and killing a large number of pullets. If that practice were followed there would be a great reduction in the production of eggs. Consequently they advised that farmers be encouraged to put in the crates for fattening only cockerels, and that they should rear as many as practicable of good pullets for the supply of eggs during the winter as well as summer. The export of eggs from Canada which in 1896 only amounted to the value of \$807,086, two years later had grown to \$1,255,304, and in 1901 to \$1,491,630. The egg merchants further recommended that the farmers be advised to kill off the cocks after June 1st. This is desirable, that eggs collected during June and later may be infertile, and therefore possess better keeping qualities during the hot weather.

Large quantities of eggs are now imported into the United Kingdom from continental countries, notably Russia and Austria. These eggs are received in large cases, packed in straw, owing to the excellent reputation won by Canadian eggs, English dealers in many instances are re-packing these continental eggs into cases similar to the Canadian standard egg case, holding thirty dozens each. Although the eggs are not labelled or sold as Canadian eggs, they are sold as eggs in Canadian cases, and to that extent they have an unfair advantage, besides doing direct injury.
