Local officials of the K. & P. railway state that the present car shop here may be closed, but that, in such a case, smaller and more suitable shops would be erected near the round house. SIR OLIVER'S TERM NEARING AN END.

Canadian Immigration Office to Be Opened—Big Cargo of Coal Coming—No Blame Attached to St. Lawrence Route.

Ottawa, Sept. 26.—Sir Oliver Mowat's term as lieutenant-governor of Ontario expires on November 18th next, but he retains office until his successor is appointed. Rumour has been persistent in naming Hon. R. W. Scott, secretary of state, as his successor, but it is learned on high authority that it is most probable that Sir Oliver will retain office even if not appointed for another term.

A private letter dated Sept. 12th, received from Wales says that the new steamer Manchester Engineer, was due at Swansea in the course of a week to take 7,000 tons of locally worked anthracite coal for Montreal. This is not only the largest cargo of coal ever shipped from Swansea, but one of the biggest on record from the Bristol channel. Another vessel was loading 3,070 tons and a third 4,000 tons also for Montreal and Quebec.

The time spent on the voyage to or from that command will not be reckoned in the period qualifying for the gratuity. In any case in which the date of disembarkation in the South African command is unknown it may be assumed as having occurred twenty-one days after embarkation in the United Kingdom in cases of officers having been retired from active service in South Africa, if they desire it they will be granted the rank in the regiment they left as held by them on retirement for active service to rank next the officers who were then senior to them; should there be no vacancy in their old regiment they will be absorbed as soon as a vacancy occurs."

Peaches Grown At Our Door.

S. D. Hartman, Odessa, has demonstrated that peaches can be grown successfully at home. REOPENING SERVICES

Will Take Place in Sydenham Street Methodist Church.

Sydenham Street church, after undergoing extended improvements, will be reopened for worship to-morrow. Rev. Dr. Potts, educational secretary of the Methodist church, will preach, morning and evening. About \$5,000 has been expended in very useful and helpful changes. There has been no aim at elaborate and flashy decorations, but a desire for the chaste and beautiful, in keeping with the house of God.

The trustees are more than gratified over what has been done. To look through the church in all its departments is to be impressed with the excellent character of all the improvements. Special mention may be made of the decorative work by Mr. Vanduffen, of Toronto, and the electric and gas fixtures by R. H. Lear & Co., Toronto, under the direction of Mr. Oswald.

On Monday evening there will be a social reunion to which the ladies and trustees very heartily invite not only the members of the congregation, but the friends in all the churches of the city. They want them to come and enjoy this hospitality; no charge will be made; the hand of welcome will be extended to all.

The re-union will consist of a brief platform meeting, commencing at eight o'clock sharp. Choice music will be rendered by the choir, and short addresses given by city ministers and others. After the platform meeting there will be a social hour from nine to ten o'clock, when the church will be open in every part for all to see. Light refreshments will be served by the ladies in the Sunday school hall.

In Memoriam.

New Orleans Times-Democrat. He had no grace of speech, this friend of mine, Nor rhetoric to smooth his utterance—So naive it was with pauses and gross forms—Yet somehow, in the heat of the moment, He caught and clove to one which made men glad.

He scolded things, and knew all Nature's words, And carried in his soul some essence Which made his men brothers to all primal forms. The sweetness of the April rose's breath, The gladsome of the low, green springing things.

When this old friend of mine held us in spell, No autumn coloring of any leaf to him, No solitude of any hidden glade, No view passed in the rambles of old time, No vision of the brook which slaked our thirst.

Escaped the glacial heart and the soul of him, Being in the pulse of the world, Lay on the glory of the twilight cloud, Subdued, yet eloquent.

O, friend of mine,

From the high vantage place give me a hand, A token all is well and good and fair, That devious paths but lead me where thou art; Give me some knowledge that the old-time thought, Led thee a roving way at whose end and end, Thou waitest for me with the grateful voice of thine, And the old love of Nature, Truth and God.

Two Early Birds.

An English nobleman in ill health was taken one morning early, while walking a constitutional. Walking along his game preserves he turned a sharp corner and came face to face with an Irishman who had the reputation of being an extremely pious man.

"Putting his hands and what they held behind him, he preserved a perfectly virtuous aspect, while the gentleman hailed him cordially with 'Good morning, Pat!'" "Good mornin' yer honor, an' p'hrav brings yer honor out so airly, this mornin'?"

"I'm just walking around, Pat, to see if I can get an appetite for my breakfast. And what brings you out so early, Pat?" "Och, be jabbers, O'm just a-walkin' around to see if I can get a breakfast for me appetite."

My Mother's Bible.

Gov. R. May in Cincinnati Commercial Tribune. The "rebellious time has faded, And the claps are tinged with rain; The leaves are green and yellow, And its shining diamond with dust, 'Tis as sweet and as holy, As the night she placed it there, With a blessing for its guidance, And a softly muttered prayer.

'Tis a relic fraught with sadness, For my heart, but not I see In its dim, discolor'd pages, Such peace as was needful for me. You, it seemed that mother said, Lowering gently, hovering near, And in sweet language whispered, 'All its sweet truths in my ear.

There it lies, where last she hid it, Awe-struck, and downy-scented then, Memory's anguish left and freed— By its truth, my heart's need met. 'Tis the same beloved Bible, That she cherished, if I can get All the old hours with its hair, And bring comfort to me still.

Straight Information.

Philadelphia Record. "Why do you point that flag hanging there?" "I asked a school-room patriot, pointing to a flag draped behind him, "Please sir," piped a voice from the rear, "It is to hide a dirty spot on the wall."

Live rats in a log of nails a glass of water and fresh eggs will be used in the test to determine the safety of the tower elevator in the Philadelphia city hall. The test, which will be made within a few weeks, will consist of dropping the cage from the top of the tower to the air cushion, a distance of 372 feet 9 inches. It is calculated that it will, when this released, travel at the rate of 256 feet a second. The eggs and water will be placed on the log of nails. The rats, in a trap, will be set on the floor beside the cage. If the water is not spilled, the eggs not cracked, and the rats not dead, after the drop the test will be considered a positive success.

A research steamer belonging to the Norwegian Government recently carried on in the North Sea some experimental fishing which yielded important results. In three days 117 halibut and 300 large cod were caught at a depth of 200 fathoms, thus proving the existence of large quantities of these fishes at a time of the year when they are not to be found on the coast of Norway.
